LETTER OF TRANSMISSION

ROOMS OF THE MARYLAND HISTORICAL SOCIETY,

BALTIMORE, *April 1, 1921.*

To the Maryland Historical Society:

GENTLEMEN :

1302488

00 (69 vs)

We have the honor to submit the Fortieth Volume of the Archives of Maryland, containing the Proceedings and Acts of the General Assembly of the Provinces, at the Sessions held from 1737 to 1740.

The text of the volume is taken from the Calvert Papers and from the manuscript volumes of journals and laws in the Maryland Archives deposited with the Society.

The period covered by this volume is one which tried Ogle's skill as Governor and his action in regard to the proceedings of the Legislature furnishes a good illustration of the truth of Osgood's words (American Colonies in the Seventeenth Century, III, 314): "The British colonial system was Roman and feudal, that is provincial in character" and the "forces which were moulding it after this model came necessarily and at once into conflict with the democratic and separatist tendencies which were inherent in colonial life. The central thread of our colonial history is to be found in the record of that conflict."

Ogle was a diplomatic man, whose friendliness to the Anglican Church is praised by Anderson in his Colonial Churches (Vol. III, pp. 177-219) as much as Lord Baltimore's unfriendliness is blamed. He steered the ship of state skilfully through the reefs, but the early neglect of this period of Provincial History is shown from the fact that Justin Winsor in treating of the Provincial History completely overlooked him (Vol. V, 259 and ff.). In fact the whole history of British America in the Eighteenth Century is being now rewritten in true perspective, so as to give a correct vision of it and thus in Gwatkin's words: "Not by increasing worship of the past, nor by ignorant contempt of it, nor yet by partisan distortion of it, but by critical and sympathetic study, we shall learn something of the grandeur of our own time, and of the meaning of the mighty questions which lie before us and our children."

S. E. Dawson well wrote that "Religion and Law are the two organizing forces of Society." During the years covered by this volume scarcely any new statutes were passed, owing to legislative dissensions, yet the Province in general appears to have been law-abiding. We have not much information

as to conditions in Maryland outside of the records here published. There are a few waifs and strays in print or in manuscript. The Sloane Papers the British Museum (Andrews I 68) contains a letter from A. Scott about a rattlesnake in 1739, and one from Edward Lloyd about an oyster with a pearl in 1740. On December 13, 1738 (14 Va. Mag. 236), John Tayloe was permitted by the Virginia Council to import free of duty into that Province iron ore from Maryland for the more easy fluxing of ores from the Virginia mines. A curious document dated Blackwall, March 22, 1739/40, was recently offered for sale by Maggs Brothers of London in their catalogue No. 242, giving the names of 114 convicts from Newgate Prison to be transported to Maryland (see on this general subject, McCormac, *White Servitude in Maryland* in J. H. U. Studies Series XXII).

Since the appearance of earlier volumes of the Archives, Professor Beverly W. Bond, Jr., has written an elaborate study of the "Quit Rent System in the American Colonies." His conclusions as to Maryland are as follows:

"At the outbreak of the Revolution, the revenue from the quit-rents of Maryland was fully twice as large as the returns from this source in any other colony. This result, which was a tribute to the able management of the proprietaries and their officials, had been secured by a consistent and moderate policy. In the beginnings of settlement the proprietary of Maryland had established for all grants a uniform quit-rent that was increased only once. Consequently, the exorbitant and confusing rates found on the Pennsylvania rolls were avoided. Moreover, unlike the Penns, the Calverts developed an excellent system of collection, being sufficiently broad-minded to see the necessity of ample allowances in order to secure a force of competent collectors. Other excellent features of the general proprietary administration of the quit-rents in Maryland were the readiness with which exemptions or special rates were granted and the general disposition to be moderate in the method of enforcement and the medium of payment."

"The effective quit-rent system worked out in Maryland under the Calverts is a proof of what could be accomplished. Its most noticeable feature is the organization of a special group of officials whose sole business was the supervision and collection of the quit-rents and other dues from the land. Not having their attention diverted by a multitude of other duties, and with a fair recompense, these officials turned their attention to the quit-rents with gratifying results. Then, too, under such a system it was possible to keep closely in touch with local needs and to meet each crisis as it arose. To this close supervision, in connection with the tactful and broad-minded policy of the proprietaries, the success of the quit-rent system in Maryland was due."

While Ogle was struggling to preserve the Proprietary's interests in Maryland, Lord Hervey's Memoirs give us glimpses as to Lord Baltimore's occupation in England. As these notices of the Proprietary have escaped the attention of most students of Maryland History, it is worth while to make a reference to them. In 1735 (II, 191), Frederick, the Prince of Wales, sent Baltimore, the Lord of his Bedchamber, to dismiss the Prince's mistress, when he was about to marry the Princess Augusta of Saxe-Coburg-Gotha.

In 1736 when a violent storm at sea occurred, giving rise to the fear that George II, who was on the Continent about to sail for England, might have set forth and have been shipwrecked. Lord Hervey talked at the opera with "Lord Baltimore, who was a great sailor himself and thought to have great skill in sea affairs." Baltimore believed that the king had embarked and that it was impossible for any ship to put into an English port during the continuance of the storm, but he was wrong as to both points, for a ship came into harbor that very day with news that George II had not sailed (III, p. 13).

In 1737, occurred great and sordid dissention between the Prince and his parents. Baltimore (III, 79) advocated in the House of Commons the Prince's request that he receive a larger allowance, desiring £100,000 annually. The king and Sir Robert Walpole successfully opposed the measure and, before it was introduced, Walpole had an interview with Baltimore, "one of the Prince's Lords of the Chambers," to see what he and others "could do towards diverting him from this measure."

Later in the year, the king spoke of Baltimore, as one "who thinks he understands everything and understands nothing—who wants to be well with both Courts and is well at neither—and, *entre nous*, is a little mad" (III, 239). A little later, Queen Caroline told Lord Hervey (III, 245) that Baltimore compared his friend, the Prince's, "bravery and resolution to that of Charles the XII of Sweden." After a complete breach between the Prince on the one side and the King and Queen on the other, Baltimore wrote Lord Grantham on September 13, 1737, in the vain endeavor to transmit a letter from the Prince to the Queen (III, 247). On the 20th the Queen wrote the Princess Augusta a friendly letter, which Prince Frederick showed Baltimore, asking him how he liked it (III, 263).

Baltimore used always to vote with the Court, supporting Walpole, in spite of friendship for the Prince, and with others sent word to Frederick, that, by taking Mr. Lyttleton as his Secretary, they feared that he "designed to go entirely into the measures of those who opposed that Court." They should ever adhere to Frederick "in any question in Parliament, where he was personally concerned," but "they could not possibly, in public affairs, act in any manner different from the principles by which their conduct had hitherto been in-

fluenced, and must always support the King's government and administration " (III, 285).

An interesting reference to Governor Ogle and his family is found in an article entitled, " American Gentleman of the Olden Time," by Benjamin Ogle Tayloe in Tyler's " Quarterly Magazine," Vol. II, p. 87.

The Session of the General Assembly held in April and May, 1736, saw the adoption of addresses to King George II and Frederick, Prince of Wales caused by the marriage of the latter. Lord Baltimore answered the Provincial Address, declining to accept the proffered equivalent for quit-rent and alienation fees and promising to do what he could in regard to the importation of salt (on the importance of this subject see E. B. Greene's *Provincial America*, p. 178). The usual report was made as to Bills of Credit (On Maryland Paper Money see 12 N. Y. Public Library Bulletin, May, 1908, pp. 318, 319). Fourteen laws were passed, of which the Governor vetoed one, supplementing those " for the Relief of Debtors and ascertaining the Manner of Traders of Tobacco." Two private acts docked entails of land and another relieved a London merchant from paying taxes on tobacco shipped upon his vessel which was lost at sea. It is impossible from the records to determine the merchant's name, which was either Tower or Torvor. The printed Session Laws as well as Bacon in his Laws use the latter form and, in the text, we have followed their example. The Public Local Laws were concerned with the laying out of Leonardtown, Georgetown in Kent County, and Joppa, with the building of a Church in Cecil County and of a jail in St. Mary's County.

It was decided that the land on which the Governor's house was to be built might be outside of the Annapolis town fence and that William Parks must print the Session Laws more promptly, if he were to be paid for said printing. Three laws dealt with criminal matters: One of these provided penalties for breaking into tobacco and other out houses, for stealing " boats and other vessels, and even slaves "; the second concerned the trial and punishment of negroes and other slaves accused of crime; and the third was devoted to the apprehension and punishment of two bandits named Turner and their accessories.

A rather important act " for the ease and encouragement of settlers in the remote and back parts of the Province " failed, because of disagreement between the two Houses, and the Upper House refused to pass the Journal of Accounts, because the Lower one would not agree to pay a sum to George Gale, Chief Justice of the Provincial Court, for his able discharge of duty in that office.

Benjamin Tasker succeeded John Hall as President of the Upper House, and Grundy Pemberton was chosen a member of the Lower House from Queen Anne's County, in place of William Hemsley who had died. There were only

two divisions during the session. The first occurred on May 11, when, by a vote of 25 to 19, it was decided to permit inhabitants of the Province, who are not tobacco makers, to pay specie instead of tobacco. In the Journal Warfield is recorded as voting on both sides. From the location of the names it is probable that the man who voted in the affirmative was Woolford, because his name is placed between that of two other representatives of Dorchester County. The significance of the vote is difficult to determine, for the tobacco counties divided—Prince George's delegation and the majority of the St. Mary's and Calvert men voting for it, while Charles was against it. The second division, concerning the payment to Colonel Gale, took place on May 28, the last day of the Session. Of the members then present, 22 voted to refuse the payment and 15 voted to make it. The division nearly coincides with the representation from the two Shores. On the Eastern Shore, only Wilson of Kent, Stoughton of Somerset and Tilghman of Queen Anne's voted for the grant, while 17 of the votes against it came from that part of the Province. On the Western Shore only Waughop of St. Mary's, Mackall of Calvert, Hanson of Charles and the two Annapolis representatives voted against the payment, while twelve voted for it. There were thirteen absentees, as some men always left before the last day. Of these absentees nine were from the Western and four from the Eastern Shore.

The Session of August 1737 was a brief one, called on account of a "very great drought," so as to pass an Act to "Prohibit the Exportation of Grain, Bread and Flour." Other acts passed repealed the law which limited the time of shipping tobacco, and continued actions in the County Courts. A private act was passed for the relief of a Prince George's County man imprisoned for debt. The copyist of the Upper House Journal was careless and it has been necessary to supply several words from the Lower House Journal, which words are indicated by brackets.

An important address to the King from the General Assembly deals with the Pennsylvania border troubles and, in the Lower House Journal, is printed the petition of the General Assembly of Pennsylvania, giving the other side of the dispute, in whose phase at that time Captain Thomas Cresap was so prominently involved. There were no divisions of the Lower House at this Session. Richard Tilghman had succeeded Benjamin Tasker as President of the Council.

The Session, which began upon May 3, 1738, ended without any acts being passed, on account of a very childish quarrel between the two Houses. Matters seemed to go on smoothly, until May 17, when a member of the Upper House, sent with a message to the Lower, was "not admitted to deliver it, but desired to wait." The Upper House felt its dignity hurt and, consequently, on the following day, sent a message by its Clerk, John Ross, that it would, hereafter,

transmit messages through him. He went to the door of the Lower House and, when he told the Sergeant-at-Arms of his business, the Speaker came to the door and took the message from him. Then the Lower House indignantly complained of the "behaviour of your Clerk," who called "our Speaker out of the Chair and out of the House." The Delegates stated that they "had no intention to treat your House, or any member of it, but with the greatest decency and good manners," and were willing to interchange messages by clerks. This message was sent by two members, and seems to open the door to an arrangement with the Upper House, but the response was made at once in bitter and uncompromising words. John Ross carried this message and "waited for some time to deliver it." Then the Clerk of the Lower House told him that the "Lower House would not receive any message from him, until they had a suitable answer to the message sent this morning." Presumably, they were offended, because a member of the Upper House did not bring the message; though the words of their own message scarcely justified such a position. On the next day, Ross took the message again and was again refused admittance. McNemara, the Clerk of the Lower House, then vainly tried to force Ross to take a message therefrom. That occurrence was on Friday and on Saturday and on Monday the deadlock continued. On Monday afternoon, the Upper House sent an address to Governor Ogle, asking that he prorogue the Assembly, as there was no hope of an accommodation. This he did, accordingly, on Tuesday afternoon. When the Session began, the temper of the Lower House was good and they agreed to waive their former claim to be called a House of Delegates.

At the beginning of the Session, Ogle urged that the act for purchasing arms and ammunition be continued. Not only did that project fail, but also measures to provide that Jonas Green become the public printer instead of William Parks who had removed to Virginia, a bill to encourage the making of linen cloth, an act for naturalization, one laying an imposition on negroes imported, etc., as well as several local and private acts.

The General Assembly of 1738 was a newly elected one. James Harris of Kent County, the former Speaker, was in transit to the Upper House and Colonel John Mackall, of Calvert, was chosen Speaker, a position he had held in former years. Matthew Tilghman Ward succeeded Richard Tilghman as President of the Upper House. Daniel Dulany was chosen, both for Annapolis and Anne Arundel County and, selecting the latter seat, another election was held in Annapolis, resulting in the choice of Robert Gordon, who was sworn in just before the prorogation of the Session. Levin Gale was also transferred to the Council during the Session and a writ was ordered, so as to have the vacancy filled. He sat in both Houses during the course of the Session—a remarkable record.

The last previous Assembly was elected in 1734, four years previously, and there were many changes, as the following list shows, in which the new members are indicated by italics: St. Mary's, John Read, James Waughop, *James Swan, Thomas Aisquith*; Kent, George Willson, Philip Kennard, *Thomas Smith, Charles Hynson*; Anne Arundel, Daniel Dulany, Vachel Denton, *Philip Hammond, Samuel Smith*; Calvert, John Mackall, Benjamin Mackall, Walter Smith, *James Weems*; Charles, John Courts, William Middleton, *Bayne Smallwood*, Robert Hanson; Somerset, Levin Gale, Robert King, William Stoughton, *Robert Jenkins Henry*; Talbot, Nicholas Goldsborough, *William Thomas, Edward Lloyd, Robert Lloyd*; Dorchester, Henry Hooper, Henry Trippe, *Bartholomew Ennals, John Brannock*; Cecil, Joshua George, *Thomas Colville, William Rumsey, Alphonso Cosden*; Baltimore, Thomas Sheredine, Roger Matthews, John Moale, *Richard Caswell*; Prince George's, John Stoddert, Edward Sprigg, John Magruder, *Turner Wootton*; Annapolis, *Daniel Dulany* (later Robert Gordon), *Charles Carroll*; Queen Anne's, Grundy Pemberton, *Solomon Clayton, Edward Wright, Thomas Wilkinson*. Each County returned at least one new man and in all there were twenty-two of them, though Brannock of Dorchester had served in a previous legislature. As there were three Smiths and two Lloyds, it is difficult sometimes to identify the member to whom reference is made.

Six Committees were appointed, four of which consisted of five members; while two, which were considered more important, consisted of seven and eight members, respectively. The Committee of Aggrievances and Courts of Justice summoned before it the sheriff and under-sheriff of Dorchester County and certain justices of the Talbot County Court to answer charges of oppression and extortion and complained of the fact that the officers took fees, in accordance with a Gubernatorial proclamation and not in accordance of law. One of the Talbot County justices, John Leeds, was also convicted of contempt of the House and, refusing to make the apology tendered him, was put in the custody of the sergeant-at-arms.

There were only two divisions. On May 17, it was decided that a bill should not pass prohibiting the importation of horses, by the close vote of 22 to 23. It is difficult to find the significance of this vote, though in general the Eastern Shore (except Kent, Dorchester and Somerset Counties) opposed the bill, giving fourteen negative votes; while the same number of votes from the Western Shore were cast in the affirmative.

The second division was upon the continuance of sundry actions in the Provincial Court which passed, by a vote of 25 to 14, on May 18. St. Mary's and Dorchester each cast three negative votes and there were no negative

votes from Anne Arundel, Charles, Somerset, Cecil, or Queen Anne's. Annapolis was not represented. There seems no particular significance in the vote.

In the manuscripts contained in the collections of the Maryland Historical Society are found the following original papers probably all intended to be presented at this Session: Petitions of Joseph Mariner, of Kent County, debtor (Black Book 6 No. 41 and 44); of Levin Hill, debtor (Black Book 4 No. 61, 6 No. 42); of Archibald Caldwell of Dorchester County, debtor (Black Book 9 No. 82); of Richard Hill, of Anne Arundel County, debtor (Black Book 8 No. 76); Joseph Williams, of Anne Arundel County; petition about deed to William's Range in Prince George's County (Black Book 6 No. 46); petition of Archibald Simpson about repair of public record books (Black Book 6 No. 55); petition of Jacob Gore, cryer of Talbot County, about his fees (Black Book 6 No. 48); petition of David Peterkin of Dorchester County asking to be relieved from a bond to keep the peace (Black Book 6 No. 45); petition of Nicholas Hammond to be relieved from responsibility for his servants breaking goal (Black Book 6 No. 47).

The General Assembly which was elected in 1739 had fully as a resultless a Convention—though there was better excuse for the ineffectiveness of the meeting. Colonel John Mackall was again chosen as Speaker. Ogle warned the Assembly to beware of contention, suggested that laws be passed permitting the dues of the "back inhabitants" to be paid in paper instead of tobacco, and recommended that the temporary duty for purchasing arms and ammunition be continued, with especial view to the danger of that war with Spain, which actually came about in the next year. He also hoped that an arrangement might be made with the Anglican clergy whereby the forty pound tax per poll might be paid them in paper, instead of tobacco. The first days augured well and many private and local bills which were introduced were in a fair way toward passage. An interesting proposal was one to grant Abraham Wood of St. Mary's a patent for his "Method of building a Mill which will grind any manner of Grain, without the assistance of Wind, Water, or Horses"—we wonder what that method was?

Trouble soon began. The Lower House, in their address to Governor Ogle, spoke of the dissention in the last year and that address was printed, so that the Upper House felt itself obliged to rehearse the story to the Governor on a long defense. Ogle refused to say which side was then wrong, but praised the Upper House for its moderation at the opening of the present Session.

Shortly afterwards, the Lower House again took the initiative in what soon became a quarrel with the Upper one. On May 29, they sent a message (and, by the way, both Houses had returned to their old custom of sending messages by members), complaining that the Upper House had rejected a bill which had

been passed by the Lower one, fixing officers' fees, and asking that a conference committee be appointed. The Upper House agreed to this, but showed rather more acerbity in its reply than the Lower one had manifested in its proposal. The Lower House showed great irritation, but appointed its conferees. On May 31, the Upper House refused to pass the bill for "raising an Annual Revenue for the better support of his Lordship's Government," mainly because of language used in the preamble and placed the bill on the Journal (a very unusual practice) so as to make a record of the objectionable features. The conference as to fees failed, because the Lower House would not agree to a "perpetual law" and the two subjects of difficulty became merged in one bitter contention. Long and sharply worded papers were sent by each House to the other. Finally, the Upper House insisted that several temporary laws, passed to endure for three years, or until the end of the next Session of the Assembly, be revived. The Lower House refused to pass these laws and called to the attention of the Upper one, that not all the money already raised for arms and ammunition had as yet been expended. The Upper House, rejoined that, in case of war, much more money would be needed for that purpose. Ogle now took side with the Upper House and refused to sign any bills passed, so that the meeting should not become a Session, and so terminate the temporary laws. He then prorogued the Assembly on June 12. Just before the prorogation the Upper House had a further disagreement with the Lower one as to some items in the Journal of Accounts.

An important report from a Committee on the paper currency, which is spread upon the Upper House Journals, is worthy of notice.

A petition for a road from Annapolis to the back country and an attempt to form a new country there show how rapidly the German settlers were coming across the border from Pennsylvania.

John Ross had copied the proceedings of the Council in seven volumes, thereby earning the gratitude of all students of Maryland History. The Upper House requested that he should be paid for this service.

The Lower House saw few changes in its membership and, doubtless, took this return of the members of the Assembly of 1738 as an approval of their course by the voters. St. Mary's, Charles, Baltimore, Dorchester, Talbot, and Queen Anne's Counties made no changes in their delegations. Annapolis and Anne Arundel County interchanged Dr. Carroll and Dulany. Joseph Hall succeeded to Benjamin Mackall in Calvert County, Osborn Sprigg to John Stodert in Prince George's, John Gale to Levin Gale in Somerset, James Calder and William Harris to Philip Kennard and Thomas Smith in Kent; and Thomas Johnson to Alphonso Cosden in Cecil. There were only six new members and one of these, Johnson, was a member of former houses and succeeded a man who had died.

The usual six committees were appointed: Four consisting of five members and two of seven. Seven members served on two committees and some were appointed on no committee at all.

The Resolutions of 1725 were spread upon the Journal, which had not been done in the two previous Assemblies. Question was immediately raised as to whether the meeting of 1738 had been a Session or not. As soon as the Governor's address was delivered, the answer proposed to be made aroused discussion and led to three divisions—the first ever recorded upon such a subject. In all of these, the anti-Proprietary Party won by votes of 31 to 9, 31 to 10, and 32 to 9. The consistent Proprietarians were Harris and Hynson of Kent, Dulany and Gordon of Annapolis, Colville and George of Cecil. To these Calder of Kent, Thomas of Talbot, Henry and Gale of Somerset added themselves in two divisions and Goldsborough of Talbot and Aisquith of St. Mary's in one division. All but the Annapolis delegates and Aisquith came from the Eastern Shore and no full County delegation voted against the country party. The answer was truculent in tone, turgid in rhetoric, full of sound and fury, and careless in statement—for example, speaking of the Lower House as if it were a continuous body, Ogle answered it with force and dignity, calling attention to the extravagance of statements.

When it was decided to bring in a fee bill, the anti-Proprietary Party, by a vote of 29 to 9, carried the payment of the fees in tobacco instead of in money. Those who voted for payment in money were Wilson, Harris, Calder and Hynson of Kent, Gassaway of Anne Arundel, Thomas of Talbot, George of Cecil, and Dulany and Gordon of Annapolis. Curiously, all but the Annapolis men and Gassaway were from the Eastern Shore and the Kent County delegation stood unanimously for money payment.

The next division occurred upon the question of bringing in a new Assize Bill, upon which the vote was 28 for and 15 against. In general, the Proprietary Party voted in the negative, but there were some exceptions.

The Lower House was eager to seize upon instances of malfeasance in office. They had discovered in 1738, what appeared to be a genuine grievance in Dorchester County, but their additional muck-raking, at this time, revealed only one additional instance of alleged misconduct—an extortion of two pence halfpenny in Prince George's County! On May 16, two divisions took place, in which amendments made by the Upper House to bills were approved by votes 33 to 11 and 32 to 12, respectively. The two negative votes included the whole Prince George's delegation. I can find no particular significance to many of the votes, though of course, the Proprietary Party voted in the affirmative.

On May 18, the House, by vote of 18 to 21, decided not to allow the Sheriff of Talbot County anything for expenses in hiring a guard to prevent William

Turner's escape from prison. In the affirmative, all the votes except four came from the Eastern Shore and the solid vote of Talbot was cast for the measure.

On May 19, a division as to whether the words "His Lordship's Agent," or the word "Judge," should be used in the fee bill in reference to the Register in the Land Office resulted in favor of the former expression, by a vote of 22 to 17. The Proprietary Party voted for the word—Judge.

On May 21, a petition asking for an allowance for a slave who died in jail was rejected, the Speaker casting the deciding vote in the negative, after the House divided 20 to 20.

On the same day, the Committee of Aggrievances filed an enormously long report to the effect that the Proprietary was wrongly collecting certain duties on tobacco.

On May 22, a division occurred upon the question as to whether a judge riding the circuit should be allowed more than thirty-five pounds currency for each circuit. The anti-Proprietary Party voted to grant no more and won, 30 to 13. The Proprietary votes came from Kent, Somerset, Cecil, and Annapolis, together with one each from Dorchester and Talbot.

A motion to vote upon the report of the Committee of Aggrievances, before preparing an address to the Governor, was carried on May 23, by a vote of 27 to 18, the Proprietary Party voting in the negative; and upon the concurrence, the vote stood 35 to 10, the Prince George's delegation and three from Queen Anne's joining the Annapolis delegates and Hooper of Dorchester in the negative. Upon the same day, the House voted to pass the Assize Bill by vote of 30 to 13. Of the negative votes, four came from Prince George's, three (including Matthews of the Committee of Aggrievances) from Baltimore, two from Annapolis, two from Anne Arundel, and one each from Kent and Calvert.

The trouble with John Leeds in 1738 will be recalled. On May 24, by a close vote of 21 to 20, the House voted to postpone to the next session sending for Leeds. Most of the delegations divided upon this question, St. Mary's, Charles and Cecil being the only counties without negative votes and Baltimore and Calvert the only ones without affirmative ones.

The firmness of the majority in the House was shown on May 25, when concurrence in the Report of the Committee of Aggrievances upon the duty on tobacco was voted, 42 to 4, the minority consisting of Harris and Hynson of Kent, Hooper of Dorchester and Dulany of Annapolis. On the same day, the Ordinary Bill failed, 26 to 19, the Proprietarians voting in the minority.

On May 26, the Committee of Aggrievances reported that Mrs. Cockshut (mother-in-law of Hall, a Calvert member and client of Dulany) had suffered wrong by the act of Jenings, secretary of the Province and attorney for her

opponents, in insisting upon a judgment bond, and that Clerks of Court ought not to be allowed to practice as attorneys. The House, unanimously, concurred in the report and, then, the same committee reported as to the forms of bonds demanded in the Provincial or Secretary's office, in the land office, and in the Commissary General's office. This report was recommitted and the Committee was instructed to bring in three separate reports covering these offices. When they did so, they omitted a portion of the report as to the land office, which tended to show less oppressive conditions there recently.

The report concerning officers' fees was adopted on May 28, by a vote of 44 to 2, Hooper and Dulany casting the only negative votes and only four members (viz. two from Calvert, one from Somerset and one from Cecil) being absent. On the same day, by a vote of 10 to 30, the House voted not to allow the Attorney General fees for certain services. Several of the strong Proprietary men were absent at this division.

The House voted, on May 29, that it considered alienation fines charged upon devises to be a grievance, by 41 to 2, Dulany and Calder of Kent casting the negative votes, and, upon the same day, by a vote of 43 to 2, approved the report which complained of the exaction of bonds by the Secretary. Both Annapolis men were absent and Harris and Hynson of Kent cast the negative votes. No more divisions occurred until June 5. The House meanwhile, on May 30, sent an Address to Ogle, justifying their claim that the law of 1704 for the support of government was no longer legally in force and that, therefore, that it was right to pass a temporary act for that purpose. On the same day the Committee of Aggrievances made a report, properly condemning the sale, which they had discovered, to their enemy, John Leeds, of the Clerkship of Talbot County by the prior incumbent. This matter was referred to the next Session. On May 31, the same busy Committee reported that Baltimore's proclamations that he intended to vacate patents of land, when these contained surplus, might "prove of the highest and most pernicious consequence." The daily Aggrievance on June 1, was that Chancery Court, without authority of law, had appointed a new officer to collect fees.

Meantime, bills were passing from one House to the other. On June 5, the House voted to draft a new act for purchasing arms to endure for three years, instead of one, by vote of 24 to 17, and then voted, 9 to 32, not to pass the act at all, in spite of the impending war with Spain. The affirmative votes were cast by Dulany, Gordon, Harris, Henry and Gale, who were usually on the Proprietary side and by Waughop, Middleton, Hanson, and Trippe. On that day, Ogle sent a long answer to their address, defending the validity of the law of 1704. The House sent a new address to him, instantly, in which it summarized all its complaints and appended copies thereto of reports of

the Committee of Aggrievances and, on the morrow, June 6, it adopted an address answering Ogle's answer with the law of 1704. Ogle replied to the general address upon grievances, upon June 8, at great length and with considerable skill. On the same day, by vote of 7 to 34, the House voted not to continue the three pence export duty on each hogshead of tobacco. The Annapolis men, two from Charles, and one from Somerset, Dorchester, and Kent cast the affirmative votes.

On June 9, Ogle replied to the House's contention as to the law of 1704, in a paper of length and weight. The House now, 40 members being present, voted to adopt an address to the Proprietary asking for redress—only three members (Stoughton of Somerset and the Annapolis men) opposing the measure. It also voted to adopt an address to the King, to be presented in case the Proprietary would not give satisfaction. Harris, Hanson, Gale and Robert Lloyd joined the opposition, but Stoughton slipped back into the majority. These addresses were not given to the printer, though they were spread upon the manuscript Journal, and so they here appear in print for the first time. A message of complaint was then sent to the Upper House, being approved by a vote of 29 to 8 (five members having left the House). The negative votes came from the Annapolis men, Harris of Kent, three of the Charles and two of the Somerset delegation. This was the last division of the Session.

Two Sessions were held in 1740. The Lower House which had just been elected was as recalcitrant and suspicious as ever at the first session. Col. Mackall had died and Philip Hammond of Anne Arundel County was chosen Speaker. The Upper House Journal has the unusual feature of an appendix composed of messages between Ogle and the Lower House. In his speech at the opening of the Session, the Governor urged the Assembly to lay aside heats and animosities, and to raise money to aid in carrying on the war with Spain. He referred to a recent slave insurrection in the Province, to the restlessness of the Roman Catholics and to the danger of a war with France, as additional reasons for prompt and vigorous action. The Lower House was extremely afraid that, in some way, it should be hoodwinked by the Upper one and a long series of messages passed between them. Finally a conference committee, whose action was endorsed by both Houses, agreed upon two bills, one for an appropriation to pay soldiers and the other for raising money to buy arms and ammunition. The former of these bills was passed, the Upper House having wisely insisted that a tax be levied to pay for the money, but the latter act failed to pass the Lower House, because it insisted that the Upper House should pass all bills which had been sent it in a manner acceptable to the Lower House, before the latter would act upon the Arms and Ammunition Bill. Finally, as there was no probability of the Houses agreeing and as several councillors were

needed to run Provincial boundaries with Pennsylvania, Ogle prorogued the Assembly, after a session of over six weeks. Not only were public acts left unpassed, but debtors continued to languish in prison, steps were not taken toward making a road to the new Western settlements, and acts concerning several parish churches were laid aside.

The Lower House Journal contains a curious speech from Hammond, "disabling" himself from acting as Speaker. Several members had died, in addition to Col. John Mackall, Thomas Gassaway's place was filled by Henry Hall, Mackall's by John Brome, and Solomon Clayton's by Robert Norrest Wright. Later John Moale died, and his place was filled by Richard Gist. Those elected took their position among those opposed to the Proprietary Party, Brome being the most extreme of them. New Committees were appointed, composed of from 3 to 9 members. A petty quarrel, in which both sides showed great regard for their dignity and, in the parlance of today, had played politics, left a rankling feeling of bitterness and filled many pages of the Journal.

The Lower House had appointed a Committee in 1739 to secure certain documents and send them to England together with the Address to the Proprietary. This Committee applied to the Council in July for copies of these papers and were told that they could not have them as a Committee; for the Council recognized no right in the Lower House to appoint a Committee to act during the intervals between Sessions; but that any person might secure such transcripts by paying for them. The Delegates stiffly insisted on having the work done for them as a Committee and the Council and its members as stiffly refused to do so, consequently the copies were not made, nor the address sent. A considerable correspondence ensued between Gov. Ogle and the Lower House upon this matter, showing the latter a stickler for form rather than for substance.

A much more elaborate address to the King was adopted than the one prepared in the preceding year, and more detailed complaints were made.

The Lower House divided 14 times during the Session. The first division occurred upon April 30, on the bill to raise volunteers. In its form, as then presented, the Proprietary Party opposed it; but could only muster 8 votes (to the faithful six from Kent, Somerset and Annapolis were added Middleton of Charles and George of Cecil), while the majority in a thin house numbered 27.

On May 6, a bill for the support of government according to the views of the country party passed by a vote of 31 to 6, the votes against it being two from Kent, two from Annapolis, Henry from Somerset, and Hooper from Dorchester.

Two divisions occurred upon May 9. The first, authorizing the Governor to distribute arms to the Counties, passed by a vote of 22 to 12, the opposition taking the ground that he already had the power and being composed of two votes from Kent, two from Somerset, Hanson from Charles, Thomas from Talbot, Hooper from Dorchester, George and Pearce from Cecil, Edward Sprigg and Wootton from Prince George's, and Gordon from Annapolis. The other vote was more of a test of strength as to preparing an Address to the King and the opposition only mustered 6 votes (Dulany was away on that day) viz. the faithful two each from Kent and from Somerset, with Hooper and Gordon. The majority numbered 31. The report of the Committee of Aggrievances was approved on May 12, by a vote of 32 to 6, the minority being composed of the same persons as in the vote immediately preceding this one. A motion to enter upon the Journal certain letters which dealt with the controversy over the copying of documents was made on May 13, was supported by the Proprietary Party, and resulted in their only victory upon a roll call during the session; the tally being 21 to 19. Aisquith and Waughop from St. Mary's, Calder from Kent, Henry Hall from Anne Arundel, Middleton and Hanson from Charles, King from Somerset, Robert Lloyd and Thomas from George, Colville and Rumsey from Cecil, and Wilkinson and R. N. Wright of Queen Anne's joined the faithful six in making the majority.

On May 22, three votes were taken concerning a case between the Lord Proprietary and Vachel Denton, which had recently been decided in the Provincial Court. On all three roll calls, the vote stood 22 to 18 and the same persons voted the same way every time. The House first decided to consider whether the decision was correct, then voted that it was not in accordance with the Provincial Statute, and then expressed its opinion that the word "person" included the Proprietary. Harris and Hynson from Kent were absent. The minority (a large one) for the Proprietary side was made up of Aisquith from St. Mary's, Calder from Kent, Hanson and Middleton from Charles, King, Henry and Gale from Somerset, Goldsborough, Robert Lloyd and Thomas from Talbot, Hooper from Dorchester, George Colvill and Rumsey from Cecil, Pemberton and R. N. Wright from Queen Anne's, together with the two Annapolis men.

On May 27, the bill for emitting bills of credit to the amount of £2562.10.0 current money was passed by a vote of 36 to 8. The Proprietary Party: Harris and Hynson, Dulany and Gordon, Gale and Henry, were joined by Middleton of Charles and George of Cecil in the negative. Two days later the Assize Bill—that for the "trial of all matters of fact in the several Counties where they have arisen"—passed by a vote of 33 to 10. In the negative, together with Harris, Dulany, and Gordon, were a curious gathering: Calder

of Kent, Denton of Anne Arundel, Henry Hall of Calvert, Brannock of Dorchester, Mathews (Chairman of the Committee on Aggrievances) and Sherdine of Baltimore, and Edward Sprigg of Prince George's.

The Message to the Upper House sent upon May 30, was approved by a vote of 38 to 6—the highwater mark of the opposition to the Proprietary. Only Harris and Hynson of Kent, Hanson of Charles, Henry of Somerset, Hooper of Dorchester, and Gordon of Annapolis voted no. (Dulany was absent.)

The Lower House determined, on June 2, not to pass the arms and ammunition act, by a vote of 34 to 11. To the six negative votes of the last division were now added Aisquith of St. Mary's, Middleton of Charles, Gale of Somerset, Trippe of Dorchester, and Dulany of Annapolis.

On June 3, the same question was voted upon in the last division of the Session and was carried as before by a vote of 33 to 13—only four members being absent. The minority was increased by the votes of Denton and Henry Hall. We are fortunate to have record of the divisions. In Virginia, the Proceedings give no such information.

In general, the factiousness of the Lower House must be condemned and Ogle's judicious conduct praised.

In the appendix are printed several rather important papers which have not previously appeared in the Archives concerning Pennsylvania boundaries, Indian troubles, and instructions from the Proprietary to his officials. The Index was prepared by the editor in accordance with his usual custom.

Gentlemen of the Upper and Lower houses of Assembly

This being the first time of Our Meeting in Assembly since the Marriage of his Royall Highness the Prince of Wales; It is with much pleasure that I Congratulate you upon so happy an occasion

[In August, 1736, the prorogation was continued from September to December (28 Archives 97) and in December again to April (28 Archives 109). The Council met on April 28, May 10, May 18, May 25.]

U. H. J. The Choice his Majesty has made of an Alliance with the illustrious House of Saxe Gotha, is such an Instance of his great Regard for the Protestant Interest in General, as well as the Particular Happiness of his own People, that it must be ever remembered with the greatest [gratitude] by every true lover of his Country

Gentlemen of the Lower house

I have received his Lordships Answer to your Address relating to an Equivalent for his Quit Rents and Alienation Fines as likewise to [the] other wherein you joined with the upper house which shall be immediately Laid before you.

Gentlemen of Both Houses

As you are perfectly acquainted with the Circumstances of the Country, I think it unnecessary to point out any thing in Particular for your present Consideration; All that I have to recommend to you, is Temper and Moderation in Your proceedings; That you may Consider with Calmness and Candor such things as may be proposed among your selves for the publick Good: The happiness of People of all Ranks Depending so much upon the nature of the Laws they live under; it is impossible for any Legislature to be too Carefull in the Discharge of the Great Trust that is reposed in them; for my Part I shall never think any Attention or Trouble of my own too Great where the Prosperity of the Province is in any manner Concerned.

The Right Honourable the Lord Proprietarys Answer to the Addresses of the Upper and Lower Houses of Assembly in Maryland to his Lordship.

Baltimore

I have received Your Address Setting forth the hardships the People in Maryland lay Exposed to, by their too near Neighbourhood to Pensilvania; I have likewise received Your other two Addresses relating to my Obtaining for you a Licence for bringing Salt from Lisbon, and that, making me an Offer of an Equivalent in Lieu of my Alienation Fines & Quit Rents

As to the first it too nearly concerns me to lose a Moments time in Pursuing the most proper Methods to put a Stop to the Unparalleled Encroachments of Our Neighbours the Pensylvanians, and I cannot but Commend the Zeal you Shew in Protecting his Majesties Subjects under my Governments

You may also rest Assured that nothing shall be wanting on my Part, to procure you, what you with so much Reason desire concerning the Salt, it being the most Sensible pleasure to me, in any Shape, to Contribute towards whatever you think may be for Your Convenience or Advantage

In Answer to the Equivalent you Offer me for my fines & Quit Rents, I am very certain my Good Tenants are not thoroughly

Apprised of the Value of them, or of their Yearly Encrease, else I am persuaded they would not have called their present Offer an Equivalent, & tho it affects me, that even the Collecting of my Just dues should any ways prove inconvenient to my Tenants, yet, you will agree with me that there is some Justice and Equity Due to a Landlord, as well as Indulgence to a Tenant, and I should hope, though the present Method of Collecting the Quit Rents may not be altogether so Agreeable, yet that Time may Reconcile it; I do not mention this as Declaring I will not Agree to Oblige my Tenants in Equivalent, but then let it be such a one as you may [with] Justice Offer, I with reason receive, and upon the whole, if any thing makes me prefer any other to the present Method of Collecting my Quit Rents, it will be Solely to make it easier to my Tenants, for to me the present Seems the Natural one

Amidst all the Felicities and blessings which We, as Subjects to Your Great Father enjoy, We could not be without Apprehensions, lest those Amiable qualities of Love and Benevolence for Mankind so Conspicuous in Your Royal Highness should not be transmitted from your own Royal Person in a Race of Princes who by the bright Example might Endear themselves to every Subject

By the Upper house of Assembly 26 May 1737

Gentlemen

On Considering the Journal of Accounts sent hither by Cott: King and three Others, We Observe to Our Surprize that his Excellency the Governor has not been Considered as a Member of the high Court of Appeals, no Allowance being made him for the same, nor a Sufficient Sum given to Discharge the Annual Rent of his Excellencys House

We likewise take notice, that though you have Acknowledged very Justly the great Abilities of the Chief Justice of the Provincial Court, the great fatigue he undergoes by the remoteness of his Residence, yet you have not Allowed him more than half the Allowance made last year, a Sum insufficient to support the Dignity of a Chief Justice and much too small a Reward for his great Services.

And we also take Notice that M^r Ross Our Clerk is not fully Allowed for fourteen Copies of the Laws, though the Coppying the same is a Work much greater than that of M^r Parks for Printing the whole whose Allowance is Twenty four thousand pounds of Tobacco; and was M^r Ross to Charge Agreeable to My Lords Regulation the Amount would be near Two hundred pounds at Ten Shillings p^r hundred and according to which Regulation he was allowed for Transcribing the Ordinary Licence Law last year.

We propose therefore that the Allowance to M^r Ross may be encreased to fifty six pounds agreeable to his Account, and that a Bill be brought in to Disable M^r Parkes from receiving the Tobacco allowed him by Law from the County Courts since he has not done the Service for which the Reward was intended.

We therefore desire you'l make the Just Allowance to his Excellency and Consider the Chief Justice as you did Last Year as well as
 p. 479 M^r Ross in The manner proposed with which Addition and Allowances the Journal will pass.

by Mess^{rs} King and three others

By the Lower house of Assembly 27 May 1737

p. 482 May it please Your Honours

We have Considered Your Message of this Day by Philip Lee Esq^r
& Assure Your Honours that his Excellency not being allowed as
a Member of the high Court of Appeals happened by an Accidentall
Omission of the Clerk of the Committee of Accounts not entering
that Charge in the Journall, and that the Omission of not Allowing
a Sufficiency to defray the Annual Charge of his house Rent was
Casuall, both which are with great Readiness now regulated and
Sett Right upon the Journal; We are truly Sensible of the Capacity
as well as Integrity of the Chief Justice, and from our Sense of the
Extraordinary Services the Country Derived from his great Abili-
ties were induced the last year to make him the handsom Gratuity
which he then received and as that Sum was Considered as one
Agreeable for all his preceeding Services, so we cannot think the
present insufficient to Support his Dignity or too small a reward
for his Services since that Bounty, the Addition to the Allowance
proposed by your Honours to M^r Ross is made in the Journal accord-
ingly; as to that part of the Message which concerns the Disabling
M^r Parks from receiving the Tobacco Allowed him by Law from the
Counties; We have Considered that Although he has Delayed print-
ing them so Long as deserve the Displeasure of both Houses, yet as
he has done them late, and that they have been received by those (or
at least a great many of them) for whom they were Design^d We do
not think it Just to disable them from receiving what the Law

Allows him for them and the rather because there was not that Due Care taken in that Law which ought to have been, to Oblige him to print them in Limited time; And to prevent his Misbehaviour for the future, this House will Agree to a Bill to Disable M^r Parks from receiving any Allowance hereafter unless he prints the Laws in a reasonable time to be Limited by such Bill.

p. 483

We have with the greatest Inclinations to agree with your house in your Message of this Day by Col King and three others considered what you are pleased to Mention about encreasing the Compliment intended to the Chief Justice of the Provincial Court for his able Discharge of his Duty in that Office; his great Abilities and Integrity stand Confessed by both Houses; and We cannot think the Sum proposed by the Journall equal to the Merit of a Person so truly capable of the trust reposed in him; and more Especially when that same person Appears on the Journall of Our proceedings worthy of the Sense which the two houses have Expressed of his Capacity and Extraordinary Services, and of Deserving some particular Mark of their Distinction, which in Our Opinion ought to be such as is Suitable to the Dignity of the Two Houses to Offer and him to Accept.

Although the great Defference of C^t Gale to every Sense & Opinion of the Representatives of the People, and his Benevolent Disposition for the Good of his Country Oblige him to Desire us to Avoid anything Relating to himself, which may create any uneasiness or Difference between the two Houses, Yet we cannot help Considering a Decent and Suitable Provision for a Deserving Chief Justice of the Provincial Court, as a matter greatly regarding the

U. H. J. Honour of the Government & Country, as well as the Security and
 Lib. No. 33 Happiness of every Inhabitant in this Province, and therefore We
 must recommend again to your Serious Consideration, an Encrease

 thought the most proper to shew Our Regard to the Chief Justice, as
 well as Caution not to Lavish away the Properties of Our Con-
 stituents, and is the Largest We can with any Justice permit them to

By the Upper house of Assembly 27 May 1737

Gentlemen

We are greatly Surprized at the Insinuation in Your Message of
 this Day by Col King and four Others, that the Increase which this
 house has Proposed to be made to the Allowance intended to the
 Chief Justice of the Provincial Court can in any Sense be said to be
 Lavishing away or Burthening the Properties of Your Constituents;

We have in Our former Message of this Day given Our Reasons why such Increase must be thought prudent and Becoming the Dignity of both Houses; and as for the pretence of Burthening your Constituents, We cannot Comprehend how the issuing publick money now remaining in the Paper Currency Office unappropriated and to be repaid by the Treasurers can be a Burthen upon Your Constituents

We are so Satisfied of the Reasonableness of what this house has Expected on this Occasion and against which you have not Vouchafed one Argument, but what is founded in your mere will and Pleasure, That We think it more for the Honour of Both houses to close this Session without passing the Journals than Lavish perhaps five hundred pounds in a Dispute, which cannot be more than fifty pounds Consequence to the Country, and therefore if your house will persist in your positive Negative to Our several Messages on this head; We hope you will keep the Journal, as it is in your Own house

And the following Instruction.

My Quit Rents and Alienation fines being payable in money Ster-
ling and almost all the Specie in the Province being foreign Gold

L. H. J. (great part of which is Cut into Small pieces for the Conveniency of
 Lib. No. 45 Change) and reckoned accordingly to the Common Computation
 not warranted by any Law the ounce at £4.. 2..6
 Whereas Gold is worth Intrinsically nor more than 3..18..4
 So that my loss at this rate would be in every ounce } .. 4..2
 of Gold

This would not be all for the Paper Currency has already (tho
 not in Circulation) raised the Value of Bills of Exchange which is
 not Doubted will reach to 40 p C^t or more so that I must Either
 Have the money remitted in Specie with the Loss above mentioned
 and pay Freight and Assurance or loose by Converting this mony
 in the Country into Bills of Exchange p Cent at least £6..13..4

To A Void these Disadvantages my agent must give possitive
 orders to the Receivers of every Branch of my Revenue pay^{ble} in
 Sterling mony that when they receive foreign Gold no more be
 allowed for it than the Intrinsick Value w^{ch} is p ounce of such as is
 Cut into Small Bitts £3..10..0
 because great frauds have been Discovered by passing Bitts of
 Brass &c^a for Gold whereby very Cautious people have been much
 Imposed on

Sam Ogle

M^r Mathews from the Committee of Aggrievances &c. Delivers the following Report

By the Committee of Aggreivances and Courts of Justice May 12th
1737

Your Committee having had Divers Informations of the Exactions and Oppressions Committed by some of the farmers and receivers of His Lordships Quit Rents have procured a Sight of the Directions given by the former Agent and also His Lordship the Lord Proprietary his Instructions bearing date at London the 15th December 1735 by which they find that by the first the farmers and receivers were Informed that the Said Agent would receive from them whole Gold at 3/11 and Cut Gold at 3/6 a penny weight and Silver at 5^s 7 p ounce and that by his Lordships aforesaid Instructions he Directs his Agent to take no foreign Gold at above £3:16:9 and silver at 5 S 7 p ounce from which your Committee Conceives his Lordship is willing to accept of those Kinds of money at those rates and never Intended they should be Taken from his Tennants at a less Value.

Yet your Committee have it before them by the Testimony of Witnesses that M^r Philip Thomas one of the farmers and receivers for Ann Arundell County has received 4/6 Cut Gold for 2 s sterling due from a Certain Sarah Stevens and has not from any person who has appeared before your Committee who hath paid him Cut Gold taken at a less than one hundred 7 Cent and in one Instance where he had Destrained a Negro would not take Cut or even whole Gold alltho Offered to him but Insisted on Sterling mony and by means thereof the said Negro was Kept in Custody a Day or two Longer and thereby the person to whom the Negro Belonged forced to Pay 20 7 Day besides the Other fees Charged to and paid by the master of the said Negro and that he has been so far from accepting Spanish Silver at the rate by his Lordship Directed founded upon the Value the same mony and whole and Cut Gold Bear in London that he has refused to accept such mony Viz.

Spanish Silver at less then one hundred 7 Cent Difference and has also taken Pistoles altho weighing 23s 10 at no more than 14 for 15 s and some few odd pence

Your Committee further find that by Direction in writing from Mess^{rs} Docter Samuel Chew and John Galloway who alledge themselves farmers under M^r Philip Thomas for Baltemore County said to the person who Collects the rents there Ordered not to take

L. H. J. Moidores for more than 25s Each Cut Gold at 2s 9 a penny
 Lib. No. 45 weight and whole pieces of eight at 60 p Cent & Other Spanish
 money at 100 p Cent which said Direction the said Deputy hath so
 well Observed That the People have been forced to let them have
 p. 698 them at those Rates nay one person has Paid him a Pistole weighing
 23/10 for 12/10 which your Committee Apprehends to be Directly
 contrary to His Lordships Instructions and in it selfe a very great
 Aggrievance

It is also further Offered to your Committee as an Aggrievance
 that the Sheriff and Deputy receiver of Baltemore County have
 Exacted from Several Persons Different Quantitys of Tobacco where
 no Distress has been made and Induced some of them to pass their
 Notes for and pay the same by being told by one or Other of them
 that if they Suffered their goods to be destrained it would be more
 Expensive to them and Cost them four or Six hundred pounds of
 Tobacco and that the said Sheriff share the Same between

Thus Have your Committee some few facts and for the Support of
 them and many Others refer to the Depositions and Papers hereunto
 annexed and Submit the whole to the Consideration of the House

Signed p order of the Committee Tho^s Lynn Clerk

And the following Instructions Viz. Gilbert Crockett the Collec-
 tion of the Quit rents for this County being as we perceive very
 Backward and so few People Comeing in to Discharge their Re-
 spective Accounts at this Publick time we are Apprehensive that
 Except some Rigour is used in the Collection it will be Impossible for
 the farmers to Comply with their Engagements to the Right Honour-
 able the Lord Proprietary Since therefore the Backwardness of the
 People makes the following Instructions Absolutely necessary you are
 to pursue them with Vigour and Exactness Impri[mis] all such per-
 sons as do not Come in and Discharge their accounts for Quit rents
 within ten Days after the Date of these Instructions you are Imme-
 diately to proceed against by makeing Distresses or Takeing any

To His Ex^cy Samuel Ogle Esq^r Governour of the Province of Maryland

The Humble Address of the Lower House of Assembly
May it please Your Excellency

As Hearing the Complaint of those we represent and Examining into the Nature of any Oppressions they may Labour under is one of the most Essential parts of the great Trust Committed to us we begg Leave to Acquaint your Excellency that in Execution of that Trust we find by the Information as well as Testimony of Several persons had under Examination before us that M^r Philip Thomas a farmer of His Lordships Quit Rents hath Grievously Oppressed many of his faithful Tenants and Contrary to his Lordships Known Disposition in a most arbitrary and unwarrantable manner Exacted and Extorted from them in Discharge of their Quit rents several Sums of foreign Gold and Silver at a rate far less than is Declared their Sterling Value by his Lordships Instruction of the fifteenth Day of December Seventeen hundred and thirty five and in Open Contempt of his Lordships Direction by the said Instruction.

It Likewise Appears that M^r Gilbert Crockett a Receiver under the said Philip Thomas hath not only in the Like Oppressive Arbitrary

L. H. J. and Contemptuous manner Committed Crimes of the like Nature but
 Lib. No. 45 also Exacted and Extorted from Several of His Lordships Tenants
 Sundry Sums of money or Tobacco as fees due to himself which we
 Conceive not to be warranted by any Law or Custom we View these
 Abuses with the utmost Abhorrence as they are Committed under an
 Administration that never Countenanced the Least Oppression and
 are Such as may Tend to Alienate the minds of his Lordships
 Tenants from his Dominion and Government and think in Justice
 to the Country the persons Committing Such Abuses ought to be
 Treated in such manner as may Effectually Discountenance all Op-
 pressions of the like Kind for the future and to that End we begg
 leave to Intreat your Excellency to Direct that the said Philip
 Thomas and Gilbert Crockett be prosecuted according to Law. For
 their Oppressions and Exactions aforesaid and in order more fully
 p. 711 to Open the Scene of their Behaviour to lay before your Excellency
 a Copy of the Report of the Committee of Aggrievances Concurred
 to by this House with the Depositions anext not doubting but your
 Excellencys Justice and regard for the well being of the People of
 Maryland will Appear upon this with the same Zeal as it hath before
 upon every Other Occasion throughout the whole Course of your
 Administration.

M^r Tench Francis.

Who make Choice of Cot John Mackall Chairman and Thomas Lynn their Clerk.

We your Committee upon Enquiry find that few of the Journals of this House until the Year 1693 have been preserved.

Upon Examining those few Journals we Cannot find any Transaction about appointing Treasurers.

We find that on the 17th of August 1695 the Lower House of Assembly Appointed a Treasurer on Each Shore of this Province without any Concurrence of the Governour or Council that Appears.

We find that from the time of such Appointment hitherto upon Vacancy's the Lower House of Assembly have Nominated all Publick Treasurers to receive the money of the Province and have recommended them to the Upper House of Assembly for their Concurrence in such Nomination and that such Nomination and Concurrence Obtained have been the only Authorities Appearing in the Journals of this House under which such Treasurers have acted since the first mentioned Appointments and Submit the Same to the Consideration of the House.

Whereas William Turner late of Queen Anns County Planter and Edward Turner late of the said County Labourer have in the most daring manner for many years past frequently Committed and do still Continue to Commit within this Province near to the Borders of it Felonies which by the Laws of England and this Province Are and ought to be Punished with Death And Whereas the said William and Edward Stand Indicted for Feloniously Breaking and Enting the Store House of Isaiah Robinson in Queen Anns County in the same Province And Stealing taking and Bearing away out of the Same House Divers Goods & Chattels of the same Isaiah of a Considerable Value upon which Indictment many Writs have in Vain issued for their Apprehension And Whereas many Attempts in Divers parts of this Province to take the said Offenders have been rendered Fruitless by their Threatening to kill their Pursuers with Pistols and other Dangerous Weapons with which they always Ride Armed and the Apprehensions of those Pursuers that it may be a Transgression of the Laws to kill the said Offenders in such Attempts to take them which Disparity in favour of the said Offenders will Probably for Ever Enable them to Escape the Punishment Justly due to their Crimes And Whereas it is greatly feared that the Difficulty of Apprehending these Offenders notwithstanding their Publick Appearance in Divers Parts of this Province in the Day time will Encourage Other Persons flying from Justice to Join with them In Committing felonys and Roberies to the Manifest and Apparent Danger of the Lives and Properties of all his Majestys Subjects within this Province for Prevention and remedy thereof Be it Declared and Enacted by the right Honourable the Lord Proprietary by & with the Advice and Consent of his Lordships Governour and the Upper and Lower Houses of Assembly and the Authority of the Same that if Any Person or Persons shall Take & Arrest the said William Turner or Edward Turner and Shall Deliver

U. H. . . . Gentlemen of the upper and Lower Houses of Assembly
 Lib. No. 33

It was with Great Concern I found my self under a Necessity of Calling you together at this Season of the Year, which was occasioned by the very great drought that has happened this Summer whereby as I have been informed from all Parts of the Province there is a great Reason to apprehend a Scarcity of Grain among our Selves if the most speed and Effectual Methods be not used to prevent it such a misfortune is the more to be feared from the want of Grain in Foreign Parts which may be an Inducement to give a great Price to such among us as can spare any and a great Price the Greatest Temptation to sell

I thought it my Duty on so important and pressing an Occasion to use all the means I could to prevent the Exportation of Grain and to that end with the advice of his Lordships Council of State issued a Proclamation which I hope has had some Effect but as it is the Legislature only that Can provide effectually in the Present Case
 p. 489 we are now met together for that end & what ever you shall think necessary for the welfare and Safety of the People of Maryland you may depend on my Concurrence

To the Kings most Excellent Majesty

The humble Address of the Governor and the Upper and Lower Houses of Assembly of the Province of Maryland.

May it please your Majesty

We Your Majestys most dutiful and Loyal Subjects the Governor and the members of the upper & Lower Houses of Assembly of the Province of Maryland most humbly presuming on your Majestys constant Goodness and gracious Condescension to receive the petitions & Complaints of all your Subjects do hope for your Majestys Royal permission to represent the injurious treatm^t which this Province in General & more particularly your Majestys Subjects residing on the northern Borders thereof of Late Suffered from the Government & Inhabitants of the Province of Pennsylvania

His late Majesty King Charles the first by his Royal Grant of Letters Pattent under the Great seal & bearing date the 20th day of June in the eighth year of his Reign did grant unto Cecilius late Lord Baltimore his heirs and assigns a tract of Land described by and included within particular Limits metes and Bounds expressed in the said Grant and which was by the said Grant erected into a Province and stiled by the name of Maryland by Virtue of which Royal Grant the said Lord Baltimore immediately took Possession thereof and which the present Lord Baltimore now our Lord Proprietary claims and we must beg Leave further to lay before your Majesty that the late William Penn Esq^r Claiming some Lands to the Northward of and near to the said Province of Maryland now called Pennsylvania under a Royal Grant from his late Majesty King Charles the second & taking Advantage of the Bounds of Maryland not being Sufficiently known & fixed by Proper Land Marks Both he and his Heirs have intruded and encroached on considerable

U. H. J. Quantities of Land far within the Descriptions Bounds and Limits
 Lib. No. 33 of the Province of Maryland as comprized in the Royal Charter
 or Grant

This Truth may it please your Majesty is so notorious that the Government of Pennsylvania ever despairing to justify their frequent Incroachments by a Denial thereof have endeavoured from time to time to insinuate that some Limit was set by a Lord Baltimore to himself many years ago whereas they must be sensible there is little Reason or Justice to rely on that Assertion or the strength of that pretended Limit for even after the supposed time of fixing thereof an Order was made by the late King James the second in Council on the particular Application & greatly in favour of M^r Penn without any Regard to that Limit of M^r Penns mentioning the same or so much as pretending there ever was one; but extended Lord Baltimores right as far to the Northward as was Comprized within his Charter and which Order we most humbly Presume M^r Penn would not have so earnestly contended for and his Heirs would not have since so much & only replied thereon if that pretended Limit to the Southward of the Bounds expressed in the Charter could have been sufficiently supported

But your Majestys Subjects the Inhabitants on the Northern Borders of this Province have on too many Occasions lamentably experienced the little Knowledge or Opinion the Inhabitants or persons pretending to Act under the Authority of Pennsylvania have of any Limit or Bound to their violent & Intruding disposition which always hurry them to extend the Authority of the Govern-
 p. 496 ment of Pennsylvania by Incroachments to the Southward of every Limit they at any time before thought proper to set to themselves under these circumstances the Lord Baltimore our Proprietary was prevailed in the Year 1732 to hearken to Overtures made by the Proprietaries of Pennsylvania for the fixing and ascertaining some certain Limits and Bounds between the Provinces of Maryland and Pennsylvania and Accordingly Articles of Agreement were entered into & Commissioners were appointed by the Lord Baltimore and the Proprietors of Pennsylvania for that purpose in which Articles a time was Limited for Carrying them into Execution and a Provision made that if they were not executed in the time so limited they should be void which Articles partly from the Difficulty of the execution and partly from the Unreasonableness objections and demands of the Comiⁿs of Pennsylvania and the different constructions put upon the Articles themselves were not Executed yet those concerned in the Gov^t of Maryland who have ever been careful to slip no Opportunity or omit any Pretence to incroach into Maryland pretended that tho the said Articles were never carried into Execution and that the time for so doing was actually elapsed yet that they were Equally Binding as if really Executed and even went so far as to

Cause Lines to be run & Boundaries to be marked by Persons Appointed by themselves without the knowledge of the Lord Baltimore or any Body concerned in the management of his Affairs & gave out that they would maintain the Limits made & Boundaries so marked at all events This Conduct may it please your Majesty Occasioned new Incroachments which were supported by Force and Violence such as the Imprisonment & ruin of some of your Majestys Subjects who had the Misfortune of Setling on the northern parts of Maryland bordering on Pennsylvania to the great Terror of such others who had the good Fortune to escape such severities to prevent which Violences and to secure the Peace and Property of your Majestys Subjects until the Bounds of the two Provinces could be settled so as to end all disputes Concerning them this Government offered to Joyn with the Government of Pennsilvania in an humble Address to your Majesty for the fixing Our Limits and determining our Differences and to prohibit any Person from Settling & inchroaching in the mean time further to the northward or Southward of the then respective Settlements in each Province but the Government of Pennsylvania was not pleased to concurr in such measures which must have Greatly added to the happiness of all & saved the Lives of some of your Majestys Subjects

U. H. J.
Lib. No. 33

p. 497

Then may it please your Majesty the Lord Proprietary of this Province became apprehensive of the Consequences of such Unwillingness in the Government of Pennsylvania to that Peace and Good will which your Majesty so Gloriously defends and preserves to your Subjects and most justly respects & Comm^{ds} should be Observed amongst them and in Compliance with his Duty to your Majesty in the Safety and Preservation of us your Majestys Subjects under his Government as well as in maintenance of his own right and Property his Lordship our Lord Proprietary did by his most humble petition to your Majesty set forth his Title to this Province under the said Charter and for the Reasons in the said Petition mentioned his Lordship most humbly prayed your Majestys further Charter or Letters Pattent to Confirm the whole of the Tract of Land called a Peninsula in the said Charter to his Lordship which petition your Majesty was most Graciously pleased to refer to the Consideration of your Majestys Lords Commissioners for Trade & Plantations upon which their Lordships having made their Report to your Majesty your Majesty was most Graciously pleased to refer the same to the right Hon^{ble} the Lords of Committee of Council for Plantation affairs and their Lordships were pleased to report to your Majesty that your Maj^y having been pleased to refer unto that Committeè a Report made by the Lords Commissioners for trade and Plantations upon the Petition of Charles Lord Baltimore praying for a Grant of Confirmation of such Part of a Peninsula in America as is Contained within the Limits of the Charter granted

U. H. J. to his Ancestor in the Reign of King Charles the first notwithstanding the Words Hactenus inculta which are inserted in the
 Lib. No. 33 Recital of the said Charter And that your Majesty having been
 pleased likewise to Refer unto that Committee two petitions the one

 William Penn Esq^r deceased in Behalf of himself and his two elder
 Brothers John and Thomas Penn Esq^r then in Pennsylvania setting

 praying to be heard against confirming the said Peninsula to the Lord

 Lordships took the said Report and Petitions into their Consideration
 & were attended by Council as well for the Lord Baltimore as the
 other petitioners and that it appearing that on the 10th of May
 1732 Articles of Agreement had been entered into between the Lord
 Baltimore and the said John Thomas and Richard Penn for adjusting
 the Boundaries of the Land Granted to them by their respective
 Charters which Articles had not been carried into Execution within
 the time thereby Limited but notwithstanding such Lapse of time
 the Validity of the said Articles being insisted on by & Behalf of the
 said John Thomas and Richard Penn; the Lords of the Committee
 did agree humbly to report to your Majesty as their Opinion that the
 Consideration of the said Report and petitions should be adjourned
 until the end of Michaelmas term then next in order to give an
 Opportunity to the said John Thomas and Richard Penn to proceed
 in a Court of Equity to obtain the said Articles of Agreement so
 insisted upon by them as they should be advised and that after the
 Expiration of the said time either Party should be at Liberty to apply
 to the Committee of Council for Plantation affairs as the nature
 of the case might require which Report your Majesty was pleased
 to approve and order agreeable thereto and to Direct that all Persons
 whom it might Concern were to take notice & govern themselves
 accordingly

This your Majestys Royal notice and Interposition gave immediate Ease and quiet to every poor Inhabitant on our Borders nor would our awful duty to your Majesty suffer us to entertain the least Apprehension or distrust that any of your Majestys Subjects would be so presumptuous and daring to break in and disturb that Tranquillity which your Majesty had so Graciously taken under your own so immediate Royal Cognizance

But we must humbly represent to your Majesty that although
 p. 499 Your Majesty was pleased on the Petitions of the Proprietary of
 Pennsylvania to adjourn the Consideration of the Report of the
 Lords for Trade and Plantations till the end of Michaelmass term

then next in order to give them an opportunity to proceed in a Court of Equity to Obtain Relief upon the said Articles of Agreement so insisted upon by them as they should be advised yet the Government of Pennsylvania very soon after seemed to imagine they had a right to determine by Violence what your Majesty had so lately given your Royal Directions About and which then was and still is depending in your Majestys high Court of Chancery by your Majestys Royal Indulgence to the Proprietaries of Pennsylvania

U. H. J.
Lib. No. 33

That several Germans and Palatines being arrived some time ago in these Parts of your Majestys Dominions in America made their Applications and requests to this Government for the Liberty of Seating and Settling with their Families on Lands within this Prov^s which desires this Government not only thought reasonable but the People so deserving Encouragement that several Considerable Quantities of Land lying on the Borders of this Province adjoining to the Province of Pennsylvania were allotted and Assigned them for their Residence and Support under the Authority of this Governm^t & accordingly not Less then fifty or sixty families of that nation immediately took Possession of these Lands and paid their Proportion of the Taxes and demeaned themselves in every other Respect as Peacable subjects to your Majesty and unquestionable Inhabitants and Tenants of this Province until very Lately when through Unwariness and too much Credulity they suffered themselves to be prevailed on by the Emissarys of Pennsylvania under Pretence of more than ordinary advantages to renounce openly their Submission to this Government & to declare their Resolution to transfer their Obedience to the Government of Pennsylvania and in order to account for this their extraordinary proceeding they declared their unwillingness to Contribute towards the maintenance of the ministers of the Church of England by Law established in this Province or to Conform themselves to such Laws and Rules for the regulating the Militia as this Province in their Legislature has thought expedient and necessary for their Safety and Defence against any Foreign Enemy Which the said Emissaries among other things promised they should be entirely [free] from in consid- p. 500
eration of their withdrawing their Obedience from this Government

So Surprising a Behaviour endeavoured to be Justified by such Pretences so Greatly alarmed this Government with the Dangerous Consequences which might ensue not only to this Province but to every other Part of your Majestys Dominions in America that they thought their then indispensible Duty required their utmost Care to disabuse these deluded People to make them sensible how much they had misbehaved themselves as Subjects to your Majesty for this purpose the Proper Sheriff of the County had orders as well to demand and levy on those inhabitants their Just Proportion of the Legal Taxes due to this Province as to apprehend & secure so many

U. H. J. of them as he could find in order that they might be forthcoming to
 Lib. No. 33 answer in a due course of Law for their Misdemeanor in attempting
 to disturb the Peace of this Province by their avowed Disobedience
 to the Laws thereof & as this Government was not ignorant that
 these unfortunate people had been privately encouraged by some
 persons daring enough to protect them against any Prosecution
 therefore the said Sheriff had directions to take to his Assistance in
 the Execution of his said Office some of the militia of his Country in
 pursuance of which Commands the said Sheriff attended by Several
 of the Militia Repaired to that Part of his County where those Inhabitants
 resided there he found them shut up in an House which an
 armed number of men Inhabitants of Pennsylvania had taken possession
 of and after his demand of their being delivered to him was
 obstinately refused the said Sheriff with the said militia departed
 in a peaceable manner and Distained some few of their Goods for
 their Proportion of Taxes

This Conduct of the Government of Maryland we humbly hope
 will Appear in your Majestys Great wisdom proper & reasonable but
 we presume to acquaint your Majesty that the Government of Pennsylvania
 thought fit not only to consider it in another Light but to
 make Use of it for Purposes destructive of the Lives & Properties
 of your Majestys Subjects for that Government under pretence that
 those parts of the Country lay to the northward of a Line mentioned
 in the Agreement now under the Cognizance of your Majestys high
 Court of Chancery to Determine whether it should bind the Lord
 Proprietary of this Province was pleased to issue a Proclamation
 p. 501 under a Specious Colour of Preserving Peace but really to inflame
 and incite the Inhabitants of their Borders which that Government
 then acknowledged was filled with People of more than ordinary
 Spirit to the Commission of horrid & Cruel Violences

It is with the most sensible Concern may it please your Majesty
 that we found those designs of the Government of Pennsylvania had
 too soon their desired Effect for divers your Majestys Subjects who
 had nothing to support themselves with but their Labour and
 Industry were violently Dragged from their Habitations and thrown
 into Loathsome Goals to the ruin of their poor families and not
 Content with these Violences an armed multitude pretending to be
 Inhabitants of the Province of Pennsylvania headed by a Sheriff and
 a Magistrate of that Province beset the house of one Thomas Cres-
 sap who had always held the Land he then Lived on under a Title
 from the Lord Proprietary of Maryland Acknowledged himself
 Tenant of that Province and Constantly paid his Taxes & Dues to
 the same and acted for some time past as a Magistrate thereof and
 in further Execution of their pernicious intentions these outrageous
 people set fire to the house (in which there was then the Owner his
 Wife and Children and six other men) and burnt the same down to

the Ground with all the Effects of the said Owner to a very Considerable Value nor was the Spirit of these Incendaries allayed by this bold Violation of your Majestys Laws but when the unhappy Wretches then in the house endeavoured to save and Defend themselves from the Flames and those merciless men a Continual firing of Guns followed which Occasioned the Death of one and Wounding others of your Majestys Subjects who had been in the House then the Owner with four of his Companions were Seized and hurried into the Goals of the Province of Pennsylvania where one of them actually perished for want of Sustenance and the rest now Lye

U. H. J.
Lib. No. 33

This Proceeding by Fire and Sword to establish the Bounds which are now in Dispute in your Majestys high Court of Chancery filled your Petitioners as well as other your Majestys Subjects of these two Provinces with such terrible apprehensions that an immediate Application was made from this Government to the Government of Pennsylvania for their Assistance in Discountenancing such Violences and Bringing the Offenders to Condign Punishment And Lest they should escape a Just Return for their Wickedness by any Doubt p. 502 which the Government of Pennsylvania might pretend to Entertain of the place where they ought to be tried this Government Requested that Government to cause the Offenders to be immediately Apprehended in order that they might be amesnable to Justice in such Place as your Majesty should be pleased to direct but contrary to all reasonable Expectations the Government of Pennsylvania was pleased to decline any Compliance with that demand by deferring their apprehension till your Majestys Pleasure should be signified therein nor Could any Remonstrance from this Government of the Probability of the Offenders escape and Eluding by that means your Majestys Justice prevail with that Government to alter their Resolution

We further humbly presume to lay before your Majesty Our Unhappiness that this Government is not able to procure from the Gov^t of Pennsylvania the release of those unfortunate Sufferers who are still Confined in Pennsylvania Goals this desire was refused on pretense that Thomas Cressap the owner of the house had been guilty of a former murder & that the others were present at the aforementioned Confusion when one of your Majestys Subjects was killed that accusation of a former murder against the said Cressap will we humbly hope appear very extraordinary when we presume to say that a man was killed by him in defence of his Own House when the very same House was in the night time attacked and broke into some years ago by another number of Pennsylvanians and the Owner then threatned with the Loss of his Life which he had no means or Possibility of preserving but by defending himself the best Way he could and who therefore in defence of his house fired a Gun and Shot the deceased in the Leg or thigh of which wound he dyed for this Fact the Owner of the House was brought

U. H. J. to his Trial in this Prov^s and the late Governour of Pennsylvania
 Lib. No. 33 was so sensible of this being the Truth of the Case that he often declared the Owner of the House ought not to be accountable for that mans death and those Concerned in the Government of Pennsylvania are so well Satisfied of the said Cresaps And his fellow Prisoners innocence that during eight months imprisonm^t there has been no Prosecution against them nor any Legal Opportunity Given them to shew their Innocence and only groundless Slanders raised Against the poor unhappy man and his fellow Sufferers to furnish a Pretence to Deprive them of their Liberty and to Violate the Laws securitative of the Rights of a British Subject

p. 503 This being the melancholy Scituation of many of your Majestys Subjects who have been ruined and Deprived of their Liberty & of others who are in danger of the like Rigorous Treatment from a Neighbouring Government and people who under the Specious Pretence of peacable Principles of Religion have used the most subtle Arts to incroach into the Limits of this Province and have not Scrupled to Excite Bold and desperate men to commit the most Deliberate Cruelties upon several of your Majesties Subjects & to Countenance protect and reward these their instruments at the same time that they have pretended they would not encourage the Violences committed or the Authors of them and your Majestys Subjects who have the honour of having any Share in the Administration of the Government of Maryland conceiving it to be their undoubted Duty to use all possible endeavours to preserve the Lives & secure the Peace of all your Majestys Subjects & even to avoid repelling force with force but in the most humble manner to have recourse to your most Sacred Majesty and to implore your Protection & defence We most humbly beseech your Majesty to take the Sufferings of your Majestys Subjects who are & long have been deprived of their Liberty in the manner already mentioned & such others of the Inhabitants of this Province as are in danger of the like rigorous Usage into your Royal Consideration & to vouchsafe to grant them Such Relief as to your Majesty in your Royal Wisdom shall seem meet

Your Majestys most Gracious Condescension in hearkening to these Our complaints must the more (if possible) inforce Our inviolable duty in praying for the Blessings of Length and Happiness to your Majestys Reign and an ever Continuance of the Crown in a succession of the illustrious House of Hannover Whose chief Good is placed only in that of Mankind & more Especially of us Subjects amongst the most Dutiful & Obedient of whom we humbly presume to Declare Our selves

Sam Ogle

And The Petition of the President, Council and General Assembly of the Province of Pensilvania, To the King in Council, The petition of the President and Council and of the General Assembly of the Province of Pensilvania Most Humbly Sheweth

L. H. J. That the Provinces of Pensilvania and Maryland Lying Con-
Lib. No. 45 tiguous the Northern Bounds of Maryland being the Southern
Bounds of Pensilvania, tho the Limits between them were never
agreed on with any Exact Certainty before the Year 1732 yet
Except in some Instances on the Part of Maryland the People of
Either Provinces in makeing their Settlements Scarce ever varied
above a mile or Two from the place which the old Lord Baltemore Set
to Himselfe for the Northern Bounds of his Province above fifty
years agoe but for the more Effectual Preventing any misunderstand-
ing between the Proprietors and People of the said Two Provinces it
was in the year 1723/4 agreed between the Present Lord Baltemore
Proprietor of Maryland and Hannah Penn Widdow and Executrix
of William Penn Late Proprietor of Pensilvania Deceased that for
the avoiding all manner of Contention or Differences between the
Inhabitants of the said Provinces no person or persons should be
Disturbed or Mollested In their Possessions on Either Side nor any
Land be Surveyed Taken up or Granted in Either of the Said Prov-
inces near the Boundarys which had been Claimed or pretended to
on Either Side which agreement tho it was to Continue Eighteen
months only, yet it was Deemed to be Such a reasonable Expedient
for preserving the peace upon the Borders of the Two Provinces
where they lay Contiguous that it was Carefully Observed by the
Government of Pensilvania as also Generally by the Government of
Maryland until about the year 1732 when the Lord Baltemore and
the Proprietors of Pensilvania at the Special Instance of the said
Lord Baltemore, Solemnly Entered into Articles of agreement for
Deviding the Province of Maryland from the Province of Pensil-
vania and the three Lower Countys of New Castle Kent and Sussex
on Delaware Commonly Called the Territories of Pensilvania in
which Articles it was Provided that a Certain Number of Commis-
p. 734 sioners should be Nominated on Each side for makeing out and run-
ning the Lines, agreed on and run as the Bounds between The Two
Provinces and Countys aforesaid which Bounds were so particularly
and Expressly Described and set down in the said Articles that there
seemed no Doubt but the Same would have been Carried Into Exe-
cution according to the Tenor true Intent and meaning of the Said
agreement yet so it is. May it Please the King that notwithstanding
the Clearness of the Said Articles the Lord Baltemore and his Com-
missioners by Starting the most unreasonable Objection evade run-
ning the Lines thereby agreed on for the Boundaries between the
Said Provinces and at the Same time the said Lord Baltemore and
his Deputy Governour set up a Claim to the Lands lying on the
South Side of Susquehannah River near Twenty miles further into
the Province of Pensilvania than the Boundaries agreed on by the
Said Articles; and makeing use of one Thomas Cresap (a Person
of mean Circumstances and Infamous Character who had Taken

possession of a piece of Land in Lancaster County in the Province of Pensilvania formerly surveyed under the Proprietaries of the said Province) To persuade some Innocent German People Lately Come into Pensilvania who were Ignorant of our Language and Constitution to take possession of those lands and Acknowledge the Jurisdiction of the Lord Baltemore Assuring them at the same time of being free from Taxes and that they Should have protection from the Government of Maryland the said Cresap then proceeded with armed force to Seize and Hurrey to Prisons in Maryland Several of our Inhabitants who were Seated upon Lands above Twenty Miles within the Province of Pensilvania as well from those Boundaries set by Charles Lord Baltemore above fifty years since as from the Bounds agreed on by his present Lordship in the Year 1732 and the Better to Carry on the Designs of Maryland the Deputy Governour of the said Province vested the Said Cressap with the powers of a Civil Magistrate and Dignified him with a Military Commission furnishing him with a Large Quantity of fire Arms and Ammunition whereupon he became Exceedingly Insolent and Oppressive to the Peaceable Inhabitants of that part of the Country, to put a Stop to which proceedings the Deputy Governour of Pensilvania with the Advice of his Council Sent persons to the Deputy Governour of Maryland fully Authorized to Consert Measures for preserving peace and good Neighbourhood between the two Provinces by agreeing upon Some bounds to Limit their Jurisdiction without Prejudice to the right of Either of the Proprietors untill the Differences should be absolutely Settled Either between themselves or by Due Course of Law but so far was the Deputy Governour of Maryland from Enttring into any Such Pacifick Measures that the People of Pensilvania then in Prison were prosecuted upon Information preferred against them in the Courts of Maryland as having Intruded upon the Lord Baltemore Lands (and as they Call it) against his Lordships peace good rule and Government and Heavy fines laid on them, on pretence that they would not own the Authority of the Said Lord Baltemore and a Surveyor Guarded by Cressap with a Number of Armed men Came up into the Heart of Lancaster County to Survey Lands which had long before been Surveyed and Some of them Seated in right of the Proprietarys of Pensilvania and the Lord Baltemore and his Deputy Governour Still Continuing not only to Disregard all propositions for Avoiding these Differences and Endeavouring by all means to make void the Said Articles of Agreement our Proprietarys found themselves Obliged in the year 1735 to Exhibit their Bill of Complaint in the High Court of Chancery of Great Britain against the said Lord Baltimore wherein they have Set forth their right to the Lands in Question between them and Said Lord Baltimore which he had in a Solemn Manner Released to him by the said Agreement made in the year 1732 and have prayed the

- p. 735 Lord Baltimore lest the Deluded People Should thereupon See their mistake Hastned up Into Lancaster County and with Sound of Trumpet before him Rode Amongst the Inhabitants to Animate and fortifie them in their Adherence to the Lord Baltimore and their Opposition to Pensilvania but finding that Neither his own Endeavours nor those of the aforesaid Cressap Notwithstanding the Countenance given him Could prevent those Germans who by false Suggestions had been prevailed on to own the Government of Maryland from returning to their first Proprietors of Pensilvania. The Deputy Governour of Maryland Sent up in September last about Three hundred men in Arms under proper Officers with Drums and Trumpets to Support the said Thomas Cressap and Strike Terror into the Inhabitants of Pensilvania the only Instance in America we humbly presume where one Brittish Collony have Taken upon them to Levy War upon Another but when the Officers who Commanded those forces from Maryland Appeared not forward to Committ Acts of Violence Such was the Inhumanity of the said Cressap that he urged them with great Vehemence to fire on Some of the People of Pensilvania who were goeing over the River in Boats to Inquire into the meaning of Such an Armament in that part of the Country but this Attempt was no Sooner Over than another Design was set on foot by Maryland to Dispossess those Germans, a Number of Men were Encouraged by the Deputy Governour of That Province to take Grants for those Lands who with an armed force were to Throw the miserable People with their Familys Women and Children out of their Plantations and from all the fruits of their Labours to be Exposed without Shelter to the Rigours of the Winter Season for no Other Reason than that they Could not in Conscience any Longer own the Lord Baltemore for their Proprietor while They were Seated on Lands that Cannot Possibly fall within the Limits of Maryland and for Affecting this Cruel Purpose the Said Cressap was furnished by the Deputy Governour of Maryland with about two hundred Small arms and Suitable Ammunition but tho by a Happy Providence their Project was Discovered Some of the Heads with Others of the Confederates being Seized in Pensilvania who have made a full Confession of the whole design as Projected by them with the Deputy Governour of Maryland, yet the Said Cressap was Authorized to List and Actually Listed men at the rate of Twelve pounds a year with Diet and Lodging Swearing them to be faithfull to the Lord Baltemore true to himselfe and to go upon all such Enterprises against the Pensilvanians as said Cressap Should Direct

he then Breathed Rage and fury Threatned Distruction Conserted with his People the Murther of some and Burning the Houses of Others the Inhabitants of Lancaster County Could now think themselves no Longer Safe after such a Discovery while the person Appointed to Execute all these designs was so Strongly Supported so furiously Animated and furnished with Such means of Distressing them but as the Principles of the People who first Settled the Province of Pensilvania and of those who at present have the Administration of the Government are well Known to be against all Millitary force and being Sensible that all Millitary Attempts of One Subject of the Crown of Great Brittain upon another are Unwarrantable they therefore only granted Legal Warrants to the Sheriff of Lancaster County for Apprehending the said Cressap that he might in a Course of Justice answer for the Notorious Offences he had Committed and the said Sheriff having for Some time been possessed of a Warrant from the Provincial Judges for takeing the Said Cressap on a Charge of Murther found by the Coroners Inquest the People being Justly alarmed by so manifest a Prospect of their Danger Called upon the Sheriff at all Events to Execute his Warrant in which they would Assist him for that they rather Chose at all Hazards to Attempt the Takeing that Dangerous and Barbarous man than to live Continually Exposed to his Violences Accordingly the Sheriff Attended with a Number of the Inhabitants of the Country (who Consist mostly of German Protestants and Other Europeans of the Communion of the Churches of England and Scotland of late years Arrived here) Went Over to Cressaps Dwelling in the morning Early, read at the Doore in his hearing and in the Hearing of his Accomplices in the House the Warrant he had to take him, requireing him to Surrender himselfe, but was answered only with Horrid Oaths and Imprecations, and the Utmost Scurrility of Language and soon after he fired at the Company who also Discharged Some Shot at his House but without Intention of Doeing any Hurt; and thus they Continued untill Near Sunset when the People provoked by his Abuses and frequently fireing and finding no Other Possibility of Takeing him alive Set fire to the House which Consisted of some round unhewen Timber Logs Piled one on Another of not above the Value of five pounds Sterling and to which he had no right having before released his Tortious Possession to one of our Inhabitants and the House being on fire the Said Cressap with his Accomplices rushed out Loaded with Arms and fireing upon the Sheriff and his Company they wounded one of the Sheriffs men and happened to Kill one of their own before Said Cressap was Taken but notwithstanding the Takeing that Turbulent man we have Still Just reason to Apprehend yet further and greater Injurys from that Government large and Tempting rewards being promised in Proclamations And Otherwise by their Deputy Governour before the Take-

I am sorry our late news has given me so just an Occasion of Condoling with you on the death of that most Excellent Princess Our late most Gracious Queen whose great and Royal Virtues rendered her Person when living truly amiable to all his Majestys Subjects and must endear her name to latest Posterity

Among the several Laws that will expire this Session & may be thought expedient to be revived the duty of my Station Obliges me to recommend particularly to your care the Act for purchasing arms and Ammunition and I can make no doubt of your Readiness to continue a Fund which is to provide as far as it will Go in so essential a Manner for the Safety of this Province and the Security of its Inhabitants

I cannot omit participating to you the Satisfaction I have had on the Receipt of his Majestys Most Gracious Order in Council for restoring and preserving Peace and Quietness on our Borders and I think it no inconsiderable Circumstance of our Happiness that this Tranquillity has been procured by the Generous & indulgent Care of our Lord Proprietary without the Load of an Extraordinary publick supply while our neighbors have Raised large sums for the carrying on of those disturbances equally prejudicial to themselves as to us whatever unhappy notions may have been instilled into them by those whose Interest it was to deceive them and I hope we may with Justice say that whatever Inclinations to Peace our Neighbouring Government might pretend or amuse their People with or whatever Applications they have seemed to make to his Majesty yet this restored Peace and Quietness are founded only on the humble and sincere Instances and desires from this Province

His Lordship has not shewn less Benevolence towards his tenants in his late Order to his Agent for the settling of the Rates of Foreign Gold and Silver to be taken in discharge of his Quit rents and Alienation Fines

These remarkable Instances of his Lordships great Goodness are
 p. 512 such unquestionable Proofs of his Sincere inclinations and endeav-

ours for the Happiness and Prosperity of this Province that I flatter myself with the hopes of seing such Effects from the most perfect mutual Good Harmony and Confidence amongst all the Branches of the Legislature as only can effectually Compleat the happy Condition of this or any other Country and you may be Assured of my utmost Assistance and good wishes for such a desirable Purpose

 lows in these words

p. 514 To his Excellency Samuel Ogle Esq^r Governor and Commander in
 chief in & over the Province of Maryl^d

The humble Address of the Upper house of Assembly

May it please your Excellency

We beg leave to assure your Excellency that your just Condo-
 lance of the death of that most Excellent Princess our late most
 Gracious Queen meets with that unfeigned Sorrow and Concern in
 our Breasts which every British Subject must very sensibly feel on
 this melancholy occasion for the loss of a life so inestimably precious
 in the Eyes of all true Lovers of our Country and which we and our
 Posterity must always with the highest Gratitude and admiration
 remember to have been constantly employed in particular Acts of
 Care and tenderness for the Prosperity of all his Majestys Subjects
 and a most extensive Good will for the happiness of mankind.

We receive your Excellencys Recommendation of reviving the
 Act for purchasing arms and ammunition with as thankful a Sense of
 your Excellencys prudent and laudable zeal for the Safety of this
 Province and its Inhabitants as of the good opinion you are pleased
 to entertain of our Readiness towards so just and necessary an end
 for which we shall not be wanting in Our Parts

Be pleased to accept our sincere Thanks for the Satisfaction your Excellency has been so kind to participate to us from the Receipt of his Majestys most Gracious Order in Council for restoring and preserving peace and quietness on our Borders and that our happiness on this Occasion might not be imperfect our most Generous and indulgent Lord Proprietary has taken an uncommon care that the sweetness of Peace should be embittered or the news of it less Welcome to us by the Load of an extraordinary publick Supply his Lordships Conduct in this is the more remarkably worthy of a Proprietary as that he wanted not a Precedent from a neighbouring Province how to get a Sum of money by the fatal miseries and Calamities of Contentions and disturbances which tho continued with like Prejudice to that Country from whence they took their Rise, as to this Province yet ended with this difference that the Inhabitants there have paid for pretended inclinations and amusing applications whilst we enjoy the desirable Effects of humble and sincere instances for Peace without any other Compliment than a grateful Acknowledgment of our Lord Proprietarys watchful Care and Regard to the Welfare of this Province

To the same Principles of Benevolence and Affection for his Lordships Tenants his Lordships late order for Settling the Rates of Foreign Gold and Silver to be taken in discharge of his Quit Rents and Alienation Fines is owing and as we cannot be insensible of the Conviction which these remarkable Instances of his Lordships Great Goodness carry with them of his sincere inclinations & endeavours for the Happiness and Prosperity of this Province; We think Our selves Strongly Obligated (if we can) any disappointment to your Excellency in your hopes of seing the best Effects towards Compleating the happy Condition of this Country from the most perfect mutual good Harmony amongst all the Branches of Our Legislature formed upon the model of the Blessed English Constitution so well suited to the Temper and Genius of true Englishmen that every British Subject (except such who are either ignorant of that Constitution or are actuated by some other Spirit than that of an Englishman) look on it as the chief Honour and Happiness of themselves and Envy of other nations and we can the more safely promise to ourselves the greatest Felicity from this Establishment since you Sir preside over us and have always added truth to your repeated Assurances of your utmost Assistance and Good wishes for perfecting the happy Condition of this Country

Our speaker was called out of the Chair and out of the house by your Clerk and had several Papers delivered to him by the said Clerk and one among them which we should have taken as a Message from your Honours if it had been brought or delivered in the usual manner

This Behaviour of your Clerk we Conceive to be such an Indignity to this House as Obliges us to demand immediate Reparation

As to the unexpected and extraordinary treatment mentioned in that Paper delivered to our Speaker we can with the Greatest Truth and Sincerity declare we had no intention to treat your House or any member of it but with the greatest decency and Good manners and that if any thing has happened which seemed to have a different appearance it was not designed and if your Honours had not a very strong inclination to enter into unnecessary disputes with this House which must retard the dispatch of publick Business and of Course be very injurious to the whole Province Your Honours would have taken a very different Course from that which you have been pleased to Choose

As to what is mentioned in the Paper under Consideration of sending future messages by your Clerk we shall be very well Content with it and follow your Example in sending all our Messages by our Clerk

The following Message is sent to the Lower house by the Clerk of this house who after having waited some time to deliver the said Message was told by M^r Michael Macnemara Clerk of the Lower house that the Lower house would not receive any Message from him until they had a suitable Answer to the Message sent this morning to the Upper house by Col^o Hooper and M^r Courts.

By the Upper house of Assembly 18th May 1738

Gentlemen.

Our Clerk was ordered by us to desire your Sergeant to inform M^r Speaker that he had a Message from this house to deliver to him and these orders we are assured by our Clerk were punctually observed This you are pleased to term calling your Speaker out of the Chair and out of the house by our Clerk but whether by the Rules of your house the Speaker is allowed to go out of the house to receive messages from this house we shall not pretend to determine

By the message by Our Clerk we acquainted your house with the Reasons of sending him and we now inform you that he acted, what you seem to resent, by the Authority of this house, therefore you cannot be surprised at our now Compliance with your Demand of Reparation but we hope you will permit us to think it somewhat unusual as well in Publick Bodies as Private for the Party who Offers an Affront to demand Reparation from the Injured

p. 536 We are by that Respect and Good will which we shall always have and shew towards the Representatives of the People of Maryland Greatly Byassed to believe the Truth and sincerity of their declarations but you must excuse us if we flatter ourselves of being Capable to distinguish in some degree between an Indignity and Civil treatment and if any thing Could add to the Contempt you have shewed of us it must be the doubt you entertain whether any thing has happened which seemed to have an appearance different from decency and Good manners towards our house and making the foundation of our last message to be a very strong inclination in us to enter into unnecessary disputes, we cannot be so much wanting to the honour and dignity of this house and our own particular sincere hearty Intentions

for the publick good as not to remind you that instead of demanding immediate Reparation we dispatched the publick Business by our Clerk in order to prevent unnecessary debates to the delay of publick Business.

U. H. J.
No. 33

Thus we stifled our Resentments and only endeavoured to avoid a future Indignity on the like Occasion and we have now the better opinion of and are more Confirmed in the Resolution we before took of sending our messages by our Clerk by the Content it will Give your house and as to your following our Example in sending all your messages by your Clerk this house presumes your Acquaintance with Legislative Proceedings in every Part of his Majestys dominions will prevent the sending a Messenger never before thought or heard of for the Purpose you are pleased to design him and who would not be Admitted to deliver any Message to us from your House

To his Excellency Samuel Ogle Esq^r Governor and Commander in chief in and over the Prov^s of Maryland

The humble Address of the Upper house of Assembly

May it please Your Excellency

U. H. J.
No. 33

Our Inclinations to serve the Country we live in and the Honour of Our House oblige us to acquaint your Excellency that upon Wednesday last we sent a Message to the Lower house of Assembly by one of our Members who upon his application for Leave to deliver it was told by their Serjeant as from that House to wait

From this Indignity offered us and to prevent the like ill Treatment for the future we were induced agreeable to the Practice of the Upper houses of Assembly and Councils of State in most if not all his Majestys Plantations to send our Clerk to the Lower House wth Several Paper Bills and with a Message acquainting them that the Extraordinary Treatment one of Our members had received on a Message to them had Obligated us to prevent unnecessary Debates to the delay of the Publick Business and Indignity thereafter to send Our Messages by our Clerk p. 539

When our Clerk applied for Leave to deliver this message the Speaker very unexpectedly came out of the House and received it and a Message in answer to it was sent to us by two members from the Lower house complaining that their Speaker was called out of the Chair and out of the House by Our Clerk and had several Papers delivered to him by the said Clerk and One among them which they should have taken as a Message from us had it been brought or delivered in the usual manner

That that Behaviour of our Clerk they conceived to be such an Indignity to their House as Obligated them to demand immediate Reparation

That as to the unexpected and extraordinary Treatment mentioned in that Paper delivered their Speaker they could with the greatest Truth and sincerity declare they had no Intentions to treat our House or any Member of it with the Greatest Decency and good manners and that if any thing had happened which seemed to have a different Appearance it was not designed and if we had not a strong Inclination to enter into unnecessary disputes with their House which must Retard the publick Business and of Course become injurious to the whole Province we should have taken a very different Course from that we Chose

And further that as to what was mentioned in the Paper under Consideration of sending future Messages by our Clerk they should be very well Content with it and follow our Example in sending all their Messages by their Clerk

This Message very much surprized us and the doubt of the Lower House made of anything having happened which seemed to have an appearance different from decency and Good Manners and their charging us with a very strong inclination to enter into unnecessary disputes that would be injurious to the Province and their demanding Reparation for an Injury they had really done us convinced us

U. H. J. we were not to expect more Civil treatment from them for the future
 No. 33 then they had been pleased to Give the last member of our House that we sent to them

p. 540 We therefore prepared a Civil and Suitable Answer to their Message and sent it on thursday last by our Clerk as we had proposed to send and they had agreed to Receive but when he applied for Leave to present it was refused and Obliged to return with it we sent it again on Friday last and Our Clerk waited to deliver it above an Hour after he had Given Notice to the Serjeant attending the Lower house of his having a Message to deliver from us but was again refused an Opportunity to deliver it & Obliged to return with it

As we are Convinced what we have done is well warranted by Reason and Justice and by the Practice of Our Neighbouring Governments we flatter Ourselves with the Satisfaction of being Justified in the opinion of your Excellency and every reasonable and Candid man but as by the Refusall of the Lower House to receive our Message from the hand of our Clerk with which method they had declared they would be very well Content an intire stop is put to the Communication of the two Houses & to the publick Business we make this humble application to your Excellency with a full Assurance of your Excellencys Readiness to interpose your Authority in such manner as may best prevent a further needless Expence and Burthen to the Province

The Address to the Governor Viz.

To his Excellency Samuel Ogle Esq^r Governor of Maryland

The humble Address of the Lower House of Assembly.

May it please your Excellency

We his Majesty's most dutiful and Loyal Subjects the Representatives of the Freeman of Maryland in Assembly convened, beg leave to return your Ex^cy our sincere thanks for your kind Speech at the opening of this Session, and at the same time with hearts full of grief to sympathize with you, in that great and general loss, the Death of Our late most gracious Queen. We should be inconsolable on this Melancholly Occasion, had we not those invaluable Blessings, our royal and most gracious King and Sovereign with Our Constitution in Church and State her pious and unparaelled memory which shall always remain near and dear to Us. We shall always bear a true regard to whatever Your Ex^cy is pleased to recommend to the Consideration of this House, and accordingly consider the Act relating to the purchase of Arms and Ammunition for the use of this province with the State of that Fund.

We are truly solicitous for his Lordships happiness and rejoyce at his influence over his Adversaries on all just Occasions, And we are sorry that Our Neighbors should so far interest Themselves in Matters foreign to them, as to prejudice Themselves & disturb Others with whom they ought to live in the most friendly Manner, and agreeable to that mutual Harmony which ought to Subsist betwixt all his Majestys Subjects.

If this house had any part in procuring an Amicable and peaceable State on the Borders, betwixt this and the neighbouring province They are highly pleased therewith, as They shall always be, when they can Act or do any thing for the Good of this people or any other his Majestys Subjects, and which shall always be their utmost Ambition and true Endeavour to perform.

We please ourselves with hopes, and that from his Lordships great Goodness, that he will render the receipt of his Quit rents and Alienation Fines as easie and commodious to the good People of this province as the Nature of the Thing will admit of: and as from his own great Abilitys and being seated at the Fountain of Knowledge in Great Britain, he must know certainly the true Value of foreign Gold and Silver he hath no doubt ordered them to be received here accordingly. Great good and benevolent Actions are

inherent to, and the result of noble minds, and such, proceeding from humane and generous Motives equally deserve our praise and Admiration. L. H. J.
Lib. No. 45

We take leave to Assure Your Excellency that his Lordships beneficent Dispositions put in Execution for the good of the People of Maryland shall on all Occasions be gratefully acknowledged, and that we esteem it a great happiness to merit his favourable Sentiments. If a dutiful Obedience to his Lordships Government under Your Ex^{cys} wise and prudent Administration, and a true Endeavour to the utmost of Our power and knowledge actuated by a Sense of Duty and humanity to promote the general good of this province may have any influence on Our Actions, we may hope for a happy Issue to the proceedings of this Session, more especially when supported by your Ex^{cys} favourable Countenance and Assistance so kindly and candidly assured to us, and for which you have our sincere and unfeigned thanks.

It is certainly your Duty to enquire how any money Assessed on the People you represent has been disposed of, and I assure you, I shall always be as ready to lay such Accounts before your House, as you can be to desire them: but at the same time it must be acknowledged that in applying for the most reasonable thing such Expressions may be made use of, as may be capable of a Construction very contrary to the true intent and meaning of such Application.

M^r Matthews from the Committee of Aggrievances &c^a delivers the following Report

By the Committee of Aggrievances and Courts of Justice May 13th 1728.

Your Committee having received information that some time in April or May in the year 1736 Peter Taylor Esq^r then High Sheriff of Dorchester County having a Comon Capias did arrest a certain Thomas Brannock of the same County, that the said Sheriff did constitute the said Thomas Brannock his Bailiff, who acted as such, and continued in the said Condition till Court and was then brought by said Sheriff into Court as his prisoner. That notwithstanding the aforesaid Service done by the said Thomas Brannock for the said Sheriff, He the said Sheriff charged him full Fees, Viz^t Twenty pounds of Tobacco p day, allowing him no Satisfaction for his Services aforesaid.

That the said Thomas Brannock on his Appearance in Dorchester County Court by Francis Allen his Attorney did move to have his Appearance entered, on which Condition He would give Bail Altho the plaintiff had not entitled himself thereto, both which He thought himself entitled to.

To the first (without Bail) because no Cause of Action Did then appear in Court, and to the second because He conceived it to be his right by the Laws of the Land, which right He had not to his Knowledge forfeited, but to his great grievance was refused both: and told by that Court He must come to Tryal immediately, for that M^r Charles Goldsborough the plaintiff was an Officer of that Court and thereby had right to have it so done, by means of which hasty proceedings the aforesaid Thomas Brannock was obliged to Suffer under a Judgment, which was the utmost rigour put into Execution against him. Your Committee do humbly conceive that the Sheriffs pro- p. 764

May 15th 1738.

Your Committee having received information that the Honourable Henry Hooper and Stephen Knight Esq^{rs} two of his Lordships Justices of the Provincial Court being appointed to ride the Circuit on the Eastern Shore, at the Court of Assize held for Talbot County, at the said County Court House in April last past being and judiciously Sitting, did receive a presentment of their Grand Jury of inquest against several of the Justices of the same County Court, for that They the said County Justices had refused to issue Subpena's at the request of the Grand inquest at the Court held for the said County in the month of March last past (as will more plainly appear by the Presentment herewith brought into this Honourable House) which Presentment the said Henry Hooper and Stephen Knight did not only quash, but on an Application of the then grand inquest for subpeneing three or four Witnesses by whose Evidence they the said Jurors might inquire into the truth of certain Offences (said to be committed in that County) against the good rule and Government of this Province, One whereof being supened and sworn did refuse to send to said inquest, and others to summon, telling the said Jurors they must advize with his Lordships Prosecutor and inform him of the facts and Persons of which and against whom their Inquiries were levelled, Otherwise They the said Jurors should have no Evidence, that the then Jury conceiving such an Information would be a Manifest breach of their Oath, did inform the said Justices of Assize that then They could proceed no farther, notwithstanding which the aforesaid Justices did persist in their refusal. All which practices your Committee conceive to be not only an Omission of the duty of their Office, but an invasion of the Rights and Liberties of his Majesty's Liege Subjects of this Province and particularly on that part the Trial by Juries, and therefore submit them to the Consideration of this Honourable House.

M^r Matthews delivers following Report

By the Committee of Aggreivances and Courts of Justice
 May 16th 1738.

Your Committee observing that the Fees of several Officers and Ministers of this Province their deputed Ministers Servants and Officers are in Themselves as now paid excessive great and Oppressive to the Subject, that the said Fees are under no regulation of any Law of this Province that appear to your Committee.

That the said Officers and Ministers their deputed Ministers Servants and Officers by a power of a proclamation of the Right Honourable the Lord Prop^{ty} dated the 14th day of April 1733 and one order of Council dated 15th of July 1735, hereunto annexed, charge, levy, raise and Receive from his Majestys Subjects of this Province such Fees so as afs^d burthensome, great and oppressive to the discouragement ruin and undoing many of his Majestys Liege Subjects, and even the said Colour of power is exceeded by the unlimited will of many of the said Officers Ministers and their Deputys, Your Committee most humbly conceive that by the Common and Statute Laws of our Mother Country Great Britain (which of undoubted right and by the resolves of your Honourable House the Subjects here have and are declared to have a right to enjoy) such like Fees have been Settled and regulated by Courts of Justice or by Acts of Parliament. Your Committee further most humbly observe that from the earliest time of the settlement of this Province by British Subjects such fees have been adjusted and regulated by Acts of the General Assembly and not by any other Power or Authority untill of late.

Your Committee most humbly conceive that such Proclamations or orders of Council binding or determining the right or Property of the Subject are invasions on the Fundamental Constitution of this Province under the Royal Charter and against the lawful rights and Liberties of his Majestys Leige Subjects.

Your Committee humbly observe that in one of the first Acts made, Fees were rated in Money and Tobacco, which rate in money being (no doubt) adequate to the Service, such Officers Ministers and their Deputies were thereby restrained not to exceed it.

Your Committee likewise most humbly observe that many poor Tradesmen, Artificers Labourers and others throughout this Province making no Tobacco, execute their Trade Artifice Labour or

other business for the current Money of the Province, yet by the said Ministers Officers and other Deputies are charged such Fees in Tobacco, which they having not to comply or able to procure, are necessitated and tortiously compelled to pay for the same excessive and exorbitant prices in such Current money to the ruin of many Families and their intire Extirpation out of this Province and discouragement of those who remain to follow such their useful arts Labour and Industry and becomes a hindrance to the Settlement of this part of his Majesty's Dominions by so useful a people, with many other Evils productive of the same, all which Your Committee most humbly conceive to be an Aggrievance of a high nature and loudly calls for redress, but submitted to the consideration of Your Honourable House.

The Report of the Committee of Aggrievances relating to the Justices of Talbot County coming on this Day to be heard, the several Justices attended according to the Summonses of this House, who on reading the Report, made this Answer. As to the first part of the Report, They Severally make Answer, that the reason of their having refused Summonses to evidences offered to be sent up to the

L. H. J. Grand Jury was, because the Evidences refused to declare to the
 Lib. No. 45 Court what they were to be sent up to the Grand Jury for: and which they conceived they in their Judicial Capacity might do. As to the second part of the Report, complaining of their causing all persons obliged to attend their County Court, particularly such who are bound to keep the Peace, and for their good Behaviour to enter into recognizance for the payment of All such Fees as the Officers of said Court should charge Them with, They severally answer, they conceived They might do it, not only as it was heretofore used, but as it was several times argued in the Court and carried: That those persons should be obliged so to do.

An Order was made out to the Serjeant at Arms to take into his Custody immediately M^r John Leeds one of the Justices of Talbot County for expressions insulting the dignity and Honour of this House.

 p. 772 M^r John Leeds in custody of the Serjeant attended at the Bar of this House.

Robert Newcomb an Evidence being ordered to Attend, was sworn on the Holy Evangils of Almighty God, and deposed, that in Conversation on the road in Talbot County with the said Leeds: the said Leeds asked him which way He was going. He the said Newcomb told the said Leeds, He was going to serve some Summons from the Lower House of Assembly, requiring their Attendance on that House. That thereupon the said Leeds, told the said Newcomb, that He the s^d Leeds was summon'd likewise to Attend: That He beleived it was all owing to that Son of a Bitch M^r Nicholas Goldsborough, who the said Newcomb declared was one of the Members of the Lower House of Assembly. That He thought as a Magistrate in any misdemeanour in his Office, he was only punishable by the Government and not by this House. That the said Newcomb further declared, that the said Leeds told Him that he did not know, what power the Lower House had to call him before Them: For his part He did not think they had any more Authority to call him before Them, than his Horse, and were it not that the People would say if He did not attend, and that he did not value One button or Fart what the Lower House could do to Him. The truth of the Facts appearing to this House, the said John Leeds was further continued in the Custody of the Serjeant at Arms.

The Door-keeper acquainted M^r Speaker the Clerk of the Council told him to acquaint M^r Speaker he had a Message from the Upper House.

Whereupon the Clerk was ordered to deliver the following L. H. J.

M^r Dulany M^r Hammond and Doctor Carroll were ordered to prepare an Address to his Ex^{cy} the Governour relating to the Complaint against the Justices of Talbot County.

An ingrossed Bill entituled an Act for the Speedy and effectual publication of the Laws of this Province and for the encouragement of Jonas Green of the City of Annapolis, Printer, read and assented to, and sent to the Upper House by Major Sprigg & Col Colvill

The Justices of Talbot County being called before the House, M^r Speaker acquainted them that you have been called before this House, that you might have had the Opportunity of acquitting yourselves from a Charge of having misdemeaned yourselves in your Office as magistrates. Five of you have been charged with denying your Jury of inquest the common Usage or Method by which p. 773
They could possibly make the Enquiries they are sworn to, a thing unprecedented in this Province, and of the worst Consequence to all the good people thereof, which thing you have confessed to be true.

You have also acknowledged that you have obliged the Unhappy People of your Country who have been called to answer for some

L. H. J. Lib. No. 45 Misdemeanours to recognize in large Sums for the Fees of your Officers at a Time when there was no legal regulation. Which practice is unknown to our Mother Country there, if such an Officer take bonds for Fees tis extortion in Him, tis much more so, where it is attended with an Encrease or expence, These crimes were they committed maliciously or corruptly, ought certainly to be punished in the severest manner by the Courts below But as this House hope you did these things only because you were not better advised, and that you will for the future act more circumspectly; this House think fit for the present only to admonish you, ever to remember that lenient Maxim, That the highest Justice may be the greatest Injustice, ever in Judgment, remember Mercy, the unbiassed and impartial Administration of Justice will not only redound to the Honour of the Government and peace and Tranquility of the People, but to the Glory of God. With this Admonition and caution, that in case you persist in the aforesaid evil practices, you may depend on no indulgence from this House, and on five of you, Viz. M^r Thomas Bozman, Riden Bozman, John Leeds, Anthony Richardson and John Robins, paying the sum of thirteen pounds Seventeen Shillings (that sum being due to the several Officers of this House and Evidences whose Attendance you have occasioned) you are all dismiss'd, except M^r John Leeds who is yet to remain in Custody of the Serjeant.

Cot King and M^r Denton ordered to tax the several fees due to the several Officers of this House.

They afterwards delivered the following taxation Viz.

In pursuance of the Order of the Lower House of Assembly to settle sundry Fees arising due to the Officers of that House (and sundry Evidences for Attendance) on a complaint made there against the Justices of Talbot County Court. Mr Wootton delivers Mr Speaker the following Report.

By the Committee appointed to enquire into the facts contained in the Petition of Benjamin Howard of Ann Arundell County May 20th 1738

Your Committee upon enquiry into the said Facts, find that the Right Hon^{ble} Charles Absolute Lord and Proprietary of the Province of Maryland &c^a by his Letters Pattent under the Great Seal

L. H. J. of this Province bearing the date the 18th Day of Feb^{ry} in the Year
 Lib. No. 45 of Our Lord One Thousand six hundred Eighty and Eight did Grant unto Leonard Wayman of Ann Arundell County in Fee a Tract of Land called Ovenwood Thicket scituated in Ann Arundell County in the Fork of Patuxent River containing Two hundred Acres under the Yearly rent of eight Shillings Sterl And the said Tract of Land after the Death of the said Leonard Wayman descended to Edmund Wayman Eldest son and Heir of the said Leonard as we are informed by the affirmation of Richard Snowden of Ann Arundell County, And the said Edmund so thereof seized being, did by his Deed of Bargain and Sale in due Form of Law executed and enrolled bearing date the Ninth Day of March One Thousand Seven Hundred Thirty and Seven convey the same unto Thomas Rutland of Ann Arundell County in Fee, and the said Thomas Rutland so thereof seized being, afterwards by his Deed bearing date the fourth Day of May One Thousand Seven Hundred Thirty and Eight duly executed and enrolled did convey the same to Benjamin Howard the Petitioner and to his Heirs and Assigns for ever, and Your Committee further find that the Right Hon^{ble} the Lord Prop^{ty} that now is, by his Letters Pattent bearing date the tenth Day of June Seventeen Hundred Thirty and Four Did grant unto John Fowler in Fee a Tract of land called Fowlers Range scituated in Ann Arundell County in the Fork of Patuxent River afs^d adjoining to the said Tract of land called Ovenwood Thicket, containing One hundred Thirty and Three Acres at the rent of four shillings p hundred acres, Twenty eight acres of which and also two acres of Land part of a Tract of Land called Waymans Marsh adjoining to the said Tract called Ovenwood Thicket, the said John Fowler & Mary his then wife by their Deed of Bargain and Sale in due form of Law executed and enrolled bearing date the fourth Day of May in the year of Our Lord Seventeen Hundred Thirty and Eight did convey unto the Petitioner Benjamin Howard in Fee by the name of Howards Addition.

Your Committee further find by the affirmation of the said Richard Snowden of Ann Arundell County that the said Tract of Land called Ovenwood Thickett containing two hundred acres and also Thirty acres of Land now called Howards Addition being part of the other Tract above mentioned called Fowlers Range are of more Value by Twenty or Thirty pounds Sterl than the Tract of Land called Roper's Neck, the said Tracts of land called Ovenwood Thicket and Howards Addition being level, good and well timbered, very convenient for business, a Plantation cleared; one

M^r John Leeds was called to the Bar, M^r Speaker delivered to him this Charge

You have been charged here with having said that you know not by what Authority this House called you before Them. That you thought as a Magistrate You were for any Misdemeanour in your Office only answerable to the Government, and not to this House: And that you valued not a button or fart what this House could do to you, and were it not, you thought people wou'd think you were fearful of appearing here, you would not attend Them on their Summons; and that you further said, this House had no more Authority to call you before Them than your horse had; also that you have grosly abused M^r Nicholas Goldsborough a member of this House by calling Him a Son of a bitch, and Saying 'twas by his means you were called here. Which matters have been fully proved against you.

And Forasmuch as this house ordered you amongst other Magistrates of Talbot County to pay your proportionable part of certain Fees that have accrued on an Accusation made here against you and Them, and that you have refused the payment of your part thereof.

Gentlemen of the Upper and Lower Houses of Assembly

I presume none of you can be ignorant of the necessity I was under
 p. 2 of dissolving the last Assembly; The Misunderstanding betwixt, the
 Two Houses, having not only put an entire Stop to all Business, but
 even to the least Intercourse of Messages the only Means of accom-
 modating the Affair without the Interposition of the Government

The ill Effects of Heats and Animositities between the several
 Parts of the Legislature, have been so plainly manifested on this
 Occasion, that I flatter myself We are now met together with a full
 Resolution to avoid them as much as possible

For my own Part I can very truly assure You, that no Man is come
 to this Assembly more sincerely desirous of the Welfare of the
 Province than myself, or more willing to give a helping Hand to the
 Removal of every Obstacle to its Happiness and Prosperity:

But then it must be allowed, that Temper and Moderation will be
 always necessary, to consider rightly of such things as may come
 before us, the wisest Assemblies being lyable to be misled by the too
 great Warmth even of honest and well meaning Men, as well as by the
 artful Practices of such as know how to cover their own private and
 self interested Views with the Specious Appearance of Zeal for the
 Publick Good

It is well konwn what Pains I took sometime ago to continue the
 Bill for the Payment of his Lordships Rents and Alienation fines
 by a Duty on Tobacco, as likewise to make Our Paper Money pass
 in Payment of the 40 ^p Poll, and Officers fees at the Rate of Ten
 Shillings ^p hundred, and with what Warmth and Zeal these Points
 were opposed by many Gentlemen, who then thought they were doing
 their Country great Service.

At present I believe few are so partial as not to acknowledge that
 the Government was then acting for the General Benefit and Ad-
 vantage of the People, whose Interest was greatly mistaken by their
 own Representatives, which I am perswaded could not have hap-
 pened, had that serious and impartial Deliberation been made Use of,
 which I am now recommending

How inclinable the Clergy may be to come into a new Agreement I cannot take upon me to say, but Publick Good will no doubt be a very Strong Motive with them, as I am confident it will always be with the Officers to joyn with them whenever an Occasion offers: The many Advantages that would accrue to the Country by so great an Addition to the Uses of Our Paper Money seem to me so very evident, that I cannot help recommending to you, to take this Affair once more into Consideration, and to try if such a Reasonable Medium may not be agreed on as shall be to the Satisfaction of all Parties which I hope will not prove so difficult a matter as it may at first sight appear to be, if We set about it with that Attention and Candour, which an Affair of so much Importance to the Country requires

U. H. J.
No. 734

p. 3

If after all Our Endeavours a General Law should be found at present impracticable, the particular Circumstances of Our Back Inhabitants will naturally offer themselves to Your Consideration; the permitting them to pay their Dues in Paper Money will not only free them from the Necessity they now lye under of making Tobacco, and leave them at Liberty to go up on other Commodities more useful to the Country as well as themselves, but be a Step towards a General Law, which may possibly be brought about by Degrees, as People perceive the Value and the fulness of Our money increase, with the Enlargement of its Currency

Gentlemen

You are all too well acquainted with the Temporary Laws that are to expire with this Session of Assembly, to make it necessary for me to mention them in particular; however the Duty of my Station does not permit me to pass over in silence That for raising the three Pence π hogshead for purchasing Arms and Ammunition; That Law is so absolutely necessary for the Defence and Safety of the Province, that I think myself obliged to recommend it to you in the most earnest Manner; and I cannot but perswade myself that my Recommendation will have the more Weight, as you must see by the Accounts, which I shall order to be laid before you, that they are so very clear, as not to leave the least Room to the most malicious Enemies of the Government to make any fair and open Objection to them, whatever they may attempt by private Whispers and Insinuations

Mrs. Denton and Lloyd from the Lower House acquaint his Excell^y that their House hath made Choice of M^r Michael Macnemara for their Clerk and hopes for his Excellencys Approbation to whom his Excellency is pleased to declare that he doth approve of M^r Michael Macnemara to be Clerk of the Lower House.

Benjamin Tasker Esq^r attended by the Members of this House presents his Excellency the Governor the Address of this House which follows in these Words.

To His Excellency Samuel Ogle Esq^r Governor and Commander in Chief in and over the Province of Maryland.

The humble Address of the Upper House of Assembly

May it please Your Excellency

We are very sensible of the Necessity Your Excellency was under by the Misunderstanding betwixt this and the late Lower House of dissolving the last Assembly; and We most sincerely wish, it had been in Our Power, as much as it was in Our Inclinations and Endeavours, to have prevented or removed, by any Method consistent with the Dignity of this House, that Stop to Business which made the Interposition of the Government so indispensable.

Your Excellency has been pleased to express so kindly your Desire for the Welfare of this Province, and Your Willingness to promote its happiness and Prosperity, by giving a helping Hand to the Removal of Every Obstacle, that We beg Leave to make Our grateful Acknowledgment of Thanks, and assure Your Excellency that We are sufficiently convinced by the late and other Occasions of the ill Effects of Heats and Animosities between the several Parts of the Legislature

The Inhabitants of this Province have met with so many disappointments in their Expectations of real Good and Benefit from the Meeting of Assemblys for Want of the Temper and Moderation you are pleased to recommend, that We are fully resolved carefully to avoid, as much as possible, every Occasion or Step that may

U. H. J. interrupt or divert Us from the Care and Earnestness We ought
 No. 734 to have by the Duty of Our Stations, without any private Views,
 for the Publick Welfare and Prosperity

Notwithstanding the ill Success of the Generous Pains which your Excellency formerly took for the Benefit and Advantage of the People, in your Endeavours to continue the Bill for the Payment of his Lordships Rents & Alienation fines by a Duty on Tobacco, and for enlarging the Currency and Circulation of Our Paper Money by the Payment of Officers fees and the 40 p Poll therewith; yet Your Excell^{cy}s recommending this Affair of Our Currency once more to Our Consideration will engage that Attention and Candour from Us, which a Matter of so great Importance to the Country requires; Nor can We despair of a reasonable Medium being fixt to the Satisfaction of all Parties, since We are perswaded every Officer will most chearfully joyn with the Clergy towards procuring the many Advantages that would accrue to the Country by so great an Addition to the Uses of Our Paper Money; And although Our present Endeavours should not have the desired Effect by a General Law, the next best Step must certainly be, to put Our Back Inhabitants in such a Situation, as may not only free them from the Necessity of making Tobacco, and leave them at Liberty to be industrious in other Commodities more useful to the Country as well as themselves, but also may be a means to prove more plainly and effectually the Expediency of a General Act

Col Matthew Tilghman Ward attended by the Members of this House presents to his Excellency the Governor the following Address of this House.

U. H. J. To His Excellency Samuel Ogle Esq^r Governor & Commander
No. 734 in Chief in & over the Province of Maryland.

The humble Address of the Upper House of Assembly

May it please Your Excellency

We were in Great Hopes that by the Dissolution of the last Assembly the necessity of entering into and troubling Your Excellency with a Detail of the Occasion and Circumstances of the Misunderstanding between the two Houses of that Assembly would have ceased with the Being of the late Lower House; but the printed Address of the present Lower House to your Excellency and your Excellency and Your Answer to that Address leaving that Affair to our Consideration, call upon us to make publick the true Rise and Proceeding of that Difference and by a fair and candid State of the whole Transaction (as far as this House was acquaintd with it) to vindicate Ourselves from the Aspersions intended by the Address to be imputed to the Conduct of this House in that matter.

This House having in the Convention of the last Assembly sent one of its Members with a Message to the Lower House He returned and Acquainted this House that instead of being admitted as usual to deliver his Message He was desired to wait

This Treatment was so unsuitable to the Dignity of this House and so far from the mutual Decency and Respect which ought to be most Carefully Preserved by the two Houses towards Each other that we Could not suffer it without some Notice more Especially lest our silence on such Occasions might sometime or other not only draw on other Slights and Indignities but also be Urged as a Precedent for bearing or overlooking them therefore This House sent the following Message with several Paper Bills by their Clerk to be delivered to the Speaker as a Message from this House Viz. (See page 163.)

- p. 17 We humbly presume that Message and Messenger will most plainly manifest the sincere Desire and Intention This House then had to come to a right Understanding with the late Lower House on this Subject, and at the same time to Avoid as much as they Could in their Circumstances any Interruption to the publick Business or Offence to the Lower House; No disrespectful or Aggravating Term or Expression is made use of, but the reason of Altering Our Messenger expressed as Unexceptionably as could be conceived in Words: The Messenger sent to Communicate to the Lower House the Sense This House had of the Indignity, was the Only Person the Lower House Could with Reason and Justice expect, or this House Consistently with its Dignity send There are but three Sorts of Persons Viz. The members Clerk and Door Keeper Attendants and under the immediate Controul and Command of this House: And

however proper and usual it may be to send our Members as Messengers on other occasions of Differences or Affronts in Order to Prevent the like for the future yet when a Difference arises by an Affront offered to a Member on a Message to send another with a Message before some Satisfaction Given on that Head would expose such Member to the like Treatment, when and as it should please the Lower House since by such an Unworthy Condescension of the Upper House and the Business being still Continued and carried on through the same Channel the Lower House might never think themselves under any Pressing Necessity of clearing up what This House might Apprehend to be an Indignity

U. H. J.
No. 734

Had we employed our Door Keeper on that Occasion, The Lower House would have had some Reason to complain of a milder Medium not being used But as Our Clerk the next in Station to the members of this House, was sent We Conceive it will be as difficult to shew how a Milder Medium could have been used, As how This present Lower House now sitting by Virtue of Writts issued after the Dissolution of the last Assembly could have readily undeceived the Gentleman or the Honourable Board mentioned in their Address in relation to a Misunderstanding or Misapprehension that subsisted in the last Assembly if a Milder Medium had been then used

To this Message Sir, This House received in answer from the then Lower House the following Message viz. (See page 163.)

This Message is so very remarkeable in many Particulars that We hope for your Excellencys Indulgence whilst we make some Observations on it The first Paragraph begins with a Charge of Calling the Speaker out of the Chair by the Clerk of This House; We Confess the Clerk was sent with the Message & Bills already mentioned and with Orders to Acquaint the proper Officer attending at the Door of the then Lower House that "he had a Message from the Upper House to deliver to the Speaker" which Words we are Assured by the Clerk were very punctually made use of. But what Message such Officer carried to the Speaker, This House cannot pretend to say, Neither shall we presume to Judge whether by the Rules of the Lower House The Speaker is allowed to go out of the House to receive any Messages whatever from this House: But we hope this House is clearly Justified from any Imputation on Account of The Speaker of the late Lower House being Called out of the Chair and House by our Clerk, and therefore this House Could not but be Greatly Surprised at that Demand of Immediate Reparation contained in the second Paragraph of that Message

p. 18

The late Lower House proceeds in the third Paragraph to speak of the Treatment this House had Complained to have received from them The manner of their Apology is so very Uncommon that it cannot be thought strange This House could not readily find in it proper Satisfaction for the Indignity Complained of; That House

p. 19

U. H. J. would not Condescend to own the Fact, nor be pleased to deny it,
 No. 734 nor even endeavour to satisfy this House, how or in what manner it happened But only declares their Intention of not treating This House or any member of it “ but with the greatest Decency and good manners And that if any thing had happened which seemed to have a different Appearance it was not designed ” This Compliance being founded upon a Supposition or Doubt not only whether the Fact Asserted by this House was true or false; but even whether there was any Want of Decency or Good Manners, if it was true, This House could not look on those Declarations of Decency and Good manners and want of Design either as a sufficient Apology or Vindication for the ill Treatment shewed to them For had the late Lower House thought fit to have only denied the Fact, This House could most fully have made it Appear But if the Fact had been owned True this House might reasonably have expected from the Late Lower House an Apology for what they must have Acknowledged had a different Appearance from Decency and Good manners and by that Means have freed this House from any Apprehension of the like Treatment for the future, Whereas on the Fact of that Message A Question is made not only whether the Fact was true, but also whether if true it had such a different Appearance, so that this House could not be Assured that the next Member would not have received the same Usage since the Lower House did not Acknowledge such Usage Contrary to Decency and good manners

The fourth Paragraph takes notice of “ Messages being intended to be sent by this House for the future by their Clerk, and the Lower House expressly declare that they should be very well Content with it and follow our Example in sending all their Messages by their Clerk.”

After this Possitive Assurance from the Lower House of their being very well Contented with Messages being sent by the Clerk of this House We could not but have a true Satisfaction and Pleasure in our Prospect of Carrying on the Publick Business and accordingly Prepared a civil and suitable Answer to the last Message and sent the Same by Our Clerk, was refused Admittance; Notwithstanding which This House still earnest and desirous to dispatch the publick Business was willing to impute this Unexpected Refusal of Receiving Messages by our Clerk to any Cause or Accident, rather than to a determined Resolution of Contradicting what had been so
 p. 20 Expressly Promised by them in their last Message and therefore sent the Clerk Again the next day who waiting an Hour at the Door after he had given the Proper Officer Notice of his having a Message to deliver from this House was Obligated at last to return without being Admitted to deliver such Message upon which this House finding an entire Stop put to the Communication of the Two Houses and to the publick Business made their humble Applica-

tion to your Excellency to interpose your Authority in such manner as might best prevent a further needless Expence and Burthen to the Province

U. H. J.
No. 734

This being the true State of the late Misunderstanding between the Upper House and the late Lower House we cannot but think the present Lower House had very little Reason to impute it to the Misapprehension of a Gentleman whose Honour and Understanding cannot be Doubted and more especially since the late Lower House did not think fit to Point out or even suggest any such Misapprehension

We do with much Truth and sincerity declare to your Excellency that we should have been very well Pleased if the Duty we owe to the Honour of this House and to Our own Characters had not Exacted Our Endeavours to Free Ourselves from every ill Construction that may be put on the many Insinuations in the Address of the Present Lower House as if this House retarded the dispatch of the publick Business in the last Assembly and we Cannot make the least Question but that Every Impartial Person must be Convinced that whatever Advances this present Lower House made in the last Assembly for the dispatch of publick Business yet that the late Lower House did not make such as were Proper to Remove that Stop which was put to Business by the Misunderstanding between the Two Houses

Gentlemen of the Upper House of Assembly

I have perused your Address delivered to me yesterday which gives an Account at large of that unhappy Misunderstanding betwixt the Two Houses, which laid me under such an absolute Necessity of dissolving the last Assembly

I shall not take upon me to judge which of the Two Houses was in the wrong upon that Occasion, however I must do you the Justice to own, that it was impossible to shew more Temper and Moderation than Your House did at the Opening of this Session, which I was in hopes would have entirely prevented the least Revival of a

A Message from the Lower House by Mess^{rs} Denton and Courts

By the Lower House of Assembly 29 May 1739

May it please Your Honours

This House having received several Complaints from many Parts of this Province concerning Officers fees, prepared a Bill for the

U. H. J. Limitation of them as the best and only Expedient to remove all
 No. 734 Causes of Complaint and to satisfy all Parties, which Bill Your Honours have not thought fit to pass.

We can't imagine your not passing the said Bill could have proceeded from any Inclination in Your Honours not to joyn your Endeavours with Ours to render the People easy and to remove every Obstacle to their Happiness

This being the Opinion We have of Your Honours, We apprehend that your refusing to concur with this House in the said Bill was occasioned by some weighty Objections, which you thought you had to some Parts of it: If we judge right of your Honours Motives, We still entertain Hopes that either your Objections may be obviated or such Expedients found out as may remove all Difficulties to settle the Fees upon such Foundation as will be certain and satisfactory, as well to the People who pay, as the Officers who shall be entituled to receive them

To this End we propose a Conference with such Members of Your House as you shall think fit to appoint for that Purpose

The following Message is sent by James Hollyday Esq^r

The Upper House of Assembly 30 May 1739

Gentlemen

Your Message of yesterday by Mess^{rs} Denton & Courts gave Us real Satisfaction for that you seem now after sitting above four Weeks to shew a Disposition to proceed in some Manner likely to attain the great End desired by Us, the Ease and Good of the Country, and also by the same Message you most truly and candidly declare the Opinion you cannot in Justice avoid having of Our sincere Inclinations and Endeavours to render the People easy, and remove every Obstacle to their Happiness; As these Points have been our Constant Aim, we cannot but comfort Our selves in the just Sense the Lower House of Assembly entertains of Our sincerity, And therefore you conclude very rightly that Our Refusal to concur with the Bill mentioned in Your Message was occasioned by some weighty Objections, which we shall not be less pleased to have obviated, than to receive any such Expedients as may remove all Difficulties to settle the Officers fees satisfactorily to all Parties; although We are very well assured the Regulation of the Lord Proprietary makes the Fees sufficiently certain: Nor is it to be imagined that by an Act of the Legislature Complaints concerning Officers fees can be totally prevented, such Complaints being often promoted by the clamourous and uneasy Dispositions of restless and turbulent Persons without any just Foundation therefore We think the Legislature ought to be very careful not to give any Encouragement to Complaints upon trifling Occasions, especially considering that any

U. H. J. Complaints may be remedied or put in a Course of Justice by the
 No. 734 Governor without interrupting or delaying the Proceedings of the
 General Assembly of this Province sitting at so great an Expence

However still further to confirm you in your just Opinion of Our
 Inclination to do Everything in Our Power that can be serviceable
 to the Country, We agree to a Conference as you propose, and have
 accordingly appointed Edmund Jenings and Levin Gale Esq^r to
 joyn such Members as shall be appointed by Your House

A Message from the Lower House by Mess^{rs} King and Lloyd.

By the Lower House of Assembly 30 May 1739

May it please Your Honours

Your Message by James Hollyday Esq^r gave Us a real Surprise
 in that you thereby insinuate, that after above four Weeks sitting,
 We had not till the 29th Instant shewn any Disposition to proceed,
 and that only in Some manner likely to attain the Great End you are
 pleased to say is by you desired, the Ease and Good of the Country

We can appeal to Every One who shall peruse Our Proceedings,
 whether we have not been assiduously employed during Our sitting
 in enquiring into Publick Grievances, proposing and passing new
 Bills, and renewing such Laws as would expire, where We have
 judged them necessary for the Welfare of the People, and how far
 Our Endeavours have succeeded therein, by the Concurrence of
 Your House, let the impartial World judge

Could We be of Opinion that the Regulation of Officers fees by the
 Lord Proprietary, could give the People We represent Satisfaction
 or make them sufficiently certain, We should not have given Your
 p. 37 Honours the Trouble of this, or our other Message by Mess^{rs} Denton
 and Courts

We cannot look upon the many Complaints brought Us from all
 Parts of this Province, grounded on the many Extortions com-
 mitted by the Officers, to be without just Foundation, or to proceed
 from the clamourous and uneasy Dispositions of restless and turbu-
 lent Persons, unless those can be called such, who complain of real
 Aggrievances imposed on them by the Officers, nor do We know of

any Way to suppress those Aggrievances but by an Act of the U. H. J.
Legislature No. 734

We wish We could say those Complaints brought Us had been on trifling Occasions, if they had, they would never have met with Encouragement from Us, but as they appear otherwise, We cannot think We can be better employed than in finding Means to redress the Evils, and punish the Offenders

However We are further confirmed in Our Opinion of your Inclination to do Everything that can be serviceable to the Good of the Country, by appointing Edmund Jenings and Levin Gale Esq^r to join such Members as shall be appointed by Our House in the Conference proposed, and accordingly have appointed Doctor Charles Carrol, Mess^{rs} Joshua George William Stoughton, Vachel Denton James Calder and Robert Jenkins Henry Members of this House to join those honourable Members of Your House in that Conference at such time and Place as to your Honours shall seem meet

U. H. J. and Governor within this Province and will not pass, sent to the
 No. 734 Lower House with the following Message by George Plater Esq^r

By the Upper House of Assembly 31 May 1739

Gentlemen

Upon Considering the Bill for raising an Annual Revenue for the better Support of his Lordships Government and Governor within this Province We have thought fit not to Pass it And we are Perswaded you will upon Reconsidering that Bill Concur with us in the Reasonableness of Our Refusal

In the first part of the Preamble it is set forth "that it doth not appear to this Present General Assembly that there is any Law now in force to raise a Sufficient Support for the Purpose mentioned in the Bill" In which Assertion we cannot Agree with you And We have the Happiness to be Supported in our Opinion by the Words Used towards the latter part of the Preamble of that Bill wherein it is said that "it is not the Intention of this Assembly to deprive the Right Honourable the present Lord Proprietary of a Sufficient And Honourable Support for his Government and Governor for the time being in and over this Province" By this it is necessarily Implied that his Lordship has a Right and Title at this Time to such a sufficient and Honourable Support as he may be deprived of

This is very true but Contrary to the former Allegation of no Law to raise a sufficient Support since the Perpetual Law only of 1704 raises that support And further We Apprehend no Power less than a Legislative one can deprive him of that Right which is declared by the Bill not to be the Intent of the Legislators. But be pleased to Consider how well that declaration and the Continuance of this Bill for three years Agrees with some Arguments in the Preamble fetched from temporary Laws being Enacted as if such temporary Laws destroyed the Perpetual Law of 1704; And as We are Inclined to Believe there is no Intention to deprive his Lordship of a sufficient and honourable support of Government We cannot think it Adviseable by Passing this Bill to Afford another Instance of a Temporary Law, since such strange Inferences not War-
 p. 39 ranted by any Rules whatever are drawn from Temporary Laws and our Conduct in this matter must appear the more satisfactory to you since the Grand Reason of that Bill seems only to be, in order to Assert and maintain that principal and most Essential Branch of Liberty which the Assembly conceive themselves "intituled to as Subjects of Great Britain of not being liable to the Payment of any money Tax Impost or Duty except such as shall be warranted raised and Assessed by Laws made by themselves and the Other Branches of the Legislative Body" If this is the true Motive, and no Intention to deprive his Lordship of the support of Gov-

ernment it must be more reasonable and even necessary to make a Perpetual rather than a Temporary Law, since on the one Hand the End Proposed of not being Liable to any Tax &c but such as should be Warranted by Laws made by themselves would in this particular be fully answered and on the other hand the Intention of not depriving his Lordship of the support of Government would be put beyond any Possibility of Doubt: And We have the less Reason to Apprehend Your Difference in Sentiments with Ours on this head since by the Act of 1704 only Twelve Pence p hhd is raised which by this Bill is Admitted to be a Proper and necessary Support for Government so that by a Perpetual Law now to be made His Lordship would not be entituled to more than what the Perpetual Law of 1704 gives him

Further the Body or enacting part in the Bill Contains some Appropriations or Uses perfectly new in Bills of this Kind and upon the whole we rest Assured you will think us well Justified in Rejecting that Bill.

The Aforegoing Bill being Ordered to be entered at large in the Journal of this House is as follows

An Act for raising an Annual Revenue for the better Support of his Lordships Government and Governor within this Province

Whereas upon the most Serious Consideration of the several Laws heretofore made for Raising and Levying money for the Support of the Right Honourable the Lord Proprietary his Government in and over this Province and maintainance of his Governor for the time being It doth not appear to this present General Assembly that there is any Law now in force to raise a Sufficient Support for that Purpose but that from the twenty ninth day of September In the year of Our Lord One thousand Seven Hundred and thirty two down to this time the sum of twelve Pence Sterling for every Hogshead of Tobacco exported out of this Province hath been Collected and Levied from the Inhabitants thereof under Colour and Pretext of An Act of Assembly made the fifth day of September seventeen hundred and four whilst this Government was immediately in the Crown Entituled an Act for Settlement of an Annual Revenue upon her Majestys Governor within this Province for the time being on a Supposition or Misapprehension that that Act whereby the said Twelve Pence was Given to her late Majesty Queen Ann her Heirs and Successors For the Support of her Government for the time being in and over this her Majestys Province did extend to the Lord Proprietary his Governor and Government And Whereas after the most mature deliberation it Manifestly Appears to this General Assembly that the Lord Proprietary is not within the words of the Aforesaid Act nor by any Reasonable Construction can be Compre-

p. 40

U. H. J. hended within the Sence and meaning thereof not only by what may
 No. 734 be Gathered from the different Acts heretofore made of the like kind
 at the respective times when this Government was in the Hands of
 the Proprietary or in the Crown whereby the Aforesaid or the like
 duty in one Case hath been always Given to the Proprietary and his
 Heirs and in the other to the King and Queen their Heirs and Suc-
 cessors for the support of their Governor and Government for the
 time being But Also from what Appears to have been the Sence
 of our present Lord Proprietary concerning the same from the time
 of his Admission to the Government until the Year Seventeen hun-
 dred and Thirty two Aforesaid by his Assenting and Becoming a
 Party to several Acts made in that time for raising a duty for the
 Support of his Government in every of which the said duty has been
 Expressly Given to himself and his Heirs without mentioning the
 King and likewise by his Assenting to and passing another Act
 now Subsisting entituled an Act for transferring the Payment of all
 such Fines and Forfeitures as shall hereafter Arise or happen upon
 the Breach of any the Penal Laws of this Province to the right
 Honourable the Lord Proprietor Although the Words by which
 these Fines and Forfeitures are Given to the Kings and Queens
 aforesaid are Exactly the same with those which Give the Twelve
 Pence p hhd in the Act of Seventeen hundred and four and Foras-
 much as it is not the Intention of this Assembly to deprive the right
 Honourable the present Lord Proprietary of a sufficient and Honour-
 able Support for his Government and Governor for the time being
 in and over this Province but only to Assert and maintain to them-
 selves their Constituents and Posterity that Principal And most
 Essential Branch of Liberty which they Conceive themselves en-
 titled to as Subjects of Great Britain of not being Liable to the
 Payment of any Money Tax Impost or duty Except such as shall
 be Warranted Raised and Assessed by Laws made by themselves and
 the other Branches of the Legislative Body of this Province It is
 therefore humbly prayed that it may be enacted and be it Enacted by
 the Right Honourable the Lord Proprietary by and with the Advice
 p. 41 and Consent of his Lordships Governor and the Upper and Lower
 Houses of Assembly and the Authority of the same that for and
 during the Continuance of this Act the Sum of Twelve Pence Ster-
 ling Money of Great Britain shall be raised Levied and Collected for
 every Hogshead and Quantity of an Hogshead of Tobacco which
 shall at any Time after the end of this Session of Assembly be Shipped
 or put on Board any Ship or Vessel to be exported out of this
 Province or any the Territories thereto belonging which said Sums
 shall be Collected and Received by the several Naval Officers of this
 Province of and from the Masters or Commanders of such Ships
 or Vessels at the time or times of their Clearing out the said Ves-
 sels at the Respective Custom Houses of this Province and the same

so Collected and Received shall be paid to his said Lordship his Heirs or Successors as to such other Person or Persons as he or they shall Authorize and Appoint to Receive the same to be by the said Lord Proprietary his heirs and Successors used and Applied for the support of his Lordships Government and Governor within this Province in the same manner and to all and every other Ends and Uses as the said Duty had been formerly Applied by the Acts of this Province Granting the same to his Lordships noble Predecessors and since his said Lordships being restored to this Governmt the same duty has been paid and Granted for and not otherwise this Act to Continue until the twenty ninth day of September which shall be in the Year of our Lord One Thousand Seven hundred and forty two.

that the Upper House could agree to no Law to establish Officers
fees but what should be perpetual and were ordered not to proceed

Point should be made known

To which the Conferees appointed by the Lower House say they

The Conferees of the Lower House deliver the Conferees of the
Upper House the Directions of the Lower House to their said Con-

House which Directions are as follow Viz.

This house having taken into Consideration the Report of their
Members appointed Conferees concerning the Officers fee Bill and
the Proposal made by the Conferees appointed by the Upper House, p. 44
of making that Bill a perpetual Act, do unanimously agree that it
would be of the most dangerous and destructive Consequence to the

And that their Conferees af^d have it in Charge to Acquaint the
Conferees of the Upper House with this their Resolution and reject
the Proposal aforesaid

And that if the said Conferees from the Upper House should refuse
to proceed in the Conference without this Houses acquiescing in that
Proposal, they be told as from this House that all the Evils that shall

The Conferees adjourn to three of the Clock in the Afternoon

The Conferees meet according to Adjournment; And thereupon the Conferees of the Upper House deliver to the Conferees of the Lower House a Paper, the Purport of which is in the following Words Viz.

We the Conferees appointed by the Upper House have it in Command from that House, to acquaint the Conferees of the Lower House, that they conceive the Proprietarys Authority to settle Officers fees where there is no positive law for that Purpose to be indisputable, and that they apprehend the Exercise of such Authority to be agreeable from Time to Time to the several Instructions from the Throne to the respective Governments; and therefore that the Upper House cannot but think a Perpetual Law in this Case reasonable and necessary to settle all Disputes now and hereafter, and which End could not be obtained by a temporary Law, And further if any Uneasiness should happen in the Country for Want of a Law to ascertain the Fees, the Upper House will have this Satisfaction, that they have made such Advances towards such a Law, as they doubt not will meet with the Approbation of their Superiors and every impartial Person, and upon the whole we are again ordered by the Upper House not to consider of the Quantum of the fees unless a Perpetual Law be agreed to by the Conferees of the Lower House

May it please Your Honours

The Arguments used in Your Message of the 31st of May by George Plater Esq^r for not passing the Bill to raise an Annual Revenue for the better Support of his Lordships Government and Governor within this Province serve only to confirm us the more in the Justice of Our Proceeding in this Matter not doubting that if anything better could have been said on that Head, Your Honours could not have been at a Loss to find it out

The Conclusion You draw, from Our declaring Our Intention not to deprive his Lordship of a support of Government, We beg Leave to say will not follow, for that as a Person may possess so may he be deprived of a thing to which he has no Right, which we take to have been his Lordships Case with Regard to the Twelve pence p^p h^h^d ever since the year 1733; nor is it from the Repeal of the Law in the Year 1704 by other temporary Laws, that we deny his Lordships Right of levying that Money upon Us but because his Lordship never had any such Right by that Law

Whatever your Honours may think of raising Money on a People by perpetual Laws, We imagine it a Doctrine would sound harsh in the Ears of Our Mother Country and what We in Justice to Ourselves and Our Posterity are resolved, as much as in our Power to avoid

We cannot see that the Application of the Money to be raised as mentioned in the Body of Our Bill can be called new, unless that
p. 47 directed by all the former Acts made for the granting the like Support to his Lordship and his Ancestors can be termed so

However, it seems, this Matter must be determined by a Judge indifferent both to his Lordship and us, and as it cannot be negotiated on Our Part without Money to employ some fit Persons to act in the Countrys behalf, We expect Your Honours Concurrence to the Bill herewith sent for taxing Ourselves for that Purpose lest if that should be refused, the World might say that We are attacked unarmed, and denyed the necessary Means of doing Ourselves Justice in a Dispute wherein the most essential Branch of the Privileges and Liberties of British Subjects are in Contest, and of that great Advantage due to his Majestys American Subjects of applying to his sacred Person for Redress and Protection

By the Upper House of Assembly 5 June 1739

Gentlemen

As you seem by your Message of the 4th Instant to think that the Arguments in our Message of the 31st of last month Served only to Confirm you the more in the Justice of your Proceeding in that

U. H. J. matter we doubt not you Imputed our making Use of such Argu-
 No. 734 ments rather to our Good nature than our Weakness And therefore
 we might have expected a like Return of Goodness from you in
 pointing out to us particularly what Force those Arguments had to
 perswade you of the Justice of your Proceeding, Especially since by
 that means We might perhaps have been also Convinced of the same
 thing, But as you have not been Pleased to Vouchsafe to us that
 Satisfaction We must Conclude that you are unwilling or Unable to
 sett us right

You indeed deny his Lordships right of Levying money by Vir-
 tue of the Act of 1704 But as we Cannot be convinced barely by the
 Authority of such a Denyall without some Reasons to inforce it we
 are still of Opinion that His Lordship has such Right, by that Law
 of 1704 which as you very truly Insinuate is not repealed And al-
 though you will not Agree with us as to the right yet you very
 Candidly Admit His Lordship has been in Possession of a Support
 of Government ever since the year 1733 If that is his Lordships
 Case as you say it is, We are at a Loss to know How you can be said
 to be Attacked on the Contrary, not only We, But even you and the
 rest of the World must say That the Government Confessedly in
 Possession of a Support is Attacked in Order to Deprive them
 of it

We should not be less Pleased to be Convinced than to Convince,
 And we are Assured you would not have been at a Loss to show the
 same Terms of appropriation and uses in other Laws as were incerted
 in the Bill for raising and Annual Revenue &c. if there had been any
 such

We must Acknowledge Ourselves greatly Mistaken in what Con-
 cerns His Majestys other Plantations if the Doctrine of Raising
 money by perpetual Laws Is so Harsh as you are Pleased to Repre-
 sent it But the Perpetual Law Amongst Our Neighbours in the
 Colony of Virginia for the Support of that Government the late
 Perpetual Law of 1692 and the Present of 1704 in this Province for
 the same Purpose As also the frequent Royal Instructions requiring
 the same in other Plantations satisfy us that the mention of such
 p. 49 Laws is not only usual to English Ears but Agreeable to His Majestys
 Pleasure

The Bill Intituled an Act to raise a Fund to be Applied for the
 Payment of an Agent and other necessary Uses of this Province
 which you were Pleased to send to us We now return with our
 negative to it, For However necessary and convenient it may be
 that there should be an Agent at the Imperial Seat, or (If we may
 be Permitted to say) at the Court, of Great Britain, yet We cannot
 but think it reasonable and Decent that the Concurrence of the Gov-
 ernor and Upper House should be made necessary in the Nomina-
 tion and Appointment of the Person Designed for that Imployment.

The Agents on Behalf of other Plantations are Generally nominated by the Legislature or Governm^t But This Bill strikes Out of the common Road and by an Unaccountable Piece of Policy not only places the Power of such nomination in certain Persons to be Appointed by the House of Delegates and to be Called Trustees But also gives to such Trustees The sole authority of Paying such Agent so that if This Bill should be passed into a Law such An Agent could not be so properly stiled the Agent of the Province, as the Minister of the Trustees for he must depend on their sole Will and Pleasure for his Being and Continuance in the Agency and on their Generosity for his Pay

U. H. J.
No. 734

As to the Trustees the very nature of their Power would Change their name or Title of Trustees into that of Guardians and what relative Term would best suit not only the Legislative Power but the whole Province to answer that of Guardian We shall not Presume to mention But there might be reason to Wish (If such a Bill should be a Law) That the Conduct of such Trustees represented by their Minister at the Court of Great Britain and not Unarmed (as you are Pleased to Express Yourselves in your Message) with that Fund might not deserve a Worse Character and more to the Reproach of their Constituents and Danger of the whole Province than that of Guardianship Although a Prettier Scheme for Power and Profit in our little World of Politicks could Hardly be thought of yet far be it from us to Imagine that any Persons Either in or out of Your House had any share in this Admirable Project with a View of being Trustees; shoud this Ingenious Contrivance ever take effect the Trustees might play the Game into each others Hands and represent each other in England

The Authority which they would Gain by their Ministers Complaints in England against whatever Person or thing they pleased might very soon become Terrible and Dangerous to every Person they should be Pleased to think and stigmatize as Delinquents or Malignants in this Province And when after Glutting their Vanity with a Dictatoriall Power and filling their Pockets with Money under Pretence of necessary uses and Purposes, They should Perceive an Approaching Period to their Greatness of Authority and Gain They might by their Ministers Consent Employ their Power and the money Intrusted with them to their own Private Advantage and the very Great Prejudice of this Province Instances of this Kind have not been Wanting in America

We could Suggest many other Reasons Against this Bill But we Doubt not, what we have Already said will be Sufficient to convince you of the necessity and Justice of Our Resolution not to pass it And we are so little Apprehensive of what the World can say to Our Disadvantage in this particular that we shall think it an Honour Done us to Have it known by printing the Bill with this Message

U. H. J. That this House with a Firmness becoming an Upper House of
 No. 734 Assembly Rejected A Bill which not only was big with the most
 Dangerous Consequences to every Individual Person in the Province
 And Would render the Government and whole Country Ridiculous
 and Contemptuous in the Eyes of Our neighbours, But also might
 draw a Severe Censure from the Throne for putting One of his

 Trustees whose Trust was to Survive to Each Other and their

A Message from the Lower House by Mess^{rs} Denton and Courts

By the Lower House of Assembly 6 June 1739

May it please Your Honours

The Justice of Our Proceedings in the Matter mentioned in Our
 Message of the 4th Instant, we hope speaks it self, and the Observa-
 tion you make with Regard to your Arguments against passing the
 Bill for support of Government seems to us too ludicrous for a Sub-
 ject of so great Importance, and calculated with the rest of your Mes-
 sage rather to display a Peice of Wit, than to bring that Affair to
 an amicable Conclusion

We cannot think his Lordship much obliged to you for your
 Opinion that he has a Right to levy Money on Us, merely because we
 had not shewn Reasons for denying it, even if that was the Case,
 we presume an indifferent Judge would expect him to shew a Reason
 for doing it.

p. 51 The Attack you suppose on the Government, in Order to deprive
 them of a support they are in Possession of, is a Peice with the rest
 of Your Message, if in private Life One Man violently took anothers
 money from him, the Party wronged would be scarcely called the
 Aggressor for endeavoring to recover it, or prevent his doing so
 again: But perhaps in the Logick of an Upper House, as well as

some where else, the Case of a Proprietary alters the nature of things, and makes that just in the Lord, which would be very unlawful in the Tenant

U. H. J.
No. 734

We are as little surprized at your Negative to the Bill for Payment of an Agent, as at Your Happiness in finding so proper a Definition for a Minister. However as you desire Your Reason for not assenting to be made Publick, We hope you'l not take it amiss, if we set it in its proper Light, and so the meanest Capacity may be able to judge of it

The People of Maryland thinks the Proprietary takes Money from them unlawfully

The Proprietary says he has a Right to take that Money

This Matter must be determined by his Majesty who is indifferent to both

The Proprietary is at home, and has this same Money to enable him to negotiate the Affair on his Part.

The People have no way of negotiating it on their Part but by employing fit Persons in London to act for them, and those Persons must be paid for their trouble, and propose a Bill for raising a Fund to that Purpose

The Upper House tells us, you shall not have that Bill, unless you let the Governor and Us, or rather the Proprietary (with whom We contest) have as well the Nomination of the Persons to be made Use of on this Occasion, as to determine what, or if any thing, shall be paid them for their Trouble

The Reproach not only on this House but on all the Province couched under the Word, Relative, to a Guardian, should We assure you have been answered in Terms it deserved, were it not, that We are fully determined, Nothing you can say or do, shall draw Us into anything may give you the least Pretence for a Rupture, which might prevent the Execution of the Publick Business, and prove an intolerable Charge to the People

The Possibility you mention of the Trustees betraying the Trust reposed in them, will have very little Weight with the World, since the like supposition may with equal Propriety, be applied to all Trusts of the Kind: Unless you would have us believe your Honours to be the only infallible Persons in the World, and so commit this Guardianship you speak of to your selves, but how convenient that might be for the People whoever reads your Message may easily judge

p. 52

We cannot help thinking that the denying this looks too much like an Unwillingness to have the Matter in Dispute brought to Light however We shall give you no further Trouble in it, than to tell you, the People of Maryland have Spirit enough, and We hope will find means, without this Bill, to do themselves Justice

The following Message is sent to the Lower House by Benjamin Tasker Esq^r

By the Upper House of Assembly 8th June 1739

Gentlemen

In Our Message of the 31st of May we endeavoured to satisfy you of the Reasonableness of Our Refusal to pass the Bill for raising an Annual Revenue for the better Support of his Lordships Government and Governor within this Province by the same Arguments, which perswaded Us to that Refusal; In answer to this, you by a Message on the 4th Instant very shortly tell us that "Those Arguments served only to confirm you the more in the Justice of Your

U. H. J. Proceedings ” This Manner of answering without any Reasons
 No. 734 to shew the Weakness of Our Arguments we took Notice of in Our
 Message of the 5th Instant and there mentioned Our Expectation,
 “ that you would have pointed out to Us particularly what force
 those Arguments had to perswade you of the Justice of Your Proceed-
 ing ” To this by Your Message of yesterday you with the
 same Conciseness as before say, that the Justice of Your Proceedings
 you hope speaks it self, And then you add that The Observation
 We made with Regard to Our Arguments against passing the Bill
 for Support of Government seemed to you too ludicrous for a Sub-
 ject of so great Importance and calculated with the rest of Our Mes-
 sage rather to display a Peice of Wit than to bring that Affair to an
 amicable Conclusion ”

We must own Ourselves very much at a Loss how to come to a
 Right Understanding of any Subject upon which We may be so
 unhappy as to differ from your House in opinion, If Your Behaviour
 in this Matter has been right and proper, and Ours wrong and im-
 pertinent ; for thus it shortly stands We offer Arguments for Our
 Opinion you tell us, those Arguments confirm you the more in a
 contrary Opinion, We intimate Our Expectation of being informed
 how you apprehended those Arguments turned against Us, and con-
 firmed Your own Opinion, to this you only say, The Justice of Your
 Proceeding speaks it Self and that Our Observations are ludicrous
 or witty, this surely cannot be termed Reason and a Proper Method
 to reconcile Our Differences in Judgment

However little obliged to us his Lordship might think himself by
 Our Opinion of his Right of levying Money merely because you had
 not shewn Reasons for denying it ; we think you had no Room to
 insinuate Our Opinion was grounded merely on Want of Reasons
 from you for your Denyal : Be pleased to recollect, that we found Our
 Opinion of his Lordships Right, on the Act of 1704 You instead of
 offering any Arguments to us against that Law barely tell us in your
 Message of the 4th Instant, that you deny his Lordships Right of
 levying that money because his Lordship never had any such Right
 by such Law, which is just the same thing, as if you had said, that
 his Lordship had not the Right because he had not the Right And
 are We not then well justified in saying upon this Point that We could
 not be convinced barely by the Authority of such a Denyal without
 some Reasons to inforce it

If that Part of Our Message which mentions an Attack on the
 Government in Order to deprive them of a support they are in Pos-
 session of, is, as well as that Part supported by Reason, And then
 p. 55 the Argument is very short ; you expressly confess in your Message of
 the 4th Instant that, His Lordship has been in Possession of the Sup-
 port of Government ever since the Year 1733 ” It is very manifest,
 you now endeavour to deprive him of it ; And pray may not that Per-

son be with the Greatest Propriety said to be attacked, who is in Possession and attempted to be thrown out or deprived of that Possession: The Case put by you, of One Man violently taking anothers Money &c We presume is designed as a Point of Law, and not as a Matter pertinent to the Dispute between Us; for We cannot by any Means agree that the Fact is as you have stated it in that Paragraph, We say his Lordship has a Right to the 12^d p hh^d by Virtue of the Law of 1704 and at the same time give Our Reasons for not passing the Revenue Bill, you deny such Right and give no Reasons for maintaining the Reasonableness of the Revenue Bill, and yet seem angry that We do not concur with you; But if You are desirous of having Our Opinion on the Point of Law, We may venture to say, there may be a Possession which some Persons may think fit to call tortious, and yet Methods may be pursued to take away that Possession which would make the Persons taking such Methods Aggressors in the Eye of the Law: As perhaps neither House has much Reason to boast of their Art of Ratiocination by the Rules of Logick, We shall not contend with you for Superiority in that Part of Learning

U. H. J.
No. 734

As you was not surprized at Our Negative to the Bill for Payment of an Agent We presume that you were conscious such a Bill could not be expected in Reason or Justice to have a Passage in this house; And We declare that We cannot with Candor assume to Ourselves the whole Glory of using the word Minister, since the Agent described in that Bill very readily and naturally, suggested to us the Idea of a Minister as mentioned in our message

You endeavour to state a Case as plausibly as you can for the Consideration of the Publick, but if you will be so candid as to allow the Upper House capable of being actuated by any Principles of Honour Justice and Reason in matters where his Lordship is concerned, Your whole Reasoning falls to the Ground, nor have We as yet denied a Passage to any other Bill for an Agent but that One in the shape you sent it Up to Us

You affirm that this House told you, you should not have that Bill unless you let the Governor and Us have as well the nomination of the Persons to be made use of on this Occasion as to determine what should be paid them for their Trouble

We are really astonished and truly concerned that any Warmth should have transported you to that Assertion; All that we contended p. 56 for was, a joint Nomination with you as in other Governments; These are Our Words, " that the Concurrence of the Governor and Upper House should be made necessary in the Nomination and Appointment of the Person designed for that Employment, And that the Agents on behalf of other Plantations are generally nominated by the Legislature or Government " And surely there may be such a Person found as to be unexceptionable in the Judgment of Every

U. H. J. part of the Legislature and Very proper for the Trust by that Bill
 No. 734 to be reposed in him

As to the Reproach you mention to be not only on your House but on all the Province, We can with the greatest Truth in the most solemn Manner assure you, It was so far from Our Intentions to couch any Reproach either on Your house or this Province under the Words Relative to a Guardian, That One of Our Reasons for rejecting that Bill was, lest the whole legislative Power and the Province should be reproached with that relative Word by the passing that Bill into a Law; And therefore if any Reproach could possibly arise from any Parts of that Bill, It ought not to be imputed to this House, which neither formed or passed that Bill but rejected it

We cannot believe the World will be so easily imposed on as you imagine It is very certain the bare Possibility of betraying a Trust ought to have little weight against committing a Trust; but it is not less certain that it is the Height of Imprudence to intrust any Person with such an Authority and Fund of Money as may tempt and enable them to betray that Trust; And that the World may clearly see what we objected to the Bill on this head, We must take the Liberty of mentioning some Parts of the Bill, which in One Part of it directs; "that M^r Hyde (in whose Hands the Money is to be lodged) shall pay such Money to such Person or Persons, as the Trustees so to be appointed as aforesaid or the Survivor or Survivors of them shall by Writing under their Hands order and direct the same and not otherwise" And then the last Clause is in these Words Viz. And Be it further Enacted by the Authority af^d that the money arising by the Duty af^d shall be applyed towards the Payment of an Agent to be employed for this Province to reside at London in Great Britain and to such other Uses & Purposes as shall be from time to time thought necessary by the Trustees af^d or the Survivors of them and Not otherwise

Now let us consider the Duration Power and Temptations which the Trustees must have had under such a Law First as to their Duration; We say they could not have been removed from the Trusteeship during the Continuance of that Law; for after the speaker
 p. 57 had once executed his Authority of signifying under his Hand the Appointment of the Trustees, there could not be another Appointment before all the Trustees should be dead because the other Parts and the Last Clause of the Bill Expressly directs the Trust to be Executed by the Survivors or Survivor, Secondly as to their power it is without Bounds They might have done either as much or as little as they Pleased nor is there One thing taken notice of in the Bill as the Proper Business of the Trustees except Fingering the money and making Some Application of it (but how much is not mentioned) towards Payment of an Agent so that one would be Apt to imagine This Bill had been Calculated principally to Gratify these same Trustees

Thirdly let us Examine how they might Compliment each other out of this Fund without ever being Accountable for any Imbezzlement or Misapplication. The Six Pence ꝑ hhd intended to be raised by this Bill may be Calculated to amount Communibus Annis to 700 £ Sterling ꝑ annum The Sallary formerly allowed by this Province to an Agent Used to be 100 £ sterling ꝑ Annum but suppose this to be increased to 150 £ or 200 £ Sterling ꝑ Annum there would then remain 500 £ or 600 £ Sterling ꝑ Annum and in the whole three years 1500 or 1800 £ Sterling in their Hands or Power which they might dispose of to such Uses and Purposes as they might from time to time think necessary so that Whether they Applied it to the Use and Service of the Province or to their own use which they might Judge necessary They could not be Accountable for more than they might think fit to Give their Agent For if they should have been Questioned upon Laying their Account before the House of Delegates what they had done with the Money they might truly say that the Law was very Express that they should have Liberty of Applying the Money to such uses and Purposes as they Judged Necessary which they had Accordingly done and that they and none other were the Proper Judges of the Necessity of such Uses and Purposes Besides the Bill is so drawn in other Parts which relates to the Accounting That by no Rules of Construction the Trustees could have been Answerable for that money But what we have said is Sufficient for the Present purpose

U. H. J.
No. 724

Hence you and the rest of the World may now Judge who Acted with a Proper Care in the Disposall of the Countrys Money you who Voted for so large a Sterling Sum Annually as 500 or 600 £ Sterling ꝑ Annum for the three Years to be disposed of by certain Persons called Trustees as they should think fit or We who neither then Would nor now will concur in such a Vote and it would have been more than probable if that Bill had Passed into a Law that the People would very soon have had Cause to Acknowledge it could not have been more Inconvenient to Commit this Trusteeship or Guardianship (If you would have it so) to any Gentleman in our House than to some Person out of it And we wish that Opinion of Infallibility you mention was as far from Your House as it is from ours

However we cannot be mistaken in this That such a Bill not to be found in any English Government And which If it had Passed into a Law would have had the Effects we before mentioned of Establishing a new and dangerous Power amongst ourselves making the Whole Province ridiculous to our neighbours and the Risque of Incurring his Majestys Displeasure

Your Message of the 6th Instant would not have been less Decent if the Extraordinary threat of the People doing themselves Justice Had been Omitted Whatever you may be pleased to Suggest to your

p. 58

U. H. J. selves or others We can never be so Insensible of any Hardships or
 No. 734 difficulties the People of Maryland may have Just Cause to Complain
 of As not to joyn Chearfully in Proper Methods for their Redress
 and Ease and procuring Justice to be done them but we may pre-
 sume to say that the Language of doing themselves Justice Cannot
 be Consistent with their Subjection and Obedience due to his
 Majesty who makes the Laws the Rule of his Actions and will expect
 and exact from his Subjects that their Actions also should be Con-
 formable to those Laws

To conclude We Hope the World (which has been so much talkt
 of in this Debate) will have an Opportunity of seing this Message
 together with the Bill and the others on the same Subject

The following Message is sent to the Lower [House] by Cot Gale

By the Upper House of Assembly 8 June 1739

Gentlemen

As We perceive by your Message of the 7th Instant that by the little Business now before Your House a Conclusion of Our Present sitting is near; We cannot consistently with the Care We ought to have for the Honour and Safety of this One of his Majestys Provinces, and the tender Regard We sincerely have for the Happiness and Ease of the People, delay any longer mentioning to you, that We do not find amongst the several ingrossed and Paper Bills now lying upon Our Table, any Bills reviving the Act Entituled An Act for raising three Pence p hh^d on all Tobacco to be exported for purchasing Arms and Ammunition for the Defence of this Province; the Act Entituled An Act for the Tryal of all Matters of fact in the Counties where they have arisen or shall arise, nor the Act Entituled an Act concerning Ordinaries and for the better regulating of Innholders and Ordinary Keepers within this Province

The first nearly concerns the Honour and Preservation of this Part of his Majestys Dominions especially at this time of Uncertainty whether there will be War or Peace in Europe; the other Two (We are sufficiently convinced) are greatly desired and almost Universally thought by the Inhabitants of this Province as proper and even necessary for their Ease Benefit and Happiness: By these Considerations We are obliged to acquaint you very plainly, that We shall as a Council of State advise his Excellency not to pass any Bill into

a Law, which by making this Meeting a Session may determine those U. H. J.
Laws so useful and necessary to the Province; And therefore We No. 734
hope you will take the Revival of those Laws under Your Consideration and give them such Dispatch, as a Session may be forth-
with made to Our Mutual Satisfaction and Benefit

As We conceive his Excellencys Justice and Good Conduct have
been as well manifested lately as formerly, and that the Encourage-

By the Lower House of Assembly 9 June 1739

May it please Your Honours

p. 64 If the Honour and Preservation of this Part of his Majestys
Dominion be so nearly concerned (as you are pleased to say) in the
Act for raising Three Pence p hogshead on all Tobacco exported
we cannot well see how those who have had the Disposition of the
Money hitherto raised to that Use can acquit themselves for not
applying it to the Purposes for which it was raised

The Uncertainty whether Peace or War in Europe having sub-
sisted for some time, And there now being the Sum of £2250: 11: 2
Sterling & £ 34: 13: 7 $\frac{3}{4}$ Current Gold in Bank arising from that Duty
besides upwards of £2500 Sterling unaccounted for in any Manner;
We have, as we think, justly concluded, that his Excellency and Your
Honours have been of Opinion, either that Arms & Ammunition
were useless to the Province, or that there is a sufficient Stock already
provided, otherwise that you would never have neglected so essential
a Part of Your Duty as is the Care of and laying out that Money,
had you thought it necessary for the Safety of the People, Wherefore,
until that Money is accounted for, and that in Bank laid out that we
may then judge what more Arms or Ammunition may be wanting.
And further that inasmuch as His Lordship hath possessed himself
of a considerable annual Sum amounting to at least £2200 Sterling
arising on the shiping trading into, and Staple Export of this Prov-
ince, without any Law that appears to Us to levy the same, and which,
were it legal to raise, was intended to support the Government here,
and particularly to supply a Magazine with Arms and Ammunition,
we do not think the Revival of that Law at present necessary

We never heard, unless from Your Honours by Your Message
of Yesterday, that the Act concerning Ordinaries is greatly desired
or thought proper or necessary to the Ease and Happiness of the
Province: We have on the contrary known it much complained of,
and that no Part of it has been put in Execution except the Payment

of Fines and Fees arising on Licenses, which being of no Benefit to the Province We do not think it necessary to revive that Law

U.H. J.
No. 734

As We had sent a new Bill to Your House this Session for Tryal of all Matters of fact in the Counties where they arise very near the same in Substance with the former, Save Some few Alterations which were from Experience found necessary; and One Paragraph changed which by a late mistaken Construction put upon that in the former Law was and yet is thought very dangerous to continue, And as we had that new Bill returned with Your Negative thereon, we wonder you should now charge Us with the Omission of a Bill so useful in it self and so much desired by the People, when the reall Cause of its not being carried into a Law proceeds from Your Honours positive Refusal to pass it in your House, nor do we think the Revival of the other Law mentioned in Your Message to be necessary

What Influence Your Honours Advice may have on his Excellency, we cannot say, but conceive the Representatives of a free People have a Right to consider of the Necessity of Taxes and from thence alone impose them, and not be threatened into it as we seem plainly to be by your Message of yesterday by Col Gale

U. H. J. The following Message is sent to the Lower House by Edmund
No. 734 Jenings Esq^r

By the Upper House of Assembly 11 June 1739
Gentlemen

p. 66 The first Reason you are pleased to give in Your Message of the 9th Instant for not reviving the Act for Arms and Ammunition, is, that the Money now in Bank amounting to £ 2250..11..2 Sterling and £34: 13: 7³/₄ Current Gold has not been applyed to the Purposes for which it was raised; But when you consider that at this Juncture a considerable additional Supply of Arms and Ammunition is necessary that that Sum in Bank cannot be supposed sufficient upon any sudden necessity, and that it is not so easy and practicable to raise Money upon an Emergency, as to apply and dispose of Money for the proper Purposes on such Emergency, that Reason can be of little Weight; And it would be much more reasonable to object to Persons intrusted with the Management and Disposal of Money for Arms and Ammunition, that they purchased such Arms & Ammunition so long before immediate Emergency required, that such Arms & Ammunition were spoiled, than that they faithfully kept that money in Bank in order to lay it out, when the sudden Circumstances of the Province absolutely required it, and a Greater Use and Benefit might arise therefrom to the Province.

The next thing You mention is a Sum of £2500 Sterling unaccounted for in any Manner; this carrys the Appearance of so heinous a Charge not only against the Governor but Our selves, that We are obliged to call upon you in the most publick Manner to particularize the Treasurers Account upon which such a Deficiency arises, and when it happened; As for Our Parts We are so far from being conscious of any such Misapplication or Fraud in the Disposal of the Publick Money committed to Our Trust, that We are not unwilling or afraid to have Our Conduct examined in the strictest Manner, and therefore with Justice we expect you will set this Matter in a proper Light: It is very true, there were formerly Insinuations of some Misapplications to have been made of the money on this Fund above Eighteen Years ago; but it is equally true that former Assemblies were upon Enquiry very well satisfied in their Doubts on this Head, and of this Truth some of the Members now in Your House (if We are not very much misinform'd) can give undoubted Testimony: And further the Accounts relating to this Fund were always from time to time laid before and past the Examination and Approbation of Both Houses

As to the £2200 Suggested by you to be possessed by His Lordship without any Law to levy the same, We can with the greatest Truth assure You, We neither know or believe any such thing, or that any Money intended to supply the Magazine with Arms and

Ammunition has been withheld from such Uses and Purposes by his Lordship U. H. J.
No. 734

We must acknowledge Ourselves very much Misinformed and Mistaken, if the Act concerning Ordinaries is not greatly desired or thought proper for the Ease and Happiness of the Province; The Observation You make of its being much complained of reaches p. 67 very frequently the best Laws, and the most desireable frequently have not their designed Effect by an ill Execution of them but surely that can be no Objection to the Law; It may be a very good Reason for the Legislators to make such further Provision as may be necessary and more effectual for the due Execution of it, thô not to lay the Law entirely aside

The Excuse you endeavour to make for not reviving the Assize Law, will not perhaps suit the Purpose it is designed for so well as you imagine; for what you say amounts to this, that you sent up a Bill to this House with some Alterations different from the former Law, which this House thinking not fit to pass, you determined that the Country should rather be without an Assize Law than have the Old One; but by the Ease and Conveniency which the Inhabitants have by the Assize Law, We judge that Law is greatly wished and desired, and therefore We should be much wanting in Our good Will to the People, if We took any Step at this Juncture to destroy it

Let the Consequence and Influence of Our Advice as a Council of State to his Excellency be what it will, yet We apprehend our candid Mention of what such Advice would be by Our present Proceedings and State of the Country deserved a different Notice from that you are pleased to take of it in the latter Part of Your Message; We on your Mention of the approaching Close of this Convention or Session (as it may happen) considering what had been transacted or omitted by the Two Houses, very soon found that all the Bills which had passed the Two Houses except One Bill for Encouragement of making Linnen Cloth were either of a Private Nature or revived Laws, which would otherwise continue if this Meeting should not be a session, therefore this House then concluded, and We are still of the same Opinion that it is either necessary to revive the Laws mentioned in Our Message of the 8th Instant, or expedient not to make this Meeting a Session; lest by that Means & for the sake of having that One publick Law, we should be deprived of so many others of much greater Consequence to the Country; This We acquainted you with, & in Return you look upon it as threatning you

Freedom, Gentlemen, is so dear and valuable to Ourselves, that we shall always preserve a just Regard to the Representatives of a free People, And we cannot comprehend How your Right of considering the Necessity of Taxes & imposing them is the least infringed by Our Hopes that you would consider the Necessity of reviving some Laws which raise Money, and by laying before you

U. H. J. the Mischiefs which might arise to the Country for Want of such
 No. 734 Revival, unless it is contrary to the nature of Freedom or below the
 p. 68 Dignity of the Representatives of a free People to receive any In-
 formation of what may in all Likelyhood prove prejudicial to their
 Constituents

Gentlemen.

We are much surprized to find in the Journal of your Committee of
 Accounts an Allowance made to Robert Newcomb for attending as
 a Witness & another to Edmund Bleads for his Attendance as an
 Evidence against John Leeds, which are such as We cannot remem-
 ber ever to have been made by the Assembly; And we are perswaded
 might be made Use of as Presidents to tax the Country very largely
 if ever it should be the Misfortune of the Country to elect a Majority
 of their Delegates of persons inclinable to assume to themselves
 Powers inconsistent with the Laws of the Country

At the same time that We take Notice of these Allowances we find
 several Accounts of just Fees, which We herewith send you, due to
 the Secretary Attorney General and Clerk of the Council, such as
 were never till lately disputed or refused, And we assure you that
 without you Strike out the Allowances made Newcomb and Bleads
 before mentioned and insert these last mentioned we cannot assent to
 the Journal

There is likewise an Account of 21250^{£w}^t Tobacco due to the
 Secretary, and another of 28000 ^{£w}^t Tobacco due to the Attorney
 General, that we think ought to be allowed them, but as We are
 not altogether so clear to them as we are to the Others whether the
 Province or particular Counties are chargeable with them, we shall
 not now insist on their being allowed by the Publick, but shall always
 reserve to the Officers the Liberty of charging the said fees agreeable
 to Justice

M^r Speaker

p. 70 The Governor finding by Your Address just now presented to him that no Business lays before you, We have it in Command from his Excellency to require the Attendance of Your House in the Upper House immediately

The Speaker and the whole House attend to whom His Excellency makes the following Speech

Gentlemen of the Lower House of Assembly

The Gentlemen of the Upper House have so fully shewn the Obligation I am under, of doing everything in my Power to continue the many useful Laws which they have mentioned to you, that I have little to add upon that head; only I cannot help expressing my Surprize at the Resolutions your House seems to have taken, to use your utmost Endeavours to deprive the Country of the Fund, that has subsisted for so many Years, for purchasing Arms and Ammunition for the Defence of the Province, at this Time especially, when it is so necessary for all his Majestys Colonies in America, to put themselves into such a Condition, as may not only enable them to defend themselves, if they should be attacked, but to assist their Neighbours in the like unhappy Circumstances

In such a Conjuncture it would certainly be much more proper to increase the abovementioned Fund than to destroy it, Our Loyalty & Duty to his Majesty in such times of General Danger, being much better expressed by our Actions, than by the most high sounding Words, which it is well known the Enemies of his Majestys Government in all his Dominions are very often more lavish of, than his most faithful Subjects, whose true Loyalty and Affection prompt them to something more reall and substantial

As to what you say in Your Message to the Upper House, “ That you cannot well see how those who have had the Disposition

of the Money hitherto raised to that Use, can acquit themselves for not applying it to the Purpose for which it was raised ”

U. H. J.
No. 734

“ And that besides the Money arising from this Duty now in Bank, there remains two thousand five hundred Pounds Sterling unaccounted for in any Manner; And that the Proprietor has possessed himself of a considerable annual Sum, amounting to at least Two thousand two hundred Pounds Sterling, arising on the shipping trading into, and Staple Export of this Province without any Law for levying the same ”: I cannot help saying, that these are such low and mean Aspersions, and so absolutely without the least Foundation, that they must either be allowed to manifest a Strong Inclination to throw Dirt, or a Desire to give some Colour to the Violence of your Proceedings, which you cannot but already begin to see have given Offence to many of the best and wisest Men in the Province, who, I am preswaded, will be daily more and more convinced, that violent Personal Malice and Hatred have been stronger Motives to your said Proceedings, than any true Protestant English Spirit for the Good of your Country

p. 71

But whatever Considerations may have been the Cause of your present Conduct, I shall never be brought to do any thing on my Part inconsistent with that Duty which I owe to his Majesty, and which obliges me in my present Station to do every thing that lies in my Power for his Majestys Honour, and for the Safety and Defence of this Part of his Maj^{ty}s Dominions

I therefore have thought it proper, by the unanimous Advice of his Lordships Council of State, to prorogue this Assembly to the first Tuesday in September next, and You are to take Notice you are prorogued to that day accordingly

Thus Endeth this Convention begun and held at the City of Annapolis on the first Day of May in the twenty fifth year of his Lordships Dominion Annoq Domini 1739

Ordered that the Committee of Accounts Inspect how the Fund for the Free Schools is disposed and make report to the House concerning the state thereof.

The House agree the Hours of Sitting during this Session be from nine of the Clock in the Morning untill twelve and from two in afternoon untill Six.

The House agree to the following Resolves, Viz.

Resolved by the House that the Members that are appointed as Members of the Committee of Aggrievances have likewise the Character of a Committee for Courts of Justice, and that, that Character and the Duty of such Committee be annex to the said Committee of Aggrievances as a standing part of their Duty.

And that it be an Instruction to the said Committee as a Committee of Courts of Justice that they observe the nature of all the Commissions to the several Courts of Judicature within this Province,

and that they Especially observe any alterations that may at any time happen by Accidental Omission or otherwise therein, and particularly relating to such words therein as require the Several Judges and Justices to Hear Try and Determine according to the Laws Statutes Ordinances and reasonable Customs of England and of this Province or to such other words as have relation thereto, and that they shall Immediately make Report to the House of any Alterations that shall at any time Happen in such Commission, And likewise to have regard as near as may be to observe wherein they Differ from the forms of the several Sorts of Commissions to the Judges and Justices in England.

L. H. J.
Lib. No. 45

Likewise Resolved that it be an Instruction to the said Committee to Inspect the form of the Oaths of office that have been and now are usually taken by the Several Magistrates, and that in case the following Clause be not incerted in the said Oath it be reported to the House, such Clause being agreeable to the Oath taken by the Judges in England and resolved to be necessary Here Viz.

To do equal Law and right to all the Kings Subjects rich and Poor and not delay any Person of Common right for the Letters of the King, the Lord Proprietary's or of any other, or for any other Cause, but if any such Letters come to them they shall proceed to do the Law the same letters notwithstanding.

And that a Copy of these Resolves be made and given to the said Committee when they first go out, every Sessions, and that making and giving such Copies be the undoubted Duty of the Clerk of this House and within the purview of his Oath. p. 785

Resolved also that this Province is not under the Circumstance of a Conquered Country, that if it were the present Christian Inhabitants thereof would be in the Circumstance, not of the Conquered but of the Conqueror, It being a Colony of the English Nation Encouraged by the Crown to Transplant themselves hither for the sake of Improving and Enlarging it's Dominions which by the Blessing of God upon their Endeavours at their own Expence and Labour has been in great Measure obtained, and tis unanimously Resolved that whoever shall advance that his Majesties Subjects by such their Endeavours and Success have forfeited any part of their English Liberties are not well Wishers to the Country and mistake it's Happy Constitution.

Resolved also, that if there be any pretence of Conquest it can be only supposed against the Native Indian Infidells which supposition cannot be admitted, because the Christian Inhabitants purchased great part of the Land they at first took up from the Indians as well as from the Lord Proprietary, and have ever since Continued in an amicable Course of Trade with them, Except some partial outrages and Skirmishes, which never amounted to a General War; much less to a General Conquest, the Indians yet Enjoying their Rights and Priviledges of Treaties and trade with the English, of whom we yet

L. H. J. frequently purchase their Rights of such Lands as we take up as well
 Lib. No. 45 as of the Lord Proprietary.

Resolved further that this Province hath always hitherto had the Common Law, and such General Statutes of England as are not restrained by words of Locall Limitation in them, and such Acts of Assembly as were made in the Province, to suit it's perticular Constitution as the Rule and standard of it's Government and Judicature, such Statutes and Acts of Assembly being Subject to the like Rules of Common Law or equitable Construction, as are used by the Judges in Construing Statutes in England, which happy Rules have by his Majesty and his Royal Ancestors, and also by his Lordship and his Noble Ancestors or some of them been hitherto approved by leaving the Commissions of Judicature to Include Directions of that Nature to the Several Judicial Magistrates unless those words have at any time been Casually or Carelessly Omitted by the officers in this Province that Drew such Commissions, That therefore whoever shall advise his Lordship or his Successors to Govern by any other Rules of Government are evil Councillors, Ill Wishers to his Lordship and to our present Happy Constitution and intend thereby to Infringe our English Liberties, and to frustrate in great Measure the Intent of the Crown by the Original Grant of this Province to the Lord Proprietary.

p. 786 The House approved and Agreed to the above Resolves, made in the Year 1725 and Ordered that they be Entred in the Journal this Session as the Resolves of this House, Except where Alterations are made in them by Express Acts of Assembly, And whereas it is Contained in the said Resolves that the Clerk of this House shall sign all proceedings, As Clerk of the House of Delegates, and in no other manner upon which some Disputes have formerly Arisen between the two Houses of Assembly, for Prevention of any Disputes which may retard the Dispatch of Publick Business it is now Resolved, that all Proceedings shall be signed by the said Clerk, as Clerk of the Lower House, always saving to the Members of this House and the People they Represent and their Posterity all their Rights and Priviledges whatsoever, and Protesting that those Rights and Priviledges shall not, nor ought to be hurt prejudiced or lessened by the Clerk of this House his Signing the proceedings thereof as Clerk of the Lower House.

The House agree to the Rules observed last Session of Assembly.

Doc^r Carroll M^r Stoughton and M^r Denton were ordered to prepare an Address to the Governour on his Speech.

The following Address was approved by the House and Ordered to be Ingrossed, Viz.

To His Exc^y: Sam^l Ogle Esq^r Governour of Maryland

The Humble Address of the House of Delegates.

May it please your Excellency.

1) We his Majesties most Dutifull and Loyal Liege Subjects the Delegates of the Freemen of the Province of Maryland, in Assembly convened beg leave to return your Exc^y our hearty thanks for the kind Declaration in your Speech at the opening of this Session

We confess ourselves at a Loss to know certainly the Motives that Induced your Excellency to the Unprecedented Prorogation of the last Assembly, the Misunderstanding that then subsisted was due to a Misapprehension of one of his Lordships Council, in which had a Milder Medium been used this House would readily Undeceived the Gentlemen, or that Honourable Board.

And we are not forgetfull of the Advances this House then made for the Dispatch of the Publick Business, by repeated Messages sent by their Honourable Members.

We are now again Willing and desirous to pass by the unparalleled Treatment of this House in the Person of their Honourable Speaker as also the manner of the then Prorogation and that at a time when the representative Body of the People were in the Execution of their Duty, doing Justice to their Constituents and Honour to the Government, by Endeavouring to bring to light Offences and Offenders against both.

p. 790

We are very willing to put the mildest construction on these proceedings as also the Subsequent dissolution of that Assembly to the great Charge and Trouble of his Majesties Liege Subjects the good People of Maryland.

We cannot pass by in Silence a circumstance attending that time tho' Triffling and minute in it self by the Person, who altho then under the censure of the Delegates of the Freemen of Maryland for having grossly Reflected on that Body in Generall and some in particular Yet Immediately thereupon put into a place of Proffit and Trust in one of the Courts of Record.

We Humbly hope there is some Honour and regard due to the Body of the People his Majesties Liege Subjects, and we are Sorry to see Merrit made of that which ought to Debase, and those mostly

carressed who are most active in the Maltreatment and Oppression of the good People of this Province. L. H. J.
Lib. No. 45

2) We are now as heretofore we were, fully convinced that Heats and Annimosities are an ill Foundation for the Pursuit of the publick Good. Wherefore we then did as we now shall, Endeavour what lies in our Power to avoid giving rise to such, And we Humbly Hope that no Artfull or colourable pretence will be made use of to Impede the Publick Business. On our part we do with Truth and Unfeigned Sincerity assure your Excellency that we are come with a Hearty Desire and firm Resolution to do everything in our Power to promote the General Good and Welfare of the Province of Maryland than which we have nothing more near at Heart.

3) Your Excellency is pleased to Declare, as you often have, Your Good Intentions for the Welfare of this Province and People, and we are truly Sorry that your kind Resolutions so often Published should hitherto be frustrated and rendered void by the Malevolent Influence of Evil Councils, such may Gain to themselves Private Advantage while the Publick are Sacrificed to their avarice and Ambition and his Majesties poor Lloyal and Dutifull Subjects Intirely Destitute of means to Redress themselves, sinking under the Yoke of Bondage, be well pleased that they fare no worse, than being brought to a State of Villenaye.

Since your Excellency have been pleased to give us such strong Assurances of your Willingness to give a Helping Hand to remove every Obstacle to the Happiness and Prosperity of the Province, we will Humbly presume in full hopes of your kind Concurrence and Redress, to lay before you, such Aggrievances and Oppressions as we take to be real Obstacles to it's Prosperity and Happiness.

And We most Humbly hope your Excellency will not attribute the Just Discharge of our Duty, or our Moving with Decency, Order, and good Manners in these points wherein we feel our selves Sensibly Affected, to the want of Moderation and Temper, or a Due Regard to your Person. p. 791

We assure your Excellency that we shall with the greatest Zeal and Coolness of Temper pursue the General Good so far as we can, and Avoid as Destructive Precipices, any Sinister or artfull Practices of self Intrested or Designing Persons let their pretences be veiled over by what Gloss soever and that such shall in no ways Influence our words or Actions.

4) We hope your Excellency had the Publick as well as his Lordships Intrest at Heart in promoting the Continuance of the Payment of Rents and Alienation fines as the same had for some time before been, by a Duty on Tobacco, the Staple of this Province, and likewise that of passing the Currency Emitted by his Lordship and the Good People of this Province in payments to the Clergy and Officers, and with great Submission we take leave to Judge favour-

L. H. J. ably of those who thro' a sence and Desire of doing Good opposed
 Lib. No. 45 the same, altho' they may have been mistaken in point of Judgement.

5) From many Consequences we find that this Government hath for some time past pursued it's own Profit and Benefit, but how far that turns to the Publick Good those who are Sensible thereof will best Judge, and we Humbly Conceive that when the Representative Body of the People refuse any Advantage offered it must proceed from an Error in Judgment thro' want of Due reflection or Impartial Deliberation which we shall from your kind Recommendation make the best use of we are Capable in what affairs shall come before us.

6) This House is not acquainted with the Disposition of the Clergy in point of their forty p Poll, and shall always bear a Just regard for that Reverend Body, nor Attempt to intrud any Terms on them which may not Suit their own Inclinations to Accept of, but shall always be ready and Willing to receive such Proposals as they may Judge Suitable to Make.

Your Excellency is pleased to Vouch for his Lordships Officers good Inclination for the Publick Good, this is in your Excellency's Power to command, nor do we see any Reason to Joyn the Income of the Church and State on the present Occasion, the former being Grounded on Law, the latter not.

This House have so many recent Instances of the People of this Province being made a Property to his Lordships Officers and the many Evils that proceed therefrom that they are under the Greatest Apprehension of every Act that may put them into their Power or Mercy, the Effects of which hath too often and daily doth Demonstrate itself in the ruin and Oppression of Many.

We wish we had not good reason to be assured that the little Credit given by his Lordships Officers to a Currency Struck by his Lordship and the People here, on the best Security, has not been the Means in a great Manner to Depreciate the same.

p. 792 We acknowledge it is of the utmost Importance to this Province to Circulate and give a Credit to their Currency, but the former Reasons and great Apprehensions of further Evil will weigh with us to let it take it's Chance on the Foundation whereon it now Stands, which we are well assured must give it a Due Credit in time, against all the Attempts and Designs of the Enimies to that and our Welfare

7) As we Judge our Attempts or Endeavours would be fruitless and Dangerous in relation to a General Law relating to the Paper Currency we shall at present Decline Entring thereon.

And we Humbly conceive that it is in his Lordships, his Ministers and Officers Power to Encourage the Settlement of the Back and remote Parts of this Province, but how far that is done by the

Excessiveness of fees in Offices and the High terms of Rents at present Reserved, (far Exceeding anything of the kind in any other part of his Majesty's American Dominions that we know of) shews it self. Whatever lies in our Power shall be done with utmost Chearfulness to promote the Enlargment of his Majesties Empire and Dominion in this Province by Encouraging the Settlement of these Back and Remote parts, in hopes that thereby the Export may be Encreased towards bettering his Majesties Revenue and the Trade of our Mother Country Great Brittain as also the Advantages that may Consequently Enssue to the Province.

L. H. J.
Lib. No. 45

8) We shall have a due Regard to any usefull Laws which may Expire with this Session.

The Security Defence and Safety of this Province is so near and Dear to us that we shall be always ready and Willing to do every thing requisite and necessary to so good an End, and we Assure your Excellency that your Recommendations shall always have their due Weight with us.

The Account which your Excellency has been pleased to lay before this House shall be considered, and we assure your Excellency that if we find the same Right and Clear, we shall make no Objection thereto, and we doubt not but your Excellency will rather Approve than Condemn our Conduct if we fairly and Openly Object against any Erronious Publick Accounts, it being our Undoubted Right and Duty so to do.

We hope that this Government hath no Enimies nor will make any, and Malicious Private Whispers and Groundless Insinuations are weak Attempts which ought to be Dispised

We assure your Exc^y that this House will always to the best of their knowledge Act openly freely and Candidly, and which conduct most agreeable to native British Sincerity, the Inseperable Characteristick of every true Britton we Humbly hope will give no Offence.

The Governour Communicated the following Answer to the Address of this House Viz.

Gentlemen of the Lower house of Assembly.

I Have perused your Address delivered to me by Your Speaker on the 5th Instant and Cannot but be very much Surprised to find that Instead of such Mutual Civilities as have usually passed at the Beginning of former Assemblys your Address Contains Charges against the Government in General and my self in Particular which I am Confident are without foundation, and which, I am very Sorry to say seem rather Calculated to Create Animosities and foment Differences Then to Forward the Publick good, however I must own myself Oblidged to you for giving me so fair and Publick an Opportunity of Vindicating my own Character and Conduct which I flatter my self I shall be able to do In Clear and Intelligible a manner as will give Entire Satisfaction not only to Every honest and Sensible Gentleman in your house but also in the whole province

In the first place you Confess your selves at a loss to know Certainly the motives That Induced me to the unprecedented prorogation as you are pleased to Term it of the Last Assembly which I must own Surprizes me the more as I am not Master Enough of the English Language to Express my self more Clearly to you upon that head then I have already Done, without Decending to particulars, of which it is not Possible that you Can be Ignorant, nor Can I

Conceive how I Could have Acted otherwise then I Did, Consistently with the good and welfare of the province. L. H. J.
Lib. No. 45

I was Informed by an address from the upper house, that such a Misunderstanding Had happened between that and the late lower house as had put a Stop to all publick Business, and Even to all Inter-course by Messages: What Could be done in such Circumstances if the Assembly had Continued Sitting would not that have occasioned a heavy Charge to the Country without the least possibility of Deriving any advantage From it, was there any hopes or Probability of a Reconciliation, is it not very probable the Continuance of the sitting of that Assembly would have Increased and Aggravated the Differences which then Subsisted Could the Lower house however well Disposed and Inclined they might have been, have Carried on the Business of the Country without the Concurrence of the Upper, this it too wild and Extravagant to be Even so much as Imagined. A Dissolution or Prorogation being then absolutely necessary the Latter was made use of in Such a manner as the then situation of affairs would admit of Viz. By Proclamation, and Indeed no other Course Could be then Taken, I Could not have sent to the lower House for their Attendance by any Member of the upper, it being as they thought Inconsistent with Their Dignity to Carry any Message till Reparation was made for the affront they apprehended they had Received if I had sent by the Clerk of the upper house I might have given offence to the Lower, which I was Desirous to avoid as much as lay in my power, and these I can truly Say were the only motives of my Acting as I did: if I had Called the same Assembly Together again the same Dispute must have Subsisted, which made the Dissolution as necessary as the prorogation if any Misunderstanding of the Like nature should unfortunately happen again I Confess myself Entirely Ignorant of any other Course to be taken than was at the Last meeting but I shall be so far from Shutting my Ears to better Information, that I shall thankfully receive it after Mentioning the Prorogation, you proceed to a Justification of the late lower House, in Relation to the misunderstanding that Happened between the two Houses, in which I have not the least Concern and therefore shall leave that affair to the Consideration of the upper house: Only I must take notice of two Inconsistencies that Run through your whole address Viz: Confounding the late lower House with the present, and the Governour with the Upper House, had you avoided, these it might have shortened your address very much many things being Attributed to this Lower House which belonged to the former and to the Governor which belongs to the upper house to these are Owing the long Paragraph wherein you are pleased to profess your Willingness and Desire to pass by the unparalleled Treatment of your house in the Person of their Honourable Speaker, as you are pleased to Express your Selves. p. 800

L. H. J.
Lib. No. 45

If the upper House was to Confound the late lower House with the present, as you have Done it would necessarily bring on the same Dispute that Occasioned the last Dissolution, Consequently Bring on Another in the same Manner, but I am heartily glad to find the upper House has prudently avoided Every thing of this nature and has sent their members on Messages as usual without Taking any notice to your house, of the affront they apprehended they had received from the late lower House. But Supposing that your house was Really ill Treated in the person of Honourable Speaker of the last House, what share had I in that treatment, or why should I be Reproached with it, I have a Sincere value and Esteem for that Honourable and worthy Gentleman, and would, I am Sure, be very far from Giving him the least offence Even in a private Capacity, and much more so in the Honourable Station he then held of being Speaker to the lower house of Assembly as to what you say of a person being put into a place of Profit and trust in one of the Courts of Record, who had been under the Censure of the late Lower house of Assembly, for having Grosly Reflected on that Body, and some in particular, I must Desire the favour of you to point out me the means whereby you Can possibly Suppose me to have been in the least made Acquainted with that affair: if the lower house had laid any such thing before me I should Certainly have thought the person Deserved to be punished; but to be Disqualified to Enjoy any place of profit or trust for such an Offence, seems to me to be a punishment some what too Severe: Suppose a person had Reflected on the whole upper house of Assembly, and Even the proprietor himself, and this should be laid before your house, and Clearly proved, would you think the person thus offending Disqualified To be a member of your Honourable house, or to Enjoy any place of profit and trust under Your Direction, I hope you would be more forgiving for my own part, I Can truly say, I have forgiving many such offences against my self; and given the person too that Committed them very good places, without any view, as you will readily believe, of a rewarding them for what They had Done. I must Confess myself truly Sorry to here from the lower house of Assembly, that my good Resolutions, so often published, have been frustrated and rendered void, by the Malevolent Influence of Evil Councils, but I must be Candid as to say, that I should be much more so, was I Conscious to myself of the truth of this Severe Reflection, in whatever Light this Language may be Looked upon, I believe I may very Justly say, that is no reasoning, but may be Employed with the same force in the worst Cause in the world as well as the best, for which Reason I hope I shall never be fond of Imitating it, may I not ask what Malevolent Councils threw out the Revenue bill hindered our paper money to pay the Clergy and Officers, and Even now prevents our making it truly useful and valuable to the Country, or what other Mischief it is

p. 801

L. H. J.
Lib. No. 45

that these same evil Councils have Done, whenever you please to Enter into particulars, you may be assured that you shall have no Interruption from me in your Enquiry Either Into real or Imaginary Grievances and whatever of the former sort shall appear, I am Sure no man in the province will be more ready to Redress than my self, but I hope I may say, that General Expressions of Avarice and Ambition in Officers, of poor people Sinking the Yoke of Bondage, being brought to a state of Villenage &c. are so far from being any more proof of them, that they must be allowed a strong presumption to the Contrary, by every Candid and Judicious man such general Reflections being oftener made use of to Darken Truth than to place it in a fair and open Light. I agree with you that this Government has for some time past pursued it's own profit and benefit and really Believe it will Continue to do so in all times to Come, and presume the Lower house of Assembly will do same, but hope that this will never prevent our promoting the General good and prosperity of the People under our Care this is Certainly the true Interest of all Governments, and will always be pursued in proportion to the wisdom and good understanding of the Gentlemen in the Administration of them. I am obliged to you for Acknowledging that you have good Reason to be assured that the little Credit given by his Lordships Officers to our Currency has not been the means in a great manner to Depreciate the same, this is but Doing them Justice, our paper money not paying the Clergy and Officers, being the Cheif if not only Reason of the present low State of it's Credit: but however that may be, I Cannot but be Concerned to find anything weigh with the Representatives of the good People of Maryland To let it take its Chance on the foundation whereon it now stands, Especially as you seem to Acknowledge, that it [is] of the utmost Importance to this province to Circulate and Give Credit to Currency, and that we have Enemies whose attempt and Designs we have Reason to fear, Both against that and our welfare: What Evils you apprehend in raising the value of our paper money, I must own I Cannot Imagine; but should be glad that they were to be fairly Examined, being perswaded, that if your apprehensions should be found to be ill grounded, you would readily quit them for the good of the province. I am very well pleased with the regard you Express for the Clergy and hope that this favourable Disposition will always Continue in the Representatives of the people towards that Reverend body; their Establishment is Certainly upon a very solid foundation, and I hope you will be of opinion, that the Establishment of Courts and Officers is no less Solid, when you Consider that they are upon the same foundation on which our Assemblies themselves Stand; viz: the Royal Charter. I Don't at all question but that his Lordship and his officers, will do all they Can for the Ease and Encouragment of our Back Inhabitants and I shall hope for the same from this

p. 802

L. H. J. assembly. I return you thanks for the assurances you give me, that
 Lib. No. 45 you will have a due Regard to any useful laws which may Expire this Session and of your Readiness and willingness to do Everything which may be necessary to so good an End and the Safety of the province, and I shall ever Commend you for Examining with Freedom and Candour all Accounts of the Publick money. I think I have Observed every thing that is Material in your address; as to loose and General Charges, I own myself at a loss what answer To give them; when you shall please to Decend to Particulars, such Particulars shall be Considered and a due Regard had to them I appeal to your selves as well as your Constituents whether a fair Candid and Cool manner of Proceeding, be not a much more likely way to serve the Country, and Compensate the people for the Expence which the Assembly will Certainly occasion, then falling into heats and Animosities.

Your Committee having received a Complaint from James Plummer who was and still is Seized in fee of four hundred and thirty nine Acres of land in Prince Georges County at the Annual Rent of four shillings p Hundred which in the whole amounts unto about the Annual Sum of Seventeen Shillings and seven pence Sterling. That William Diggs Receiver of his Lordships Land rents for Prince Georges County did in the year Seventeen hundred and thirty five Demand and actually Receive from the said Plummer the sum of Seventeen Shillings and nine pence half penny sterling for one years rent of the said four Hundred thirty nine acres which is two pence half penny more than was due or payable from the said Plummer to the said Diggs for his rent. that upon the said Plummer Discovering such over Payment be applied to the said Diggs to allow the same to the said Plummer whereupon The said Digges promised such over payment should be allowed him his then next years payment. That said Plummer the year following applying to the said Diggs to pay him, the said Digges Years rent then due on the said Land the said Diggs did not only then refuse to allow the said Plummer the said Two pence half penny Sterling as so much over paid the foregoing year, but upon the said Plummers Tendering to the said Digges at the said Digges own house the place by himself appointed the Sum of Seventeen shillings and Seven pence Sterling which was the full amount of the Annual Rent the due for the said Land the said Diggs refused to receive the same and Insisted on the Sum of Seventeen Shillings and nine pence half penny Sterling for such rent, which is two pence half penny Sterling more than was at that time also actually due for the said Land. That the said Plummer refusing to pay the Exorbitant Sum Demanded by the said Digges, He the said Digges did Declare that he would receive the said Plummers Rents but ordered him to go down to St Mary's County and pay the same there whereupon the said Plummer Asking who the said Digges had there to receive it he the said Digges answered he the said Plummer might go Look and if he did not go down to St. Marys he the said Digges would Distrain and run him the Plummer to Charge. That the said Digges in pursuance of such his Declaration did accordingly Distrein the goods of the said Plummer, but the said Diggs did Distrein for no more than the Sum of Seventeen shillings and Six pence half penny which Sum is Short of the Sum Actually Tendered by the said Plummer to the said Digges by which Distress so as aforesaid unjustly made, the said Plummer was Burthened with the payment of one hundred and thirty four pounds of Tobacco as officers fees that the said Plummer being also Indebted unto the said Digges as receiver as aforesaid in one half Years rent for the said Land due the twenty fifth Day of March last did Accordingly

L. H. J. on the twenty Sixth of the same month and afterwards make a tender
 Lib. No. 45 of the Sum of Eight Shillings and nine pence half penny Sterling to
 the said Digges at his Dwelling house aforesaid as the full amount
 of the half years rent Due thereon which the said Digges refused to
 receive but ordered the said Plummer to go to St Marys and pay the
 same there or that he the said Digges would Distrein for the Same,
 that the said Digges did accordingly Distrein the goods of the said
 Plummer for the said Eight Shillings and nine pence half penny for
 half a years rent due as aforesaid notwithstanding the tender thereof
 to the said Digges so as aforesaid by the said Plummer made by
 p. 804 which Distress also, so as aforesaid made the said Plummer was
 Charged and Burthened with the payment of the further Sum of one
 hundred and thirty four pounds of Tobacco Officers fees. All which
 Actings and Doings your Committee Conceive to be a great bur-
 then aggrivance and Oppression upon, and an Abuse of the Rights
 and Liberty of the Subject and greatly tend to Alienate the affec-
 tions of his Lordships Tennants from his Lordships good rule and
 Government.

By the Committee of Aggrievance and Courts of Justice May 17th 1739 Your Committee having received Information that Charles Goldsborough late Clerk of Dorchester County Court did during his Continuance in the said office Contrary to all the rules of Law and Justice, demand and take from Sundry persons in the same County before he would do or Suffer to be done the business of such person in the said County Court, Several Recognisances in the penalty of very large Sums of Money or Tobacco, the Conditions of which said Recognisances were, that the said Cognizers in the said Recognisances mentioned should pay and satisfie unto Each of the Several officers of the said Courts their fee and fees then, at the time of the taking the said Recognisances respectively due, or which thereafter should be due, to the said officers from the said Cognizors in the said Recognisance respectively named.

L. H. J.

That the said Goldsborough did during his said Clerkship Demand and take from John Seward and Henry Claredge in particular, both of the said County such Recognisances as aforesaid on the occasion, and for the purposes aforesaid.

That notwithstanding such Judgment as aforesaid Obtained, and the liberty of Executing the said Seward thereon, of which the said Goldsborough could not be Ignorant, he the said Goldsborough has proceeded & still Continues to proceed towards the obtaining against the said Seward, an Execution on the said Recognisance for the said fees by which means the said Seward is not only under an apprehension of being burthened with an additional weight of Costs and Charges but is also fearfull of being twice Executed as he has already been twice vexed and Troubled for the same Debt. All which Actings and Doings your Committee Conceive to be directly Contrary to the known rules of Law, Reason and Justice, and a great Burthen Aggrievance, and oppression upon his magistries Liege Subjects the good people of this province and Humbly submit the same to this House.

p. 818 Anno Domini 1692 and in the fourth year of their said Majesty's reign Entituled an Act for the settlement of annual Revenue upon their Majesty's Governor within this province for the time being reciting the said first above mentioned act and reciting also that the free-men of this province then Assembled upon strict Scrutiny made into the prmisses, did find that his Lordship had not only been very Deficient and at Small Charge and Expences in Maintaining a Magazine as aforesaid but that this province had been obliged to defray all Publick Charges arising for the Support of Government, by way of an equal Assessment upon the Inhabitants

thereof, the several provisoes in the said last mentioned act notwithstanding; and also reciting further that his said Lordship, the aforesaid Moiety of two shillings per Hogshead under pretext of maintaining a Magazine as aforesaid had to the time of making this act Converted the same to his own use, to the Impoverishing of the Country and Defraud of the publick: and that his Lordship being then Incapacitated of Complying with what by the said act for the said Moiety of two shillings per hogshead, was required; it was therefore Enacted that the said one shilling per hogshead for the Defraying the Charges of Government aforesaid Commencing from the then present Shipping as well for such ships or Vessels as had then already Cleared before the making of this Act, as for such then remaining in this province should be raised levied Collected and paid unto our then Sovereign Lord and Lady the said King and Queen's most Excellent Majesties their Heirs and Successors for the Support of their Government for the time being, in and over this their Majesty's province, aforesaid and the Territories to the same belonging for Every Hogshead and quantity of an Hogshead of Tobacco, which had been for and during the time aforesaid or which should thereafter be at any time Shipped in any ship or Vessel to be Exported out of this province, or any the Territories Islands, ports, Rivers, Creeks or places thereunto belonging as aforesaid; provided always, and tis declared to be the true Intent and meaning of this act, that this Act or any thing therein Contained, should [not] be adjudged Construed, reputed or taken, any thing therein Expressed to the Contrary notwithstanding, to Disannul or make void his Lordship Right to the other Moiety of the said two shillings per hogshead, to be paid in Consideration of his rents and alienation money in Tobacco at two pence per pound, during the Term of his natural life, but that the same should be Kept, and by this law preserved to his Lordship, in as full and ample Manner as by the said last recited law was Expressed or Intended, or in the least to Discharge his Lordship of receiving the Rents aforesaid at two pence per pound as by the said recited act was Enjoined, during also the term of his natural Life nor, to Discharge his Lordship from Accounting for the arrears of the one Shilling per Hogshead for supporting the Government, and finding Arms and Ammunition, but that he should be Obligated to all the aforesaid Matters and things as fully and strongly, as if the said recited Law were in full force; as by the said act whereto your Committee Crave leave to refer, may appear, which act among others we find Continued as a Law of this province by a general Assembly held at Annapolis the 28th Day of June in the Eleventh year of the Reign of our Sovereign Lord King William the third of England &c and in the year of our Lord God 1699.

Your Committee humbly observe, that, altho' the said Acts of 1671, 1674 and 1676 herein before recited had a duration respectively with

p. 819 fore we Humbly presume the said act of 1692, herein before recited, was made for the support of his Majesty's Governor and Government for the time being, as by the said act relation thereunto had may more at large appear. Your said Committee most Humbly beg leave further to observe that by what appears to them, the said Duty Continued to be levied and raised by the said recited act of 1699, untill the year 1704, in the Reign of her late most Sacred Majesty Queen Ann of Pious memory, and at which time an Act passed Entituled an Act for Settlement of an Annual revenue upon her Majesty's Governor within this province for the time being; in which said act is recited the before mentioned Act made and passed in the year 1671 and after reciting also the Said Act before mentioned to have been made and passed on the 10th day of May in the year 1692 it is by the said act among other things Enacted, that the said one Shilling per hogshead for the Defraying the Charges of Government aforesaid as well for such ships or vessels as had then already Cleared before the making of this Act, as such then remaining in this province should be raised, levied, Collected and paid unto our the Sovereign Lady the Queen's most Excellent Majesty, her Heirs and Successors for the Support of her Government for the time being in and over this her Majesty's province aforesaid, and the Territories to the same belonging, for Every hogshead and quantity of an hogshead of Tobacco, which had been for and during the time aforesaid, or which thereafter should be at any time Shipped in any Ship or Vessel to be Exported out of this province or any the Territories Islands, ports, rivers Creeks, or places thereunto belonging as aforesaid; provided always, and it is by this Act Declared to be the true Intent and meaning thereof, that this act nor any thing therein Contained should be adjudged, Construed, reputed or Taken (any thing therein Expressed to the Contrary notwithstanding) to Disannul or make void his Lordships Right to the other Moiety of the said Two shillings per hogshead, to be paid in Consideration of his rents and Alienation money in Tobacco at Two pence per pound, during the term of his natural life, but that the same be kept and by this act preserved to his Lordship, in as full and ample manner as by the said recited law is Expressed or Intended or in the least to Discharge his Lordship of receiving the rents aforesaid at two pence per pound, as by the said recited Act is Enjoined, during also the term of his natural Life, nor to Discharge his Lordship from accounting for the arrears of one shilling per hogshead for support of the Government, and pro-

viding arms and Ammunition, but that he be obliged to all the aforesaid matters and things as fully and strongly as if the said recited Law were in full force, as by the said act, relation being thereunto had may appear and which said Act, your Committee humbly Conceive Continued in force until the year 1715, at which time also an Act passed at a Session of Assembly held on the 26th Day of April in the said year, Entituled, an Act Ascertainig the gauge and Tear of Tobacco hogsheads, and to prevent Cropping and defacing Tobacco Taken on Board Ships or Vessels upon freight, and for laying Impositions on Tobacco per the hogshead for the Support of Government, and for the Encourageing Settlements in this province by ascertaining the manner of paying the alienation fines and quit rents to the lord proprietary of this province on the Conditions therein mentioned, by which Act it is among other things recited that forasmuch as by the Enlargement of Tobacco hogsheads from the late gauge of Thirty Inches in the Diameter of the head to the gauge therein before ascertained and Enacted a Larger quantity of Tobacco would be Exported in each hogshead, whereby the several Duties and Imposts on Tobacco by the hogshead, would be Evidently retrenched and lessen'd unless a Just regard should be had to the p. 820 preservation of them in their usual wealth and Value, which the then present General Assembly was highly obliged, to those duties having been Generally applied to the Support of Government, and for other the most Important affairs of this province and that therefore it was not only Just but Necessary that the duties upon the hogsheads which should be of the gauge in the said Act, Directed, should be in some sort Enlarged proportionably to the Enlargement of the said Gauge, it was therefore by the said Act also Enacted that from and after the 29th day of September then next there should be raised, levied, Collected and paid to the King's most Excellent Majestys his Heirs and Successors for the support of his Government for the time being in and over this province of Maryland, and the Territories to the same belonging, for Every hogshead of Tobacco which should be shipped in any ship or Vessel to be Exported out of this province, or any the Territories, Islands, ports, Rivers, Creeks or places thereunto belonging, on or after the 29th Day of September aforesaid, the sum of fifteen pence Sterling in lieu and stead of the twelve pence Sterling formerly Imposed on Every hogshead of the aforementioned former gauge, and for every hundred weight of Tobacco Exported in box, chest, Barrel or case, two pence half penny Sterling, and so pro rato for a greater or Lessor quantity: and it is also by the said act recited, that whereas the then present general Assembly on notice of the Decease of the Right Honourable Charles Lord Baltimore, then late proprietary of this province, had made their Humble application to the Right Honourable Benedict Leonard Lord Baltimore then Lord proprietary thereof, that he would be favourably pleased to accept of his rents and

L. H. J. fines for Alienations in Tobacco at two pence Sterling per pound,
Lib. No. 45 in such manner and on such Condition and terms as his noble Ancestors had theretofore done, for the greater Ease to their Tenants in the payment of their rents and the better to Encourage the Cultivation and Settlement of the remoter parts of this their proprietorship, and that forasmuch as the Gratuity formerly settled on his said Lordship's ancestors for such their favours, was raised by Impost of twelve pence on the Exportation of Every hogshead or four Hundred pounds of Tobacco which Impost was determined by the death of the said then late lord Proprietary, so that at the time of making this Act his Lordship's rents were payable in money; but that forasmuch as to Continue the payment thereof in money would be wholly Impracticable from the great Scarcity of it, and that it would not only tend much to the Disappointment of his Lordship in the receipt of his rents, but also to the oppression of such Tennants as should hold their Lands under Conditions of such punctual payment as the Tenour of their Grants requires and to the Disinheriting many who would be obliged to Surrender their Estates for want of ability to Comply therewith, which in all probability would put a great Check to the future Cultivating the remote and forest Lands of this province, and be a Cause to several of those remoter Inhabitants to desert their (yet but poor) Improvements, to the Lessening the Revenue of the Crown and Discouraging the Enlargement of his Dominion in these parts; all which Inconveniences the then present General Assembly most Earnestly desired might be provided Against; and reciting also, that the quantity of Tobacco then usually Exported, or which might be Exported in a hogshead of the gauge by this Act Settled, Exceeded the quantity which was Commonly Reputed to be the Contents of an hogshead at the time when the aforesaid twelve pence per hogshead was Settled on his Lordship's Ancestors, for the making Easy the payment of his rents and fines for alienations aforesaid, and also, for that altho' the number of hogsheads annually Exported were Increased Since that time, yet for that the Value of his Lordship's rents were much more Encreased; it is by the said act Enacted, that from and after the 29th day of September then next, there should be raised, levied and Collected for every hogshead of Tobacco, which should be shipped in any ship or Vessel to be Exported out of this province, or any the Territories Islands, ports, Rivers, Creeks or places thereunto belonging, the Sum of Eighteen pence Sterling and for every Hundred weight of Tobacco Exported in box, Chest, barrel, or Case Three pence Sterling, and for every Hundred weight of Tobacco Exported in box, Chest, barrel or Case Three pence Sterling, and so pro rata for a greater or lesser quantity to the Kings most Excellent Majesty, his Heirs and Successors, for the uses hereafter Mentioned (over and above the aforesaid fifteen pence per Hogshead herein before Imposed) in lieu and stead of the twelve pence Sterling formerly Im-

posed on Every Hogshead, and applied to the use of the then late Lords proprietaries; and that the same duty of Eighteen pence per hogshead, should after the 29th day of September aforesaid from Time to time be paid and satisfied to the several and respective Naval officers of this province for the time being by the Master or Masters of every such ship or vessel respectively, in which &c. and that the said Naval Officers on receipt of the eighteen pence per hogshead aforesaid, should be, and are by this act, obliged to render an Account of and pay the same to the publick Treasurers of this province, after the same manner they were required to account for and pay the duties raised to defray the publick Charge of this province, to be by such Treasurers Accounted for and paid to the Right Honourable Benedict Leonard Lord Baltimore, then proprietary of this province in Case he should be favourably pleased to Accept the same in Consideration of his receiving his quit rents and Alienation fines during the Continuance of this act in Tobacco at the rate of two pence Sterling per pound after such acceptance by his said Lordship should be duly Signified to this province and that in case his Lordship should not think fit to accept thereof in manner aforesaid, then the said duties to be applied Towards the defraying the publick Charge of this province; and it is also by the said Act Enacted, that the same should Continue in force till the End of the next Session of Assembly that should happen of the 10th day of May then next, and no longer, as by the said act a relation thereunto being had may appear and by virtue of which last recited Act, your Committee humbly Conceive, the said duty for support of Government was levied and raised, untill his Majesty King George of Glorious Memory, was pleased to restore the Government of this province, [to] the Right Honourable Charles Lord Baltimore, the present Lord Proprietary of this province.

Your Committee humbly observe further, that upon his Lordships being so restored, and the Government again Changed, from his Majesty's to a proprietary Government in the year 1716, an Act passed at a Session of Assembly, held the 17th day of July, in the first year of the Dominion of the Right Honourable Charles Absolute Lord and proprietary of the province of Maryland and Avalon &c. and in the year of our Lord aforesaid Entituled an Act ascertaining the gauge and Tare of Tobacco hogsheads and to prevent Cropping and Cutting and Defacing Tobacco taken on board Ships or Vessels upon freight, and for laying Impositions on Tobacco per hogshead for the support of Government and for the Encouraging Settlements in this province by ascertaining the manner of paying his Lordships Alienation fines and quit rents for the Term therein proposed and for taking off the three pence per hogshead formerly raised for the Publick Charge: by which said Act, it is Among other things recited as is before mentioned to be recited, Concerning the

 there should be levied, Collected and raised to the Right Honourable

 mentioned former gauge, and for every Hundred weight of Tobacco

 ling, and so pro rata for a greater or lesser quantity, with a proviso,
 that the money that should be raised by the said Duty should be
 applied to those Ends and uses for which it had to that time been
 raised, Viz. for the support of his Lordship's Government within
 this province in manner following and not otherwise that is to say,

 better Defence of this province, and for the due preservation thereof
 to be Collected by the proper officer, and paid to the Treasurer or
 Treasurers of this province for the time being to be Disposed of to
 the uses, aforesaid as the Governor and Council for the time should
 Direct the other twelve pence to his Lordships Governor for the time
 being actually Inhabiting and residing within this province for the
 better Enableing him to Support the Honour and Dignity of Gov-
 ernment and Effectually Execute the powers and authorities to him
 Committed, to be Collected by the proper officers by him appointed,
 and paid to such Governor as aforesaid: and that in Case of the
 Death or absence of such Governor the one half of the said twelve
 pence applied to the Governor as aforesaid, that should arise in such
 a Vacancy, should be applied to the maintainance and Support of his
 Lordships Council as should then preside, the other half to be ap-
 plied towards Building a house for his Lordship's Governor, and be
 Lodged in the Public Treasurer's hands for that use; and the said
 act reciting also, that the General Assembly of this province, on the
 26th day of April 1715 made their humble Application to the late
 Right Honourable Benedict Leonard Lord Baron of Baltimore that
 he would be favourable pleased to accept &c: as in the aforesaid Act
 of 1715, is as aforesaid recited, Concerning the payment of his Lord-
 ships quit rents and alienation fines, and reciting further that a Law
 was then passed for raising of an Impost of Eighteen pence Sterling

taining the gauge and Tare of Tobacco Hogsheads and to prevent Cropping Cutting and Defacing Tobacco taken on board Ships or vessels upon freight and for laying Impositions on Tobacco per Hogsheads for the Support of Government, and for Encouraging Settlements in this province by ascertaining the manner of paying his Lordships Alienation fines and quit rents for the Term therein proposed, and for taking off the three pence per hogshead formerly raised for the publick Charge; which Among other things recites as is before mentioned to be recited Concerning the Enlargement of the gauge in the aforesaid act, said to be passed in the aforesaid year 1715, and it is

L. H. J. by the said Act among other things Enacted that from and after the
Lib. No. 45 End of the then present Session of Assembly there should be levied Collected and raised to the Right Honourable the Lord proprietary, his heirs and Successors for every hogshead of Tobacco which should be shipped in any ship or Vessel to be Exported out of this province, or any the Territories, Islands, Ports, Rivers, Creeks or places thereunto belonging, after the end of the then Present Session of Assembly the sum of fifteen pence Sterling in lieu and Stead of twelve pence Sterling per Hogshead, formerly Imposed on every Hogshead of the aforementioned former gauge, and for every hundred weight of Tobacco Exported in box, Chest, or case two pence half peny Sterling and so pro rato for a greater or Lesser quantity, provided always that the money that should be raised by the said Duty, should be applied to those ends and uses, for which it had to that time been raised Viz. twelve pence of the aforesaid fifteen pence per hogshead to the Lord Proprietary for the support of Government, and the remaining three pence of the said fifteen pence per Hogshead for the Purchasing arms and Ammunition for the Maintaining a Magazine for the better Defence of this province and for the due preservation thereof, to be Collected by the proper officer and paid to the Treasurer or Treasurers of this province for the time being to be Disposed of the uses aforesaid, as the Governor and Council for the Time being should Direct, provided Nevertheless, that in the absence of the Lord Proprietary himself out of this province one shilling part of fifteen pence be applied towards the Maintaining the Station and Dignity of his said Lordships Lieutenant Governor, actually Inhabiting and resideing within this province, and to such other necessary uses toward the suport and Defence of the Lord Proprietary's Government of this Province, as in his Lordship's Wisdom to him should seem meet, and that in case of the death or removal of such Lieutenant Governor from his Government the one half of the said twelve pence applied to the Support of Government as aforesaid, that should arise in such Vacancy, should be applied to the Maintenance and Support of such person of his Lordships Council as his Lordship, by his Instructions to his Lieutenant Governor, or otherwise should apoint to preside, and to such other Necessary uses Toward the Support of his Lordships Government, as in his Lordships wisdom to him should seem meet; the other half towards Building a house for his Lordships Lieutenant Governor for the time being to recide in the money for the said Building to be Lodged in the publick Treasurers hands and, to be applied and layed out in such manner and place as the Lord proprietor, or in his Absence his Lieutenant Governor and Council should appoint; and the said Act also further reciting, as is before mentioned to be recited, Concerning the payment and his Lordships receipt of his rents and Alienation fines, it is also thereby among other things Enacted, that from and after the then present Session of Assembly, there should be raised levied, Col-

lected and paid, for every hogshead of Tobacco which should be shipped in ship or Vessel to be Exported out of this province or any the Territories, Islands, ports, rivers, Creeks or places thereunto belonging the sum of Two Shillings Sterling, and for every Hundred weight of Tobacco Exported in box Chest Barrel or case four pence sterling and so pro rato for a greater or lesser quantity, to his Lordship the Lord proprietary in full Discharge and Satisfaction of his quit rents and fines for alienations, that should arise or grow due within this province from and after the end of the then present Session of Assembly, and the said Duty of two shillings Sterling per hogshead should after the end of the said Session be paid to such officer or officers, as his Lordship should think fit to appoint to receive or Collect the same, by the Master or Masters of every such ship or Vessel Respectively, in which &^{ta}: and it was by the said Act also Enacted, that the aforesaid Act of Assembly herein before mentioned to have been made and Passed in the aforesaid year 1716 should be and remain in full force and Virtue untill the last mentioned Act should Take place, and thereafter to be Entirely void, and thereby repealed; and it is in the said Act also Enacted, that the said Act should Continue untill the 29th day of September which should be in the year 1720 by the said Act, relation thereunto being had may appear; and under which act, and the several renewments thereof, his Lordship Continued to receive the duty thereby arising for support of Government, and in lieu of his quit rents and Alienation fines, untill the same determined on the 29th of September 1733, upon which Determination of the act aforesaid as appears to your said Committee, his Lordship has ever Since (under pretext and Colour of the afore recited act of 1704 in the Reign of Queen Ann of Pious Memory) caused the said twelve pence Sterling per hogshead to be levied Collected and raised to his own proper use. Your Committee humbly observe, that by the frequent Continuance and reenacting the said Act of 1692 during the time wherein the Government and protection of this province was in the Crown, that the Legislators did not deem the same, or any of them, perpetual but to have duration only with such governor or Government. Your Committee likewise observe, that it was the sense of the Legislators that Acts granting to the Proprietary for support of his Government did not extend to that of the King, as is plainly Manifested in the act of 1692, that of 1676 being still unrepealed, and having expressly its duration with the Life of Charles Lord Baltimore, Lord proprietary of this Province.

And again when the Government was restored to his Lordship the Lord proprietary, the Act of gauge and Tare was made for support of his Lordships Government, and other uses therein Expressed. and with great Submission, your Committee humbly Conceive that the Sense of the Legislators in this point is Clearly Expressed, that is,

L. H. J. that the Act of 1704, or any other Act giving or granting to the

 evinced in the act Entituled an Act for Transferring the payment of

 we humbly presume, that in no Construction of the words, sense

 aforesaid, payable or due for Merchandize and wares, there to be

 Assessed (upon any Occasion) by themselves and the people there
 as aforesaid; to whome we give Power by these Presents for us our
 Heirs and Successors, upon Just cause, and in due proportion, to
 Assess and Impose the same, and your Committee beg leave further
 to observe, that the Legislators made a manifest Difference between
 the government of the Crown and his Lordships Government, as
 appears by an Act Entituled an Act for the Continuance of Process
 within this province, on the Change of Government as by the said
 Act, in the printed body of Laws, folio 169 relation thereunto being
 had, may more fully and at Large appear. and we beg leave to
 observe, that the same also further appears from an Act made at a
 Session of Assembly, begun and held at the City of Annapolis on
 the 17th day of July in the first year of the Dominion of the Right
 Honourable Charles Lord Baron of Baltimore &c. Annoque Domini

 Safety of his Lordships Government and the Protestant Interest
 within this Province as by the said Act, also in the printed Body of

 in his writs and Other proceeding, wherein he dates the year of his
 Dominion, Commencing the same from the Year in which his late
 most Gracious Royal Majesty of Glorious memory was pleased to

restore him his Government of this Province, and which Government is distinguished from his Majesty's by his Lordships Commission to his Lieutenant General and Chief Governor in the following words.

Lib. No. 45

by the Committee of Aggrievances and Courts of Justice,
May 26th 1739.

Your Committee have received a Complaint from M^r Joseph Hall one of the members of your Honourable House, returned, for Calvert County, that his Mother M^{rs} Ann Cockshutt, widow and relict of Thomas Cockshutt, late rector of All Saints' Parish in the said County Deceased, having occasion to Commence a suit against Charles Drury and John Campden of Prince Georges County, in the Provincial Court, did accordingly apply to Daniel Dulany, Esq^r one other Member of your Honourable House, as her Attorney, to Commence and prosecute the same in her behalf, which he accordingly undertook. that some time after, the said Daniel Dulany, Esq^r wrote to his said mother, informing her that the action could not go on, untill Security was given in the Secretary's office for the fees which should accrue due to the Secretary in the said Action. that some time after, the said Joseph Hall meeting Edmund Jenings Esq^r then and still Secretary of this province, at Calvert County assizes he informed him of what the said Daniel Dulany Esq^r had advised his Mother as aforesaid, and at the same time offered the said Edmund Jenings, Esq^r his own bond, or any other Security for the said fees ; but the said Edmund Jenings Esq^r pretended to be in a hurry, and said that he Could not then take such Bond, but it might be done another time, whereupon the said Joseph Hall demanding of the said Edmund Jenings Esq^r wheather his said Mother should not be a Sufferer for want of such bond, he did in Answer assure the said Hall, she should not. that Notwithstanding the offers and Precautions so as aforesaid made and taken by the said Hall, and the assurance to him given by the said Edmund Jenings Esq^r as aforesaid, the Declaration Tendered by the said Daniel Dulany Esq^r on behalf of the said Ann Cockshutt, against the said Charles Drury and John Campden, was among Several Declarations and other Pleadings, refused to be received into the said Secretarys office and the Reason given and Indorsed on the said Declaration and other Pleading's (in pursuance of a Demand made by Daniel Dulany, Esq^r for the reason thereof, and to Indorse the same as aforesaid) by the Clerk of the said office was that he the said Clerk, had

p. 838

L. H. J. received a General order from the said Edmund Jenings Esq^r to

 Office, untill Security was given by the parties to the said Pleadings
 respectively, for such fees as should arise due to the said Secretary
 in such Actions.

that the said Edmund Jenings Esq^r then and still Secretary of
 this Province was employed from the beginning of the said Action
 on behalf of Both the said Defendants, as their Attorney, that for
 want of the receipt of such Declaration into the said office for the
 reasons aforesaid, a non suit was had against the said Ann Cock-
 shutt, and she was Surprized and taken with an Execution for Costs
 thereon that upon the Renewal of the said Action by the said Ann
 Cockshutt against the said Charles Drury and John Campden he the
 said Joseph Hall was obliged to give a Judgment Bond in the
 penalty of ten Thousand Pounds of Tobacco, payable to the said
 Edmund Jenings Esq^r as security for all such fees as should Accrue
 due to the said Edmund Jenings, in the said Action, before the writ
 was Suffered to Issue from the said office. That the said Hall
 deemed himself by the Discourse between him and the said Edmund
 Jenings, Esq^r in Calvert County aforesaid, Chargeable with, and
 Liable to pay unto the said Edmund Jenings, all such fees as should
 have accrued due in the said Action.

And your said Committee humbly observe, that the said Hall is
 a person of undoubted Credit and that Altho, he had not, by the
 Discourse aforesaid, deemed himself Liable for the said fees, yet the
 said Ann Cockshutt, also, by repute, is a person of good Credit and
 Ability, and very Capable to have paid any Costs that had, or Could
 have arisen in the Prosecution of the said Suit. Your Committee
 humbly Conceive, that such Actings and Doings are a let Hindrance
 to, and a Denial of Justice, and greatly tend to the unnecessary
 Multiplication of fees and of Course to the unnecessary Burthening
 the subject; and that the taking of Judgment Bonds or any Bonds
 in such Cases is Extortion; and that it is a great Aggrievance, and
 a present growing Evil against Law and Reason that his Lordships
 Secretary of State who is thereby Chief Clerk of the Provincial,
 and Chief Register in Chancery Courts, his Deputy, Clerks or other
 officers of Any Courts of Record within this province, to whose
 power, Care and Keeping, the records of such Courts are Committed
 and who take and receive to themselves the profits and Advantages
 of the fees arising on all Actions Commenced and Prosecuted should
 be admitted to practice as attornies, Solicitors or Councillors, in
 such Courts the fees whereof do arise and Accrue due unto them-
 selves: and that the whole is a heavy and oppressive Aggrievance
 p. 839 and loudly calls for Redress But the same is humbly Submitted to
 the Consideration of your Honourable House

Signed p Order of the Committee. S Bordley Clk.

M^r Mathews from the Committee of Aggrievances delivers M^r Speaker the following Report

Your Committee Observe that the fees of the several Officers and Ministers of this province their Deputed Ministers, Servants, and Officers are in themselves, as now paid, Excessive, Great and Oppressive to the Subject and that the said Fees are under no Regulation of any law of this province that appears to your Committee

That the said Officers and Ministers their Deputed Ministers, Servants and officers by power of A Proclamation of the Right Honourable the Lord Proprietary dated the 14th day of April 1733 and one order of Council dated the 23^d day of April 1735 and one other Order of Council dated the 15th day of July hereunto annexed, do charge, Levy, Raise, and Receive from his Majestys Subjects of this province such Fees so as aforesaid Burthensom, Great and Oppressive, to the Discouragement, Ruin and undoing of many of his Majestys Liege Subjects, and even the said colour of power is Exceeded by the Unlimited Will, and unbounded Avarice of many of the said Officers Ministers and their Deputies.

Your committee humbly Observe that by the Royal Charter, the Resolves of your honourable House, and the Common Custom of this province, the Subjects here are Entituled to the Customs, Common Law and the Securative Statutes of the Rights and Liberties of the Subjects in our Mother Country Great Britain and by which custom of Great Britain such like Fees of the Courts of Justice and the several Officers have been settled by Acts of Parliament agreeable to which

Your Committee further most humbly Observe that from the Earliest Times since the Settlement of this Province by British Subjects, such Fees have been adjusted and Regulated by Acts of the

L. H. J. General Assembly and not by any other power or Authority till the
Lib. No. 45 aforesaid proclamation

Your said committee most humbly conceive that such proclamations or orders of Council charging his majestys Liege and dutiful Subjects with any Tax or Talliage are Invasions on the Fundamental Constitution of this province and against the lawful Rights and Liberties of the Subject and are in themselves and their Consequences very Grievous and oppressive to his Majestys Liege Subjects the Inhabitants of this Province, but the same is humbly Submitted to the consideration of your Honble House

It appears to your said committee that in Liber L: L. wherein are Recorded the Laws of this Province from the Year of our Lord God 1692, to the year 1710, in the Folio 111 &c^a of which Book is

recorded An Act Entituled An Act for settlement of an Annual Revenue upon her Majestys Governor within this province for the time being, and which Book is in folio 409 concluded under the Seal of the Secretarys Office and Tested John Beale clerk of the Provincial Court as by the said Book reference being thereto, had will appear

L. H. J.
Lib. No. 45

Notwithstanding which the said Act is afterwards in Folio 409, 410, 411 of the said Book Entered with many Interlienations and Incertainties and more particularly the Words in the said Act of 1704 Recorded in Folio 111 &c^a are for support of her Government yet your committee find in the said Post Entry of the said Act in p. 86^r Folio 410 &c^a the Words " for Support of Government " leaving out the word " her "

Your Committee do not know by what Authority the said Post Entry was made, But most humbly Apprehend that it may be of dangerous Consequence to admit of a Licentious Entry of the Laws of this Province and that contrary to the Words of the Law, as your Committee observe has been done here, But they humbly submit the same to the consideration of your Honourable House

M^r Calder delivers M^r Speaker the following Address

To His Excellency, Samuel Ogle Esq^r Governor and Commander in chief in and over the Province of Maryland

The humble Address of the House of Delegates of the same Province in General Assembly met

May it please your Excellency

We his Majestys most dutiful and Loyal Subjects the Delegates of the Freemen of the Province of Maryland in General Assembly convened having in the most candid and Serious manner taken into consideration the money lately raised as a duty upon Tobacco for the support of his Lordships Government must acknowledge ourselves sensibly concerned to find that twelve Pence Sterling money for every Hogshead of Tobacco exported since the 29th of September 1733 has been collected and Levied from the people of this Province without any Law that we know of to warrant the same

We have been indeed informed by the several Naval Officers that they Levy that money by Virtue of An Act of Assembly made in the year 1704 Entituled An Act for settlement of an Annual Revenue upon her Majestys Governor within this province for the time being what light this Act has hitherto appeared in, to your Excellency, we cannot say, but we hope that when you have considered in the manner we have done, the several Acts made for raising money for the Support of this Government at the respective Times when the same was in the Hands of the Proprietarys or immediately in the Crown,

you will be perswaded that those made in the one have never been deemed to extend to the other, nor that his Lordship had a Right to the money Granted to the Crown, for the support of Government any more than to the Fines and Forfeitures arising on the Breach of Penal laws then made, until Acts in his favour were past in both cases on his being restored to the Government with regard to which, and to the sence of this House thereupon, we beg leave to refer your Excellency to a Report made to us from our Committee of Aggrievances, and concurred to by this House, A copy of which we have herewith sent for your Excellencys perusal

L. H. J.
Lib. No. 45

Your Excellency is too well acquainted with the nature of the British constitution to be informed from us that it is the peculiar Right of his Majestys Subjects not to be liable to any Tax or other Imposition but what is laid on them by Laws to which they themselves are a Party: and we do with the greatest Sincerity assure your Excellency that it is in pursuance of this our undoubted Right and for no other Cause that we give you the Trouble of this Address.

We well know that a people living under a Government ought to be at the charge of supporting it, nor have we any other Intention than to give his Lordship such an Honourable one as shall be Adequate to the Ability of those we represent

We have now prepared a Bill for an Honourable Support of Government which is sent to the Upper House, and hope it will pass into a Law which will manifest the Desire this House has of Cultivating A Good Understanding betwixt the Government and people, to perfect which nothing on our part shall be wanting, and we doubt not of your Excellencys Endeavours and Concurrence to so desirable an end.

We therefore pray your Excellency for quieting the minds of the People we represent, and to preserve to them the Rights of British Subjects that from whatever mistake or misapprehension that duty has lately been raised the same may now cease.

Which was read approved and ordered to be Ingrossed.

M^r Mathews from the Committee of Aggrievances &c^a delivers M^r Speaker the following Report

By the Committee of Aggrievances and Courts of Justice

May 29th 1739

Your Committee humbly Observe that the several Collectors and Naval Officers within this province Insist on and Receive from the respective persons trading into the same for all Entries and Clearing

L. H. J. of their Vessels, their Several fees in Gold and Silver contrary to
 Lib. No. 45 A Clause in an Act of Assembly Entituled An Act for emitting and
 making Current Ninety Thousand pounds current money of Mary-
 land; part of which Clause is the following Words

And be it further enacted by the Authority aforesaid that the
 said Bills of Credit shall pass in payment Satisfaction and discharge
 of all contracts to be made from and after the publication of this
 Act within this province for current Money &c^a

Your Committee likewise humbly observe that they conceive the
 said Naval Officers fees Are Stated in the Current Money of this
 Province if by any law by An Act Entituled A Supplementary Act
 for limitation of officers fees as by the said Act in the printed Body
 of Laws Folio 149 Relation thereunto being had may more fully
 appear.
 [Parks's
 Compilation
 of 1727]

Your said Committee with great Submission most humbly con-
 ceive that by the third Clause of the First mentioned Act the said
 Bills of Credit are made equal in Value to proclamation current
 money of America wherefore and inasmuch as the Entries and
 Clearings of all Ships and Vessels after the said Act for emitting
 and making current ninety Thousand pounds as aforesaid took place,
 have been contracts within the meaning of the said Act payable in the
 said Bills of Credit

Your committee therefore most humbly conceive that the Insist-
 ing on and obliging the people Trading into this province to pay
 in that case in other Specie than is provided for by Law, is destructive
 to the Credit of the said Currency Emittted on the surest Foundation
 this province could offer; and is a very great Aggrievance But is
 humbly submitted to the consideration of your Honourable House

M^r Mathews from the Committee of Aggrievances delivers M^r Speaker the following Report

By the Committee of Aggrievances and Courts of Justice
May 30th 1739

It appears to your Committee upon Examination of Thomas Bullen late Clerk of Talbot County by the Examination and papers hereunto annexed, that there is a Strong Presumption of there having been great Abuses committed in relation to the Huxtering Sale and purchasing the Office of Clerk of the said County, and particularly by the present Clerk John Leeds

Your Committee most humbly conceive that the sale of such Clerkship relating to Courts of Justice, is against Law and productive of many Evils to his Majestys dutiful Subjects but tis humbly submitted to your Honourable House

Signed ꝑ Order of the Committee S. Bordley Cl.

The Examination of Thomas Bullen

p. 865

Thomas Bullen of Talbot County being examined before your Committee declares that some time in the Year 1729 or thereabouts, he had finished an Apprentiship or Clerkship with M^r Tench Francis of the said county Gent. who was at that Time Clerk of the said County, during which Time he wrote for the said Francis as Clerk of the said County and as an Attorney likewise And that for and during the space of three or four years next after his said Clerkship or Apprenticeship Expired he the said Thomas Bullen was out of Business suitable to him, and in the year 1734 Entred into a Verbal Contract with the said Tench Francis then also Clerk of the said County but the said contract was not entered into and executed in Writing between Richard Francis late of Ann Arundell County Esq^r Brother to the said Tench, and the said Thomas Bullen and after the Execution of which Articles as aforesaid the said Rich^d Francis assigned the said contract over unto the said Tench Francis by a Writing, A Copy whereof with A Copy of the said Articles he the said Thomas Bullen delivered to your Committee and are hereunto annexed and under which Articles a Commission was Granted to the said Thomas Bullen to be clerk of the said county, and which

L. H. J.
Lib. No. 45 Commission was procured by the Interest of the said Tench Francis from Edmund Jenings Esq^r Secretary of Maryland or his Attorney in Fact, but the same was signed by the said Jenings. Upon the Obtaining of which Commission the said Thomas Bullen Entered into a Bond with the said Tench and Richard Francis as Sureties to the said Edmund Jenings conditioned for payment unto the said Edmund Jenings of the tenth part of the Fees that should arise on the said Office of Clerk of Talbot County aforesaid and further that he the said Thomas Bullen with Risdien Bozman and the said Tench Francis as his Securities Entered into Bond to the County Court aforesaid agreeable to the Act of Assembly in that case made and Provided and that after he had the Commission entered into the Securities aforesaid he Executed the place of Clerk of the said County from the first day of June 1734 until the 10th day of July 1738 and during the said time discharged the Business of Clerk aforesaid under the Conditions and Articles aforesaid and during which time also the said Tench Francis received all the profits of the office save the Salary contracted to be by the said Tench Francis paid to the said Thomas Bullen and the tenth part to be by the said Thomas Bullen paid to the said Secretary which the said Thomas yearly paid by an Order on the Sheriff of the said County that after the said Thomas had been some time in the Land Office the said Tench Francis told him the said Thomas that he had paid Two hundred Pound for the same and in some time after on discourse between the said Tench Francis and the said Thomas he the said Tench told him that the said Jenings had publick said that he the said Jenings had received of him the said Tench One hundred pounds for the said Office that some time in the year 1738 the said Thomas Bullen being summoned to attend the Honourable the House of Delegates then sitting in Annapolis John Leeds of Talbot County came to him the said Thomas and told him that M^r Tench Francis wanted to speak with him upon which he went to the House of the said Richard Francis and the said Tench came to the door and took him into A Room and told him the said Thomas Bullen that the said Leeds had been with him and had offered him a Sum of Money for the Clerks place aforesaid and that he the said Thomas must Resign it upon which the said Thomas told him it was hard to resign at that Time when the country were in a ferment about the matter and that if he must resign he would choose to do it when the matter was over and quiet and which would be in a few months In answer to which the said Tench said that it must be then for that he intended to leave the parts and Resolved to go to Philadelphia upon which the said Thomas told him the people would Sacrifice him the said Thomas, and asked what would become of him In answer to which the said Francis told him that he should come to no harm or be hurt on which the said Thomas told him he would Resign whereupon the said Tench desired him the said Thomas to go to the said Leeds

and ask him for 320*l* Sterling for the place of Clerk of Talbot County aforesaid and if he could get it he should have twenty which accordingly the said Thomas did thinking himself in duty Obligated to Obey the orders of the said Tench not thinking them unlawful and met the said Leeds near the House of Captain Mariot, where or near the Place where he had parted with him before and asked him the said Leeds after some previous discourse what he would give for the Office of Clerk and after some questions by him the said Leeds asked of him the said Thomas as whether he would resign the place aforesaid and such others relating thereto and after his answering in the Affirmative he the said Leeds asked what he would take the said Thomas told 320 *l* Sterling whereupon the said Leeds Offered 130 *l* Sterling or more and other Offers of Land and other Composition thinking the Sum of Sterling money too large the said Thomas not finding Leeds comply and not being very forward returned to the said Francis in some time after upon which the said Francis told him that Leeds aforesaid had been with him the said Francis and declared to him that he could purchase the Office of him the said Thomas for a Trifle 130 *l* as he the said Leeds had said; the said Bullen answered and said he believed he would give more and that he asked him the 320 *l* upon [which] the said Francis desired the said Bullen to go to the aforesaid Leeds and tell him to come to him the said Francis and agree with him which the said Thomas Bullen accordingly did in a short time, in Annapolis aforesaid and told the said Leeds he must go and agree for the place aforesaid with the said Francis

L. H. J.
Lib. No. 45

p. 866

In a few days after the said Thomas being called before a Committee of the House of Delegates in relation to some ill Practices in the said Office he returned to him the said Tench Francis and asked him if he the said Thomas might not as well have the said Office as Leeds and that he could afford to give as much as Leeds should upon which the said Francis answered that he should have it for 250 *l* sterling and then parted, some time after which, he the said Thomas at or near Talbot County Court House in Court time had some discourse with the said Francis and told him he could not procure the money but that if he would continue him in the Office he would make him any reasonable consideration, but that if he Insisted he would resign. They thereupon also parted, and in about A Week or some few days after in the Court Time of Talbot County aforesaid the said Tench Francis came into the Court House of the said County and into the Office there with an Instrument of Writing in nature of a Resignation of the said Office into the hands of the said Edmund Jenings Secretary aforesaid and desired him the said Thomas to execute the same which he the said Thomas Complied with and sealed the same, to which the said Tench Francis Signed as an Evidence and that at the same time he the said Tench told him the afore-

L. H. J. said Thomas, he should have his Bond and that he would take something from under the Hand of the said Thomas for the fees that were unpaid, the next day after the execution of the said Instrument of Resignation the said Thomas went to the dwelling House of the said Tench Francis and there found Captain Ambrose Cock and John Leeds aforesaid and applied to said Francis for his Bond aforesaid In answer to which the said Francis told him he was then busy and asked him if he could not Trust him;

At the said time the said Leeds and he the said Thomas walked out and the said Thomas told him that M^r Francis had used him unkindly and that it was hard that he should be so turned out of the Office and told the said Leeds that he gave a great Sum of Money for it, upon which the said Leeds enquired into the Annual Value of the said Office and soon after the said Leeds came over to Annapolis and on his Return, told the said Thomas he Could not get his Commission then but that he must again repair to Annapolis in about A Fortnights time and then should get his Commission, And that the Secretary had Ordered it so, and which accordingly he did at the appointed time but then again returned without the said commission occasioned as the said Thomas believed by the Want of A Resignation Endorsed on the Commission of him the said Thomas as appears by the letter hereunto annexed signed Tench Francis and which Resignation the said Thomas endorsed on the back of the Commission as required and delivered it to the said Tench Francis and believes the said Francis sent the same to the said Leeds and in about four or five days after the said Leeds entered into the said Office of Clerk of the said County and was qualified before William Thomas Junior one of the Justices of the said County

The Governor Communicated the following answer to the Address of this House

Gentlemen of the Lower House of Assembly

I have considered your address delivered to me on Thursday last and can very truly assure you that it has been my constant and uninterrupted View and Aim, ever since I had the Honour of being appointed Governor of this province, to promote the General Happiness and Prosperity of it, by all the Ways and means that have lain in my power, and I have the Pleasure of flattering my self, that my Endeavours have not been without some Success, but that both the Trade and Riches of this province have greatly increased during the time of my Administration, and I am perswaded they would have done so in a much higher degree, had our paper money been put upon that Foot of Credit which the Government laboured so heartily and sincerely to give it, and which could be done no other way then by putting it to as many uses as possible, as must be readily Allowed by every man of understanding, who has given any reasonable attention to Trade, and the proper means of carrying it on

As what I now say is not only well known to all men of business here but to every Merchant in London who is acquainted with the Trade of this Province I hope it will be looked upon as a Sufficient Answer to all General Charges of Oppressions and Grievances so often mentioned this Assembly, and as to particular ones I make no doubt of giving Satisfactory answers to them whenever you shall please to lay them before me

The present Subject of your address is the twelve pence p hhd raised for the support of Government, which You say “ You are sensibly concerned to find has been since the twenty ninth of September seventeen hundred and thirty three Collected and Levied from the People of this province without any law that you know of to warrant the same

That you have been indeed informed by the several Naval Officers that they levy that money by Virtue of An Act of Assembly made in the year 1704 Entituled An Act for settlement of An Annual Revenue upon her Majestys Governor within this province for the time being

L. H. J.
Lib. No. 45

This manner of expressing your selves would really have inclined me to believe, that you had not before known by what Law the said twelve Pence p hhd had been collected till the Information above mentioned from the said Naval Officers; was it not so notoriously known that the said law of 1704 was not only under the Consideration of the Lower House of Assembly in the year 1733 but has been greatly canvassed in Conversation by the members of every Assembly that has met since that time, and that it has been universally looked upon by every part of the Legislature since that time as a law in force and being till some Gentlemen of new light (for I find We have new Light in Politicks as well as in Religion) lately undertook to undeceive us in this particular

If the said Law should be found not to be in force I must own I should be greatly surprized, as I believe many others would be of far greater knowledge and Experience than myself, but shall with all duty & Submission be at all times ready to submit myself to the Judgment of Superiors at home where neither the Artful Practices of Arbitrary and corrupt Governors nor the causeless clamours of self Interested and ill designing men can cover themselves with those disguises which are but too often put on before less Penetrating Judges, but everything must appear in its true and proper light and be judged of accordingly

p. 880

I must confess indeed that the opinion of the Lower House of Assembly for which I must at all times have the greatest Regard would have had more weight with me upon this occasion, had you not laid before me the Grounds and Reasons of it, set forth at large in the report annex to your address in which without taking upon me to determine what must be left to the Judgment of our Superiors as I mentioned before I hope I shall be able to point out a few Mistakes and misapprehensions that will be a sufficient excuse for me even with your House, for not considering the several Acts for raising money for the support of this Government in the same light that you have done

It might tire your Patience was I to follow you in the Recital of the several Acts of 1671, 1674, 1676, 1692, 1699, 1704, 1715, 1716, 1717 which take up many pages therefore shall only take notice of some mistaken Facts, and your Conclusions from them of so very Material a Nature that they seem to destroy the whole Foundation of your long Argumentation

In order to destroy the Validity of the Act of 1704 your Chief Argument is that tho a Law of the very same nature was given to the Crown in the year 1692 the said Law of 1692 was not deemed by

L. H. J. the Legislators to be perpetual but was continued by another law
 Lib. No. 45 passed in the year 1699 which Act of 1699 continued till the year 1704 at which time an Act passed Entituled An Act for settlement of An Annual Revenue upon her Majestys Governor for the time being which Act of 1704 you wou'd have to be no more perpetual than that of 1692 pray take notice of the very words of the Report.

Your Committee humbly Observe that by the frequent Continuance and Re-enacting of the said Act of 1692 during the time when the Government and protection of this Province was in the Crown that the Legislators did not deem the same or any of them perpetual, but to have a Duration only with such Governor or Government

In answer to which I may think I may say that the said Act of 1692 appears to A Demonstration to have been looked upon as a perpetual Law, that it not only Continued in force without any Reenacting during Govern^r Copleys time Governor Nicholsons time and Governor Blackistons Time but likewise during the Internal betwixt the Government of the two last mentioned Gentlemen and Governor Seymours Arrival in 1704 when a repealing Law that then passed might make the Government think it necessary to have the Law of 1692 re-enacted another perpetual One made to the same purpose, which was done accordingly, and which is the Law by which the Governm^t is at present supported as to the Law you mention of 1699, to continue that of 1692, I must Confess, I can find no such Law, nor could your Committee that made the Report point out to me such a one on the Contrary I find that An Act passed in the year 1699 for repealing several Laws then in force, the Law of 1692 for the support of Government is expressly excepted out of the said Repealing Act, and is again excepted out of a repealing Act passed in the year 1700 Entituled An Act for repealing certain laws in this Province and confirming others which makes it manifest beyond Contradiction that it was looked upon as a perpetual Law and accordingly it continued without any new force being added to it by any Act passed in 1699 till the repealing Act in 1704 as above-mentioned

It would be too tedious to enter into a detail of all your other Arguments which I flatter myself you your selves will see the Insufficiency of upon a more attentive and deliberate Consideration but I can very truly say that however Fallacious they may appear to me, and however well Satisfied I may be of the Validity of the Law by which the Government is at present Supported I shall always be very willing to do any thing in my power to put a final end to all disputes of this nature consistent with my duty to his Majesty and the Lord Proprietary, which obliges me not to weaken in any manner that Support which the Government is at present by Law entituled to, and I would willingly perswade my self that there is no difference of Opinion amongst us upon this head but what may be easily reconciled by a little cool and impartial Deliberation

You very Justly express your sence " That a people living under a Government ought to be at the Charge of supporting it, and that you have not, any other Intention then to give his Lordship such an Honourable one as shall be adequate to the Ability of those you represent " And in the Bill sent up to the Upper House you propose twelve pence Sterling p hhd the same that the Government now collects by the present Law, what then can remain to quiet the minds of the most uneasy, but to Confirm the said Law if you think such A Confirmation in any manner necessary, and I believe I may leave it to yourselves, whether this will not more plainly manifest the desire your House has of Cultivating a Good Understanding betwixt the Government and people than Proposing A Bill with A Preamble setting forth That it doth not appear to this present General Assembly that there is any law now in force to raise a sufficient Support for the Government but that from the 29th day of September in the year of our Lord 1732 down to this Time the sum of twelve Pence for every hogshead of Tobacco exported out of this province hath been collected without any Law for so doing &c^a

L. H. J.
Lib. No. 45

It would be very easy to change this preamble and Substitute an other in its place as much reflecting upon the Lower House of Assembly, as that is upon the Government, but how much such Proceedings contend to cultivate a good Understanding amongst us, to which you say nothing shall be wanting on your part must be left to impartial People to judge

And the following message (See page 255.)

The following address to his Excellency viz.

p. 883

To his Excellency Samuel Ogle Esq^r Governor and Commander in Chief in and over the province of Maryland.

The humble Address of the House of Delegates.

May it please your Excellency.

We his Majestys liege Subjects the Delegates of the Freemen of the Province of Maryland in General Assembly convened being divested of all partial or self interested Views and prompted only by our Zeal for the publick Good, according to the duty of our Station have maturely considered the several particulars hereafter mentioned, concerning which we have received the loud Complaints of those we represent, and encouraged by your Excellencys kind Declaration at the opening of this Session that no man is come to this Assembly more sincerely desirous of the Welfare of the province than yourself or more willing to give a helping hand to the removal of every Obstacle to its Happiness and Prosperity beg leave to lay them before you as Grievances under which we and our constituents labour and whereof the evil consequences daily grow

L. H. J. upon us not doubting, that when they are set in their proper light,
 Lib. No. 45 we shall have your Excellencys helping hand to the removal of them
 as real Obstacles to Our Happiness and prosperity, that the people
 of this Province are Subjects of Great Britain and entituled to all
 the Rights Priviledges and Liberties of that their Mother country,
 is a truth we hope none will attempt to deny; and that the Basis
 on which their priviledges are principally founded is the right they
 have, of not being subject to any payments whether they be Taxes,
 Dutys Imposts fees or under any other denomination whatsoever
 but what shall be raised settled and appointed by laws to which by
 themselves or their Substitutes they give their Assent is a matter we
 conceive can admit of no Contradiction

We therefore acknowledge ourselves at a loss to know by what
 right or law fourteen Pence Sterling for every Tun of Burthen has
 for a considerable time past been levied on Vessels trading here and
 not properly belonging to this province We very well know that
 an act was made in 1661 for raising half A Pound of Powder and
 three Pound of Shot by the Tun on such Vessels and we as well
 know that by that law the same was not appropriated to the propri-
 etarys for their own use, although they have ever since exacted the
 fourteen pence in lieu thereof and applied the same to their private
 [use]

We are not insensible of the Kings order in Council concerning
 that money in 1692 but beg leave nevertheless to say that whatever
 Obedience was paid to that Royal Order (which only did or indeed
 could regard the Application) yet the Act whereby it was pretended
 to be taken being repealed by another made in 1704 that Order
 must necessarily cease, and altho we dont immediately pay that
 money, yet as Merchants generally reckon Port and other dutys
 as Part of the cost of what they sell or Transact and account it as
 part of the price of what they purchase, we cannot but think it
 becomes a charge on the Province at last.

We are sorry to find the Avenues to Justice in great measure
 shut up to the people by their being denied Access to some of the
 greatest Offices belonging to the Courts of Justice and refused their
 p. 884 necessary Business there, without the severe Terms of entering into
 Bonds with Judgments some for fees before they become due, and
 others with conditions in large Sums on purpose to have recoveries
 in the Courts where the fees will arise to ten or more times the Value
 of the Principal debt which by the laws of this province might be
 recovered at the expence of half A Crown, and those Bonds yearly
 sent to the Sheriffs with discretionary powers to put them in Suit
 who by experience we find have in many Instances made the worst
 use of those powers in order to create fees for themselves as well as to
 the party who take such Bonds

The Power of late Assumed by his Lordship of settling and ascertaining the fees of the officers in the Courts of Justice by way of Proclamation, is what we cannot submit to, without prostituting the rights of his Majestys Subjects within this Province.

L. H. J.
Lib. No. 45

We do not know that ever the Kings of Great Britain exercised their prerogative in such Case, especially since the happy Revolution and on this Occasion we entreat your Excellency to consider that part of the Royal Charter which directs that no Ordinances made by the Proprietary or his Heirs their Magistrates or officers without consent of the Freemen or their Delegates shall affect the right or Interest of any Person or Persons of or in their Life Member Freehold Goods or Chattels which Clause is consonant to the great Charter to the Benefit whereof we hope we shall not be denied a right, however to avoid all Disputes on this Head we had with great pains and application prepared A Bill for settling those fees and made them considerably Higher than those of our neighbouring colonies yet we cannot obtain the Assent of his Lordships Council to the same without such conditions as would in our Apprehension prove destructive, to the People, for Reasons your Excellency cannot be a Stranger to viz: that of making it a perpetual law: and how Reasonable it is that the Gentlemen of that Board, who without any Warrant from the Royal Charter assume a Negative on the proceedings of the Delegates of this Province, and whose Seats at that Board are only at the Will of the Right Honourable the Lord Proprietary and who (with a single Exception only) are composed of such as hold the chief Offices and Posts of Profit in the Government during pleasure, the Exorbitancy of whose fees, illegally charged and the oppressive manner of extorting them from the People, was what was endeavoured by that Bill to be remedied, how far we say they ought to be Judges and have a negative in an affair wherein they are so deeply interested we leave to our Superiors and the world to judge, whilst we are upon this Article of fees we cannot omit mentioning to your Excellency another practice lately crept in amongst us, that of Buying and selling the Offices of the County Clerks and the very persons who receive the Profits of the Offices of Clerks & Registers Practising as Attorneys in the Courts to which these Offices belong that such Sales are unlawful is too obvious to be denied, and whether the same Person Acting in the different Capacities of Clerk and Attorney having the Custody of the Papers and Evidences of the Person against whom he is concerned and the entering up of the Judgment in the cause may not be Introductive of Corruption Injustice and Oppression we submit to your Excellency or any other Unprejudiced Person. The Exacting Alienation fines on Devises is we conceive a thing contrary to the Tenor and Conditions of our Grants, a Project Introduced to drain Money from the People within these three or four years last past from a forced construction of the Words of our pattents.

L. H. J. We are far from desiring to wrong his Lordship of what properly
 Lib. No. 45 belongs to him, but cannot help complaining of that prerogative and authority he has lately taken upon himself to Vacate his own Grants of land to the people of this Province on Account of Surplus or any other matter, as Invasive of our propertys, & a thing not to be done by any Subject

The Naval Officers of this province we think are or ought to be Subject, to the laws of it yet notwithstanding the express clause in the paper currency Act that all contracts to be made from and after, the publication of that Act should be paid and satisfied in Bills of Credit, they to this time have Obliged Masters of all Ships or Vessels entering or Clearing with them to pay their fees in Gold or Silver. Strange! that the holding an Office (the fees and perquisites whereof arise from the labour and Industry of a People) should set persons above the law and Invest them with A Power to oppress that People

The last thing we shall trouble your Excellency with in this Address is a Priviledge lately invented and claimed by the members of his Lordships council. It is well known that the greater number of the Gentlemen of that Board are possessed of Offices of the greatest profit and trust in the Province some being Treasurers, some Trustees of the Paper Currency and others Naval Officers; yet those Gentlemen being called upon to give an Account of the Countrys Money refuse to answer in Person alledging it below the dignity of their House as they term it to appear before the House of Delegates much less any Committee of it We think it the Countrys undoubted right to call all those who have the collecting keeping or disposing of the publick Money to Account for it nor can we foresee any other consequence from this Usurped dignity, than that the possessors of those Offices may with Impunity commit what frauds Extortions or Embezzlements they shall think fit by being adopted into his Lordships Council

These Sir amongst many others too numerous at this time to Recite are Grievances which the people whom we represent daily suffer, which call aloud for Redress and which we without a manifest Violation of the Trust reposed in us cannot forbear in the most humble manner to lay before your Excellency.

p. 885 We have taken the liberty to annex hereunto several Reports of Our Committee of Aggrievances concerning many of the Facts herein Complained of, and do flatter our selves that after mature Consideration we shall not fail of your Excellencys Assistance towards our Relief. was read Approved and Ordered to be ingrossed

June 6

The House met according to Adjournment &c^a All present as yesterday except M^r William Thomas

The Committee appointed to prepare an Address to his Excellency on his Excellencys answer to the address of the House presented on Thursday, delivers the following Viz. To his Excellency Samuel Ogle Esq^r Governor of Maryland

May it please your Excellency.

The humble Address of the House of Delegates of the said province

We his Majestys dutiful liege Subjects the Delegates of the Free-men of Maryland in Assembly convened return your Excellency thanks for the Kind Intentions you are pleased in your Answer of yesterday to express yourself to have for the good of this province

The Subject matter of our late Address in relation to the duty of twelve Pence p hhd collected by his Lordship for his own use ever since 1733 without a Law to support the same has not been fully considered or debated by this House before this Session, tho objected to by many out of Doors, but we hope our Silence and meekness hitherto will not deprive us of the right of redress now application is made in order to obtain the same

We assure your Excellency we have no new light either in Politics in Religion, the first being that which we Conceive the undoubted right of every British Freeborn Subject, that is to support our own and Constituents rights Libertys and Property the other

L. H. J. the light of the Holy Gospel manifested by the Blessed Author
 Lib. No. 45 thereof and as purely taught in the Church of England by law
 established

Whatever light the Act of 1704 may appear to your Excellency in we are still of Opinion it was never intended by the Legislators to grant the duty therein mentioned to the Lord Baltimore his Heirs or Assigns, and that he is not any way within the Letter or meaning thereof to that purpose as this must be set right by higher Authority we shall submit thereto not in the least doubting from our most Gracious Liege Lord and Sovereign an Impartial determination in this or any other Point on equal application and a fair and clear State and which We humbly think ought not to be interrupted; however it is attempted to be in our Case here whether from self Interest, or Sinister design may appear

We are very sorry to have any cause of contention with your Excellency for we faithfully assure you we desire to live quietly and peaceably as becoming dutiful and good Subjects, and hope it will not be attributed to us as a fault that we insist on our undoubted right and on Truth in doing which we shall avoid any Invective or Indirect means or Innuendoes

It clearly appears to this House as it did to their Committee and which they are ready to evince and to that purpose ordered their Clerk to attend that the Act made in 1692 Entituled An Act for settlement of an Annual Revenue upon their Majestys Governor within this province for the time being and recorded in Liber L L folio 21 &c^a was at A Session of Assembly held at the Port of Annapolis the 20th day of June 1699 continued as a law of this Province and as such is recorded among other Laws then past and continued in another Record Book L L folio 130 &c^a with some small Variation from the former and is likewise named in a Catalogue of the titles of laws which are continued in force by an Act passed at the
 p. 886 said Session of 1699 and recorded in the same Book and which Act of 1699 is acknowledged to be such by both Houses of Assembly in several Messages which passed at a Sesseion Anno 1723

We Omit saying more in reply to your Excellencys answer than that we assure you we have Considered this matter cooly and with impartial Deliberation as we shall every other that relates to the Welfare of our Constituents but we cannot think it safe to come into A Confirmatory or perpetual law which your Excellency seems to insist upon for support of his Lordships Government altho we are ready and willing to do any reasonable thing in Our Power to procure a good understanding between the Government and people We humbly hope that the Sacrificing the security of our property Right and Just Liberties will not be insisted on to gain that end, which was read approved and ordered to be Ingrossed

Gentlemen of the Lower House of Assembly

I have considered your Address delivered to me by M^r Speaker on the 6th Instant and assure you that I am and always shall be sincerely desirous of the welfare of the Province, and ready at all times to give a helping hand to the Removal of every Obstacle to its happiness and Prosperity and particularly of such Grievances represented by the Lower House of Assembly as shall upon a due Consideration appear to me to be real & not imaginary ones.

But then you must allow that whatever are his Lordships Legal and Just Rights can be no way affected by any Resolution or Representation of your House but must remain in the same state as if you had never taken the same under your Consideration.

Of this nature is the first Grievance set forth in your present Address relating to the 14^d p Ton which his Lordship receives for every Vessel not properly belonging to this province which I must be so candid as to say his Lordship has in my Opinion as good a right to as any Gentleman in your House or in the province can have to his own Estate

That no man may find he has a worse Title to what he at present Possesses is a wish that I believe very many will Join with me very sincerely in the Law of 1661 which you mention having not only stood an Attack from the Lower House of Assembly but from the whole Legislative Body of this Province which passed An Act to repeal it and take the said 14^d p Ton from his Lordships Noble

Ancestors which Act was dissented to by the Crown for the manifest Unjustness & unreasonableness of it

As to the second demand of fourteen Pence p Ton for all Tobacco exported out of that Province I find by an Act of Assembly of that province in 1661 it was enacted that all Vessels whatsoever not properly belonging to that Province having a Deck Flush Fore and Aft coming in and trading within that province should pay for Port duties and Anchorage A Pound of Powder and three Pound of Shott or so much in Value for every Tun of Burthen to the said proprietor and his heirs which duty hath by Usage been turned into Money viz. 14^d p Ton and so answered to the Lord Baltimore and constantly applied to his own use and not to the support of the Government as the Lord Baltimore affirms to me and by Order of Council of the 26th of February 1690 this duty of 14^d p Ton was directed to be answered to the Lord Baltimore as Proprietor of the Province and likewise Instructions given Col^o Copley Governor of Maryland to Permit the Lord Baltimore or his Agents to receive the same without any disturbance or Interruption and I conceive that upon the Words of the Act this duty doth belong to my Lord Baltimore as proprietor to be received by him to his own use and it would be a thing of Dangerous consequence to Admit of Parole Proof of an Intention in the law makers different from the Words of the Law to say that the duty which the Act calls a Port Duty was intended to be a Fort Duty and it seems to be admitted by the Assembly that this duty of fourteen Pence p Ton doth by Law now belong to the Lord Baltimore by desiring their Majestys Royal Assent to An Act to invest it in their Majestys &c^a

p. 893

Tho: Trevor November 2^d 1692

His Majesty was pleased to approve of the said Report and did order as it is hereby Ordered that the Act lately passed in Maryland for the fourteen Pence Tunnage be and it is hereby set aside and disallowed and that the Lord Baltimore be permitted without any Disturbance or Interruption to collect and receive by such Person or Persons as he shall thereunto Authorize and Appoint the said duty

L. H. J. of fourteen Pence p Ton for Port Duties or anchorage for his own
 Lib. No. 45 use of Right belonging to him by law as Lord Proprietor of the said
 province and as well Col^o Copley their Majestys present Governor
 as the Lord Baltimore and all others whom it may concern are to take
 notice of his Majestys pleasure hereby signified and to comply with
 the several particulars of the said Report.

John Nicholas

After this Solemn confirmation of his Lordships Right it would be wonderfully strange to find it taken away by an Act in 1704 and that quite unknown to the makers of the said Act to those who paid the said Tonnage or to the Proprietor himself who not only received it that very year but every year since to this present time to set this affair in a Proper Light to all Impartial men I apprehend I need only Transcribe the excepting Clause in the said Act of 1704 viz. saving always to every Person or Persons whatsoever was and is his or their Rights & Benefits which he or they had by the former Acts of Assembly any thing in this present Act contained to the contrary notwithstanding

The Sence of the Legislature was again declared in the year 1733 when his Lordships Tonnage was Excepted out of the Paper Money Act and left to be paid in Sterling as formerly

As to what you say upon this Article and have said upon so many other occasions of this Government having no right to levy any money without law it seems to me to be quite out of the Question as this Government pretends to no such thing but the Right the People of this province have of not being Subject to any Payments whether they be Taxes Duties Imposts Fees or under any other denomination whatsoever but what shall be raised settled and appointed by laws to which by themselves or their Substitutes they give their Assent is a matter not so far beyond all Contradiction as you conceive which you must allow when you Consider that at this present time we pay a duty of one Penny p Pound upon all Tobacco exported out of this province to any of his Majestys Plantations in America towards the maintainance of the Colledge in Virginia a duty upon Foreign Rum Sugar and Molasses imported into this province six pence p month out of Sailors Wages for Greenwich Hospital & Postage for Letters carried by the Publick Post all which Duties and Imposts are laid on by the parliament of Great Britain without having or requiring the assent of the People of this province to the same besides the many fees levied & paid in the several colonies of America and the West Indies by the sole Prerogatives of the Crown and Authority derived from thence without Acts of Assembly passed for that purpose.

The next thing you mention is the method made use of by some Officers to get in their fees whatever is done illegally in this Respect is certainly A Real Grievance which ought to be redressed and I am

sure I shall never Interpose in such a Case but leave such Officers to the law which I hope is sufficient to punish them when they transgress it. L. H. J.
Lib. No. 45

I shall always be ready to give my Assistance to settle the fees upon such a foundation as may put a final End to all disputes upon this Head but how this can be done by a Temporary law for three years I must confess I cannot conceive nor how a Perpetual law to this purpose could prove destructive to the People which on the Contrary seems to be a very desirable thing for their quiet and Happiness as it would put a final end to all Sorts of Oppression and Extortion which they now so much Complain of and which may in a great measure be occasioned by proper Penalties not being laid upon Officers for offending in this Respect.

As to what you mention of the Upper House having A Negative on all Bills that are to pass into laws I hope this is not one of the Grievances that you desire my Assistance to Remove which I must freely own I cannot promise you nor do I believe you will have the Assistance of any succeeding Governor to alter in so great a degree the whole Frame of Our Constitution

As to Buying and selling the Offices of the County Clerks and the very persons who receive the Profits of the Offices aforesaid practising as Attorneys in the courts to which those Offices belong these are Points of Law which must be left to the decision of the Courts of Justice and which the Governor has no Power to determine by his own Authority

The Proprietors Agent requiring Alienation fines on Devises is a point of private Property upon which nothing has as yet come before me if it should as Chancellor I shall endeavour in this as in all other Cases to give a Decree according to Justice and equity to the best of my Judgment and Understanding from the Court of Chancery there is an Appeal to the Court of Appeals and from thence to his Majesty in Council which must always be a sufficient Remedy against all Sorts of Injustice that can be done under the colour of law. What is said here will be likewise a Sufficient Answer to what you Object to his Lordships Vacating his Patents only I must take notice of two mistakes you Commit on this Subject the first that the Proprietor does this by his Prerogative and authority whereas it can only be done agreeable to the Rules of Equity observed in a Court of Chancery and the second that this is a practice which he has but lately taken upon himself whereas that practice will be found in the Earliest Proceedings of this province p. 894

I cannot but be very much surprized to find that you should mention to me as a Grievance that the Naval Officers take Gold and Silver for their fees from all Masters of Vessels Enttring or Clearing with them you cannot but be sensible since It has been so often mentioned that it was the Lower House of Assembly alone that prevented

L. H. J. our paper Money passing in Payment of the 40 l p Poll and officers
 Lib. No. 45 fees and according to the Bill for Our Paper Currency as it now
 stands the Naval Officers insist upon it that their fees are due in Gold
 or Silver how then can I be in any manner Concerned in the Deter-
 mination of this point which can be only legally determined by
 Course of Law

As to any disputes betwixt the Upper House of Assembly and
 your House relating to your Respective Rights & Priviledges I
 shall not take upon myself to determine them nor am I well satisfied
 that you would be willing that I should do so however this I think
 I may promise you that whoever is intrusted with any of the pub-
 lick money shall upon the Application of your House be Ordered to
 lay their Accounts before you which I hope will deprive them of an
 opportunity of committing with Impunity either Frauds Extortions
 or Embezzlements altho the Upper House should not think it proper
 to allow their members to wait upon you in Person as often as you
 shall please to send for them

M^r Speaker communicates to this House the Governors Answer to the last Address of this House to him which is as follo^s

Gentlemen of the Lower House of Assembly

I have Considered your address delivered to me on the 6th Instant by M^r Sprigg and am obliged to you for the Satisfaction you profess yourselves to have in my Expressing my kind Intentions for the good of the province and you may be assured of my sincerity therein, and that I shall at all times use my utmost Endeavours to promote the publick Interest, whatever disputes we may have upon some Points, which I shall never Insist on farther than I think my present station Absolutely requires of me

All that I wish is, that the Respective Rights and priviledges of the Proprietor and People may be fairly Clearly and fully settled upon such a Foundation as may leave no Room for further Heats and Animosities, but that We may all Jointly turn our thoughts, to the improving the many Advantages We have by Nature above many other of his Majestys Colonies in America

In the meantime I shall never differ in Opinion from the Lower House of Assembly, without being ready to give my Reasons for my so doing and I cannot but express my Satisfaction to find that my Answer, to your Address concerning the 12^d p hhd for support of Government, has appeared so reasonable to your House that, you hardly seem to Endeavour to invalidate anything that I advanced in it, as may be easily seen by any one, who will Carefully Read my said Answer and your Address in answer to it, which is now the Subject of my consideration

You had in the beginning of that Address about the 12^d p hhd expressed a Sort of total Ignorance of the Law of 1704 by which the Naval Officers collected the said twelve pence, to which I answered That the said Law was not only under the Consideration of the Lower House of Assembly in the year 1733, but has been greatly canvassed in Conversation by the members of every Assembly that has met since that Time, and that it has been universally looked upon by every part of the legislature, since that Time as a law in force and being till lately &^{ca}

p. 899 Your answer to this is That the Subject matter of your late Address in relation to the duty of twelve Pence p hhd. &c has not been fully considered or debated by your House before this Session though objected to by many out of doors, but you hope your silence and meekness hitherto will not deprive you of the right of address, now Application is made in Order to obtain the same. This is Contrary to nothing that I advanced, but that it seems to insinuate that

the forbearance of Assembly since the year 1733 to fall upon this law, does not proceed from a Belief of its being in Force, as I had Observed, but only from the silence and Meekness of the said Assembly, which of us is in the Right in this must be left to the publick to Judge.

As to the next Point, I assure you that I am very far from charging or even suspecting your House or any Gentlemen in it to have new light in Religion, and I hope my Words can imply no such thing, but as to Politicks which you say, you conceive the Undoubted Birth Right of every British Freeborn Subject, you have certainly Advanced many things which you your selves must allow to be altogether new, however just and Reasonable you may think them to be

To what you say of submitting the affair of the twelve pence ^phh^d to our most Gracious Sovereign from whom we may expect an Impartial Determination, in this or any other Point on an equal Application, and a fair and clear State of the case I readily Agree: But the great difference betwixt us is, that you think the Report of your Committee is a true State of the Case, and I think I have shewn to A Demonstration, in my Answer to it, that it is so far from being so, that the very Contrary to what is there set forth is the real Truth.

Whoever will be at the pains to read the same Report will find that a point greatly Laboured and for which many Acts of Assembly are Recited is that laws given to the crown for the support of Government for the time being have not been looked upon by the legislators that enacted them as perpetual, but only to have a duration with such Governor or Government

To this purpose the Report sets forth "That when their late Majestys King William and Queen Mary of Glorious Immortal and pious memory assumed the Government of this province, and took the same under their protection An Act passed in the year 1692 Entituled An Act for the settlement of An Annual Revenue upon their Majestys Governor within this province for the time being, which Act it is Argued was not deemed by the Legislators to be perpetual for that it was continued by another Act passed in the year 1699 which Act of 1699 continued until the year 1704 when Another Act passed Entituled An Act for settlement of an Annual Revenue upon her Majestys Governor within this province for the time being

In answer to this I set forth that the said Act of 1692 appeared to a Demonstration to have been looked upon as a perpetual law, that it continued in force without any Reenacting till the year 1704 when a Repealing Law that then passed might make the Government think it necessary to have the said Act of 1692 reenacted or another perpetual Law made to the same purpose which was done accordingly and the Law made by which the Government is at present supported.

L. H. J. I further set forth, that I could not find the law of 1699 that
 Lib. No. 45 continued the Law of 1692 nor could your Committee that made the Report point out to me such a one but found on the Contrary two Repealing Acts, Out of both which the Law of 1692 was excepted, which made it plain that it was looked upon as a Perpetual law, & that it continued accordingly without any new force being added to it by any Act passed in 1699 till the year 1704 as above mentioned.

Now let us see what you say in answer to this it hereby Appears to this house as it did to their Committee and which they were ready to Evince and to which purpose ordered their Clerk to attend that the Act made in 1692 Entituled An Act for Settlement of An Annual Revenue upon their Majestys Governor within this province for the time being and Recorded in Liber L. L. Folio 21 &^{ca} was at a Session of Assembly held at the port of Annapolis the 28th day of June 1699 continued as a law of this province and as such is recorded among other Laws then past and continued in another Record Book L. L. folio 30 &c with some small Variation from the former and is likewise named in a Catalogue of the Titles of laws which are Continued in force by An Act passed at the said Session of 1699 and recorded in the same Book and which Act of 1699 is acknowledged to be such by both Houses of Assembly in several Messages which passed At a Session Anno 1723

Now I must say that however you may Endeavour by this Paragraph to Palliate or Conceal such a fundamental Error in the Report as destroys the whole Frame of Reasoning in it it certainly neither denys nor contradicts what I advanced in the paragraph above Recited

I know very well that the Act of 1692 was at A Session of Assembly held at Annapolis the 28th day of June 1699 continued as a law of this Province but I affirm that it was no other way continued but by
 p. 900 not being repealed and I now desire your House to shew me the law of 1699 that Continued it and which law of 1699 you say Continued till the year 1704 if your House knows of such a law it is certainly using the Government very unkindly not to point it out and if you have found that there is no such law it is but doing Justice to the Government to own it the Committee did indeed order their Clerk to attend but I believe he will not say he told me where to find the said law of 1699 now in Question if he had I should not have applied to your Committee and now at last have been obliged to your House for Information

I Return you thanks for what you say of your readiness to do any Reasonable thing In your power to procure a good understanding between the Government and people and I can in return truly Assure you that this is all I desire of you and that I shall never

insist on any thing that can Endanger the Security of your Property L. H. J.

To his Excellency Samuel Ogle Esq^r Governor and Commander in Chief in and over the Province of Maryl^d

The humble Address of the House of Delegates of the same Province

May it please your Excellency.

As several Bills had passed and been Assented to by both Houses of Assembly we did by our Message this morning Request the Upper House to Appoint a time when some of Our members should Attend them to see those Bills sealed In this we apprehend we were Regular because what we desired was not only agreeable to the General Usage but that the seing the Seal Affixed is the last thing to be done by either House in order to prepare them to be presented to your Excellency for passing

p. 905 In answer to which message the Honourable Upper House have been pleased to tell us that we had complimented them with a power of the Seals but for that they could not command them desired to be excused from appointing a Time for seing the Laws sealed

What those Honourable Gentlemen mean by Answering one thing with another to which it hath no relation as the seing Laws Sealed and the power of the Seals, seem to us to be, we cannot apprehend unless it be to introduce something Triffling and Absurd into the proceedings, and to lay that upon this House which However we shall do what we can to avoid

We must therefore intreat your Excellency to give directions that the Seale may be affixed to those Bills, in the usual manner that as we have no other Business depending before us an end may be put to this Session and no further charge accrue to the Country

Sent to the Governor by M^r Smith, Col^o Colvile, M^r Wootton, M^r Courts, M^r Gale and M^r Hall

Ordered that the Address to his Majesty and the Lord Proprietary be made part of the Journal of this House which accordingly follow in these Words

L. H. J.
Lib. No. 45

In humble manner sheweth The humble Address and petition of the House of Delegates of the freemen of the province of Maryland in General Assembly convened

That your Majestys faithful and Loyal Subjects Inhabitants of the province of Maryland daily suffer many aggrievances oppressions and Extortions under the Proprietary Government of the Right Honourable the Lord Baron of Baltimore his Governor Ministers and Officers

That our Rights as British Subjects are invaded by having Taxes laid upon us without any law; & Ordinances made by our Proprietary or his Governor with the Advice of A Council of his own choosing and who share in the Spoils of the people by holding the principal offices of the Government, imposed on us as laws; with many other Evils too tedious here in particularity to mention, but are Contained in several Reports of our Committee of Aggrievances and other proceedings maturely considered and concurred with by us A House of Delegates, which we have taken the Liberty to transmit with this our Address in order to be laid before your Majesty, and which we hope will evince that we dont complain without sufficient cause

That to compleat our Misfortunes, after our Repeated and fruitless Sollicitations to his lordships Governor, for Relief we endeavoured to make a law for taxing ourselves in order to raise A Fund whereby to enable us to lay our Aggrievances at your Majestys feet, and implore your Royal protection, yet cannot Obtain to that law, the Assent of his Lordships Council, who, as we conceive without legal Authority, have assumed A Share in Our Legislature and a separate Negative on all Laws proposed by the Delegates in Assembly; and holding their places in Council as well as their Offices in the Government at his Lordships Will and Pleasure are absolutely under his direction and serve only to screene him or his Governor from the imputation of any thing that is transacted hurtful or Oppressive to the people

We beg leave in the most humble manner to assure your Majesty that none of your Subjects are more peaceably disposed or more firmly attached to your Majestys person and Government than the Inhabitants of the Province of Maryland and that none of your colonies in America, would be more useful to our Mother Country, were we not dispirited and impoverished by being deprived of the Rights and priviledges of British Subjects

May it therefore please your Majesty to take our Condition into your Royal Consideration and give Instructions to his Lordship the Right Honourable the Lord Proprietary his Governor and Council

L. H. J. here that a Law may be Assented to for raising money on our-

To the Right Honourable Charles Lord Baron of Baltimore Absolute Lord and Proprietary of the Province of Maryland.

The humble Address of the House of Delegates of the said province

May it please your Lordship

We his Majestys Liege Subjects the Delegates and Representatives of the Province of Maryland in General Assembly convened having in vain made our Earnest Application to his Excellency your Lordships Governor in and over this province for the Redress of many Aggrievances we and those We represent daily Suffer beg leave with all dutiful Regard and Submission to lay them before
 p. 906 your Lordship and crave your relief therein

We are taxed yearly for your Lordships use twelve Pence Sterling for every Hogshead of Tobacco Exported and fourteen Pence for every Tun of Burthen of all Vessels trading in or to this province and not properly belonging thereto, without any Law that we know of for so doing which we must take the Freedom to say is an Incroachment on our Liberties and priviledges, as British Subjects and what Our Sovereign Lord the King doth not do in any of his Realms

Our Courts of Justice are in a manner shut up to the People by a practice lately introduced of taking Judgment Bonds for fees and by the Cruel and Oppressive practices of Sheriffs and other Officers in the Prosecution of those Bonds

The setting the fees of Officers by your Lordships or your Governors Proclamation is as we conceive making An Ordinance of the same force with a Law contrary as well to an Express provisoe in the Royal Charter as against the Right of the Subject, and the more so as it is done by Advice of your Council many of the Members whereof have the greatest Share in those fees and to whom it is chiefly owing that we cannot have a law for settling them.

We are not for abridging your Lordship of any Prerogatives granted by the Kings Charter but are well Satisfied that to Exercise a power of Vacating your Tennants Grants as is now attempted is Extending that prerogative further than it ever was Intended nor can we less Complain of a thing very lately introduced of Exacting

Alienation fines on Devises of Lands as contrary to the Express condition and Words of Our patents L. H. J.
Lib. No. 45

We have many other Aggrievances besides what are here Enumerated but because it might be too Tedious to mention them particularly in this Address we have caused the several Reports of our Committee of Aggrievances concurred with by our House together with our Address to your Lordships Governor and other proceedings on the same Head to be laid before your Lordship to which We beg leave to refer and by the Perusal whereof your Lordship may be at large Informed

We must acknowledge it to be a matter of great concern to us that we are Obligated to make An Application of this Kind to your Lordship and flatter ourselves that it will be so disagreeable to yourself that by removing these Aggrievances you will prevent the necessity of the like Trouble for the future nor can we forbear reminding your Lordship that it was in a great measure under God owing to the Bravery of Our Ancestors and the many dangers and Hardships they suffered that this your province was first Settled and to the Labour and Industry of them and us that it has been brought to the perfection it has arrived to and your Lordships Estate and Income therefrom hath risen to the considerable Value it now is of; And as that Settlement was made by the Subjects of Great Britain in confidence of and dependance on that part of your Lordships Charter whereby it is ordained and provided that all persons transported or to be transported into this Province their Children and Descendants should be Denizens and Lieges of the then King His Heirs and Successors and in all things to be held treated Reputed and Esteemed as Liege faithful People of the then King his Heirs and Successors and Enjoy all Liberties Franchises and Priviledges of the Subjects of England We Cannot but think it extreamly hard that any Attempts should be made to deprive us their descendants of those Rights Liberties and Priviledges as plainly appears to be done in the Instances here mentioned

We therefore most Earnestly Intreat your Lordship to relieve us from those Aggrievances too heavy and Oppressive for us to bear and we can with Confidence assure you that as we always shall be peaceable faithful Subjects to his Majesty so you shall find us Dutiful Tennants to your Lordship and willing and desirous to promote your Interest and pay you every thing which of Right appertains to you

Ordered that the aforesaid Addresses be not delivered to the printer to be printed or published

M^r Clayton appears in the House to day

Edmund Jenings Esq^r and Col^o Gale from the Upper House acquaint M^r Speaker in the following Words, that the Governor finding by your Address just now presented to him that no Business

L. H. J. Lib. No. 45 lays before you requires the Immediate Attendance of M^r Speaker and the whole House in the Upper House and M^r Jenings further said that to prevent mistakes they were ordered to deliver M^r Speaker a paper containing the Words aforesaid which was delivered accordingly and thereupon M^r Speaker and the whole House go to the Upper House and afterwards Return to the Lower House, where M^r Speaker Reassumed the Chair and reported to this House that his Excellency the Governor in his Speech (of which he did not deliver M^r Speaker a Copy) was pleased with the Advice of his Lordships Council of State to prorogue this present General Assembly until the first Tuesday in September next and thereupon this House stands accordingly Prorogued to that Time

Gentlemen of the Upper and Lower Houses of Assembly

I proposed to have deferred calling you together for some time in hopes of an Opportunity of laying before you an Answer from Our Lord Proprietor to the Address of the Lower House Ordered to be
p. 2 presented to him at Our last Meeting, but His Lordship having been pleased to acquaint me, by the last Letter I have received from him, that he had not heard any thing of the said Address, I was loath to pass over the usual time of Our Meeting in Assembly, being very well satisfied, that the true Interest of the Province can never be pursued but by a good Agreement between the several Parts of the Legislature, which I shall always endeavour to cultivate as much as lies in my Power, by frequently calling you together, and making all such reasonable Compliances with Your Desires, as are consistent with the Trust reposed in me by his Majesty, and the Lord Proprietor

And I must earnestly recommend Temper and Moderation on Your Parts, that all Heats and Animositities may be avoided as much as possible: This is necessary to judge rightly in the most trivial Affairs of Life, and much more so in those of Weight, and Moment under Our Consideration in a Legislative Capacity; the making of Laws, for the real Advantage of those who are to be bound by them, being a Task not easily to be performed, even by Men of the very best Understandings, without a reasonable Degree of Thought and Attention

If We have the Misfortune to differ in Opinion upon any Point, it is cool and temperate Reason only that can bring us to a right Understanding, and indeed with This I cannot well conceive how any of Our Differences should prove irreconcilable, for the Interest of the Proprietor depends so plainly and evidently upon the Prosperity of the Province, that it is impossible for any Man of Understanding to imagine him not to have it sincerely at heart; On the other hand, as the Safety of the People, and the Security of their Property are owing to the Protection of the Govern^t it is certainly their Interest, as well as Duty, to give it a reasonable and proper Support; And I hope that the Duties appropriated to this Use, and to the purchasing of Arms and Ammunition for the Defence of the Province, will be

thought by all candid and reasonable Men, no more than sufficient for the Purposes they are intended, even in times of the profoundest peace: At present the Situation of Our Affairs certainly require something further from Us for our own necessary Defence

There is no need of exaggerating the Danger we lately escaped from the horrid Conspiracy of Our Negroes, it being very certain, if they had carried their Design into Execution, We should have been put to the cruel Necessity of defending Our own Lives at the Expence of many of theirs, to the entire Ruin of Numbers of particular Families, and perhaps of the Province in General: And indeed the Danger we must of Course be exposed to, from so large a Body of Slaves, will always be very great, but particularly so in time of War, which you well know we are now warmly engaged in with Spain, and must from Our different Interests always be in Danger of having with France, who is become a near and formidable Neighbour to the British Plantations, and seems to have it in her Power to invade most of them, whenever she pleases, in the present Condition they are in

These are Points, Gentlemen, very well worth your Attention, and I hope you will shew your Prudence and Discretion in the Consideration of them; Let us but imitate the Wisdom of Our Mother Country in arming Ourselves in the best Manner that Our Circumstances will admit of, and we may reasonably hope to remain free from all Insults here, while the British Arms, to the great Joy of all true Englishmen, are acquiring so much Glory in other Parts of the World.

You may see, by the Publick Papers, what large Sums of Money several of the other Colonies are raising, and what great Preparations they are making for the Defence of themselves and their Neighbours, and I flatter myself that the Assembly of Maryland will shew no less Regard for their own Safety, and Zeal for the Publick Good than Others, in this very critical Juncture of Affairs

For my own Part, I can very truly assure you, I have no other View but promoting your Happiness and Prosperity, which I shall always do to the utmost of my Power, being fully perswaded that all Gentlemen of Understanding and Humanity in the like Stations with myself, must find more real and lasting Pleasure and Satisfaction in employing the Power they are intrusted with, for the Welfare of the People under their Care, than in any Advantages they can procure to themselves by acting otherwise: And I believe I may justly say, it would have been happy for the People under the several Governments in his Majestys Dominions in America, if they had always made a right Use of this Disposition in their Governors, and joined heartily with them, whenever it was really for their Interest so to do, and only opposed them when such Opposition was for the Service of their Country

p. 3

p. 4

U. H. J.

I am very far from expecting, or even desiring You to follow implicitly the Directions of the Government, all that I recommend to you is to weigh with Candour and Impartiality every Proposition that comes before you, without any Regard to the Gentleman it comes from, whether he has a Place under the Government, or wants One, and to approve or reject it, as you think in your Consciences it will be for the Good or Hurt of your Country

This is so just and reasonable a Method of Proceeding, and so very apparently for your own true Interest and Advantage, that I should have thought it unnecessary to have mentioned it to you, had I not found by Experience, that many honest and well meaning Men have been induced to oppose several things, of very great Advantage to the Province, that have been proposed by the Government

As to Aggrievances of any Sort, I am sure it is very far from my Nature to countenance or encourage them upon any Account whatsoever, and I can truly bear Witness for his Lordship, that he is so far from desiring to make any Encroachment on the Rights of his Tenants, that I have ever found him as ready and willing to grant them all reasonable favours and Indulgencies, as Assemblies themselves have been to apply for them: however, if by any Prejudice, or Difference in Our Ways of thinking, you should take for Grievances, what the Government looks upon as the just and legal Rights of his Lordship, and the undoubted Prerogative of the Crown, nothing remains for us to do, but to refer Ourselves to the Justice and Equity of his Majesty, whose Ear is always most graciously open to the just Complaints of the remotest of his Subjects, and from whom We may expect such a happy Determination of all Matters in Dispute, as will leave Us nothing further to do, but to unite Our Endeavours in promoting the Trade and Prosperity of the Province, which I am sure no Man in it wishes more sincerely than Myself

p. 6

The humble Address of the Upper House of Assembly

Be pleased, Sir, to accept Our sincere Thanks for your kind
Speech and this fresh Instance of your Earnestness to cultivate a
good Agreement between the several Parts of the Legislature, so
necessary for the Pursuit of the true Interest of the Province, by
calling us now together in Assembly; nor do your Endeavours for
the Happiness of Maryland rest here, But at the same time that you
assure us of all such reasonable Compliances from yourself as are
consistent with the Trust reposed in you by his Majesty and the
Lord Proprietary; you most obligingly recommend to Us Temper
and Moderation, and to avoid Heats and Animosities baneful to

all kind of Deliberations, and much more so in Publick Assemblies of Legislature; This affectionate Admonition is so just and reasonable, that We beg Leave to assure your Excellency of Our Resolution to have it constantly in View; so as (We hope) not to be interrupted in any Manner whatsoever, especially as We are convinced, that the Interest of the Proprietary and his Tenants is mutual, and that the Support of a Government and the Prosperity of a People have a necessary Dependance on Each Other.

We are so thoroughly perswaded of the Truth of the late horrid Conspiracy of Our Negroes, and the tragical Effects which the Execution of it must have had, that We cannot omit this Publick Opportunity of acknowledging Our just Sense of the vigilant Care and Attention your Excellency on this Occasion manifested, for the Safety and Happiness of this Province in giving proper Directions for an Enquiry, encouraging Discoveries, and ordering Prosecutions against the Accused, by which Means the Ringleader has been brought to Justice, and suffered a condign Punishment; And We should think Ourselves too cool in Our Duties to the Publick Peace, and Welbeing of the Province, if we were not heartily disposed to make any further and better Provision, than at present, for Our common Security as well against rebellious Designs of Negroes, as hostile Attempts of His Majestys Enemies; And was it possible, that Incentives could be wanting to stir us up to take any necessary
p. 7 Steps for Our own Preservation, The Warmth and Zeal of Our Fellow Subjects not only in Great Britain, but in several of his Majestys American Plantations, at this Juncture, must raise in the Breast of Every true Lover of his King and Country, a noble Emulation for Our common Safety, and the just Cause, in which his Majestys Arms are now so gloriously and successfully employed

The Method, which Your Excellency has been pleased to lay before Us in several Parts of Your Speech for considering and judging of whatever may be proposed in Our Publick Consultations, is so earnestly pressed by Your Excellency, and so necessary to a happy Issue of Our Meeting, that We cannot doubt of the Sincerity of your Wishes or Endeavours in promoting the Trade and Prosperity of this Province

Read the second time the Bill Entituled an Act for raising Three Pence p hogshead on all Tobacco to be exported in the time therein mentioned for purchasing Arms and Ammunition for the Defence of this Province, and will not pass, the foregoing Bills sent to the Lower House with the following Message by Col Harris

By the Upper House of Assembly 8th May 1740

Gentlemen

As Your Bill for issuing and paying out of the Office £2636 :16 :3 for Encouragement of persons enlisting themselves in his Majestys Service, by the Title and Preamble, seemed to shew a dutiful and commendable Ardour (which must fire the Breast of every sincere Lover of Our present happy and glorious Establishment of the illustrious House of Hannover) to facilitate and forward the Execution of the Grand Designs his Majesty has formed against the Spanish Settlements in the West Indies; We think it becomes Us, in an Affair of this nature, not only to acquaint you with the Reasons that induced this House to return Your Bill with a Negative; but also with what we are assured must much more effectually, than this Bill, contribute to the Success of Our Zeal for his Majestys Service: And therefore, Gentlemen, We hope you will permit us to say, that this Bill is not only in some parts improper but in other Parts so far from promoting the End designed, that hardly anything could be imagined more destructive to the laudable Purposes professed by the Preamble

We observe that the Monies intended to be issued and paid by p. 23 Virtue of this Bill, are distinguished by monies appropriated to particular uses & Purposes, and by monies in general out of the Office; Which last, we suppose, you apprehend not to be at all appropriated; As to the first Branch of Monies, we cannot but think it very extraordinary, that any Money already appropriated to particular Uses and Purposes, should be otherways applyed, unless such Uses and Purposes were either already complied with, or intirely abolished, or particularly and expresly provided for by the very Act directing an Application contrary to the former Uses; But instead of that the Replacing of these Monies is by this Bill referred to the Act of a future Assembly, which may or may not appoint the Committee made necessary by this Bill to replace such Money

As to the other Part of the Monies which may be in the Office, you will be pleased to consider on what Fund or Security Our Paper

U. H. J. Currency stands, by which you will find, that whatever of the Money
 Calvert now subject to be lent on Loan is taken away, must in proportion
 Paper lessen the Security or Fund of Our Currency; for all Monies to be
 No. 735 lent, must be repaid either in Paper Money or Gold and Silver; if
 in the first Species, there will be so much the less, at either of the times
 of sinking Our Paper Money, in Circulation to be paid off, and consequently Our Fund will be (in Case of any Deficiency in Our Calculations upon which the Paper Money was struck) the better able to discharge such Money in Circulation; But if the Repayment of the Monies lent, should be in Gold and Silver, such Gold and Silver will the better enable the Publick to discharge the Paper Money in Circulation; so that in Either of the Cases, the Possessors of the Paper Money will have better Security and Expectations of having their

p. 24 Proportions paid as the Paper Currency Act directs, and consequently the Credit of Our Fund better supported, if none of the Monies, unappropriated to particular Uses and Purposes, be issued but on Loans, or be replaced, if issued otherways: And although We must own, the Paper Money has been formerly very liberally made Use of, and that this (if any Occasion) can justify Our further meddling with this Money, yet We ought certainly to take Care to replace it, which this Bill has not in the least provided for

We must further take Notice that this Bill directs Encouragements to Serjeants Corporals and Drumers, which We apprehend are improper in such Cases and impracticable at the times of Payment directed by the Bill

The Preamble to the last Clause (except One) which speaks of the punishment of those, who shall leave his Majestys Service, seems to clash with his Majesty's Authority established by frequent Acts of Parliament

The Bill directs the Bounty to be paid to Persons as soon as they shall be enlisted; This, We are satisfyed must prove exceedingly prejudicial to his Majesty's Service; for it can hardly be imagined, but that such Money as soon as paid or spent, will forward, and not in the least restrain Desertions: And We are thoroughly convinced that nothing can more surely prevent the desired Levies, than the Clauses, which take Notice of Debtors; for if the Law be clear, that Enlisting is an Exemption, We ought not to alter or in the least restrain the Effect of the Law in this Case; But if that Point be doubtful, surely We ought not to resolve that Question, either by express or implicit Words, against such an Exemption, by a Bill which is to encourage the Levies; for you must without doubt be sufficiently apprized, from the Dispositions of Our Inhabitants, that very few people who are clear of Debt and live with any tolerable Ease here, will by any Motives even of Honour and Riches be influenced to this Expedition in the Station of common Souldiers

These Observations on Your Bill seem to Us so reasonable, that We question not but a full Conviction will arise from them in your Judgments of the Impropriety and Mischiefs of the Bill as it now stands, in relation to Our Dutiful Intentions to his Majesty; But as We can with much Truth assure you, not a less hearty Zeal in the common Cause of Our Sovereign and Country actuates Us than yourselves, We recommend to your Consideration some Points necessary for a Bill of the like kind, which, We presume, must be very acceptable to his Majesty in the present Situation of Affairs: And therefore That Every person listing as a Soldier should be privileged from Arrests for any Debt under ten Pounds Sterling

U. H. J.

No. 735

p. 25

That whatever Bounty should be thought proper to be given, should not be paid before the Time of Embarkation.

That no Bounty should be given to any Serjeant Corporal or Drummer

That whatever Bounty should be distributed, All or any Part thereof to be paid towards the Satisfaction of such Debts (if any) that the Souldier may owe

That such Souldier shall be exempted for ever or any determined time after their Return from all publick, County and Parish Charges whatever as also from the Necessity of attending on the highways

That Every Souldier either in marching or travelling on any part of his Duty or Service shall have his Ferriage free

That all the Money drawn out of the Office for the purposes of this Bill shall be replaced by One or more moderate Taxes or Assesments

Your Bill Entituled, An Act for raising three pence p hogshead on all Tobacco to be exported within the time therein mentioned for purchasing Arms & Ammunition for the Defence of this Province has the following Preamble Viz. "Whereas his Majesty Our most Gracious Sovereign is now engaged in a War with Spain, and that there are some Grounds to apprehend the Crown of France will joyn in the same War against him, who having large Possessions on this Continent adjoining to some of those of Great Britain, may in such Case very probably attempt an Invasion on some of his Majestys Colonies here, and lest the Magazines of Arms and Ammunition now in this Province, and the money heretofore and now raised by any ways or means whatsoever for the Defence of this Government, and the purchasing Arms and Ammunition, should prove insufficient for that Purpose at this important Juncture. We his Majestys faithful Subjects the Delegates of the Freemen of the Province of Maryland, in general Assembly convened, as well to testify Our Zeal for his Majestys person and Government, and to contribute as far as in Us lieth to the Success of his Majestys Arms, and against all Enemies whatsoever, as to put Ourselves in the best

Posture of Defence we are able, against any such Invasion or Attempt of the French or any Others" Although this Preamble contains the strongest Reasons imaginable for Its Continuance to a determined time, and to the End of the next Session, as Acts of the like kind have usually been for many years, yet this Bill is absolutely limited to September 1741: This Alteration, if proper at any time cannot be so now, when it is uncertain, how long Our War with Spain may continue, or how soon Another with France may begin, if not already proclaimed The Money now in hand from that Fund perhaps is not more than sufficient to provide such necessary Arms and Ammunition, as a prudent Caution in times of Peace (even against such like Conspiracys as have lately happened amongst Our Negroes) might require; And therefore not to say anything of the Motive of self Preservation, We cannot think this Bill corresponds with Our often boasted Loyalty: Should a French War break out, and Our Country be attacked, many Accidents in such Times of Confusion might prevent the Meeting of an Assembly And if even it should meet, any future Concurrence to a Bill of this kind cannot from present Appearances be certainly depended on; since it must be looked on as very remarkable and extraordinary, That an Act for Arms and Ammunition for the Defence of this Province was never so much opposed, as since Our Alarms and Apprehensions of a dangerous War; And if We are the least backward in consulting our own Safety and Defence, as well as we can, against all possible Accidents; would not Our Offer of furnishing Money to encourage Levies for his Majestys Service abroad be rather thought to proceed from a pretended Zeal than any true Principle of Duty to his Majesty^s Since it might be interpreted We did not think Our Preservation or Happiness consisted in any Defence against the French; And that the more Money and Men we spared for One Service the less we might have for the Other, and consequently this Province might be the easier Prey to an invading Enemy; in such Circumstances, however fortunate and safe the Roman Catholics or persons nearly attached to them or their Interests might imagine themselves, yet We are perswaded Every Friend to Our present happy Establishment must think on such a Situation with Horror

p. 27 These Gentlemen are Our Real Thoughts and Apprehensions and these have determined us in a fixed Resolution not in the least to weaken the Provision now subsisting by Law for the Security and Defence of the Province, which we think, as Affairs now stand, much too small and ought to be increased; And therefore We chuse rather to return that Bill for Arms and Ammunition with a negative, than by passing it, or any other at this Juncture, to forward the making a Session which must put an End to an Act of the like Kind, that otherwise will continue 'till a Session happens; for We think

it less dangerous to this Part of his Majestys Dominions, & more consistent with Our unfeigned Loyalty, and the true Interest and Safety of this Province, to be without a Session, than without the Act of Arms and Ammunition now in force, or another of the like Continuance

U. H. J.
Calvert

No. 735

But Gentlemen to give a further Proof that Our Intentions are equally earnest for his Majestys Service in other Parts, as well as in this Province, and to promote the Levies with as much Ease, and as little Burthen as may be to the People, we now propose, that, if upon Calculation there should be found Money in Bank arising from the Fund of Arms and Ammunition, sufficient as well to encourage the Levies ordered by his Majesty, as to purchase Arms and Ammunition for the whole Province, we will most chearfully dispatch any proper Bill for that Purpose Provided another Bill be sent to us for continuing the Law of Arms & Ammunition for three or any other Number of Years and to the End of the next Session

have concurred with many of them, and the Others by Conferences
or otherwise, might have been so accommodated as that the Bill might

have been agreed upon and passed Both Houses: But since you have been pleased, with your Objections, to give an absolute and general Negative to that and all Other Bills either of this or any other Kind, unless upon such Terms and Conditions, which, as they in no way relate to his Majestys Service, but are in Our Apprehension destructive of the Rights of those we represent, we cannot consistent with Our Duty to them or Ourselves come into; and therefore shall content Ourselves with telling you that We presume his Majesty would be much better pleased with something to be really done for his Service, altho attended with some Charge for Inconvenience to those who do it, than with the greatest Pretensions and highest Professions of Zeal for his Interest, tho dressed up in the most lofty Words and pompous Expressions

Your first and principal Reason for not concurring with the Bill for raising three Pence p hogshead for purchasing Arms and Ammunition, We perceive is, because it is not made to subsist for a determined time and to the End of the next Session after the End of that Time, so that had it been made to continue for any Number of Years, we find it would not have pleased Your Honours unless it were to have ended with a next Session of Assembly, which in Effect is making a Law that ought to be temporary in its Nature, perpetual, or at least to endure so long as any particular Branch of the Legislature thinks proper, tho contrary to the Inclination of the Others, and Interest of the Country

If the Constitution of Our Mother Country consisting of Three Branches is the best, this Province has endeavoured to follow that Example, and Every One of the least Penetration must allow, that unless Each of these Branches be independ^t and free from any compulsory Power of the Others with Respect to their Actions, the Benefit of such a Constitution is lost, and it must always be so, when any One of the three hold their Places at the Pleasure of any of the Others, or by the Enjoyment of Offices, or any other particular Engagement to Either of the Others, are thereby rendered more particularly subservient to it: And We think it is very obvious to Every One in the Province, as well as Our Neighbours, what use has been hitherto, and is still made of the Act subsisting for Arms and Ammunition having it's Determination with a Session, and that it has been kept on Foot, and We deprived of a Session of Assembly for the sake of that, and another Act of the like kind, on purpose to drive us into things which We think are inconsistent with the Interest of the Province

p. 30

As it is uncertain how long War with Spain will continue, or how soon another with France may begin if not already proclaimed, had your Honours proposed the double or any other Sum larger than the three pence, that Our Trade could possibly bear, or had a longer Time of Duration been mentioned to the Bill, so as it had

U. H. J. a fixed Time of Determination, we would, and are now ready to
 Calvert agree to Either, as the Necessity of the present Juncture may require;
 Paper And as this must answer Every thing that can be said with Regard
 No. 735 to his Majestys Service or the Defence of the Province, we presume
 your insisting so strongly for a continuance to the End of a Session
 will be looked upon by the impartial World to be attended with
 Views foreign to Either, & therefore we must now plainly tell you,
 that since by dear Experience we have felt the ill Consequences of
 Money Laws, Ending with a Session of Assembly, that we are called
 and prorogued or dissolved from Year to Year, the Country bur-
 thened with immense Charges, Aggrievances and Oppressions daily
 exercised, without an Opportunity of Redress, and all to keep on
 foot a few Money Acts, in some of which particular Persons only
 have an Interest, we are, while we have the Honour to represent the
 People of Maryland, firmly determined never to assent to any Law
 of that kind with such an indefinite Determination as you contend
 for, and We hope, when we are discharged of the Trust, they will
 always find Representatives who shall firmly adhere to the same
 just Resolutions

It is very extraordinary and what will scarcely meet Credit from
 any One, that a People who enjoy the Rights and Priviledges under
 a British Government, would not upon the least Appearance of
 Danger exert themselves to the Utmost for the Preservation of those
 p. 31 Rights, or that a few Gentlemen of Our Upper House, whose In-
 terest and Views do not at all times seem to coincide with those of
 the people, should be the only Persons in the Government, who have
 any Regard for Its Welfare. No, Gentlemen, self Preservation is
 Principle natural to the brutal, as well as the rational Creation, and
 it is a wrong Conclusion that because this House refused a Tax for
 Arms when there was no Appearance of Danger, and when there
 was Money in Bank unapplied, sufficient for the then present
 Exigence, that therefore they would do the same when Danger ap-
 proaches or Money is wanting

The Meaning of what you say concerning Roman Catholicks or
 persons nearly attached to their Interest, We acknowledge Ourselves
 at a Loss to apprehend, we would hope that it is not intended to
 insinuate as if any of us were either Roman Catholicks, or attached
 to their Interest, and if it should, we despise the Imputation, since
 We are well convinced that Our Actions as well at this time as in
 former Assemblies, and Our Conduct in private Life will suffi-
 ciently testify the contrary. And altho his Lordship (as well as sev-
 eral of your Honours) has many Relations in the Country of that
 Profession, & has greatly intrusted his private Affairs in the hands
 of Gentlemen of the Romish Communion, yet that never raised in
 us any Jealousy of his Lordship, being well assured that the few
 of those People here amongst Us, have it neither in their Power
 or Inclination to disturb the Peace or Safety of the province

U. H. J.
Calvert

No. 735

Your Proposal to dispatch a Bill for Encouragement of his Majestys Levies out of the Moneys arising from the Fund of Arms and Ammunition, when in the former Part of your Message, you tell us that perhaps the same Fund is not more than sufficient to provide such necessary Arms and Ammunition as a prudent Caution in times of Peace (even against such like Conspiracies as have lately happened among Our Negroes) might require, seems to us a little contradictory, and not altogether to testify that unfeigned Zeal so often boasted of in several Parts of Your Message for his Majestys Service.

p. 32

And notwithstanding the great Handle that has been made, and the Noise industriously spread over the province about Our negroes, We must say, that from all the Enquiry We have been able to make, we never could discover any thing which might in any Manner be presumed to endanger the peace or Welfare of this Province, especially since the very few who had dared to think of any such Attempt, by the prudent Care of the Government, have been already punished and suppressed

The following Message is sent to the Lower House by Col^t Gale

By the Upper House of Assembly 13 May 1740

Gentlemen

We little expected from your Earnestness in sending up to us the Bill for issuing 2636:16:3 for Encouragement & immediately after

our Meeting, with a Message pressing us to dispatch the Passage of it, that you could have been so easy and contented in the Want of that, or some other Bill to the same Purpose, as you seem to be by your Message of the 10th Instant, where you make such Pretences for not taking further Notice of what we proposed in Our Message of the 8th Instant, as would hardly serve in an Affair of much less Consequences than this, where Our Duty to His Majesty, and the Honour and Prosperity of Our Mother Country are immediately concerned; You say "that had Our Objections been proposed as Amendments, or had We left any Room to expect Our Approbation of it with such Amendments, you would certainly have concurred with many of them, and the Others by Conference have been accommodated" the Reason of Our not amending your Bill we apprehend to be very obvious, in that the Bill was improper and mischievous to the Ends proposed in so many Parts, that Our Amendments or Observations sent to you would have made it a new Bill, and therefore We thought it would be less troublesome and more proper to frame a new Bill in your House, than amend that; for this purpose We sent you Our thought on the Subject, but you have not given us any Answer, whether they were satisfactory to you, or useful for a Bill of that kind; This Silence you thought yourselves under a Necessity of accounting for, which you endeavour at by insinuating "that We did not leave you any Room to expect Our Approbation &c because We gave an absolute and general Negative to that and all other Bills either of this or any other kind, unless upon terms and Conditions no way relating (as you urge) to his Majestys Service, but in your Apprehensions destructive of the Rights of your Constituents" We do not find on Our Journals that we have returned any other Bills except those for Arms & Ammunition, and for raising the 2636:16:3 at this Meeting with an absolute and general or any other Negative, and therefore, We cannot understand Your Meaning of Our having given Our Negative to that and all other Bills &c. As to the Terms and Conditions which you mention to be not relative to his Majestys Service, but destructive to your Constituents, we are really at a Loss to know what Terms and Conditions you mean; we have not insisted on any other Point than the Passage or Revival of the Bill for Arms and Ammunition for the Defence of the Province for a determined time and to the End of the next Session as usual; Surely you cannot (whatever you say) think, that Bill no way relates to his Majestys Service, or that it is destructive to your Constituents; On the contrary, the subject Matter of it concerns the Preservation & Defence of this Part of his Majestys Dominions, and the Lives and Properties of Our Inhabitants against Our Enemies and how such a Bill or the Continuance of it for a determined time and to the End of the next Session, or even perpetually, can be said to relate no way to his Majestys Service

 Paper
 No. 735

You say very truly that Our first and Principal Reason for not concurring with the Bill for Arms &c was, because It ought to subsist for a determined time, and to the End of the next Session, and your Offers of the Alternatives which you make in Relation to that Bill without answering the Arguments We used in Our Message to support such a Continuance fully perswade Us that We were in the Right to insist on such a Continuance, and that you yourselves thought so; But your not agreeing to such a Continuance seems to arise from your Apprehensions that Acts made for a determined time, and to the End of the next Session although temporary Laws, might endure as long as any particular Branch of the Legislature thinks proper, This Reason, if good in this Case, may be so in Others, and perhaps for the future prevent the Continuance of any Law whatsoever by force of such a Duration contrary to the Inclination of any Part of the Legislature

We must own several of us enjoy Places of Trust and Profit under the Lord Proprietary, from whence you would insinuate a very blameable Subserviency: Such Language is so common from those out of the Place to those in Place that It deserves no other Notice from Us, than that your often hinting at Our Places convinces Us
 p. 38 that they are generally uppermost in your Thoughts, and that you are not so much displeased with the Places, as with Those that have them, which you no doubt think may be supplied with some more worthy Persons of your Acquaintance Although We are unwilling to own or agree with you in this, yet We really wish for the Quiet and Happiness of the Country, His Lordship had a few more Places worth the Acceptance of some other Persons besides Ourselves; We cannot comprehend what You would have Us understand when you talk "of being deprived of a Session for the Sake of the Act of Arms" &c. "and another Act of the like kind on purpose to drive you into things inconsistent with the Interest of the Province" when you may be pleased to explain the Particulars of this Assertion we hope to be able to give it an Answer, but at present this Art of dealing in Generals renders your Expression too mysterious for Our Capacity

We are now come to the only thing you have hitherto agreed with us in, which is our Assertion of the Uncertainty how long War with Spain will continue or how soon another with France may begin if not already proclaimed And therefore you have declared Yourself ready to agree either to a double or larger Sum for the Defence of the Province, or to a longer time so as there may be a fixed Time of Determination: Our Desires are too strong, that His Majestys Expectations of raising Forces in this Province for his Service may not be disappointed, to overlook these alternative Offers

from your House, nor can We now mistake Each Other, for Your Resolution is only to have a fixed time of Determination, and Ours, to have a proper Provision for the necessary Defence of the Province; but as We are desirous to make this Bill as easy as may be to the People and therefore unwilling to double or further increase the Duty as you propose, We rather chuse to close with you upon the Alternative of lengthening the Time, for which purpose we propose the Reviving the Act for Arms &c for Nine Years; so that you may have your wished for fixed Determination of this Act, & We hope the impartial World will be satisfied, that Our Views are not inconsistent with the Defence of the Province or his Majestys Service, for we plainly tell you, that we are only influenced to this Acceptance of your Offer by an Expectation that you will dispatch a Bill to encourage raising Forces for his Majesty's Service either agreeable to Our Plan, or any other which may be judged most effectual for the purpose; and shall be desirous of settling by Conference or otherwise any Difficulties or Objections which may arise on such a Bill

p. 39

We confess it is very extraordinary and what would not meet Credit from Ourselves upon less Proof than the printed Votes of the Lower House of Assembly that the Representatives of a People under the British Government would not upon the least Appearance of Danger exert themselves to the utmost for the Preservation of their Rights, and that your Behaviour at the last Meeting in May 1739 was not very different from this, your own printed Votes will shew, where it appears, that you first voted the Bill for Arms &c for the Defence of the Province to continue for three Years &c, and in the very next moment you voted the Bill should not pass at all; nor could the Upper House then prevail with you to revive that Act, and pray, were we not then under continual apprehensions of a dangerous War? Or had we Arms or Money sufficient for such Circumstances of time? It is true there was some Money unapplied, and it is necessary it should always be so, to supply any sudden and emergent Occasion, since that Fund raises so little annually: We doubt not, but that on a fair Examination of the Conduct of the Gentlemen in Our House, their Views Interest and Actions will appear in every other Instance as well as this to co-incide with the Good of the Province in a much more remarkable manner than the Behaviour of some who seem to think a sure Way to Merit is to use unbecoming Expressions

We are exceedingly surprised at the Warmth you express on Occasion of what we mentioned relating to the Roman Catholicks, if any Insinuation is raised of any of you being Roman Catholicks or attached to their Interests, It must have had its Rise amongst Yourselves, for Our Words do not express or imply any such thing,

U. H. J. And we doubt not but the Roman Catholicks will on considering
 Calvert the words think, there is not the least Occasion of Offence given to
 Paper themselves: Our Words are these Viz. In such Circumstances
 No. 735 however fortunate and safe the Roman Catholicks or Persons nearly
 attached to them or their Interests might imagine themselves &c We
 do not expressly or implicitly by these Words charge the Roman
 p. 40 Catholicks with any ill Action or Intention; but the plain Meaning
 is, that it is very reasonable to suppose Persons of that Communion
 and sincerely Zealous for their Religion (which is with such always
 preferred to every Earthly Consideration) would think themselves
 more fortunate and easy if their Religion was established here, thô
 even by a Conquest of this Province by the French, than any true
 Protestant could think himself in such a Situation; Had Roman
 Catholicks of such like Principles as have often been discovered in
 Plots against Our King and Mother Country, or any Persons known
 for Disobedience or rebellious Opposition to Our present glorious
 and happy Establishment in the House of Hannover given us the
 same Assurance, as you have done, of the Inclination as well as
 Power of the Roman Catholicks not to disturb the Peace or Safety
 of the Province under the present Circumstances of an impending
 War with France, and an Actual One with a Roman Catholick
 Prince who avowedly cherishes the Pretender and his Adherents, We
 could readily have accounted for such Declarations by imputing them
 to the usual Policy of endeavouring to draw us into a fatal Opinion of
 Security: But to have such Assurances from a Lower House of As-
 sembly composed of Protestants and Loyal Subjects to his Majesty
 and true Friends to the Hannover Succession is really very unac-
 countable: The Parliament of Great Britain has been always so
 far from vouching for the Conduct of the Roman Catholicks at any
 time, and much less in the time of War with Princes of that Com-
 munion that the strictest Watch has been always had over them &
 their Actions, and even since our present War with Spain it appears
 by the Publick Prints in November last, that upon an Address of the
 House of Commons of Ireland a Proclamation was published by the
 Lord Lieutenant to seize all Arms Armour and Ammunition in the
 Possession of any Papist or reputed Papist: These Particulars we
 mention to satisfy you, that although we have not a less good Opin-
 ion than yourselves of the Roman Catholicks in this Province and
 of many in England in what relates to private Life, and even to many
 Actions in Publick Life, yet We dare not answer for their Conduct
 in any Affair where the Establishment of their Religion may come
 into Question

We hope you are already convinced of Our being in earnest to
 encourage the Levies directed by his Majesty, and we own Ourselves
 p. 41 not sharp sighted enough to see the Contradiction, which seems to
 you in Our Offer of Part of the Fund for Arms &c. for we say, the

Fund perhaps is not more than sufficient to provide necessary Arms &c. but We tell you in the latter part that a Calculation may be made: and We cannot see where the Impropriety is of making a Calculation to know whether any Money can be spared from a Fund which Perhaps may not be sufficient for the Original Uses and Purposes, and Our Readiness to joyn in contributing such money as may be found on Calculation more than sufficient for such Purposes

If any Handle has been made of the Conspiracy of Our Negroes to any other purposes than to discover and bring the Accused to a legal Tryal and Punishment, we assure you of Our being entirely Strangers to it, nor have we ever heard of any thing being industriously spread over the Province about it, except what tended to discredit the Opinion of the Romish Priests being concerned in it; by the several Informations taken by a Magistrate as well as by the Flight and Conviction afterwards of the Ringleader since executed for that Fact, we have not the least doubt of the Truth of such cruel Designs having been in Agitation amongst the Negroes, and whatever you may think of them, We cannot but be fearful of much Danger to the Peace and Welfare of the Province from such Number of Slaves as are amongst us, if we should not make proper Provision against their Attempts.

Upon the whole, Gentlemen, although we have at present a War with Spain, and you declare yourselves apprehensive of a sudden One with France, who has Settlements and Forts within less than Eight or ten Days March from Our Borders which lie exposed to every Insult or Attack, although by the Laws regulating Our Militia, there is not sufficient Authority to oblige the Service of any One in Defence of Our Country against an Invasion, although We have lately had a Conspiracy amongst Our Negroes, yet to Our great Amazement you would perswade us into an Opinion of Security: As for our Parts, your Indifferency at this Juncture requires from us more Vigilance and Care, & We are so thoroughly attached to the Duty We owe to his Majesty and the Country at this Juncture, that if We cannot procure some better Provision for Our Defence, We will not weaken what We have

A Message from the Lower House by M^{rs} Calder and Colville

By the Lower House of Assembly 14 May 1740

May it please Your Honours

Whoever reads your Message to this House of the 8th Instant and Our Answer thereto may easily see how groundless it is to charge us with Coolness or Indifferency in what concerns Our Duty to his Majesty, and the Honour and Prosperity of Our Mother Country; and that It was from your Assertion not to pass any Bill whatever, unless that for Arms and Ammunition was made to end with a Session of Assembly, that we desisted proceeding any further on the Bill for Encouragement of his Majestys Levies, since for the Reasons mentioned in that Message of Ours we could not agree to any Money Bills having such a Duration; Your Words are "And therefore we rather chuse to return that Bill for Arms and Ammunition with a Negative, than by passing it, or any Other at this Juncture, to forward the making a Session which must put an End to an Act of the like kind that otherwise will continue till a Session happens"

We cannot find any Part of Our Message wherein it is said that the Bill for Arms and Ammunition in no ways relates to his Majestys Service, or is destructive to Our Constituents; we have indeed told your Honours that the making that or any other Bill of the like kind to end with a Session we have found by Experience to be hurtful, and cannot have any Relation to his Majestys Service, since the Alternative we propose must much more contribute to that Service
p. 43 than such a Determination possibly could do, nor can we agree with your Honours that the same Reason holds with regard to Laws of a different kind; It is well known Our Mother Country grants their Supplies annually, and increase or diminish them as they see Occasion, and the Reason why they grant them for so short a time and with a fixed Duration, we presume cannot be unknown to your Honours

The Use you are pleased to make of what we said of the Subserviency of One Branch of a Legislature to another, is very extraordinary, insinuating that We are only prompted by a Desire your Offices should be enjoyed by Others than Yourselves, although this be an odd Way of answering Facts, yet 'tis not new: It is thus,

that a devout Exercise of Religious Duties has by some been termed Enthusiasm, a rational Enquiry into the Grounds and Principles of Religion branded with Atheism and Free thinking, a people complaining of real Aggrievances have been called Male contents, and Persons exposing the oppressive Practices of Officers said to want the Offices for themselves; there is no way that we know of guarding against such Imputations but by Peoples sitting still and saying nothing, let the Occasion of speaking or acting be ever so great; however, that the World may judge of the Ground of what we have said in this matter, we beg Leave to put a Case which we hope can give Your Honours no Offence; Suppose then the noble Personages who compose the House of Peers in Great Britain, held their Seats there at the Pleasure of the Prince, and that he could place and displace them when he thought fit; Suppose them also possessed of all the Great Offices in the Government upon the same precarious Terms, could the people have any great Reason to boast of their Happiness in such a Constitution? Could that be called a free and independent Branch of the Legislature, who should keep a Ballance between the Prince on the One side and the People on the other? or could it with any Colour of Reason be said, that a House so constituted and so endowed, enjoyed all Freedom of Action, and was at all times clear from any Restraint? And although from his present Majesty's known Goodness, they could in such Case be in no Danger, yet what would not many Princes who have reigned heretofore have done with the Assistance of such a House of Peers? If this Case be applicable to any Part of Our Constitution then We p. 44
presume there is no Foundation for your Answer, but if on the other hand there is no Similitude between the Two, we shall allow the World has Reason to believe all we have said on that head has proceeded from no other Cause than the want of your Offices

If your Honours will be pleased to look again into Our Message you will find that we did not propose the Bill for Arms and Ammunition generally for any Sum, or for any Number of years with a fixed Determination, but only for such Sum as the Trade could bear, and for such a Term as the Necessity of the present Juncture might require, and therefore if you are so much influenced with Desires for his Majestys Service as you often express, we hope Our Offer of that Bill for Six Pence or any less Sum that may be thought needful instead of the three Pence, and to continue to the twenty ninth Day of September which shall be in the year of Our Lord God Seventeen hundred and forty two, will not be rejected, for that We think it much more conducive to that Service and Our Safety at this Time, inasmuch as greater Sums will thereby be raised in less time, and although that Duty will be higher than has usually been given for the same purpose, yet if the present Necessity be so urgent as you represent it, we hope the People will not be displeased with it, nor

U. H. J. is it to be doubted but the motives which induce us to this now, will
 Calvert equally operate on us or Our Successors if there be the same Neces-
 Paper sity at the Expiration of that Term
 No. 735

If your Honours shall think fit to accept of this Offer we shall prepare a Bill for that purpose and without Loss of time proceed to the Dispatch of the other Business, but if 'tis to be refused, and you persist in your former Resolution We pray you will advise us therewith, that an End may be put to Our Meeting and no more of the Countrys money, or Our time, spent to no purpose.

We will trouble your Honours no farther about Roman Catholicks than by saying that if there is any Apprehension of Danger from them, there are already many Laws in being against them, and We doubt not of the Care of the Government in putting them in Execution if there be Occasion; nor shall we be in the least backward in joyning in any other Law that may be thought needful to prevent any Danger from those People

Your Honours We hope will excuse our not following you in every
 p. 45 particular of your long Message, the principal Parts We think are answered and as the Supply we offer is more than heretofore has been usually given, so we hope it will be sufficient with the Arms already purchased and the Money in Bank, to enable us to defend Ourselves against Roman Catholicks, Negroes, or any other Enemies: And if you think that a Conference of both Houses may conduce to promote the Bill for Encouragement of his Majestys Levies, or to determine the certain Duration of that for Arms and Ammunition, and the Sum necessary to be raised, we shall readily agree to it

By the Upper House of Assembly 15 May 1740

Gentlemen

It must be on reading the several Messages, that a Judgment can be formed, whether We had sufficient Reasons to mention your Indifferency, with Regard to the Duty we all owe to his Majesty and This Country; and if your first Unwillingness to pass, at this Juncture of a present War with Spain and an impending One with France, a Bill for Arms &c for the Defence of this Province for any longer Time than 'till September 1741; if your Readiness to answer for the quiet Behaviour of such, who were never imagined to have the most cordial Dispositions or Inclinations to Our present happy Establishment in Church and State; if your passing over, in so slight a manner as you have done, the late Conspiracy amongst Our Negroes, or the Reasonableness of making some better Provision against any of the like kind for the future; We say, if these Passages confirm your Care and Watchfulness for this Part of his Majestys Dominions, and our own immediate Preservation, we must own our Surmise of your Indifferency in these Points was groundless; but if they should be understood in a different Light, we hope, we shall be thought to have Reason on Our side, when we mentioned, that your Indifferency at this Juncture required from us more Vigilance and Care p. 46

It is true you did not (nor do we charge that you did) say in express Terms, "that the Bill for Arms &c did not in any Way relate to his Majesty's Service or was destructive to Your Constituents" But this you did say That "we gave an absolute Negative to That (meaning the Bill for Encouragement of Levies) and all Other Bills, except on such Conditions, which in no way related to his Majestys Service, but were in your Apprehensions destructive of the Rights of those you represent" In Answer to which We told you "that we never insisted on any other Point than the Passage or Revival of the Bill for Arms &c for the Defence of the Province for a determined Time, and to the End of the next Session as usually": This Assertion was so true that it cannot be denied, nor indeed have you offered to deny it; and as you cannot gainsay but such an Act related to his Majestys Service in the Preservation of this Part of his Majestys Dominions as well as of the Rights of your Constituents; we should be very glad to know whether by unavoidable Consequence from your Words and the Condition or Point We only insisted on, you will not appear to have suggested, that the Bill for Arms &c for Defence of the Province did not relate to his

Majestys Service or the Good of the Country, as strongly, as if you had used the very Words; nor will Your Offer of the Alternative in the least alter the force of the Construction, which (as we have urged) must necessarily be put on your Words, thô It may (if adhered to) give us some Satisfaction with Regard to your Intentions

We are sorry you will disagree (without assigning any Reason)
p. 47 with us in what is so plainly reasonable, as that, If the Continuance to the End of a next Session may make this Act of Arms perpetual by the Wilfulness of any Part of a Legislature not to pass any Law in order to prevent a Session; such a Continuance of other Acts may also make them perpetual, by a like Conduct of any Part of the Legislature.

We shall not presume, in this Question, to conjecture the Reasons which influence the Legislators of Great Britain in the Passage or Duration of any of their Money Bills; But we hope we may take Notice, that the many Acts of Parliament for raising Money by Duties or otherwise, for the uses of the Government and Nation, have various Terms assigned for their Continuances: The hereditary Revenue and some other Acts are perpetual, the Civil List is during the Kings Life, the Land Tax and Malt Act are annual, some Acts are for a certain number of years, But (what reaches Our Dispute) many Acts for raising Duties (and even some unappropriated at the Time of making the Acts) are for a certain Number of years and to the End of the next Session; for this purpose we think it not improper to referr you to the 12th Ann Cap 8 Sect 2^d for a Duty on Tobacco for five years and to the End of the next Session 8th Will 3^d Cap 20 Additional Duties on French Wines for 21 years and to the End of the next Session 20 Car 2^d Cap 5. 7. 8 Will 3^d Cap 36 & 1 Ann Cap. 13 Duty on Leather exported for 5 years &c 18 Car 2^d Cap. 5 1st Geo: 1 Cap 43. 9 Geo 1 Cap 19 & 4 Geo: 2^d Cap. 12 for encouraging of Coynage 2^d Geo: 2^d Cap. 17 Duty on Compound Waters Spirits &c 2^d Geo 2^d Cap. 28 Copper Oar made an enumerated Commodity and 6th Geor 2^d Cap 13 & 11 Geor 2^d for Duties on Sugar Rum & Molasses; By these Acts Gentlemen you will perceive such a Continuance, as we have insisted on, is not unusual in Money Acts of Parliament

In the long Paragraph where you State a Case about the House of Peers with many Arguments relating to it, your own Conclusion gives a plain Answer for you say, that, if this Case (the Case of the
p. 48 House of Peers) be applicable to any Part of Our Constitution, then you presume there is no Foundation for Our Answer, but if on the other Hand there is no Similitude between the Two, you shall allow the World has Reason to believe all you have said on that head has proceeded from no other Cause than the want of Our Offices: we presume you would not liken this House to a House of Peers or allow the Members of it any of the Privileges of Lords of Parlia-

ment; And we hope, no other Part of the Legislature will assume a Parity between themselves and the Lords of Parliament, so that your Case is not applicable, & consequently from your own Concession, what you have said has proceeded from the want of Our Places: But further, Gentlemen, you will be pleased to consider, that your Objection of Our Dependency, because we are removeable, reflects on the Wisdom and Prudence of the Constitutions of the legislative Powers in Every of his Majestys Plantations, where (except Pensylvania) we have always understood there are Councils with the Power of a Negative on all Bills, and that the Members are removeable at the Kings, and to be suspended at the Governor's Pleasure; And as to the Places we presume the same Qualities of Integrity and Ability which recommend Men to a place in an Upper House or Council, renders them also worthy of the best Places in the Government: But were we to come to a strict Consideration of the Difference between Our Legislative Constitution and that of Great Britain, It would be obvious that it principally arises from the Nature of dependent and independent Government And if the several Branches of the Legislature would on all Occasions keep this Dependency in their Eye, they would certainly be more easy amongst themselves, and less troublesome to Others; since they must be sensible, their Sovereign is the Judge, and will never approve any Behaviour or Act of the Legislature or any Branch of it, for any other Reason, than that of it's being just and reasonable

We have looked again into your Message and find the Proposal of your Alternatives in these very Words Viz. As it is uncertain how long War with Spain will continue, or how soon another with France may begin if not already proclaimed, had your Honours proposed the double or any other Sum larger than the Three Pence, that Our Trade could possibly bear, or had a longer time of Duration been mentioned to the Bill, so as It had a fixed time of Determination we would and are now ready to agree to Either, "as the Necessity of the present Juncture may require" Has not the Delay not only of this Bill, but of all Other Business been entirely occasioned by the Dispute between the Two Houses, whether this Bill ought to be continued to a determined time, or to the End of the next Session; Have you not by the above Words of your Message expressly declared your Readiness to agree to Either of the Alternatives, so that the Bill might have a fixed time of Determination; Is there any time mentioned to which you limited Our Choice of a longer Time? No Gentlemen, the only Condition you then insisted upon with Regard to the Continuance of the Bill, was a fixed determined time, and now, after that we have closed with you upon your own Proposal, and named nine Years for a Continuance, you tell us, (even against the very Face of the Message, which you

p. 49

U. H. J. desired us to read over again) “that you did not propose the Bill
 Calvert for Arms &c generally for any Number of years with a fixed De-
 Paper termination, but only for such a Term as the present Juncture may
 No. 735 require” But should your own Interpretation be put on these
 Words, you have not urged One Argument or alledged One Reason
 to shew, that the Necessity of the present Juncture of Affairs does
 not require the Continuance of nine years, nor indeed can you with
 any Consistency to your former Admission make any pretence
 against the Length of Time, for by the above Words extracted from
 your former Message, you agree with us, “that it is uncertain how
 long War with Spain will continue, or how soon Another with
 France may begin” And if We are in such a dangerous State of
 Uncertainty, how can the Term of Nine years be said to be too
 long for a Fund, which does not raise 300^l Sterl p Annum clear of
 Deductions for Arms &c for Defence of the Province: Although,
 Gentlemen, you despair of the Goodness of any Arguments to con-
 vince us, that the Necessity of the present Juncture cannot require
 Nine years Continuance, yet as you found, by offering to Our
 Choice the Two Alternatives, you could draw Us from Our Reso-
 lution of adhering to the next Session, you now expect by throwing
 p. 50 the Bait (as you imagine) of Six Pence or any lesser Sum (Greater
 we suppose you meant) for Two years in our Way, we shall surely
 swallow it: But we plainly tell you we cannot accept what you
 mention for many Reasons: In the first Place as there ought to be a
 Consistency observed in the Behaviour of the several Branches of
 the Legislature, we cannot think but, that, tho from our dutiful
 Regard to his Majestys immediate Service in raising Forces, we
 were prevail’d with to recede from our first Resolution and accept
 one of your Alternatives, yet if we should now relinquish our Choice
 we might be thought too unstable in our proceedings, and never know
 where to stop In the next place how can we be sure you are in
 earnest? We thought the greatest Reliance might have been had
 on your Compliance, without the least Hesitation, to any choice we
 should make of the Alternatives But we are taught by Experience
 not to be too credulous, but to persist in what we have so reasonably
 fixed on: And there is a further (and of it self) a sufficient Motive,
 why we should not shorten the nine years by any Abatement what-
 ever, and that is, the certain Testimony you have given us at the
 last, and this Meeting of the Assembly, and now again by your new
 Offer of Two Years, that your only aim is to procure, upon any
 Terms, that Law for Arms, &c^a for the Defence of this province to
 be totally dropt; we are so fully perswaded of This, that we cannot
 doubt you might be induced to give any greater Sum whatsoever, or
 lay any greater Load on the People, so as you could compass that
 Design; This Earnestness of yours must be a very great Surprize to
 every one, since the Money appropriated to be raised by that Act

is to such a laudable Purpose, as the Defence of the Province; The Sum arising thereby so far from being more than sufficient, that many Accidents may happen that will require a much greater Sum and the manner of raising the same at present so little Burthensome, that it is not felt: But we have (besides our other motives) more regard to the Satisfaction and Ease of the People, as well as to the Continuance of such a Law, than to consent to any greater Imposition on Trade, for the People might then feel a Burthen, and the Merchants might perhaps be influenced by such who wish a Destruction to the Law, to apply for a Dissent: We shall only further add, that it is not suitable to the Characters of Legislators, to play at fast and loose which you now attempt, by first offering two Alternatives to Our Choice, we fix upon One, and then you tell us, no, you shall have the Other: But to put an End to this Matter, we repeat Our Resolution not to depart from our Choice of nine years, upon any other Terms than your Consent to a number of Years and to the End of the next Session, so that now we return the Compliment of a Choice; and we assure you that which ever you may think fit to choose, we shall not tell you our pleasure to be, that you should take the other

Since you assert, that there are many Laws in being against the Roman Catholicks, we shall sincerely take it as a very particular Favour, if you will be pleased to acquaint us, what Laws you apprehend to be in Force here against Roman Catholicks: If you should be unwilling to gratify us with this Information your mention of Laws in Being may seem to be thrown in order to prevent any being made, tho' you declare yourselves not backward in making Laws for that purpose

To Conclude with your Request of a Conference, we answer, that you have now fully our Resolution with Regard to the Bill for Arms &c^a But if you think his Majestys Service or the Safety and Happiness of the province can be in any manner promoted by a Conference we do most chearfully agree to it

A Message from the Lower House by M^{rs} Carrol & Matthews

By the Lower House of Assembly 17 May 1740

May it please your Honours

We certainly should not have troubled your Honours with any further Messages, which seem to answer no other Purpose than to protract Our Time of sitting and run the People into immense Charges without the least Prospect of Advantage to them, had not there appeared some Mistakes or Misapprehensions in yours of the fifteenth Instant by James Hollyday Esq^r which We could not well pass over lest the so doing should be taken for a Submission to what
p. 53 is far from our Thoughts, and cannot be gathered from any part of our Conduct

There is it seems little probability of Your Honours and Our Agreeing in many facts, if the Intercourse was to be Carried a much greater Length, and therefore the whole must at last be left to the Judgment of the World

It has been frequently mentioned by your Honours and not Gain-said by this House, that there is a War with Spain and an impending one with France, that there has been a Conspiracy among some negroes, and that there are some of the Romish Perswasion amongst us, who have not the most Cordial Dispositions to our happy Establishments, We must therefore leave it to those who can Judge Impartially of the thing, whether our offering a Bill for raising Six Pence per Hogshead for Purchasing Arms and Ammunition or any

lesser Sum as the Exigence of our Case may require, for one, two, or three years, with an Assurance of renewing it, and enlarging or lessening the Sum if there should be occasion, or your Insisting on three pence only for nine years, or for three and to the end of A Session, bespeaks the greatest Care of this part of his Majestys Dominions, or the most Impartial views towards the Safety of the province at a time of Impending Danger. And whether Our readiness to raise a supply for the Encouragement of Freemen to Inlist in his Majestys Service abroad, or your Entire refusal of it, unless at the same time you could obtain the before mentioned Bill for Arms &c with your beloved termination of nine years or a Session of Assembly, Argues the greatest Zeal for the Success of the British Arms

U. H. J.
Calvert
Paper
No. 735

We pass by your Charge of having Implicitly Asserted the Bill for Arms &c to have no relation to his Majestys Service, and shall lett the Messages speak for themselves, with this short Observation, that it is hardly possible to write or say any thing, but what by such strained constructions may be Wrested into what the Authors never Intended, and we wish something of the kind may not be Imputed to Your Honours in this and some other of our debates. p. 54

You might have spared the Trouble of giving the long detail of Statutes to shew there are Duties in Great Britain laid for a number of years and to the end of a Session, it is sufficient for our purpose that, that Duty which is the most Essential for the Safety and Defence and Support of the Government and without which it could not Subsist, is, and we presume has been ever since Britain cou'd call themselves a free People, given from year to year only. They have always looked on annual Sessions of Parliament to be necessary, and we, (whatsoever may be your Honours Sentiments) have the same way of thinking about our Assemblies; And therefore in our present Situation, when his Lordship takes the money for Support of Government under Colour of a perpetual Law, and settles Officers Fees by Ordinance or proclamation, What has the People left them but this one Bill to procure them frequent Assemblies? Our Duty requires us to act with a View as well to Our Posterity as Ourselves, and allowing his present Lordships his Governors and Ministers Dispositions to be as good and Candid as you shall please to call them, Yet can any of them answer for their Successors? and should ever the Province be so unhappy as to be ruled by a Proprietary or Governor who should Aim at Arbitrary Power and Oppress the People, what remedy could they have when no means are left them of procuring Assemblies? how could Aggrievances be Inquired into, oppressions and Extortions suppressed, new Laws made, or old ones revived? Would not such a proprietary or Governor as he had nothing to ask of an Assembly, keep the People always without one, these things, affect your Honours, who have large

U. H. J. Estates and may expect to leave Posterity in the Country, equally
 Calvert with us and Our Constituents, and should private Interest or any
 Paper other temporary Views Influence you not to join with us to prevent
 No. 735 such Mischiefs as possibly may happen, yet we are determined not to
 repeat the Evils arising from either the too long, or the uncertain
 duration of any money Bill reserving still a due Regard to any particular
 Exigence, the certain duration and short Continuance of this
 p. 55 Bill, being now the only means left us, Whereby we can have any
 Assurance of frequent Assemblies, And we are still the more
 Induced to this from the fatal Experience of being kept without
 a Session of Assembly for near three years past (altho the Circum-
 stances of the Province never more required one) meerly for the
 sake as you pretend of this one Law, with the Clause of ending with
 a Session put to it at the last revival in 1734 When all the former
 Laws since his Lordships Accession to the Government, whereby
 this three pence has been given, have not had duration above three
 years and always ended at a certain day, altho' your Honours have
 not stuck to say that the manner of Ending with a Session has been
 usual

Would it not be dealing more Ingeniously with the World to declare the Real Obstacle of your not agreeing to a Session, than the plausible pretence of the three pence per Hogshead alledged to be so necessary for the Safety and Defence of the province, and endeavouring to make Strangers believe, that the Country must Perish without it? If this be so, Why has that money for these last seven years, to go no farther back been hoarded up at London to a great Sum? And in all that time not much above the value of one years receipt laid out or Imported for our Safety? How can it be answered for, that after so long an Apprehension of a rupture, Application has not been made of that money, till an Actual War is broke out, and our Enemies as you say, within Eight or ten days march of us? And when the Arms sent for are in danger of being taken by them, and We of being destroyed with the produce of our own Money? not to say any thing at this time of the fourth part of what his Lordship has for some years taken for Support of Government, which by the Act under which it is claimed was Intended and by express Instructions from the Throne in the time of the Crown Government, was actually applied to the same use, altho' his Lordship has never parted with one farthing of it that we know of for that or any other purpose that concerns the defence or Safety of the Province

p. 56 Your Honours surely could not be in Earnest when you drew your Consequence from the Case stated about a house of Peers, we in very express terms said, that if there was any Similitude between your House and the other (not that which now composes a Separate Branch of the British Legislature but such a dependent house as was

mentioned in the Case) then there was no foundation for the Answer you gave, and you in your last Message say that because you cannot be likened to the present House of Peers, therefore your Answer is just from our own Conclusion: It had been well for the sake of your Honours this Paragraph had been omitted, least the Publick should say that this Indirect Answer proceeded from an Impossibility of giving a better

Altho the Council in some other Plantations may be appointed by the King and Removeable by the Governors yet we have been Informed that, unless in some especial Cases, they are Incapable of holding Offices while they have a Share in the Legislature, and with good Reason we may be allowed to say, that there is a wide difference between the Appointment of the King, who can have no view but what concerns the General Welfare of his People, and that of a Proprietary or a Governor, whose private Interests frequently Clash with that of the Community, nor was it the dependancy of this and all the other Plantation Governments, on that of Our Mother Country which We hinted at, but the Subserviency of any one part of our Legislature to another

It is needless to dwell upon the offer we made of the Bill for Arms &c to determine at a certain day it is Clear from our words that we proposed the time of duration should be proportioned to the necessity upon which your Honours immediately took upon you the sole Right of Judging of that necessity and so set down nine years; It might be presumed Reasonable that we should have some share in that Consideration, and the nature of Our proposal was such, that by Conference and mature deliberation of both Houses, the time of Continuance might have been agreed upon, otherwise you might have made it ninety nine or any greater number of years.

We deny the Intention of totally dropping the Law for Arms so long as there shall appear any necessity for keeping it on foot, and Assent it to be Our Undoubted Right, as the legal representatives of the People, to Judge of that necessity, the sums requisite to be raised, and the time of Continuance p. 57

As to your great Care of not burthening the Trade or putting the Merchants to procure a dissent to the Law if it was for more than three pence, we can only say, that Duties amounting to Six Pence have not long since been on our Tobaccos with the present Imposts and yet We never then heard any Complaint from your Honours or the Merchants about it

We have no great Reason to believe your Honours will take Our Words concerning the Extension of the Laws against Papists to this Place however we refer you to an Act of Assembly of Our own Whereby another made to prevent the Growth of Popery is repealed, and in which you will find that the Principal reason for that repealing Act, is said to be "for that by One Act of Parliament made in the

U. H. J. Eleventh and Twelfth year of his late Majesty King William the
Calvert third chapter the fourth there is good Provision made to prevent the
Paper Growth of Popery as well in this Province as throughout all other
No. 735 his Majestys Dominions and that an Act of Assembly of this Province
can in no way alter the Effect of that Statute

To Conclude We now assure you, that whatsoever your Answer may be to this, we shall trouble you with no more long Messages; And if you shall think fit to recede from the Resolution of not accepting the Bill for Arms &c otherwise than for nine years or to the end of a Session, we do here offer you that Bill for any Sum not exceeding Six Pence per Hogshead, and for any certain time not above Three years, And if you will consent to a Conference to settle the sum and time, as also to agree upon the Heads of a Bill for Incouragement of his Majestys Levies, we shall Immediately appoint some members of our house for that purpose otherwise our business seems to be at an End

The following Message is sent by George Plater Esq^r

By the Upper House of Assembly May 19, 1740

Gentlemen

We, who are desirous and careful of avoiding Mistakes and Misapprehensions, must always be pleased with having them rectified; But whether your last Message was useful and necessary to that purpose will perhaps appear from the few observations we now make of it.

We shall as you have done, wave the mention of many Facts, especially of such as make but little or nothing to the Question between us, as whether the Law of 1734 was the only Law ending with a Session, and other Facts of the like Nature, where as you say, there is so little probability of our Agreement

U. H. J.
Calvert
Paper
No. 735

That we may not be supposed to misrepresent you to those impartial Judges to whom you appeal in the third Paragraph we here insert what you say in your two Branches of that Appeal, the first runs thus viz. “ Whether your offering a Bill for Raising Six Pence per Hogshead for Purchasing Arms and Ammunition or any lesser Sum, as the present Exigence of our Case may require for one, two or three years, with an Assurance of renewing it and enlarging or lessening the Sum if there should be Occasion, or our insisting on Three Pence only for nine years, or for three and to the end of a Session, bespeaks the greatest Care for this part of his Majestys Dominions, or the most impartial views towards the Safety of the Province at a Time of Impending Danger? The second part is to this Purpose viz. “ And whether your readiness to raise a Supply for the encouragement of Freemen to enlist in his Majesty’s Service abroad, or our intire refusal of it, unless at the same time we cou’d obtain the before mentioned Bill for Arms, &c. with our beloved termination of nine years, or a Session of Assembly, argues the greatest Zeal for the Success of the British Arms? ” as to the first we cannot on perusal of your Messages, discover the least mention before now of Three Years, or the Assurance of renewing that Bill, which you are now pleased to give: We hope, Gentlemen you did not imagine it possible to mislead your impartial Judges or ourselves, by this Assurance into a false opinion of your care for this part of his Majestys Dominions; can you assert that such an Assurance can oblige any succeeding Assembly to renew that Act, or that such an Assurance is of the same Effect with an Act? If it can tie any future Lower House, what difference is there between binding them by An Act, and such an Assurance, and why should not an Act be now made for as great a length of Time, as any Revival or such an Assurance may carry it? Especially since you have not offered one Reason in any of your Messages, to shew the present Occasion and Circumstances may not require a nine years Continuance: But if your present Assurance may be disregarded by a future Assembly, your Impartial Judges must conclude that Assurance is only made use of for an Amusement, and that you can as little Answer for your Successors as in another part of your message, you think his Lordships Governor or Ministers can answer for theirs; In the second Branch of your Appeal, you seem to have recollected the Bill for Encouragement of Soldiers (which we thought by your two preceeding Messages had slipt out of your memory) only on purpose to put our Behaviour on that Bill, in a wrong light, for we formerly

intimated to you our then and present Opinions "that if we were in the least Backward in consulting our own Safety as well as we could against all possible Accidents, our Offer of furnishing Money to encourage Levies for his Majestys Service abroad, would be rather thought to proceed from a pretended Zeal, than Duty to his Majesty, since it might be interpreted, we did not think Our Preservation or Happiness consisted in any Defence against the French, and that the more men and money we spared for one Service, the less we might have for the other, and consequently this Province might be the easier prey to an invading Enemy;" And further Gentlemen you will be pleased to remember, that for the sake of a Bill to encourage the Forces, we receeded from our first Resolution and made choice of one of your Alternatives.

Our mention of the Statutes was to shew (what cannot be desired) that Money Acts of Parliament were often limited to a certain Time and to the end of the next Session; and in order to evade the Force of our Applying the Usage in such Acts to this Bill, you would liken this Bill to some Acts of Parliament, without which you say, the Government of Great Britain could not subsist, and from thence conclude, that the necessity of this Act for Arms &c. if limited to a determined time, might secure the frequency of Assemblies, as some Acts of Parliament make Annual Sessions of Parliament necessary: Indeed Gentlemen, whosoever believes or can be perswaded that your Comparison is just, knows very little of our Constitution; Surely this Government can, as long as this Province is safe subsist without this Act, how does this Act relate to this Government either in time of Peace or War, any otherwise than as it furnishes this Government with some money for its Defence and our common Preservation, whenever Occasions may require the use of it; This Govern^t has not any number of Soldiers, Guards or Garrisons or Navy to maintain in times of Peace; and therefore if you would really Convince any Person of the Justness of your Reason, you must shew that the Purposes, to which the Government applies the money arising from the Act of Arms; &c are so absolutely necessary to the Being or Support of the Government, independent of the necessary Defence of the Province, as that they cannot be without it; a Proof of this you have not attempted, for it is very well known this Government does not make use of that money, but really (as you say) has hoarded it up, (and we think it wisely) for such like Exigencies as the present Appearance of affairs threaten us with; Before we leave this Point, let us consider it even in your own light; if such An Act is so absolutely necessary (as you pretend) to the Being and Subsistence of the Government, our Attachment to it can be no Surprise, nor unreasonable, especially when under the Alarms of a dangerous War last Year, you absolutely refused to revive it.

p. 61

You complain of being kept out of any Session for Three Years past, merely upon pretence (as you say) for the sake of this one Law; Pray, Gentlemen, what Foundation have you to urge, that we ever made such a pretence? This we positively deny, and we further tell you, that it is notorious, the Assembly in 1738, was Prorogued and afterwards Dissolved on account of a Difference which prevented an Intercourse (as things then stood) between the two Houses; it is true the last meeting of Assembly in 1739 did end without a Session principally because you would not pass A Bill for Arms, &c and we are satisfied your Refusal at that Juncture will lay the blame of no Session on the proper Persons; so that only one Year and not three years, has yet passed without a Session on account of that Bill, and your own Journals will shew that we have not lost one Act of a publick nature by there being no Session at those two meetings (except a Bill that was brought in relating to Pork) for all such Acts still do and will Continue in Force tho there shou'd be now no Session, but if there had been more Laws lost, that might have been really useful to the Country, it must and ought in Justice solely to be imputed to your House, who chose to expose the Country to any Inconveniences rather than continue the only Fund established for it's necessary Defence and Security

You insinuate as if there were some other real Obstacle or not agreeing to a Session than the plausible Pretence of Three Pence per Hogshead; we are glad you will allow it a plausible Pretence, but we do most solemnly and sincerely assure you, and all those Strangers you speak of, that our true and only motive of not passing any Bill, is, lest a Session should be made and the Act of Three Pence for Arms &c should be dropt, and the Country be left destitute of the least Supply, perhaps when a War with France and Spain, by being continued longer than the time to which you limit the Bill, may require the greatest Fund we can raise for our defence; and of this Truth we doubt not you are convinced, otherwise you would have acquiesced with our Choice, if for no other Reason but to discover the Obstacle you hint at, and which you do not care to name; and this brings us to tell you why that Money has been hoarded up (as you call it) at London for these last seven years; you are sensible this Act can raise (communibus Annis) but about 300£ Sterling per Annum; If this money should be disposed of as fast as this Act raises it, there would not be till the end of the succeeding year, any money to supply any immediate necessary call in the Intermediate Time; besides the Annual Sum would certainly be too little for many sudden emergent occasions which might immediately require a large Sum of Money for our Defence Further you must allow that had the Money now in Bank laid out in Arms and Ammunition although we should perhaps have had many more Arms, and a

much greater Quantity of Powder in Store yet notwithstanding all imaginable Care (which has been the greatest that cou'd be taken in this Province) many of such Arms and a great deal of the Powder would have been, as what we have now are, (if not entirely) yet more unfit for Service, than new Powder and arms; and surely there is very little Reason to reproach those who are intrusted with the Disposition of that Fund, with husbanding or even hoarding it up (as your Phrase is) in London, ready for such dangerous occasions as may require a large Sum of Money; and it is entirely owing to the necessity of applying it to sudden calls that the moneys always lie dead in the Merchants Hands without any Interest, since none can foresee how soon or suddenly it may be wanted: The Reasons we have given for hoarding (your beloved Phrase must be omitted) the money will we doubt not, justify us to every unprejudiced and reasonable Man, as well as prove that you are determined to Condemn our Conduct at all Events; you have heretofore gone so far as even to charge us with embezzelling 2500£ part of this Fund and this Charge remains in the Printed Proceedings of the last Convention, you have had sufficient time to examine this matter, and we suppose you have done so; if you have, you must be convinced of the Injustice of your Accusation, tho' you have not had Candour enough to make a bare acknowledgment that you have been mistaken; such an Acknowledgment tho' but an Act of Justice is too great a Favour for us to expect from you: Whatever that money is which you insinuate his Lordship takes for Support of Government, we suppose it makes a part of the Complaint you expect to be redressed by his Majesty, and therefore we shall only say, if that Affair was not likely to come under another Examination we should be ready to shew your Claim to any part of that money to be Groundless

Our Earnestness on the Case you stated, was owing to your mention of the House of Peers between whom and any Parts of this Legislature there can be no just Comparison

p. 64 The Information you have had of any Incapacity of the Council holding Offices (except in some especial Cases) in other Plantations, while they have a Share in the Legislature, we have Reason to be assured is wrong, what (if any) particular Offices they may be incapable of we cannot pretend to say; But we are greatly deceived, if the Offices of Receivers General, Auditors, Secretary, and Judges, with considerable Salaries and Perquisites, and other Offices are not enjoyed in his Majestys Plantations by Gentlemen of the Council, who have a Share in Legislation; and it is most certain the general Welfare of the People is so much the Duty and Interest of a Proprietary, that it is hardly imaginable it can ever be out of his View; though the contrary may be as easily and warmly

alleged against a good Proprietary as has been in every Age insinuated against good Kings: but however we doubt not of your agreeing with us that Clamours of Aggrievances & Oppressions are not confined Solely to Administrations of Government by a Proprietary

U. H. J.
Calvert
Paper
No. 735

Since what we said of the Difference of Dependent and Independent Governments accounted for that Subserviency, which you objected to any one part of the Legislature in a dependent Government^t, it sufficiently proves that whatever Fault you found with our Constitution in this respect would reach all the Plantations

We shall only hint that the Act of Will 3 Cap: 4 has not been always looked upon to extend here, for we are informed that a cause of Brook and Cole was determined not many years ago in the Provincial Court against the Penal Statutes mentioned in that Act

And now, Gentlemen, to close our Altercations by Messages on this Bill it remains for us to say, that as you have given us a Choice of two Alternatives, one of which we have chose, and given you in a former Message our Reasons for not taking the other, and as you have not attempted to shew that our Choice of nine years (tho one of ninety nine as bearing no proportion to any supposition of the Continuance of the War would be) too long or that the present Exigence may not require it; We hope you will not think we were immoderate in the Length of time which we cannot depart from: But since you desire a Conference this House has appointed the Honourable Benjamin Tasker, George Plater and Edmund Jenings Esq^{rs} to join such Members as you may be pleased to appoint of your House in a Conference

The Conferees of the Upper House delivered themselves in the Words following Gentlemen

As your House has desired this Conference We have it in Command from Our House to hear and receive what further you have to propose and offer on the subject Matters of the Messages between the Houses

To which the Conferees of the Lower House answered

We propose to confer with your Honours about the Heads of a Bill for Encouragement of such Freemen as shall voluntarily inlist themselves in his Majestys service, and about the Sum to be raised for purchasing Arms and Ammunition, and the Time of the Continuance of the Bill for that Purpose, agreeable to Our Message of the 17th Instant

Upon which the Conferees of the Upper House say they desire to withdraw to make their Report to their House

In the Afternoon the Conferees met again Heads agreed on towards a Bill for encouraging Freemen &c.

That no Bounty should be given to any Serjeant Corporal or Drummer

That whatever Bounty should be distributed, all, or any Part thereof be paid towards Satisfaction of their Debts (if any) that the Soldiers may owe

That such Soldiers shall be exempted for seven Years after their Return from all Publick County and Parish Charges whatever, as also from the Necessity of attending on the High Ways

That Every Soldier either in marching or travelling on any part of his Duty or service shall have his Ferriage free

Upon considering the heads of a Bill for encouraging Freemen to enlist in his Majesty's Service

The Conferees of the Lower House propose to raise the sum of 2636:16:3 Current Money, to be applied to such Freemen as shall inlist in his Majestys Service

The Conferees of the Upper House propose, that it be a Clause of the Bill, that Every Person listing as a Soldier, should be free of

Calvert the Conferees

No. 735 That whatever Bounty should be thought proper to be given, should not be paid before the Time of Imbarkation

That all the Money drawn out of the Office for the Purposes of such a Bill shall be replaced by One or more moderate Taxes or Assessments

On the foregoing Proposals of the Upper House, the Conferees of the Lower House desire to withdraw to take the Advice of their House

The Conferees adjourn until to Morrow Morning Nine of the Clock

Wednesday Morning 21 May

The Conferees met according to Adjournment

The Conferees of the Lower House propose, that no Person shall by this Act be exempted from Arrest, unless all the Debts he shall owe at the time of enlisting, shall not exceed the Sum of the Bounty to be given to Each, and that Provision shall be made, that Publick notice be given of Each person inlisting to the End that their Creditors may make their Claims appear by a Certain Day, and if such Claims shall not in the whole exceed the Bounty, then they shall be discharged therewith, but if the Claims are more, then the Debtor shall not be entituled to the Bounty, and that after the Day appointed, no Person having received said Bounty shall be subject to Arrest for any Debt not claimed or exceeding the Bounty as aforesaid.

That the money shall not be paid to the Party, (in Case of no Debts or Debts not amounting to the Bounty) until such time after inlisting as there shall be a Certificate under the hand of the Captain, or Other Superior Officer produced to the Agent that such Person is inlisted, and so well secured that there is no Danger of his deserting

That the Money to be drawn out of the Office, instead of Assessments on the People, shall be repaid out of the Current Money Duties, arising on several Commodities, and heretofore applyed for defraying the Publick Charge

The Conferees of the Upper House desire to withdraw and acquaint their House therewith

The Conferees of both Houses agree that the Sum to be raised should not exceed the sum of 2636:16:3 Current Money

The Conferees of the Upper House propose, that the Number of Men to be encouraged be five hundred, or some other Number less
p. 73 than a thousand and that the Sum to be advanced Each be proportioned among the number of Men to be agreed on

The Conferees adjourn and on their Meeting again The Conferees of both Houses agree, that no Person shall by this Act be exempted from Arrest, unless all the Debts he shall owe at the time of inlisting, shall not exceed the Sum of the Bounty to be given to Each, and that Provision shall be made that Publick Notice be given of Each Person inlisting, to the End that their Creditors may make their Claims appear by a Certain Day, and if such Claims shall not in the whole exceed the Bounty, then they shall be discharged therewith, but if the Claims are more, then the Debtor shall not be entitled to the Bounty and that after the Day appointed no Person having received said Bounty shall be subject to arrest for any Debt not claimed, or exceeding the Bounty as aforesaid

That the Money shall not be paid to the Party (in Case of no Debts or Debts not amounting to the Bounty) until such time after inlisting as there shall be a Certificate under the hand of the Captain, or other superior Officer produced to the Agent that such Person is inlisted and so well secured that there is no danger of his Deserting And that the number of Men to whom the Bounty is to be given be five hundred

The Conferees of the Upper House deliver themselves thus

The Upper House on Consideration of Your Proposal to repay the Money advanced for Encouragement of the Levies out of the Current Money Duties &c are of Opinion, that whether such Money be repaid by a moderate Tax on the People, or by those Duties, will consequentially be the same, but that the first may perhaps be least burthensome to the People, for if such Duties be charged with the Repayment of this Money, the whole Publick Levy must be raised by a Tax, and perhaps at once on the People; but if those Duties should not be so charged with the Repayment of this Sum for the Levies, it might be repaid by moderate and gradual Taxes, and the Publick Levy or some great Part thereof might be immediately paid out of the Office (which cannot be if this money be taken out of the Duties) and such Money be repaid by those Duties. This we have in Command from Our House to acquaint you with, that upon this Representation you may fix on which Method you please

The Conferees of the Lower House desire to withdraw and take the Advice of their House thereon;

The Conferees of the Lower House deliver themselves in the following Words p. 74

As the Repayment of the Money to be advanced for Encouragement of the Levies &c out of the Current Money Duties &c or by a moderate Tax on the People, will be consequentially the same, we are directed by the Lower House to agree to which ever of the two Ways Your Honours shall be pleased to choose The Conferees of the Upper House make the following Choice accordingly.

U. H. J. And it is therefore agreed by the Conferees of both Houses that
 Calvert the money to be advanced for Encouragement of Levies, be paid in
 Paper by a moderate Tax on the People
 No. 735

The Conferees enter upon the Consideration of a Bill for raising Money for Arms and Ammunition

The Conferees of the Upper House deliver themselves in the words following

Since your House has given Our House the Choice of two Alternatives, One of which Our House has taken, and since Our House apprehends you have given us no Reasons for their Departing from the Choice they have made, we have it in Command from Our House to know whether your House will not agree to such Choice, and if not, whether you have any Reasons to offer why Our House should depart from the Choice they have made of One of your Alternatives

In Answer to which the Conferees of the Lower House say, they desire to withdraw and acquaint their House therewith

The Conferees adjourn until the Afternoon

In the Afternoon the Conferees met again

The Conferees of the Lower House deliver themselves in the following words

We are directed by the Lower House of Assembly to acquaint your Honours, that they cannot agree to the Continuance of the Bill for Arms and Ammunition for nine Years, or for any Number of Years more than three; And although they do not look upon themselves
 p. 75 in any wise Obligated to give Your House the particular Reasons which guide their Resolutions as a House of Delegates in any Matters that come under their Consideration concerning money Bills, and that their Reasons in the present Case are sufficiently set forth in their Message to the Upper House of the 17th Instant yet to comply with the present Desire of Your House, we are directed to give you as follows

First, That Our Offer of A Bill was not for any number of years generally but coupled with these Words, "as the necessity of the present Juncture may require," and that our House, as the legal Representatives of the People, have an unquestionable Right to Judge of the necessity of Raising Money, the Quantity of money to be applied to that Necessity, and the Time of Continuance of any Bill for that purpose.

And, that the Reason of making the Offer in the manner above mentioned, was to give Your House an Opportunity in Conjunction with Ours deliberately to consider both of the Time and Sum, and to Form the Bill accordingly, instead of which your House has

taken upon itself to determine Both, without allowing the House of Delegates any Share in the Consideration of either.

U. H. J.
Calvert
Paper
No. 735

2^{dly} That as the Upper House has frequently inculcated the necessity of extraordinary Armaments at this Juncture, from our Being in a War with Spain, from the Probability of one with France, the Danger of being Attacked by some French Colonies said to be within a few Days March of our Frontiers, the Insurrection of Negroes, and the evil Disposition of Papists, our house have thought the increasing the Sum and by Consequence the Quantity of Arms and Ammunition at such a particular time of Danger, will more Conduce to our Safety, than giving the Three Pence for nine or any other number of years, for if the Danger is at Hand the Money raised after the Third year can be of no use to defend us against such Danger

3^{dly} That altho the Lower House in May 1739, when no War was proclaimed, but only a general Rumour of it, when there was a large Quantity of Arms in the Province, and above the Proceeds of Seven Years Duty in Bank in England, did not think it necessary to renew the Bill yet as they offer it when War is Proclaimed and Danger is at Hand, it is not even to be presumed but that every House of Delegates will continue from time to time so to do, when they shall be in the like or worse Circumstances, or their own Preservation require it

We are further Ordered again to renew to you the Offer made in Our Message of the 17th. Instant, which if you refuse, we are required to desist from any further Conference on the Bill for Arms and Ammunition

The Conferees of the Upper House desire to withdraw to take the Advice of their House thereon

And the Conferees Adjourn until to Morrow Morning

Thursday Morning May 22^d The Conferees met according to adjournment

The Conferees of the Upper House deliver themselves in the following manner

Gentlemen We have it in Charge from Our House to say in Answer to what you communicated to us yesterday on the Subject of the Act for Arms &c^a and your Reasons for not agreeing to Our Choice of your Alternative for nine years, That the Right you Claim of not being Obligated to give particular Reasons for your Resolutions on money Bills, is not a less Priviledge of Our House on any Bill whatever, and therefore they hope you will not think it strange, whenever they should think fit to assert or insist upon it

U. H. J.
Calvert
Paper
No. 735

That so much has been already said in the Messages with Relation to your two Alternatives, and the Choice they have made, that they think there is no occasion to add any thing further only this that they never questioned the Right of your House in Judging of the necessity of Raising money, the Quantity of Money to be applied to that necessity, and the time of Continuance of that Bill yet that Our House has an equal right of Judging on passing or not passing Any Bill whatsoever

That Our House has great Pleasure to find, that their often inculcating the necessity of extraordinary Armaments at this Juncture, from Our Being in a War with Spain, the danger of being attacked by some French Colonies, the Insurrection of negroes and evil Dispositions of Papists, have had at last some good Effects on your Resolutions for Increasing the Sum for Arms, &c^a at such a particular time of Danger

That your House seems to think by not passing the Bill for Arms, &c. at the last meeting, that a Rumour of War ought not to prevail with them to make Preparations for a Posture of Defence, and that a seven years Duty in Bank of 300£ Sterling p annum and Our Arms in the Country (both which together could not Arm the Province in a Proper manner against an Invasion) will Justify the Representatives of a Free People in letting A Bill for defence of the Province drop till an Actual War breaks out, or the Country may be in worse Circumstances, by which our House presumes your House, must mean when the Enemy may be amongst us; in such worse Circumstances no doubt, Gentlemen, it would be a very proper Time for an Assembly to meet and make an Act to raise Money a year afterwards for Our Defence

We have it further in Command from our House to acquaint you, that although you have not vouchsafed to use one Argument to satisfy Our House of the unreasonableness, in the present uncertain Situation of Affairs, of the Length of nine years which they had Chosen on your Alternative, yet as the principal Heads of a Bill for Encouragement of raising Forces for his Majestys Service, and a determined Resolution to shew it on every occasion have been agreed to in this Conference, and as the members of Our House have nothing so much at Heart as a sincere Zeal for his Majestys Service, and a determined Resolution to shew it on every occasion; Therefore on these Considerations, and being very desirous to cultivate and preserve among the several Branches of the Legislature a mutual Harmony and good Understanding, by every Condescension that is not very unreasonable, and by forwarding any Bill that may be agreeable to each other, Our House will Agree to a Bill for laying a Duty of Six Pence per Hogshead for Arms, &c^a for defence of the

Province for a determined Time of Three years, and in every other respect conformable to the present Act; But we offer to your Consideration whether it may not be more for the Ease of the People, to continue the present Act for Six years, rather than lay an Additional Load on Trade for this purpose.

The Conferees of the Lower House propose, that the Treasurers shall with the money to be raised, send for the Arms and Ammunition by direction from the Governor and Council, and that the Treasurers shall at every General Assembly lay before both Houses Accounts of the Arms so Purchased and Money received

That the Armourer by the Bill be obliged to lay also an Account upon Oath before every General Assembly of what Arms and Ammunition he shall from time to time receive, and how they are delivered out

That the Commission of Eight per Cent by the present Act to the Naval Officers be reduced to some less Sum to be agreed on

To which the Conferees of the Upper House desire to withdraw to acquaint their House therewith

Gentlemen We are directed by Our House to acquaint you that your Proposals seem only to be mentioned in order to destroy a Bill about which both Houses have taken so much Time and Pains, at a very great Expence to the Country, nor can you reasonably expect any further Concessions after those large ones already made by Our House

Several Bills sent from your House now lye on Our Table for a second Reading, but We cannot think this House would act with that Decency and Duty We owe to his Majesty and the Safety of this Province, if any Bill should have a Passage in this House before a Bill for raising a Fund for Arms &c for Defence of this Province, and also a Bill for Encouragem^t of raising Forces for his Majestys Service, agreeable to the heads agreed upon by the Conferees of both Houses, and neither of which you have sent to us; We doubt not of your Approbation of Our Conduct in this Particular, since Your House shewed a remarkable Earnestness in forwarding two Bills for those Purposes at Our first Meeting, and when the two Houses could not by Messages agree on what Bills would be the most proper for such Ends, the Heads and Principal Parts thereof have been settled to Our mutual Satisfaction by the Conferees of both Houses; in Consequence of which we have daily expected from your House Bills conformable to such heads, & therefore We hope you will be pleased to send Us such Bills that We may by a quick Passage give a Preference to them which so much relates to his Majesty in every Respect, before every Other Bill

Upon Consideration of the Petition of M^r Charles Sewall which Your Honours have referred to the Consideration of this House concerning a Tract of Land called Darby, which was granted to his Grandfather, and was settled by Act of Assembly, to the Use of some Indians on the Eastern Shoar in the year 1669; and as it does not appear that ever any Satisfaction was made for the said Land (althô it was taken away from the Owner or Proprietor of it for a Publick Good) so it seems reasonable and just to this House, that the Petitioner should have Satisfaction made him, or that he should have the said Land; it seems to this House, that the best Expedient would be to appoint some Persons to treat with the Indians for a Compensation to be made them at the Publick Charge for their
p. 81 Right to the said Land, and that the Petitioner M^r Sewall may have it: By this Expedient we conceive that no Inconvenience will ensue to the Indians themselves, as they will have Land remaining of what was settled on them by the said Act more than sufficient for the Number of those people (who daily diminish) as are now left, that the Purchase will be easy to the Publick, and the Petitioner will have an Opportunity to sell his Land for its true Value: If your Honours are of the same Sentiments with this House, We shall be ready to join with you in appointing proper Persons to treat with the Indians to the Purposes already mentioned

May it please Your Honours

We herewith send you the Bill for Encouragement of his Majesty's Levies: As it is to be presumed all the Bills, which shall pass both Houses will receive the Assent of his Excellency, and pass the Seals at One and the same time, We are at a Loss to know wherein the Decency and Duty we owe to his Majesty, and the Safety of the Province, can be any ways concerned in the Precedency given to any of them in Either House, however, as we have too well grounded Apprehensions that contrary to the usual Mode of Proceedings in Assembly you keep up the several Bills now before you, wherein the Publick Administration of Justice, the Payment of Publick Taxes, and general Utility of the Province are most essentially concerned, with Design to pass them with Duration to a Day certain only, and not to the End of a Session as usual, which in Our Opinion would be of the most pernicious Consequence to the People We have thought it, absolutely necessary to keep back that for Arms & Ammunition until you send us down such of those other Bills as you shall think fit to pass with the usual Duration. p. 82

As We hope there is no Ground to suspect Our Loyalty to his Majesty to Our Care for the Safety of the Province, so we hereby sincerely declare to your Honours and the World, that We never had any other Intention than to pass the Bill for Arms &c according to the Terms agreed upon by the Conferees of both Houses; and that We retain it in Our hands now, for no other Reason than what We have here mentioned, for whatever may be the Consequence of not having it at this Time, We are well assured that losing either all or most of the Bills now before you with Others of the like kind, or having them with any other Determination than with a Session of Assembly would prove much more fatal; and therefore We have thought Ourselves in Prudence obliged of two Evils to choose the least

As We cannot suppose Your Honours unacquainted with the many other Reasons which govern Us in this Matter, We shall not trouble you with them; and this being Our firm and unalterable Resolution We hope it will be needless to spin out any more time about it; We shall therefore wait the final Result of Your House therein

The following Message is sent by Samuel Chamberlain Esq^r

By the Upper House of Assembly 29 May 1740

Gentlemen

In answer to your Message of the 27th Instant We assure you that We have understood that Bills or other Business of the greatest Consequence to Our King and Country had the Preference in Parliamentary Transactions and were first taken under Our Consideration nor can such a Method seem strange since it is reasonable in Private as well as Publick Affairs, and as We look on the Fund for Defence of the Province to be of the utmost Importance for Defence of the Province at this important Juncture, and the Bill for Encouragement of Levies for his Majestys Service to be a seasonable and dutiful Testimony of Our Loyalty to his Majesty We think the Decency and Duty We owe to his Majesty and the Safety of the Province ought to give those Bills which had employed both Houses above a month before they could agree to the Heads of them the first Place in Our Consultations, although the Lower House should think fit Contrary to the usual Practice in Parliament to offer some other Bills before them for the Governors Fiat

It was this Opinion of the Precedency due to Bills of this Nature that occasioned our Deferring the Consideration of your Bills now On our Table until we should receive and give a Passage to those two Bills, But We must candidly acknowledge that your above mentioned Message has given us another and invincible Reason against

Our Passing any of your Bills now on Our Table before We have from you the Bill for Arms &c^a

U. H. J.
Calvert
Paper
No. 735

With very great Concern we perceive it hardly possible for us to come to any Amicable and Friendly Agreement with your House as it is our sincere Inclination to do let us make never so many Concessions, new Demands are still made upon us, in Proportion to the Readiness we show in Complying with your Desires of this your present Message is a most flagrant and demonstrative Proof We have been now Five Weeks Contending about this Bill that is the Subject of it which is agreed on all Hands necessary to be continued in some Shape or other considering the dangerous Situation of Our Affairs, your first Objection was to the Clause for the Continuance of it to the next Session of Assembly which you declared was Contrary to the very Frame of Our Constitution, since by such a Clause any temporary Law might be made perpetual by any one part of the Legislature but to shew your Inclination in this time of an Actual War with Spain and an impending one with France you offered us the two Alternatives either of a longer time or a larger Sum. We chose one, you then flew to the other, which you again offered to us as your final Resolution, upon this to shew Our Desire to agree with you We came once more into your Terms and in a Conference settled the Heads of this Bill together with that for inlisting men for his Majestys Service, but after all this now comes your Message declaring your Resolution not to send up the Bill for Arms &c. for Defence of the Province p. 84

But your self Conviction of what you ought to do in Consequence of the Agreement by the Conferees of both Houses, has put you under a necessity of offering at some Excuse for not sending to Our House a Bill Conformable to what the Conferees agreed in relation to the Fund for Defence of the Province and this Excuse is founded on your too well grounded as you say Apprehensions of Our Design to pass your Bills now in Our House with Durations to a day certain only and not to the end of A Session as Usual, Be pleased Gentlemen to permit us to Ask whether this House has ever acquainted you with such a Design, Whether any Designs or Actions ought to be imputed by one House to another in the Course of Parliamentary Proceedings, before such designs or Actions are avowed by either House but even suppose you had the best Grounds imaginable for your Apprehensions can they justify you in keeping back a Bill which was in all its parts Settled and Agreed to not only by the Conferees but even by both Houses and is it not very extraordinary that you not only foretell without an Information from Our House what Our Resolutions will be on the second Reading of your Bills, but you Act and Resolve in the same manner as you think you would if We had already done what you apprehended Indeed Gentlemen such Dispositions must destroy all Confidence between the sev-

U. H. J. eral Branches of the Legislature and have Effects very Contrary
 Calvert to the good Ends proposed and Expected from the Meeting of
 Paper No. 735 Assemblies.

p. 85 As to the Duration which you seem to be so much apprehensive of
 We hope We need only say that it will be time enough for us to
 Justify such a Duration whenever We think fit to Insist on it which
 we shall not do, unless we are Satisfied with the Expediency and
 Reasonableness

Since the Importance of the Bill for Arms &c^a for the defence of
 the Province since our frequent inculcating the necessity of Extraor-
 dinary Armaments at this Juncture, which your Conferees acknowl-
 edged had influenced you to increase the Sum for Arms &c^a from
 Our Being in a War with Spain the Probability of one with France,
 the Danger of being Attacked by some French Colonies within a
 few days March of Our Frontiers the Insurrection of negroes and
 the evil Dispositions of Papists and since the Concurrence of your
 Conferees, and even of Your House to every part of such a Bill
 cannot convince you of the indispensable Obligation you are under
 to forward that Bill immediately up to Our House; but on the Con-
 trary you seem resolv'd to disregard every Consequence, rather than
 not avoid the Duration you are apprehensive may be put to some
 other Laws, We must say on our parts that your Wishes plainly
 appear that We should be rather without A Session or any Fund
 for Arms &c^a for Our Defence than to have it increased to the Sum
 agreed by the Conferees, and therefore Gentlemen We dare not
 before you send up the Bill for Arms &c^a Agreeable to the Conferees
 Report take one Step in the Passage of any of the Bills now in Our
 House least it might tend to leave us at these Dangerous Times
 without some Fund for Our Defence and in Case you will not let
 us have a Bill for Arms &c^a Agreeable to the Conferees Report, We
 are perswaded We shall in a much more Sincere manner acquit Our
 selves as Dutiful and Loyal Subjects by not passing the Bill for En-
 couragement of Forces, or any other Bill and by that means Con-
 tinue still on Foot the present Act for Arms &c^a than by giving a
 Passage to that or any other Bill, leave the Province without any
 Fund to provide Arms and Ammunition for its Defence

We are really Gentlemen, unacquainted with the many other
 Reasons (which you say) govern you in this Matter unless they be
 such as determine you at all Events to deprive this Province as much
 as it is in your Power, of a Fund for its Defence, and therefore you
 will be pleased to take Our Final Results, (which you say you wait
 for) that We cannot consistent with Our Duty to his Majesty in
 the Preservation, of this part of his Dominions, Pass any Bill before
 you Will be pleased to dispatch a Bill for Arms &c^a to us agreeable to
 the Report of the Conferees.

And now Gentlemen; before you give us your final Result, We earnestly desire you like the Representatives of a Protstant People who are blest with the Enjoyment of Your Religion and Liberties under the best of Princes to consider the State and Circumstances of this Province

U. H. J.

We have an Actual War with Spain and expect One every day with France if it is not already declared, Our Province lies in a defenceless Condition easily to be invaded by the French and the Indians in Friendship with them, and the Papists among Ourselves and other Jacobites have arrived at a degree of Insolence beyond all Imagination some of them not sparing his most Sacred Majesty himself others threatning the Destruction of Our Religion and Laws and the mildest of them haranguing daily upon the terrible and Irresistible Power of France and Spain

At this time Gentlemen, and in such Circumstances it might have been really hoped and expected that the Government might have prevail'd upon you to have done something extraordinary for the Defence of the Province but to be refused not only the Fund as it is increased by the Conferees of both Houses but even the Continuance of the Fund in being upon the same Foot that they stand on at present, are Facts so Astonishing that it will hardly be believed by his Majesty and the Ministry at home, to whom We must refer Our selves for the Justification of Our Conduct, and flatter Ourselves that We shall have Justice done to the Sincerity of Our Intentions there as well as by every Candid and Impartial Man in this Province

By the Lower House of Assembly 30 May 1740

May it please your Honours

We little expected that Our Readiness to offer a Bill for Encouragement of his Majestys Levies, and Chearfulness in doubling the Sum for Purchasing Arms and Ammunition for Defence of the Province could have met with such Obstruction from your House after your so many Declarations of our present necessities and Dangers or that it could have been attended with a Consequence on your part so very Prejudicial to the People in other Respects viz. the Altering the Duration of Our Laws to be reenacted this Session, whereon the Administration of Justice, the raising and Payment of Taxes and the General Utility of the Province particularly depends (many whereof have lain now three Weeks on your Table) from ending with a Session as they always heretofore have done to determine on a day certain merely because we contended (and We hope with great Reason that money Bills should have such Duration

Can it be the Safety and Welfare of the Country that move your Honours to this Will not all the World say that it is only Calculated to Obtain an Ascendant over the People by having it in your Power at the Expiration of those Laws to compell the Representatives of a Free People into Compliance with any high Demands your House shall be pleased to make on them. And is it not without Precedent that the Government under Pretence of imminent Danger demands money of the People and when it is offered according to Request it will not be accepted unless they give up their Liberties along with it

Our Duty Obliges us to take Care of the Province in every Respect, and not, while we are making Provisions against Enemies abroad, leave it a Prey to those at home

You are pleased to say that your House never told us of this being your Design, but pray if you had no such Intention would it not have been easy to have said so in your Message of yesterday; or had our former Apprehensions been upon Slender Grounds

p. 88 Can We doubt of the matter now after the indirect manner you have answered Our Message of the 27th Instant

The Bill for Arms and Ammunition is ready drawn up agreeable to what was consented to by the Conferees of both Houses and nothing hinders the sending it to your Honours, but the Incer-

tainty We are under of having those other Bills with their Usual Duration; It is only in your Power to remove Our Fears by satisfying us in this Point, and if for this Reason you shall think fit to forego that other so necessary a Bill, let the Consequence lye at your Door

Calvert

The Precedency you so often mention, We must again tell you can have no manner of Weight since it is well known all the Laws made in a Session will receive their last Sanction at the very same time

Had your Honours been pleased to communicate this Scheme to Us at our first meeting, the Business might have been short and some Thousands of Pounds saved to the Country, but We are now sorry to find that the Obtaining of Powers inconsistent with the Rights and Liberties of a free People seems to be the Principal View whilst zeal for his Majestys Service and Safety of those People accompanied with Groundless personal Reflections obliquely aimed at the members of this House, is made the Specious Pretence

Since then the keeping in Our Possession the Bill for Arms &c^a is the only means left us to secure the accustomed Duration of Our other Laws We request your Honours (in whose Power alone it is) to remove that Obstacle and then that Bill will be immediately sent you, otherwise We do, and always shall persist in Our former Resolution

After what is here said and the Offer now made, We shall not be afraid of Submitting Our Conduct in this matter to his most Sacred Majesty, or his Ministry at home and shall take Care that things be represented their in their true Light

By the Upper House of Assembly 30 May 1740

Gentlemen

The Great Regard we have for the Safety and Welfare of the People of this Province, obliges Us to acquaint you, that during the Time M^r Beale and M^r Denton were Clerks of the Provincial Court, they have neglected to make and enter the Affidavit which the Act of Assembly, Entituled An Act for the Publication of all the Laws of this Province and for the recording the same in the Secretarys Office &c made at a Session of Assembly begun and held the 26th Day of April 1715 required to be made, concerning the Record of Acts of Assembly within Six months after the End of Each Session, which gives us Reason to fear that Our Records of Laws during that time have not been carefully examined with the Original Acts under the Great Seal

We therefore desire You'l appoint some of the Members of your house to join with some of Ours to examine as well the Records with the Original Acts from the year 1714, till the time M^r Ghiselin was made Clerk of the Provincial Court (he having taken Care to comply with the aforesaid Act) as to make Enquiry concerning some Certificates and Other Writings in the said Record Books, that We have Reason to believe were made by Persons no way qualified by Law to make them

This House met again according to Adjournment Present as Yesterday

The following Message is sent by Col Gale

p. 90

By the Upper House of Assembly May 31, 1740

Gentlemen

Were we to follow you in every Paragraph of your Message of Yesterday by Mess^{rs} Calder and Sprigg, you would find that with very Change of the Terms, whatsoever you say of this House compelling the Representatives of the People into Compliances with any high Demands, may be most justly applied to the Resolutions of Your House with regard to this, and we doubt not this Latter will appear to be the real Case, upon the bare State of the Dispute between us, which we think to be undeniably thus

The first and only material Business transacted by the two Houses during the first four Weeks of this meeting, was an Agreement by

the Conferees of both Houses, on the Heads and principal Parts of two Bills viz. One to raise a Fund for Defence of this Province, and the other to encourage Levies for his Majestys Service; these Bills were at the Conference and by all the Messages preceeding it, understood and Agreed to attend each other, and to be framed and sent up by your House to us, as soon as might be; you send to this House one of the Bills, but refuse to send the other for defence of the province, Because you have Apprehensions (as you say) of our Intention to make Alteration in the Duration of some of your Bills on our Table; We tell you, that we have not as yet Given those Bills a second reading; upon which it is notorious this House forms their Resolutions, either as to the Passage or Alterations of any Bills, and further that this House has never acquainted your House with any such Intentions pray, Gentlemen what answer do you make to This by your abovementioned Message why truly, none other, but that you take for granted, that we shall do what we have not yet done, nor have informed your House that we shall do; and because We do not let you know, what we shall or shall not determine on the second Reading of those Bills, your Apprehensions of Our Intentions (you say) are confirmed; If Gentlemen such Expectations as you now entertain were ever thought or heard of, in any part of the World where there are distinct Branches of the Legislature Your now Behaviour might be a matter of less Surprize; but as we are most certain, not the least Pretence of Reason or President can be urged for what you now insist on, we hope you will not be displeased with our absolute Refusal to comply, with what wou'd render that Branch of Legislature which shou'd concede to it, not only useless but ridiculous; when you talk of high Demands, can any thing be more so between Our two Houses, than for one to Insist on the other should declare, what it Intends to do with any Bill, before that Bill comes under a proper Consideration of the House? would not this Method of Proceeding not only anticipate every Resolution but even any Alteration at the proper time (which is with us at the second Reading) of Our first, and perhaps unreasonable Intention, And would it not be absurd in Terms for us to tell you, what Our Resolutions are upon a Bill, which our House has not resolved upon: Our Unwillingness to gratify you is not a matter of Form but your Expectations strike so Essentially at our Priviledge as a distinct Part of Legislature, that we make not the least Question of being every where justified; and if you will not let us have the Bill for defence of the Province because we will not make so dangerous as well as Ridiculous a Precedent, we must chuse the least of two Evils which we Judge, by not contributing to A Session, 'till you will be pleased to send us the Bill for Arms &c^a agreeable to Our Conference, will be to continue our present Act for Arms and Ammunition for our defence

U. H. J. As what is now said goes to almost all the several Parts of your
 Calvert Message about the Duration of your Bills, we shall only repeat, that
 Paper it will be time enough for us to shew the Reasonableness of any
 No. 735 Alteration of their Duration, when we make it, and before that is
 done, we shall not give you or ourselves the needless Trouble to
 Justify it

We are singularly unfortunate, that when we endeavour by the strictest Watch on our Expressions to avoid every misbecoming Word towards your House or its Members you tax us with personal Reflections obliquely aimed at your members; But your own Conscience, how little any of your Members deserve Reflection, will readily prevail with you to believe us when we Assure you of having no Intentions to reflect obliquely on any of you

As We are sensible Your Duty obliges you to take care of the Province in every Respect, we are the more surprized at your Backwardness to send up to us the Bill for Arms &c^a since it is designed as a Provision against Our Enemies abroad and also against those which you speak of at home and against whom it is highly incumbent on both of us, to take a proper Care

And now Gentlemen We have only further to hope, that you will not press us any more on a Point, which we cannot consistent with our being a distinct part of the Legislature, give up; And if a Session can be had on no other Terms, we can only wish you had desired a less unreasonable Thing and which we cou'd with any Decency have submitted to: But however if you still persist to have that Information which cannot be given; as we are greatly desirous of passing the Bill for Encouragement of Levies for his Majestys Service, so as it may be done without destroying our only Fund for Defence of the Province We should be glad if you could think it expedient as Affairs now stand to revive and continue all the Acts now in Force for any Term whatever and to the end of the next Session, so that a present Session may be made to our mutual Satisfaction

A Message from the Lower House by Mess^{rs} Smith and Wootton

By the Lower House of Assembly 31 May 1740

May it please Your Honours

We cannot conceive that what we insist upon, in any manner affects the Rights, or tends to render any Branch of the Legislature useless

or ridiculous, nor is it different from your own Conduct upon a late Occasion, where you actually withheld two of Our Engrossed Bills 'till we should satisfy your House in what you required by your Messages

U. H. J.
Calvert

No. 735

It is the not reading the Bills before you a second time, and sending them with the former Duration that We complain of, since that would remove all Obstacles to a Session

We are glad however, that without that Reading you have agreed the Duration We contend for is reasonable, by your offering it to us in the Conclusion of your Message of this Day; although the Conclusion annexed to that Offer is very extraordinary, Viz. that We should give Three Pence ^p hogsh^d for Arms &c although at your Honours Request, and by Consent of the Conferees and both Houses, Six Pence had been agreed to be absolutely necessary at this dangerous Juncture

Therefore as that would lessen the necessary Provision for Our present Safety against Our foreign and domestick, as well as contradict Our former Resolution about the Determination of Money Bills, We cannot agree to your proposed Expedient

You have now the Bill for Encouragement of his Majestys Levies in your Possession, and We have put it in your Power, by sending down Our other Bills with their usual Duration, to have that for Defence of the Province, so that we hope it will not be imputed to us that they are not passed into Laws

Gentlemen

Whether what you have insisted, does or does not tend to render any Branch of the Legislature, that should comply with it, useless or ridiculous, we must appeal to every impartial Person, who will read the state of our present dispute in our Message of the 31st of May, where it cannot be said to be misrepresented; nor can we recollect any Conduct of this House at any Time parallel to Yours on this occasion

Whoever reads your former Messages, must conclude you differed with us, either because we had altered the usual Duration of your Bills on Our Table; or because we would not acquaint you, what alteration (if any) we intended to make: But by your Message of Saturday last, you seem to have found out, that you had mistaken the Cause of our Quarrel, for by that Message you tell Us, your Complaint is, “ That we have not read Your Bills the second time ” If so, pray what occasion was there for your long Reasoning, and harsh Conclusions on a Fact (viz. our Alteration of the Continuance of your Bills) which had not happened. And why have you so hastily taken for Granted, without any Information from your House that We should do it, as by Argumentations on your own Suspicions and Apprehensions, to put the Country to an Expence of near One hundred Thousand Pounds of Tobacco? But now truly it comes out, that you are not Angry with us, for having made or intended to make any Alteration in the Duration of the Bills, but only, Because we have not read the Bills a second time, and sent them to you with the former Duration ” If we are blameable in
p. 94 this particular, We doubt not but you will on a very little Recollection be so candid as to acknowledge such an Objection lies much stronger against your selves; If we have been faulty for not Reading a second time and sending to you Bills to which this House has in no Shape hitherto agreed, how will you be excused, for not reading the second time (for ought We know) and not sending up to Us a Bill, on every part of which the Two Houses by their Conferees have signified their Concurrence A Bill which is of so great Importance as to make some better Provision for Defence of the Province in these Dangerous Times of War, and a Bill which together with another Bill employed us the first four Weeks of Our Meeting, at the expence of near 300000£ of Tobacco to the Country, before the two Houses could agree on the Heads, and which we were always understood and intended to be dispatched in the first place, and to accompany each other; But you have now taken up near Ten days, and at 100000£ of Tobacco Expence to the Country in disputing whether you should send up one of those Bills.

It is your Behaviour Gentlemen, in keeping back this Bill under all these Circumstances that alarmed Us and put us upon our Guard

to secure if we could a Fund for Our Defence; and upon this Principle We have hitherto refused to take any steps, to destroy by a Session the only Provision We have for that Purpose, unless we could be sure another might be depended on; which, after your delay to dispatch a Bill for the same End, agreed on in all its parts by the Conferees of both Houses, we have good Reason to think very precarious

U. H. J.
Calvert
Paper
No. 735

If you will be pleased to reconsider our last Message, and the Expedient there mentioned, you will readily understand it in the Sense intended by us, which was, that rather than be without an Act to encourage Levies for his Majestys Service, it might be thought adviseable to make a Session, provided all such Acts as would determine by a Session, might be continued in the same Plight and condition, they must be, if there should be now no Session, which would be by reviving them for any Time (tho ever so short) and to the end of the next Session; And this Expedient We imagined would be better than no Session and no Levy Act; not that we preferred Three Pence to Six Pence for Defence of the Province, but because, without a Session there wou'd be only Three Pence and by the Passage of any Bill, whilst you keep in your House the Bill Agreed on by the Conferees we might from the present Appearance of Your Conduct fear losing even that Three Pence: But since you profess yourselves unwilling to lessen Our Provision against Our Foreign and Domestick Enemies from the Six Pence you have agreed to to the Three Pence you have endeavoured to take from us, we doubt not but you will immediately send up the Bill for Six Pence, which is agreed by the Conferees of both Houses to be determined as you have desired

p. 95

It is true, Gentlemen, we have (as you say) the Bill for Encouragem^t of his Majesty's Levies in our Possession, and we must own you have had the Address, from your own Knowledge of our unshaken Duty and Affection to the best of Kings, and of our sincere zeal for whatever may contribute to his Glory, and the Prosperity of Our Mother Country, to work upon us by those irresistible Motives, and therefore you sent to us that Bill in Order that a Session might be made, We have hitherto endeavoured to prevail with you that A Session might be made to our mutual Satisfaction, we have not been able to procure your Compliance with us in that respect and therefore as the greatest Testimony we can in this Case give of our Affection to his Majesty and Chearfulness in his Service We have passed the Bill agreed to by the Conferees of both Houses for Encouragement of his Majestys Levies; In return for which we cannot but expect from your avowed Loyalty to his Majesty, and Attachment to Our present happy Establishment, an immediate Dispatch of the Bill for Arms, &c^a for Defence of this part of his Majestys Dominions, agreeable to the Report of the Conferees of both Houses; And in Order

U. H. J. that we may proceed to some other Business than sending Messages
Calvert backwards and forwards, we do tell you plainly, our unalterable
Paper Resolution is, not to read any other Bill on our Table, before you
No. 735 send us the Bill for Arms &c^a agreeable to the Conferees Report;
from this fixed Determination we will not recede on any Considera-
tion whatever, and therefore every minute employed about Mes-
sages before that is sent to Us, will be trifling away our own Time
and the Countrys Money

We are under a necessity of reminding you that in one of your Messages last Convention, you asserted that £2500 Sterling of the Three Pence per Hogshead for Arms, &c^a was unaccounted for in any manner this Message was Printed among your Proceedings, and not only dispersed all over the Province, but also carried into some of the Neighbouring Colonies; no man who read that part of Your Message could imagine, that a Lower House of Assembly would without any Foundation charge a Governor and Council with so great a Crime as Embezzling Publick Money, and yet there was not the least Foundation for that Charge, and we make no doubt but that you are fully convinced that there was not, nor could possibly be without the Connivance at least of former Lower Houses before whom you know it has been the Custom to lay the Accounts of that Fund every Sessions of Assembly, and from whose Inspection it was impossible to conceal such a Sum, or any thing like it out of a Fund that raised but about 300^l communibus Annis; we have mentioned this thing to you more than once this Session, and

U. H. J. desired that the proper Enquiry might be made into it, that Our
 Calvert Innocence may appear to those who have been so far misled by the
 Paper Injustice you have done us, as to think us guilty of one of the great-

 little notice of it, which can proceed from no other Motive but a
 very strong Inclination in you to fix an Odium upon us, tho you are

 therefore in order to Vindicate our own Characters obliged to call

 not been dishonestly or unjustly disposed of and we shall not omit

Gentlemen of the Upper and Lower Houses of Assembly

As Your chearful Dispositions to contribute by the Bill, which I
 have now passed into a Law for the forwarding his Majestys Ser-
 vice, give me great Pleasure; I must own my Concern and Surprize
 not less, to find that you, Gentlemen of the Lower House, should
 be in the least backward to dispatch a Bill, which in all its Parts has
 been agreed to by the Conferees of Both Houses, for raising a Fund
 for Defence of this Province, and which you Your selves in the
 Course of this Session have frequently acknowledged to be abso-
 lutely necessary at this Juncture of Affairs; Perhaps the Reasons
 you alledge for keeping back that Bill, will, at some time or another,
 appear to be not so cogent as to deprive the Province of a necessary
 Fund for It's Defence in these dangerous Times of War; Nor will
 perhaps the Consequence of Your not passing this Bill, which will

be the Certain Loss of Your present Temporary Laws, be so trifling or inconsiderable to your Constituents, whatever some of you may now think, as to perswade them, you have made a good Bargain by procuring an Expiration of all Your own temporary Laws, for the sake of dropping Two or Three Laws agreeable to the Government, and especially the Act for Defence of the Province; nor can I think the Conduct of the Upper House (who in Our Constitution is placed between Government and People) unreasonable, in keeping under their own Power Bills useful to the People, in Order that they may make sure of such a Bill as regards the common Safety of the whole Province; and which Your House withholds from a Passage into the Upper House contrary to the joint Agreement of the Conferees of Both Houses confirmed from time to time in the Course of that Conference by Each House; And I hope I may make this Observation, that in all Governments Laws grateful to the People and Government will be always expected to go Hand in Hand p. 99

I have the Good and Happiness of the Province so very sincerely at heart, that I cannot help recommending to you, Gentlemen of the Lower House, to withdraw to your House, and consider in what Situation you will leave the Province, both with Regard to the Defence of it and the Condition of Your Laws, should you still persist in keeping back the Arms &c.

But I must further observe to you, that as a Commission out of the high Court of Chancery in Relation to the Bounds of this Province, is to be executed next Monday at the head of the Bay, where the Attendance of some of the Members of the Upper House is absolutely necessary, I must request you will either dispatch your Business this Week, or that Both Houses may adjourn for a Fortnight, otherwise I shall be under a Necessity of ending the Session by a Prorogation

p. 100 Your House, by what was said in Our Message of the ninth of June last, concerning the 2500£ raised by the Three Pence p hh^d unaccounted for, and are truly sorry that either the Governor or any of you should take it in that Sense

It is clear by that Message, that the 2500£ was meant of the Money raised before his Excellency came to the Government since We at the same time mentioned the 2250:11:2 Sterling and £34:13:7³/₄ Current Gold in Bank, in which last Sums may be included the Ballance of the Money raised during his Administration, and it would have been ridiculous as well as unjust in Us, if there had been an Imbezlement (which by the Bye, the Words unaccounted for cannot imply) to have charged his Excellency or your Honours with it, since for any thing We know, none of that Money came into Your Hands

By the Return of some of Our Members at the last Convention we were in a State of Great Uncertainty as to the Application of that Sum of Money, and upon the strictest Enquiry made into the Affair by some who have been now appointed, We are still unsatisfied therein; We presume that by inspecting the Minutes and Proceedings of Council in the Times when the Money was raised, the Matter may be set in it's true Light, therefore We have appointed Co^t Robert King Major Edward Sprigg Mess^{rs} Vachel Denton, Turnor Wootton and Walter Smith to joyn such of Your Members as you shall name, to examine into the State of that Fund, that Justice may be done to the Country as well as to the Characters of those concerned in laying it out.

As you had so fully expressed your Sense of the dangerous Situation of Our Affairs, in your several Messages to each other I was in great hopes of your concerting some wise and effectual Measures for the Safety and Security of the Province, in case of an Invasion from abroad or an Insurrection of our Negroes at home, or both together which may possibly happen, If We should have the Misfortune of a War with France, which is so greatly to be apprehended But since I find to my great Concern, that you have not done any thing to strengthen the Hands of the Government in this very critical and dangerous Juncture, nothing remains for me to do but to make the best use I can of the Power already entrusted with me, which I shall always employ, with the utmost Sincerity and Zeal in the Service and Protection of the good People of this Province and I cannot but flatter my self that I shall meet with the hearty Assistance of all you Gentlemen in your several Stations, and of all other true Well Wishers to the Prosperity of your Country

May 13 Gentlemen of the Lower House of Assembly

As the present Situation of Our Affairs, requires the Government
 to do every thing in its Power to put the Country into the best State
 of Defence, I have with the Concurrence of the Council thought it
 necessary to send immediately to Great Britain for a large quantity
 of good and Serviceable Arms, with a proportionable Quantity of
 Ammunition; but the present Laws for regulating the Militia not
 being Sufficiently clear in their directions about distributing Our
 Arms and Ammunition throughout the several Counties, the
 Colonels not being willing or obliged to make themselves answer-
 able for them, and there being no Place of any Strength or Security
 in this City to lodge them in, I am very desirous of having your
 Advice and Assistance in an Affair of so very great Importance to
 the Province

Sam: Ogle

May 15 To his Excellency Samuel Ogle Esq^r Governor of Maryland

The humble Address of the House of Delegates of the said
 Province

May it please your Excellency.

We are very well pleased to find by your Excellency's Message of
 the Thirteenth Instant, that with the Concurrence of the Council, you
 have sent for a large quantity of good and serviceable Arms with a
 proportionable Quantity of Ammunition, not only as we presume the
 People will be well Satisfied to find that the money raised upon them
 for that purpose, is properly applied and that they may thereby be
 put in a better State of Defence in Case of any Danger, but also
 that their Delegates when those Arms and Ammunition are Im-

ported will be more Capable of Judging what further may be wanting for the Safety of the Province and so to make suitable Provision for the same

U. H. J.

No. 735

We cannot help observing that the Militia Laws now in being give very large Powers to many of the Officers and therefore We should be unwilling to consent to any thing that might in any manner enlarge that Power, unless the Safety of the Country at any particular Juncture required it, Nevertheless We assure your Excellency we shall deliberately consider any Proposition you shall make for the better distribution and Security of the Provincial Arms and Ammunition, and give any Advice and Assistance in that Affair as We shall think agreeable to your Excellency and Conducive to the Welfare of the Province. p. 103

Gentlemen of the Lower House of Assembly

June 2

I have considered your Address in Answer to my Message of the 13th of last month, relating to our Arms and Ammunition, and could have wished to have had your Advice and Assistance in the Points I proposed to you, the security of the Arms and Ammunition at present in the Province being as necessary to be thought of as the disposal of any farther Supply that may be expected

However since you assure me you will deliberately consider of any Proposition I shall make for the Distribution of the Provincial Arms and Ammunition, and give such Advice and Assistance in the Affair as you think conducive to the Welfare of the Province, I shall make no Scruple of telling you my opinion very candidly and freely; which is that the Safety of the Country can never be sufficiently provided for without one good Magazine at least, of such Strength as may effectually secure Our Arms and Ammunition from whence they may be distributed from time to time as our occasions require, and this opinion I believe you will find Conformable to Instructions heretofore sent from the Crown to former Governors of this Province

There is another thing Gentlemen, which I must recommend to your serious Consideration, and that is the State of Our Militia; upon the most carefull Perusall of our Laws for the Regulation of it I cannot find any sufficient Obligation upon either Officers or private men to take the Field, and behave as they ought to do in defence of their Country against an Invading Enemy.

I need not say anything of the Power of Our Enemies; it being but too common to hear that Subject enlarged upon, even by such Gentlemen as are the most averse to our making any manner of Preparation for our defence against them, but I hope all hearty

U. H. J. Well Wishers to the Prosperity of the Province will think it but
Calvert Prudence in us to be upon Our Guard, and to Arm Ourselves in
Paper the best manner We are able, which will not only be of great Advan-
No. 735 tage to us in Case of an Actual Invasion, but be the best means of
preserving us from so great A Calamity

Sam : Ogle

June 3 To his Excellency Samuel Ogle Esq^r Governor of Maryland
p. 104 The humble Address of the House of Delegates of the said
Province.

May it please your Excellency

We should very willingly have Entered upon the Consideration of the matters proposed in your Message of the second Instant was there any Probability of having the Result of that Consideration Pass into a Law this Session if such Law should be thought necessary

But since the Upper House keeps from us all Our Bills, most of which have been there almost a month, and still refuse them a second Reading, unless upon Terms which we in Justice to Our Constituents cannot agree to, so that there is no Appearance of any further Business being done at this Time; we pray your Excellency to Excuse us from entring upon an Affair which requires so great deliberation at a time when Six Weeks have been spent with the passing of only one Bill, and our private Affairs necessarily call us to our Respective Habitations

When your Excellency shall again be pleased to call us together, and the present difficulties are removed, we shall gladly comply with your desire in the mean time, we are in hopes that there may be found Room enough in the Publick Buildings to Lodge more than the few Arms We have now at this Place till a more favourable Opportunity offers of providing a proper Recepticle for them; and we also find in one of the present Militia Acts a Provision that Persons Prest or inlisted in Case of Foreign Invasion, refusing upon their Officers Commands to appear and serve in Arms, are Subjected to Prosecutions in the Provincial Court to be fined and Imprisoned at the Discretion of that Court which we hope will suffice at present for common Soldiers, and as for those who have accepted Commissions We cannot doubt but they will from a Principle of Honour be Sufficiently prompted to pursue your Excellencys Commands without any Compulsory means

Signed on Behalf and by Order of the House

Philip Hammond, Speaker

Gentlemen of the Lower House of Assembly

I was in great Hopes you would have entered upon the Consideration of the matters proposed in my message of the second Instant as you had assured me that you would deliberately consider of any Proposition I should make for the better Distribution and Security of the Provincial Arms and Ammunition, and give any Advice and Assistance in that Affair as you shall think agreeable to me, and continue to the Welfare of the Province

U. H. J.
Calvert
Paper
No. 735
June 3

The Result of any Consideration upon these matters may easily and in a short time be passed into a Law besides the Arming Our Selves in a proper manner and putting Our Militia into such a condition as may enable them to withstand regular Troops as may Attack Us in an Affair of such great Importance to the Safety and Security of the People of this Province, and the Preservation of this part of his Majestys Dominions that it would well merit the calling together of An Assembly if there was no other Business whatsoever to be laid before it. The general Preservation of the province with all Our lives and Properties, is certainly a Point of infinitely greater Importance to Ourselves as well as Our Mother Country, than all other things under our Consideration at this time, however they may be enlarged upon & magnified

But if you think the Provision in one of the Militia Acts “whereby Persons Prest or Inlisted in Case of a Foreign Invasion, refusing upon their Officers Commands to appear and Serve in Arms, are Subjected to Prosecutions in the Provincial Court, and to be fined and imprisoned at the Discretion of that Court,” is sufficient to instruct and discipline Militia, and enable them to withstand regular Troops, however mistaken you may be in such Notions, I have nothing to do but to acquiesce having nothing further in my Power but to give my Assent to any Law that you may think further necessary for that Purpose

Sam: Ogle

To his Excellency Samuel Ogle Esq^r Governor of Maryland

June 4

The humble Address of the House of Delegates of the said Province

May it please Your Excellency

We return your Excellency hearty Thanks for your Readiness in passing the Bill for Encouragement of his Majestys Levies into a Law a Thing very agreeable to this House

It gives us no small Concern, that after the most solemn Protestations and Assurances We have given to the Contrary we should by your Excellency be suspected of an Intention to keep Back the

U. H. J. Bill for Arms and Ammunition or to deprive the Province of a neces-
 Calvert sary Fund for its support when We can with Truth assure you, that
 Paper
 No. 735 there is not a Member in this House against that Bill

p. 106 It is very true that upon intimation given us that the Upper House intended to alter the usual Duration of several Bills sent to them We resolved to keep in Our Power that Bill for Arms, &c^a in Order, as your Excellency is pleased to Express it, to make Sure of those Bills with their Accustomed Duration, wherein the Interest of the Country and the Administration of Justice are so nearly Concerned, and altho this may look like a Restraint on that House, which they say is inconsistent with their Priviledge as a Branch of Legislature, it is not more than what they have done to Our House in this and former Assemblies; For in the very First Message sent us this Session, they tell us they would not Pass any Bill whatsoever, until we should send them another in the manner they required If it be true (as we hope will never be denied) that the Priviledges of the Delegates of Maryland duly elected and Convened According to the express Terms of the Royal Charter and Laws of the Country, are at least as Sacred and as little to be violated, as those of the Upper House, who we doubt cannot shew the like Vouchers for their taking a Share in the Legislature; It is strange that that Conduct should be reckon'd Irregular, Unparliamentary or Unreasonable in Us, which even by your Excellency is said to be Reasonable in them

We are told this Intimation was not given us from their House, and therefore We are Irregular in taking such notice of it: but We submit it to your Excellency's Judgment, whichever way the Information came, whether the Event doth not fully shew Our Fears to have been well grounded by their refusing to give us any Satisfaction in the matter, and having resolved never to give Our Bills a second Reading until We should send up this other Bill; and We think therefore it would have been a Trespass upon Common Prudence in us to part with the only apparent Means left us of procuring those useful Laws when the Contrary Conduct in the Upper House is Justified by your Excellency

We could have very sincerely wisht this Practice had never been between the two Houses, but every one who reads Our Proceedings must Acknowledge it took its Rise in the Upper House, and it is to prevent any thing of the Kind for the future, to maintain and support the Priviledges of the Delegates, and to preserve to them a freedom of Action that we are Obliged now to submit to the Inconveniency of having Our Temporary Laws cease for a while, rather than come into such Measures as must in their Consequence render our having any Laws whatsoever precarious to depend solely on the Will of An Upper House, and to be purchased at any price it should be thought

fit to put upon them whereby a Lower House would become nothing other than a bare name

U. H. J.
Calvert
Paper
No. 735

We desire nothing else than that the Bills now in Question grateful to the Government and People should go Hand in Hand : Let us be assured of the one, the other shall immediately be dispatcht and if after this the Country should be deprived of the Useful Laws now in the Upper House and of the Fund for its defence, we can (we think) very safely trust it to impartial and disinterested Men to Judge at whose Door the Inconveniences that may happen must lie

p. 107

Altho it be most certainly our Duty to do all that's in Our Power for the Interest of Our Constituents, yet We cannot think that Duty peculiar to us alone, for as the Welfare of the People is the end of all Government it must necessarily be incumbent on every Branch of the Legislature Jointly to pursue that end, and not to go to bargaining with one another for what is their undoubted Right ; But since that seems to be the case we must rather chuse to go without part of that Right for a time than buy it at so high a Price as would make the House of Delegates for ever Dependant on his Lordships Council

In this unhappy Situation therefore We most earnestly desire your Excellency's favourable Interposition, to prevail with the Upper House to proceed with us in the usual manner by sending us Back Our Reviving and Re-enacting Bills with their former Duration, or if that cannot be effected that you will be pleased to dismiss us in such manner as Your Excellency shall think fit

Gentlemen of the Lower House of Assembly

June 5

I have considered your Address delivered to me Yesterday by Mr Speaker with all the Carefulness and Attention that I am capable of and must candidly own to you that it seems to me rather composed in a specious manner to throw some Blame on the Upper House and Myself, in relation to the Dispute between the two Houses, than to place the said Dispute in an Exact Light, as it stands in the several Messages that passed on the Subject.

For to avoid all unnecessary Words, the sole Point in dispute appears by the said Messages to be plainly this, whether you did Right in keeping Back A Bill, which had been Agreed on by the Conferees of both Houses and approved of by each House, in order to Oblige the Upper House to pass Your Bills on their Table in what manner you pleased

The Upper House insists upon it that you did not Act right, & that such a Proceeding has a plain Tendency to render the Upper House not only an useless but a ridiculous Branch of Legislature,

U. H. J. since it would make their Submission absolutely necessary to what
Calvert you should be pleased to Exact from them
Paper

No. 735 Thus stands the Dispute between the two Houses, nor can I find
by any of the Messages or otherwise, that the Upper House ever
intended to deprive you of One Bill grateful to the People, but that
those Bills and the others for the necessary Support of Government
should go hand in hand, as you say your desire is

p. 108 As for my self, I must own I did express my Concern and Sur-
prize at Your keeping Back A Bill so formally agreed upon but what
you mean by saying "that the same Conduct in the Upper House is
said by me to be reasonable," I must Confess myself wholly at a Loss
to know, not being able to recollect, that either House ever did the
like thing before however they may have kept back other Bills not
agreed to by Conferees of both Houses, which I believe has been
indeed a common Practice in both Houses

But what Surprizes me the most of all is your saying "it gives
you no small Concern that after the most Solemn protestations and
Assurances you have given to the Contrary you should by me be sus-
pected of an Intention to keep back the Bill for Arms and Ammuni-
tion," when in fact the whole dispute depends upon your declaration
of your Resolution to keep Back the said Bill until the Upper House
should send down to you such of those other Bills as they should
think fit to pass, with the usual Duration

Upon the whole as the Upper House has declared it their unalter-
able Resolution not to read any Bill now on their Table, before you
send to them the Bill for Arms &c^a agreeable to the Conferees Report

I cannot see how you can expect my prevailing upon them, was I
ever so Sollicitous so to do, to depart from it, so that if you are still
resolved to keep Back the said Bill, nothing remains for me to do
but to Prorogue the Assembly as you seem rather to Chuse that
than to Adjourn Yourselves as I proposed to you

Sam: Ogle

To his Excellency Samuel Ogle Esq^r Governor of Maryland

June 5 The humble Address of the House of Delegates of the said
Province

May it please your Excellency

As we do not know that you had any Share in the present dis-
pute between the two Houses so neither in Our Opinion is there
any thing in Our Address which throws the Blame of it on your
Excellency; that Blame must lie on the one House or the other, and
We must leave it to those who are indifferent to both, to say who
should bear it.

After so much has been said on both Sides it might be improper to trouble your Excellency with any thing further on the Subject, than by saying that We look upon it as Our Duty to be as Tenacious of Our Priviledges, as the Upper House can be of theirs; and that the frequent Renewment of Bills, which with General Approbation have been in use for many years, give them as great a Sanction as any Agreement of Conferees can to a new one

U. H. J.
Calvert
Paper
No. 735

As therefore we are well convinced, that We are Acting for the present as well as future Interest of the People, and the Preservation of their Rights and Priviledges, and that the due Administration of Justice at home, is altogether as necessary for Our Welfare, as the defence from our Enemies abroad, We cannot depart from our former Resolution of keeping back the Bill for Arms and Ammunition 'till We have those other necessary ones from the Upper House with their Usual duration; and submit to your Excellency to do with us as you shall think proper

May it please your Excellency.

The Honourable the lower house of Assembly for the Province of Maryland now stand before you upon an occasion which if their Wishes had prevailed would not have happened

They see themselves deprived of the Service of an Ancient and valuable Member One who for some time heretofore Presided in this Chair with honour to himself and advantage to the Publick this they Esteem as real Misfortune which Misfortune Sir I fear will be Rendered more General as they have In Obedience to your Excellencys Directions proceeded to Choose and are now about to present me their Speaker to Succeed him

I am perswaded that their Candour towards me upon this Occasion has prevailed with them to overlook my weakness and Incapacity for if they had Considered my Infirmities whenever they had thought of the nature and Importance of the Office they Could not but have discovered me to have been a person unable to discharge the Duties of it in any Tollerable Manner. From the Just sence therefore that I have of my own Insufficiency as well as from A Regard of that Duty which I owe to my Country and that the Publick Business may not be Impeded by any Irregular or Imperfect Execution of that Difficult Employment I find myself under A necessity to Intreat your Excellency's kind Intercession with that Honourable House to take A Review of themselves and to fix their Choice upon some other one among them who may be better Able to Discharge

L. H. J. the Duties of their Speaker as well as be much more worthy of your
Lib. No. 46 Approbation.

To which his Excellency was pleased to Reply that he could not but Commend the Conduct of the house and Approve of him as Speaker.

When afterwards Mr Speaker proceeded in the following manner

Sir as it is your Excellencys pleasure to Confirm their Choice it is now become my Duty to Accept the Office and in the discharge thereof I shall Endeavour to Approve my selfe an Equal freeman Zealous in the Interest of the Lord Proprietary as well as in that of my dearest Country.

I am now on Behalf of that Honourable House which placed me here to Require the free use of all those their accustomed Rights and privileges as they hitherto have and as they ought to be Enjoyed in Assembly all freedom as to our Persons all freedom of Speech and A free and Easy Access to your Excellency's Person In all Cases of Importance that may require it.

I shall Trespass upon your Patience Sir but for one moment longer untill I Observe

That I take it to be A fact universally allow'd that there never was a Legislature of this Province if Considered in Every its distinct and Severall branches Composed of more Able and more Eminent Members than is the present and that no Assembly of this Province was ever call'd together at A Juncture that required the utmost Exertion of such Extraordinary Qualifications more than does the present that never more was Expected from A Session of Assembly or Ever did the Publick Affairs of the Province much more Require somewhat to be done in order to heal the differences and reconcile the Jarring Interests of the Lord proprietary and his faithfull Tennants.

May then Sir A happy Event Result from our Consultations May the Effects of our proceedings Every way Answer the great Occasion and the great End of our being Called together May they Contribute Greatly Contribute Sir to the honour of his Lordship the Satisfaction of your Excellency and the peace and well being of the People of Maryland.

To his Excellency Samuel Ogle Esq^r Governor of Maryland

The Humble address of the house of Delegates of the said
province

May it please your Excellency.

We his Majestys Loyal and Dutyfull Subjects the Delegates of the
freemen of Maryland in Assembly Convened return your Excellency
thanks for your Kind speech at the opening this Session as also for
Calling us together at this the usual time of meeting and giving us
such firm Assurances of your Excellencys Endeavours to Cultivate
a Good Agreement between the Severall parts of Legislature A
Matter which as we Apprehend it Essential to the true interest of
the Province we are Sincerely desirous to pursue and forward by all
reasonable means Consistent with our Duty to his Majestys Regard
p. 11 to his Lordships and the great trust Reposed in us by our Con-
stituents.

What Foundation your Excellency had to hope for receiving an
Answer from the Lord Proprietary to the Address of the lower house
Ordered at our last meeting to be presented to him we are at a loss
to know since from the Measures of your Excellency and Officers in
Council the Gentlemen Appointed by us have not been able to gain
Transcripts of such Records as were Applied for and necessary to

be transmitted to Great Britain previous to the presenting that Address to his Lordship by our Agent and if your Excellency had not Communicated it we could hardly have perswaded our Selves that his Lordship had never heard any thing of that Address as A Copy thereof was so long since required of our Clerk and not being unsensible of the great and Early Care that was taken by the Government to Apprise his Lordship as well of that address as of every other material transaction at our last meeting.

L. H. J.
Lib. No. 46

Your Excellencys recommending temper and moderation in our proceedings is most agreeable to us being what we have ever regarded in all our past and shall endeavour to make the Rule of our future Conduct and are determined free from violent and personal malice or hatred on the one side or fear favour and Affection on the other in that Calm and Cool way only to pursue the publick welfare and we hope by our Conduct to Convince your Excellency and the People we have the honour to represent that the good of this Country is our only view and as we are Sensible that the making of Laws for the real advantage of those who are to be bound by them is a Task Attended with great difficulty we will Endeavour with the greatest thought and Attention to discharge our Duty therein.

p. 12

We are really Concerned that we have the misfortune to Differ in Opinion in any points and truely wish that our Cool and temperate reasoning could have brought or may bring us to A right understanding We are so well Assured that the Interest of his Lordship depends on the prosperity of the Province that we are unwilling to imagine he has not the latter Sincerely at heart.

For the Safety of the People and Security of their property we shall with all Chearfulness give the Government A Suitable and honourable Support as well as raise such Sums as may be thought necessary in the present Situation of Affairs according to our Abilities thereby to shew the regard we have for the welfare of the Province our Zeal for the publick Good and the forwarding his Majesty's Service

Whatever Danger might have been lately apprehended from some negroes in Prince Georges County the punishment they Received we apprehend will Deter others from the like practice and we hope has prevented any Ill Consequencys that might have Ensued Self preservation and Common prudence will Induce us on proper Occasions to take into our Consideration what may be necessary for our own future defence and Security as well against our Negroes as our Neighbors the French

[See 28
Archives,
Council
189.]

Our Common Safety is Certainly A point very well worth our Attention in the Consideration of which we will Act with all the prudence and discretion we are Masters of and it is with great pleasure we hear of the Glory Acquiring by the British Arms to which we most Sincerely wish A Continued Series of Success

L. H. J.
Lib. No. 46 On our part we are truly Obligated to your Excellency for Expressing your kind intention and View towards promoting our happiness and prosperity we are fully perswaded that all Gentlemen of understanding and Humanity must find A real and lasting pleasure and Satisfaction in doing Benevolent and good offices and that to be governed by one of such Dispositions is A great Happiness to A People We Assure your Excellency that we shall very heartily Join in whatever you shall propose for the real Interest and Service of this Country.

We shall Endeavour to pursue your Excellency's Advice and weigh with all Candour and Impartiality every matter laid before us whether it Comes from any Gentleman in place or one that wants one and shall be ready to Approve what our Consciences dictate will be for the good of our Country and are well pleased your Excellency recommends so Just and laudable A Rule for our proceedings in what instances your Excellency may have Experienced that matters of very
p. 14 great advantage to the Province which have been proposed by the Government have been Opposed for that Reason we know not and we do sincerely Assure your Excellency we are not Conscious of any such motives having Influenced our Conducts nor shall such hereafter.

We Sincerely wish there had been no occasion of Applying to your Excellency about Aggrievances but many such having been laid before us of a most Oppressive Nature we could not but think it incumbent on us to Endeavour to restore and preserve our Natural Rights and Priviledges

We Pretend not to oppose the prerogatives of the Crown (which we Conceive are in no manner Concerned in our present Differences) nor his Lordships Just and Legal Rights granted him by the Royal Charter or Laws of the Country. We hope by the many kind Assurances in your Excellencys Speech and the good Intentions you witness of his Lordship that our Complaints may have A favourable hearing and redress either from your Excellency or his Lordship wherein if we are so unfortunate as to fail we shall humbly hope from the Justice and Clemency of his Majesty to find Relief In which Case we hope your Excellency will grant us all sufficient means to Enable us to lay our Complaints before his Majesty to whose Royal Determination we shall most dutyfully and Chearfully submit and in the mean time shall Join our best Endeavours for promoting the trade of this Province so far as the Difficulties it labours under will

M^r Speaker Communicates the Governours Answer to the address of this House Viz.

Gentlemen of the lower house of Assembly.

I Return you thanks for your kind address and hope the moderation and temper that this session has begun will Continue and lead us to A happy Conclusion of the same to the great advantage of the Good People of this Province whose true Interest as I observed to
p. 18 you can never be pursued without A good understanding between the Severall Branches of the Legislature which I shall Allways sincerely and heartily Endeavour to promote.

I cannot pretend to Judge what transcripts of Records or other papers you may think necessary to be presented along with your address to his Lordship but any impediment the Gentlemen Appointed by your house to get such papers might have met with must have been wholly owing to their own misapprehension for I can Assure you that the two orders of Council of the 1st of August and 11th of October last were not in the least intended to delay making out Copies of the said Papers even for A Minute but only to put a propper Note of Disapprobation upon the Gentlemens taking upon themselves to Act as A Committee of the lower House during the Prorogation of the Assembly which was absolutely necessary to be done unless the Government had been willing to have shown A Tacit Consent to the Establishing A new power intirely unknown to the Constitution of this Province or our Mother Country. I could hardly have imagined that any body much less the Lower house of Assembly could have thought my Saying his Lordship had not heard any thing of your Address related to any thing but the very Original address it Selfe Ordered to be presented to him by the person Appointed by you for that purpose for it is only to that Original Address an Answer could have been Expected from his Lordship to you but since you are pleased to take it in another sense and mention the copy of the said Address obtained by me from your Journals I think my self Obligated to Acquaint you that even the
p. 19 said Copy together with the Letters that accompanied it had not

reached his Lordships hands when he wrote the last Letters I have received from him the said Copy of that Address having been Obtained by me A long time after the breaking up of the Assembly as you may Easily inform your Selves from your own Clerk from whom I had it and who Attested it.

p. 22 In Pursuance of an Order of your Honourable House, dated the 9th of June 1739, We the Subscribers Members thereof, appointed by the said Order to take Copies of Records and Transmit the same to Great Britain with the Address prepared at your last Meeting, to the Kings most Excellent Majesty, and to the Right Honourable the Lord Baltimore Lord Proprietary, both dated June the 9th 1739, Do hereby humbly Represent, that on the 21st day of July 1739, We transmitted the said Addresses, and have employed according to your Order, a Gentleman of undoubted Reputation, knowledge and Integrity, to serve this Province as an Agent in Great Britain, and who by his Letters acknowledges the Receipt of the said Addresses, but not being supplied with Authentick Copies of necessary Records from the Offices of this Province he could not Present the same, as a State of the Case was not to be made without such Records well and legally Authenticated

We further humbly represent, That in Obedience to your order we applied to the several Offices of this Province who have the keeping of the Records thereof, and to their under Clerks, as may appear by one Letter signed C. Carroll and Vachel Denton dated Annapolis, July the 11th 1739, directed to Edmund Jenings, Esq^r Secretary of Maryland, as also by a Letter dated at Annapolis June the 29th 1739, Signed C. Carroll and Vachel Denton, and directed to Griffith

We further Represent, That in hopes of being able to comply with your Instructions we again applied for Authentick Copies of the necessary Records and Papers to be Transmitted to support the said Addresses, and offered Payment for the Copies and Authenticating the same, as may appear by a Letter directed to M^r William Ghiselin Deputy Clerk of the Provincial Court, dated the 6th day of October 1739, and Signed C. Carroll, and the said Ghiselins Answer, included in another Order of Council hereunto also annexed, dated the 11th October 1739 by which we were likewise refused the said Copies notwithstanding our Conformity to the Terms of the first denying Order of Council, dated the first of August 1739 in tendering Payment for the said Copies; by all which means and Denials we have hitherto been entirely prevented from complying with your Instructions and Orders, whereby the said Addresses remain un-presented

And that your Honourable House may be fully Satisfied of our dutiful Conduct and Demeanour to his Excellency the Governor, the said Officers and their under Clerks, we humbly pray that our Remonstrance to his Excellency, and several Letters incerted in the Orders of Council hereunto annexed may be Read and Approved or Disapproved as they deserve whereby we may be acquitted of any imputation of irregular Proceedings, ill Practices Opposition, Disobedience, or Undutifulness to Government, which are Attempted by the Order of Council hereunto annexed to be laid to our Charge, All which is humbly submitted to the Consideration of your Honourable House

Thursday Morning May 1st 1740

The House met according to Adjournment &c^a

The Report brought in by M^r Calder yesterday, was again Read by the Clerk this Day. The House on mature Consideration thereof unanimously approves the Conduct & Behaviour of the several Gentlemen appointed and mentioned in the Report, in their Pursuance of the Order of this House, And,

Resolved, That the said Gentlemen have Acted with a Regard equal to the great Trust and Confidence Reposed in them, and Pursued through the whole Course of their Conduct, Measures well suited to the Occasion, and most Agreeable to this House, and that though by the Measures of his Lordships Governor and Council they have not been able to gain Transcripts of such Records and Papers, as were necessary to be had before the many great and grievous Complaints of the Country could regularly be laid before his Lordship, or in case of need before his Majesty, yet their extraordinary Diligence and laudable Zeal in this our Common Cause, were not the less Conspicuous :

Therefore this House desires their Honourable Speaker to Return the said Gentlemen the Thanks of the House for their faithful Discharge of the Trust reposed in them.

Which M^r Speaker from the Chair accordingly did.

Ordered, That the Committee of Laws make a Collection of such Transcripts of Records, and other Papers as are necessary to be transmitted to Great Britain and apply to the Clerks of the Proper Offices for them.

Inasmuch as the Gentlemen appointed by this House have been refused Copies of Records to be transmitted to Great Britain, and that his Excellency is now pleased to advise, that any Transcripts or Copies may be had during this Session, and on proper Application after Adjournment or Prorogation such Copies may be had as shall be thought needful :

Ordered that the Committee of Laws prepare an Address to his Excellency, praying that he will be pleased to acquaint this House what method of Application will be most agreeable to him, in order to obtain the said Transcripts or Copies of Records Authenticated, on Account of the Publick, during the Intervall of Assembly, to prevent any further Misunderstanding, Denial of the said Copies or Authenticating the same if required.

On Motion of a Member to have his Excellency the Governors Speech at the close of the last Convention entred on the Journal of this House, a Copy not having been then delivered to the Speaker :

p. 24 Ordered that the same be Entred in the Journal. (See page 278.)

M^r Speaker communicates the following Answer from his Excellency the Governor, to the Address of this House.

Gentlemen of the Lower House of Assembly,

In answer to your Address delivered to me yesterday by Col^o Hanson I must confess my self unable to express my Sense of the Question you ask me in clearer Terms than have been already made use of in the Order of Council of the 1st of August last.

[See 28
Archives,
Council
p. 174.] It is there declared to be the opinion of the Board, “That no Members of the Lower House could be qualified by virtue of any Order made in the last Convention of Assembly, to act as a Committee of the said House, after the Prorogation, and during the Interval of the Assembly, and that the Exercise of any such Authority or Power is not only Unwarrantable and Illegal, but is an Encroachment on, and has a Tendency to overthrow the Authority, which every Governor in his Majestys Dominions is invested with, of Proroguing and Dissolving Assemblies, and that therefore it might be of very mischievous Consequence to give the least Countenance to such a Proceeding, even by Overlooking it, or not taking a due notice thereof.”

Wherefore the Board was of Opinion " That every Officer should be cautioned and directed, not to Submit to or Comply with, any Commands, Request or Application, made, or to be made, by or under the pretended Authority of any such Committee." L. H. J.
Lib. No. 46
p. 27

But at the same time to avoid giving the least Stop or Hindrance to any Application to the Throne from his Majestys Subjects in this Province; It was Ordered, " That the Chief Clerks of the Provincial Court and Land Office, should transcribe Copies of all such Writings and Papers in the said Offices as should be thought necessary to carry on such Application, and should be applied for by any Person whatsoever, such Person paying or securing the usual Fees due for such Services."

I can only add to this, that if it will give any further Satisfaction to your House, I shall desire the proper Officers, to let any Person or Persons appointed by you, have, during the Interval of the Assembly, whatever Papers he or they shall call for, without any Regard to their own Fees, which may be allowed them the next Session of Assembly.

By the Committee of Aggrievances and Courts of Justice,

Who made the following Order, Upon Consideration whereof this Board is of Opinion That no Members of the Lower House can be qualified by Virtue of any Order made in the last Convention of Assembly, to Act as a Committee of the said House after the Prorogation and during the Interval of the Assembly, and that the Exercise of any such Authority or Power is unwarrantable and illegal but tends to an Enchroachment on, and has a Tendency to overthrow the Authority which every Governor in his Majestys Dominions is invested with of Proroguing and Dissolving Assemblies, and that therefore it might be of very mischievous Consequence to give the least Countenance to such a Proceeding, even by Overlooking it, or not taking a due Notice thereof.

To which said Letter the following Assumption was Subjoined
“ Sir, please to charge me in Account, for the Use of the House of Delegates of Maryland, the Lawful Fees for making out the foregoing Copies and Making Proof of them to be true Copies, and when made out and delivered truly proved, let me have such Account, which shall be paid by Sir

Lib. No. 46

Which said Letter and Assumption on the 11th day of October
aforesaid being laid before his Excellency in Council, at which Board
were Present

His Excellency Samuel Ogle Esq^r Governor

the hoⁿble { Benjamin Tasker Esq^r James Holliday Esq^r and
George Plater Esq^r Col^o Levin Gale
Edmund Jenings Esq^r

Who made the following Order; Upon Consideration whereof,
this Board is of Opinion that the said Charles Carroll and Vachel
Denton by the said Letter endeavour to Act under the Authority and
as a Committee of the Lower House of Assembly, which stands now
Prorogued, contrary to the opinion and sense of this Board expressed
in a former Order made the first day of August 1739, and of which
Order this Board is informed the said Charles Carroll and Vachel
Denton had notice. Therefore this Board is of opinion, and it is
accordingly Ordered, That M^r Ghiselin Chief Clerk of the Provincial
Court make out for and give to any Person whatsoever, any Copy
or Copies which shall be particularized to him by such Person or
Persons either paying or securing the usual Fees due for such Ser-
vices but that he ought not to give or make out such Copies in pur-
sueance of the said Letter.

And then afterwards on the 30th October aforesaid the said Wil-
liam Ghiselin sent the following Letter to the said Charles Carroll
and Vachel Denton;

Gentlemen,

I have received yours, and you may perceive by the within Copy
of an Order of Council, I am restrain'd from taking any Notice
or paying any obedience to, your Command as a Committee of the
Lower House of Assembly; but am ready to make either of you what
Copies you shall desire, upon securing or paying the usual Fees
to the Secretary for the same

All which Proceedings of the Governor and Council, Edmund p. 47
Jenings Esq^r and Levin Gale, Esq^r Clerks and Deputies aforesaid
Your Committee beg Leave to lay before your Honours

Your Committee most humbly Represent as an Aggrievance the
Actings and Proceedings of the said Governor and Council and like-
wise of the said Edmund Jenings Esq^r Secretary, and Levin Gale
Esq^r who hath the keeping of the Land Records aforesaid as most
injurious, and tending to the manifest Prejudice and Oppression of
the Inhabitants of this Province, in denying the aforesaid Copies for

L. H. J. the Use of the Province, to the Members appointed by your House
 Lib. No. 46 to apply for the same, being a means and evidence for proving the Aggrievances complain'd of in the Address to his most Gracious Majesty, and the Right Honourable the Lord Proprietary, and thereby obstructing the prosecuting the same, and that the said Governor and Council, contrary to their own Order of the first of August last, whereby Leave was given to the Clerk of the Provincial Court, to transcribe Copies of all such Writings and Papers as should be thought necessary to carry on such Application, and Applied for, such Person paying or securing the usual Fees

After which the said Charles Carroll, by his Letter of the 6th August last had writ to William Ghiselin, Deputy Clerk of the Provincial Court for several Copies, for the use of the House of Delegates, and promised when made out and delivered to pay for the same; yet the Governor and Council by this Order of the 11th of October last, gave Orders that the said Ghiselin ought not to give out such Copies in pursuance of the said Letter and Assumption

By which it is obvious to your Committee that the Proceedings of the said Governor and Council, as to the foregoing Particulars, are contradictory, with intent clearly to impede and prevent the obtaining of the Copies aforesaid, to the Let, Hindrance and Denial of Justice, All which Your Committee conceive to be an Aggrievance, of a very high nature; but is humbly submitted to the Consideration of your Honourable House.

Signed p Order, William Cumming, Cl. Com.

The House met according to Adjournment, &c^a.

The following Address to his Excellency, was brought in Read, Approved, and Ordered to be Ingrossed:

To his Excellency Samuel Ogle, Esq^r Governor of Maryland:

The humble Address of the House of Delegates of the said Province.

May it please your Excellency,

The Remonstrance, Two Orders of Council, and Letters that passed on the Occasion mentioned in your Message of the 13th

Instant, were Ordered to be Entred on our Journal before we received that Message, But lest your Excellency or any other should think the not incerting therein two Letters from Edmund Jenings and Levin Gale Esq^{rs} to their Clerks or Servants (which we looked upon to be no Part of the Council proceedings in that Affair) might be Interpreted an Intention of concealing any thing that passed on that Occasion, or that might seem to have relation thereto, we have directed those Letters also to be Entred on our Journal being very desirous that the Conduct of your Excellency as well as all others concerned in that matter may be placed in a fair and open Light without Disguise or Misrepresentation.

L. H. J.
Lib. No. 46

The following two Orders of Council, Remonstrances and Letters were Ordered to be Entred thus (Papers printed in 28 Archives pages 167 to 174, 182 to 183, 184 to 188 are entered upon the Journal)

The House Resolved, That the Letter from Edmund Jenings, Esq^r to M^r William Ghiselin, dated the 17th of December last and that from Levin Gale Esq^r to M^r Griffith Beddoe dated the 21st of the same month Incerted on the Journals of this House being directed to their Clerks or Servants and not to any of the Members appointed for taking the necessary Copies to be transmitted to Great Britain with the Addresses to his Majesty and the Lord Proprietary, cannot properly be understood to relate to the dispute which arose on that Affair or to be any Compliance with the requests of those members agreeable to the Orders of this House at the last Meeting, as they contained in substance no more than the Order of Council of the first of August 1739 after which the same Copies were denied altho Application has been made pursuant thereto.

p. 73

And as those Letters were not Written or even produced to any of the said Members till late in December last, when the Shipping for Britain were gone out it seems to this House, that if a Compliance was then really intended, Yet the Transcripts and Copies at that time, after so long denied and delayed, could not answer the Intentions of the Delegates or the proposed Service of their Constituents and country in expediting the Addresses that Year to his Lordship, and his most Sacred Majesty, and that therefore the said Members did well in taking no notice of the Letters until they had acquainted this House therewith

George Plater Esq^r from the Upper House, delivers M^r Speaker the following Message (See page 470.)

Col^o Hooper from the Committee appointed to enquire into the p. 93 Facts contained in M^r Charles Sewalls Petition delivers M^r Speaker the following Report (Viz)

By the Committee appointed to enquire into the Facts contained in the Petition of M^r Charles Sewall of Saint Marys County. May 17, 1740

Your Committee upon Enquiry into the Truth of the Allegations contained in M^r Charles Sewalls Petition, we find that on the 5th day of July Anno Domini 1664 The Right Honourable the Lord Proprietary granted the Land called Darby containing 3000 Acres, to Henry Sewall Esq^r, in Fee and that the said Henry Sewall by his last Will and Testament bearing date the 25th day of April 1664, among other Lands devised the said Land called Darby to Jane his Wife, for the use of his Heirs, and the said Land afterwards descended to Major Nicholas Sewall Son and Heir of the said Henry Sewall and Jane his Wife; and that the said Nicholas Sewall by his last Will and Testament bearing date the 16th day of April 1737, appointed the Petitioner Charles Sewall, and his Deceased Brother Clement Sewall his Executors giving them thereby full Power and Authority to sell and dispose of among other Lands, any part of the said Land called Darby for the Payment & Discharge of his just Debts.

L. H. J.
Lib. No. 46
[See 2

Assembly
p. 200]

We likewise find that At A Session of Assembly began and held at the City of St Marys on the 13th day of April Anno Domini 1669 among other Acts, An Act then past granting unto the Ababco, Hutsawap and Tequassimo Indians, and the People under their Government or Charge, and their Heirs for ever a certain quantity of Land lying on the South Side of Great Choptank River bounded as by the said Act relation being thereunto had may fully and at large appear.

We also find by the Depositions of several Persons taken by Virtue of a Commission out of the high Court of Chancery, as also by the Platt of the Indians Lands hereunto annexed that if the distance on the Second Course mentioned in the said Survey, terminates at the head of Sewalls Creek, that then there will be the quantity of 1396 Acres of the Land called Darby in the Limits of the Indian Bounds, exclusive of Water, and the Land called the Indian Neck, containing and laid out for 600 Acres, for which said Indian Neck Major Nicholas Sewall in his Life time (to wit in October 1722), received from the Country full Satisfaction But if the Petitioner be allowed to run his full and exact distance mentioned in the Certificate of the said Survey, which is 640 Perches then there will be 636 Acres more included in the said Survey of Darby which will amount in the whole
p. 94 to 2032 Acres exclusive of Water and the Indian Neck

It does not appear to your Committee that either the said Nicholas Sewall in his Life time or the Executors of the said Nicholas since his death have received any Consideration for the Land called Darby more than the abovementioned 600 Acres called Indian Neck

All which Your Committee humbly submits to the Consideration of the House

Signed p Order Thomas Jennings Cl Com.

Ordered that the Clerk of this House Enter the several Accounts of the Commissioners or Trustees of the Paper Currency residing in England as they are transmitted and that he be allowed a reasonable Satisfaction for the same

The Address to his most Excellent Majesty having been Ordered to be Entred on the Journal, was as followeth (viz.)

To the Kings most Excellent Majesty in Council

The Address and Petition of the House of Delegates of the Freemen of the Province of Maryland in General Assembly Convened

Most humbly Sheweth

That your Majestys Faithful and Loyal Subjects the Inhabitants of the Province of Maryland daily suffer many Aggrievances Extortions and Oppressions under the Proprietary Government of the Right Honourable the Lord Baron of Baltimore his Governor Ministers and Officers that our Rights as British Subjects are Invaded by having Taxes laid upon Us without any Law and Ordinances made by Our Proprietary or his Governor with the Advice of a Council of his own Choosing and who share in the Spoils of the People by holding the Principal Offices in the Government Imposed on us as Laws that ever since the Year Seventeen hundred and thirty three his Lordships Officers have by his directions Levied and still Continue to Levy a Tax of twelve Pence Sterling on every Hogshead of Tobacco exported out this Province without any Law that we know either of this Province or Great Britain for their so doing which Money amounting in the whole to a very large Sum his Lordship receives and converts to his own Use

That he also unlawfully exacts and takes a Tax of Fourteen Pence for every Ton of Burthen of all Vessels Trading in or to this Province and not properly belonging thereto and the same also applies to his own use which greatly affects the Trade and Interest as well of Your Majestys Subjects of Maryland as those of Great Britain and other Colonies trading into this Province

That his Lordship or his Governor in his Absence with the Advice of his Council take upon themselves Arbitrarily to Settle and Assess the Fees in the Courts of Justice and other Publick Offices of the Government by Way of Proclamation and refuse to Consent to any

L. H. J. Law proposed to that purpose unless the Delegates would Agree to
 Lib. No. 46 such Exorbitant Rates as they are pleased to exact and to make such a Law perpetual which as those Fees are rated in Tobacco which being a Commodity of a fluctuating and uncertain Value would in time prove an Intolerable Burthen to the People, which evil We conceive to be principally owing to the Advice and Influence of his Lordships Council who at the same time they exercise a part in the Legislature without any Authority as We humbly conceive from the Royal Charter are possess of the Offices wherein the most Considerable part of those Fees arise

That Our Courts of Justice are in a great Measure shut up against the People by a late Practice of taking Judgment Bonds for Fees before they become due and by the cruel and oppressive means used by Sheriffs and other Officers in the prosecution of those Bonds

That the Courts of Judicature are absolutely under his Lordships Power and Influence inasmuch as the Judges not only hold their Places by Commission during his Pleasure but also many of them Enjoy the principal Offices of Profit and Trust in the Province by which means your Petitioners and their Constituents cannot reasonably expect an equal and impartial Administration of Justice when their Properties come in Competition in any of those Courts with that of their Proprietary or when they shall be so unhappy as to have a Proprietary capable of being so much Biassed by self Interest as to appoint Judges to Suit his own particular Purposes and your Majestys Petitioners beg leave in the most humble manner to represent that they conceive it to be altogether upon the Foot and in Confidence of this manner of appointing Judges that his Lordship takes upon him in his Court of Chancery held in his own name by Decree of his Governor under the Character of Chancellor to Vacate the Patents or Grants of Land made by himself or his Ancestors to the Inhabitants here under Pretence that the Tracts granted contain Greater Quantities of Land than were Originally intended to have been sold altho those Lands have always been at first Surveyed and laid out by their own Officers and Granted under certain Specifick Lines and Boundaries and expressed in such Grants to contain a certain number of Acres more or less and it is by the same means as we apprehend that his Lordship has of late exacted from his Tenants Alienation Fines on Devises of Land Altho there is neither any Condition in the Grants or Laws of the Province to Warrant the same by means whereof the Estates of your Petitioners are rendered altogether Precarious and Subject in a great Measure to the Arbitrary Will of the Lord Proprietary Many are the Aggrievances We suffer besides those here mentioned too Tedious to lay before Your Majesty at present and wherein We hope his Lordship will consent to relieve Us if We shall be so happy as to Obtain Your Majestys Royal Order for Redress in the Premises

p. 133

We beg leave in the most humble manner to assure your Majesty that none of your Subjects are more Peaceably disposed or more firmly attached to your Royal Person and Government than the Inhabitants of the Province of Maryland and that none of Your Majestys Colonies in America would become more useful to Our Mother Country were We not Dispirited and Impoverished by being deprived of the Rights and Priviledges of British Subjects and that We have at all times been and still are ready and willing in a legal manner to grant and raise such Supplies as are necessary for the Honourable Support of the Government and Defence and Preservation of the Province so far forth as our Circumstances will admit of.

L. H. J.
Lib. No. 46

May it therefore please your Majesty to take the Complaint of Your Dutiful Subjects into Your Royal Consideration and upon due Proof made of the Facts contained to Order and Direct for Our Relief therein as to your Majesty in your Royal Wisdom and Goodness shall seem most just & Reasonable

And Your Faithful Subjects and Petitioners as in Duty Bound shall ever pray &c^a

M^r Speaker communicated to the House the following Answer from the Governor to the Address of this House presented yesterday (See page 515.)

The House Resolved, that the Upper House keeping before them the Bills sent from this House, longer than the usual and reasonable time upon any Pretence whatsoever is a dangerous Innovation introductive of many Inconveniences, and of altering the usual method of Proceeding in Assemblies; and that threatning this House with the fall of all those Laws usually Revived and Re-enacted in which the Publick Utility and Benefit of the Inhabitants are so essentially concerned till this House comply with their unreasonable demands is using compulsory means with this House to give up the Rights and Priviledges of the People and tends to the making themselves Absolute, and the Delegates of the People Useless

Mr Att^{ny} Gen^l's Opinion, in answer to the Four Querys given by
Lord Baltimore, concerning the Right of Nominating a Treasurer
in Maryland, viz

NB. Said opinion was inclosed to Gov^r Ogle in a letter to him
dated Jan^{ry} the 29th 1736/7 & order'd to be Enter'd in the Council
Books at Annapolis.

Qu: 1st Whether by the Charter of Maryland the Lord Proprie-
tor has not a Right to the Nomination of all Officers in general, civil
as well as Military?

Ans^r I am of opinion That by the Charter of Maryland the
Lord Proprietor has a Right to Nominate & appoint all officers in
general, as well Civil as Military.

Qu: 2^d Whether there is any thing Particular in the Nature of
the Office of Treasurer of either Shore to Exempt it from the s^d
Nomination?

Ans^r It does not appear to me That there is anything so particu-
lar in the nature of the Office of Treasurer of either shore, as to take
the Right of Nomination to this office, from the Lord Proprietor,
& to give it to any other persons.

Qu: 3^d Whether a few precedents in this case, of a Treasurer
being appointed by the Tri partite concurrence of both Houses of
Assembly & the Governor, can or doe overthrow his Lordship's
Right?

Ans^r All the Precedents except one, being between 1692 and p. 77
1716, when my Lord Baltimore was out of Possession I am of
opinion That they will not overthrow his Ldsp's Right, founded upon
such plain words in the Charter.

Qu: 4th Whether the Precedents hereto annex'd, doe divest the
Proprietor of his Right of Nomination to the office of Treasurer or
Treasurers so nominated giving the Security the Law directs?

Ans^r The Treasurer or Treasurers when nominated by the Lord
Proprietor, must give such Security as the Law directs.

To the other part of this Query, I have given an Answer already.
